In Board of Supervisors, San Francisco, Monday, January 5, 1914, 2:30 p. m.

The Board of Supervisors met in regular session.

## CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Bancroft, Cagliari, Andrew J. Gallagher, George E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang—18.

Quorum present.

His Honor Mayor Rolph presiding.

## READING AND APPROVAL OF MINUTES.

The Journals of the meetings of Wednesday, December 24 a. m. and December 24 p. m. and Monday, December 29, 1913, were read and approved.

## ROLL CALL FOR PETITIONS FROM MEMBERS.

The following matters were presented:

Mayor's Veto—Cemetery Removal Ordinance.

The following communication was presented and read by the Clerk:

December 31st, 1913.

Hon. Board of Supervisors of the City and County of San Francisco, City Hall, San Francisco—

Gentlemen:

I beg to return to you, herewith, Ordinance No. 2555 (New Series), entitled:

"Providing for the exhuming, taking up, removal and reinterment of the human remains interred in the cemeteries located within the following boundaries:

"Commencing at a point formed by the intersection of the westerly line of Broderick street with the southerly line of California street; thence running westerly along said southerly line of California street to the easterly line of Arguello Boulevard; thence southerly along said easterly line of Arguello Boulevard to the southerly line of Fulton street; thence easterly along

said southerly line of Fulton street to the westerly line of Broderick street; thence northerly along said westerly line of Broderick street to the southerly line of California street and point of commencement, including the Laurel Hill, Calvary, Masonic and Odd Fellows cemeteries.

"Prescribing the procedure for accomplishing such exhumations, removals and reinterments; providing that an assessment may be levied on property from which said removals have been made at public expense; and providing for the sale of property subject to such assessment and for the disposition of the proceeds from such sale."

The action of your Honorable Board at the meeting held December 29, 1913, at which time you passed to print a new ordinance relating to the identical legislation provided for in Ordinance No. 2555 (New Series), which new ordinance contains no clause repealing said Ordinance No. 2555 (New Series), renders it necessary for me to disapprove Ordinance No. 2555 (New Series), and I do so without prejudice, returning same to you herewith.

Yours very respectfully,

JAMES ROLPH, JR.

Mayor.

Motion.

Supervisor Andrew J. Gallagher moved reference to Judiciary Committee.

Amendment.

Supervisor Hayden moved, as an amendment, that when this session of Board is concluded that it take a recess until Wednesday at 2 p. m. to consider cemetery ordinance and clean up the calendar.

Substitute.

Supervisor Andrew J. Gallagher moved, as a substitute, that when Board adjourns it does so to meet Thursday at 10:30 a. m. to consider veto and unfinished business, and to induct new members into office.

Motion lost by the following vote:

Ayes—Supervisors Andrew J. Gallagher, McLeran—2.

Noes—Supervisors Bancroft, Cagliari, George E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings,

Koshland, Mauzy, McCarthy, Murdock, Murphy, Nolan, Payot, Vogelsang—16.

Amendment Carried.

Whereupon, the question being taken on Supervisor Hayden's motion that Board take recess until Wednesday at 2 p. m. to clean up calendar, the same was carried by the following vote:

Ayes—Supervisors Bancroft, Caglieri, Andrew J. Gallagher, George E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang—18.

Motion.

Thereupon, Supervisor Hayden moved that Mayor's veto of Cemetery Ordinance be taken up for consideration at 2:30 p. m. on Wednesday.

So ordered.

Claims for Policemen's Salaries.

J. C. B. Hebbard, on motion of Supervisor Vogelsang, was granted the privilege of the floor and addressed the Board. He stated that he represented four policemen who had claims before the Board for service rendered in 1911 and that matter had been pigeonholed for a long time. Referring to the history of the case he said that one of these men, Manning by name, was forced to resign and three others were discharged. Subsequently the McCarthy Board of Police Commissioners, after a hearing, reinstated these men and they performed police duty during the year 1911, but during some months their salaries were held up by the Auditor, the City Attorney having advised that appointments were illegal and that the Police Board did not have power to reinstate men.

Mr. Hebbard said he believed Police Board had power to reinstate where it had power to appoint and that in as much as men had performed the service they should be paid for it. He said that Judge Cabaniss was withholding judgment for one year and a half in order that some way might be found for paying these men. He requested that Board make provision for payment of claims and that resolution be adopted requesting City Attorney not to appeal in case of adverse judgment.

The speaker was informed that the matter had not been pigeonholed and that if the Board took any such action requested its members would be responsible on their bonds, that there was no legal way in which the Board could comply with the request, and the only remedy lay in the passage of an ordinance or Charter amendment.

Motion.

Supervisor Koshland moved reference to Finance Committee for reconsideration.

Motion lost by following vote:

Ayes—Supervisors Andrew J. Gallagher, George E. Gallagher, Hilmer, Hocks, Koshland, Mauzy, McLeran, Vogelsang—8.

Noes—Supervisors Bancroft, Caglieri, Giannini, Hayden, Jennings, McCarthy, Murdock, Murphy, Nolan—10.

Preservation of Order on New Year's Eve.

The following matters were presented and read by the Clerk:

Communication—From Chief of Police, advising Board of steps taken to suppress rowdiness and the gathering of confetti and serpentine on New Year's Eve.

Read and ordered filed.

Suppression of Bill Board Sniping.

Also, Communication—From Chief of Police, advising as to measures taken to suppress sniping by the Mutt and Jeff Theatrical Company.

Read and ordered filed.

Relative to "Blind Pig" Ordinance.

Also, Communication—From Herbert Choynski, stating that "Blind Pig Ordinance" is abortive legislation and requesting that it be referred to City Attorney for opinion as to its legality.

Read and ordered filed.

#### REPORTS OF COMMITTEES.

The following Committees, by their respective Chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Fire Committee, by Supervisor Giannini, Chairman.

Police Committee, by Supervisor Hocks, Chairman.

Lighting and Rates Committee, by Supervisor Nolan, Chairman.

Public Buildings Committee, by Supervisor Bancroft, Chairman.

Supplies Committee, by Supervisor Koshland, Chairman.

Public Welfare Committee, by Supervisor Payot, Chairman.

Report of Public Welfare Committee on Unemployed.

The following report was presented and ordered spread in Journal:

San Francisco, January 5, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco, Gentlemen:

Your Committee on Public Welfare would respectfully report in regard to the resolutions in regard to the unemployed referred to it on December 22nd:

On Tuesday, December 23rd, the Committee took up the matter and in connection with it was waited upon by a delegation representing the body of the unemployed and various organizations acting for their relief. Mr. Albert Ergott, the Vocational Employ-

ment Secretary of the Y. M. C. A., had been made chairman of the delegation and presented forcibly, but temperately, the gravity of the situation. He was followed by various other delegates, and it was determined to call a special meeting of the Board on the following day at 10 a. m. The Mayor and several Supervisors being unable to attend at that hour, an adjourned meeting was held at 2 p. m., at which it was announced that immediate relief would be given in the matter of meals and shelter—to extend until the following Monday morning. A registration of the unemployed was ordered and assurance was given of earnest effort to find employment. Arrangements were perfected for the employment of 200 men at the Relief Home beginning December 29th, at \$2.00 for a six hour day, alternating the registered men so that the largest possible number should find relief. The Mayor was authorized to appoint a special committee to co-operate with the committee appointed by the unemployed and the organization associated for their relief. He named the members of the Public Welfare Committee and Supervisors Hilmer, Hocks and Koshland.

Pursuant to this action meals were furnished at the San Francisco Co-operative Employment Bureau, 331 Main street, under Superintendent Mr. Harry R. Bogart, from Wednesday night. On Christmas day about 7600 were furnished, and for the two following days about 16,000.

Under the direction of Mr. T. A. Reardon, Superintendent of Buildings, shelter was provided in the building formerly occupied by the Marshall Hotel. The registration of the unemployed for the first two days showed 3132. By Saturday at 12 o'clock it had reached 3570 and was temporarily discontinued.

On Friday morning, December 26th, a meeting of the Committee was held, at which Mr. Bogart urged that as many men as possible be put to work on the following day—not waiting for the 29th as arranged for. On Friday afternoon a conference with the Finance Committee, the City Attorney, the President of the Board of Public Works, the Auditor and the Treasurer, resulted in arranging for working 500 men Saturday morning and 500 men Saturday afternoon, payment of \$1.50 for the half day to be made on the job. This was carried out successfully. On Sunday the Mayor authorized the continuance of food until Monday noon. On Monday morning at a meeting of the Committee the feeding was guaranteed until the following morning, pending action by the Board. It was

determined to hold a meeting of citizens on Friday with the purpose of enlarging the Committee. At the conclusion of the regular meeting a conference was held at the Mayor's office. After a full survey of the situation, and consultation with the Board of Public Works, it being learned that no productive work could be given, and the amount of money available for any relief being found very small, it was determined to discontinue the employment on municipal work, excepting that at the Relief Home, which was to be continued for the remainder of the week. At the meeting called for Friday at 11 a. m. there was little response on the part of those invited. A statement was made expressing plainly that the resources of relief in the control of the city was very limited, and that the only hope of control lay in the organization of a citizens' committee with which the city might co-operate.

On motion, unanimously adopted, the formation of a Citizens' Committee with Edward J. Hanna, Bishop Auxiliary of San Francisco, as President, Mr. Jesse W. Lillenthal as Vice-President, and Mr. Albert Ergott, Secretary, was approved by the Committee.

Friday afternoon at three a preliminary meeting was held, a list of names was agreed upon, and before the close of the day an appeal for service was mailed to about one hundred citizens.

A meeting was held this morning at 10 o'clock and was largely attended by representative citizens. The Committee was fully organized and a disposition was shown to act immediately in relieving the trying conditions.

The following Committees were appointed by the President:

Finance—Raphael Weill, Chairman.  
 Work—Walter MacArthur, Chairman.  
 Lodgings—T. A. Reardon, Chairman.  
 Food—Harry R. Bogart, Chairman.  
 Blankets—Mrs. E. K. Stevenot, Chairman.

Unemployed Women—Dr. Blanche L. Sanborn.

James D. Phelan was elected Treasurer of the General Committee. An Executive Committee, consisting of the Chairmen of the various sub-committees, with Jesse W. Lillenthal as Chairman, was also appointed.

The Public Welfare Committee, and the added Supervisors, will act with this Citizens' Committee and promote to the utmost the co-operation of the municipal government in the effective handling of the difficult situation.

Too much cannot be said in praise of the service rendered by the San Francisco Co-operative Employment Bureau. To care for the horde of un-

employed the normal work of the organization by which one hundred men, or more, saw wood or perform some service for meals and lodgings has been given up and a dining-room seating fifty has been kept in almost continuous service, sometimes without cessation, from 6 in the morning to 12 at night, serving over 7,000 meals.

There has now been added an auxiliary kitchen and dining-room at 932 Folsom street where 400 can be accommodated at one time.

From December 24th to January 4th inclusive, there have been served about 80,000 meals, and at least shelter has been found for all. Over 1900 individuals have been given a half day or more of work, receiving from \$1.50 to \$2.00 each.

Respectfully submitted,  
HENRY PAYOT,  
J. EMMET HAYDEN,  
ANDREW J. GALLAGHER,  
CHAS. A. MURDOCK,  
Public Welfare Committee.

Hearing of Objections to Extension of Vulcan Street.

Hearing of objections of W. L. Meuser, 18 Ord street, to the extension of Vulcan street into Ord street, as provided for in Resolution of Intention No. 10417 (New Series), fixed for the hour of 3 p. m. this day, was proceeded with.

#### Privilege of the Floor.

W. L. Meuser, property owner, was granted the privilege of the floor and stated that assessment would be more than property could stand and when street is graded his property would be on a bluff.

Asst. City Engineer Holcomb also addressed the Board. He said Mr. Meuser's property would not be materially affected, that at present Vulcar street ran into a cul-de-sac or pocket and residents had to climb up to get out and that improvement was badly needed.

#### Adopted.

The following resolution was thereupon introduced by Supervisor George E. Gallagher and adopted by the following vote:

#### Objections Overruled.

Resolution No. 10616 (New Series), as follows:

Resolved, That the objections of W. L. Meuser, No. 18 Ord street, against the extension of Vulcan street into Ord street be and the same are hereby overruled.

Ayes—Supervisors Bancroft, Caglieri, Andrew J. Gallagher, George E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang—18.

**Welfare Committee to Report Measures for Relief of Unemployed.**

On motion of Supervisor Murdock: J. R. No. 1054.

Resolved, That the Committee on Public Welfare be requested to ascertain through correspondence and the study of reports, the measures adopted by other communities in the treatment of dependent unemployed, and after comparing results to report to the Board its recommendations as to needed modification of our present methods or the necessity of new agencies to meet such conditions as now beset us.

The Committee is asked to report on the best means of aiding to employment those who are willing and able to work, and of providing means by which, for work performed, they may be cared for until employment is found.

It is also asked to recommend what may best be done for the unhelpable—the vagabonds and drones now a heavy burden on honest labor, supported by alms, or living through petty crime.

If industrial farms or work houses are found desirable, the Committee is asked to report whether the State or

municipalities should establish and maintain them.

E. J. Gallagher, then the privileges and all rights accruing thereunder shall immediately become null and void.

**Accepting Terms and Conditions of Hetch Hetchy Grant.**

On motion of Supervisor Vogelsang: Bill No. 2855, Ordinance No. \_\_\_\_\_ (New Series), as follows:

Be it ordained by the people of the City and County of San Francisco, as follows:

That whereas, on the 19th day of December, 1913, the President of the United States duly approved an act of Congress entitled:

"An Act granting to the City and County of San Francisco certain rights of way in, over, and through certain public lands, the Yosemite National Park, and Stanislaus National Forest, and certain lands in the Yosemite National Park, the Stanislaus National Forest, and the public lands in the State of California, and for other purposes."

And whereas, in subsection (S) of Section 9 of said act it is provided "That the grantee shall file with the Secretary of the Interior, within six months after the approval of this act, its acceptance of the terms and conditions of this grant.

Now therefore, in accordance with the said provisions of this act of Congress and in particular of subsection (S), Section 9 thereof, the City and County of San Francisco does hereby accept the said grant and all the terms and conditions therein contained, and the Mayor is hereby directed, upon approval of this ordinance to forthwith file with the Secretary of the Interior of the United States an official copy of this ordinance as evidence of such acceptance.

This ordinance shall take effect immediately.

**Opinion of City Attorney on Procedure to Effectuate Hetch Hetchy Grant.**

December 29, 1913.

Gentlemen: I have before me the following resolution of your Board:

"Resolved, That the City Attorney be and he is hereby requested to advise this Board as to the legal steps to be taken by it to carry into effect the Hetch Hetchy grant just made to the City by the United States."

*Opinion.*

In reply to the request contained in the above resolution I respectfully suggest the following steps as being immediately advisable to preserve the rights which the City now has by virtue of the Hetch Hetchy grant, and its water filings on the Tuolumne River, Cherry River and Eleanor Creek.

First, In compliance with subsection (S) of Section 9 of the Raker

Act, an ordinance accepting on the part of the City and County of San Francisco the terms and conditions of the grant therein expressed, should be adopted by your Board, approved by the Mayor, and filed with the Secretary of the Interior. I am satisfied that your Board has the power to make this acceptance. The people of the City and County of San Francisco by an overwhelming vote cast at two elections have authorized you to proceed with the acquisition and construction of works necessary to the development of a municipal water supply from Tuolumne River sources. For your information I submit herewith the text of the propositions upon which they voted.

Proposition voted upon November 12, 1908:

Proposition 1. To authorize the City and County of San Francisco to acquire by purchase or condemnation a public utility, viz.: A water supply and works to be owned and controlled by said City and County, to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes, the source of such supply to be Lake Eleanor, the Hetch Hetchy valley and the waters of the Tuolumne River in Tuolumne County, California.

Proposition 2. To incur a bonded indebtedness by the City and County of San Francisco to the amount of six hundred thousand (\$600,000) dollars for the purchase of lands, rights and claims in and adjacent to the Hetch Hetchy Valley, adjacent and near Lake Eleanor and within the watershed of the Tuolumne River, and in constructing certain works, all of which are necessary in order to comply with the conditions and stipulations agreed to by the City and County in the acquiring of certain rights and privileges heretofore granted by the Interior Department or hereafter to be granted by the Congress of the United States.

Proposition voted upon January 4, 1910:

"A proposition to incur a bonded debt of the City and County of San Francisco to the amount of forty-five million dollars for the purpose of the acquisition, construction and completion of a public utility, to-wit: A water supply and works to be owned and controlled by the City and County of San Francisco to furnish to said City and County and to the inhabitants thereof a sufficient supply of good, pure water for all purposes, the sources of such supply to be Lake Eleanor, the waters of the Tuolumne River and its tributaries in Tuolumne County, California."

You will note from the above lan-

guage that the source of the proposed water supply is to be Lake Eleanor and the waters of the Tuolumne River and its tributaries. To my mind it is immaterial that the engineering plans then under consideration by the city officials involved the development of the Lake Eleanor reservoir first and the Hetch Hetchy reservoir later. The essential proposition before the people at both these elections was the acquisition of a municipal water supply from the Tuolumne River with dams at Hetch Hetchy Valley, Lake Eleanor and on the Cherry River. That the order of construction of these dams and the route of the conduit has been changed under the Freeman plan is a matter of engineering detail, and does not affect the authorization of the general project. If under the authorization of the people at the foregoing elections you have the power to proceed with the construction of works destined to bring in this water supply, you have the power to make a valid acceptance of this congressional grant, said formal acceptance being a necessary condition to the complete vesting of title in the City and County under the terms of said grant.

Second: With convenient expedition copies of maps heretofore filed with the Secretary of the Interior showing proposed reservoir sites and rights of way, should be filed with the Department of the Interior, under the provisions of Section 2 of the Raker act. As soon as surveys of the proposed conduit route over and through the Stanislaus National Forest and government lands west of the said forest boundaries can be completed, maps showing the proposed location should be filed with the Secretary of the Interior for his approval. I have already made application for an executive withdrawal of lands west of the Stanislaus Forest pending selection of a route through such lands by the City.

Third: Condemnation suits for rights of way over and through lands along the proposed conduit line now held in private ownership, should be filed as soon as the line of such right of way can be definitely surveyed.

Fourth: I believe it to be very important for the city to commence some work immediately looking to the actual construction of this project.

Fifth: The matter of the administrative organization under which the Hetch Hetchy project is to be constructed is primarily one of policy, although various legal questions will arise in connection with any procedure which is adopted. When your Board has determined the policy to be followed in this respect, I shall be

glad to co-operate with you in the solution of any legal questions which may suggest themselves. I urge upon you, however, that preliminary work be not delayed until a satisfactory solution of the last problem is reached. Respectfully

PERCY V. LONG,  
City Attorney.

#### Ordering Construction of Oriental School.

The following bill heretofore passed for printing and laid over to this date was taken up and on motion *indefinitely postponed*:

Bill No. 2825, Ordinance No. — (New Series), entitled, "Ordering the construction of the Oriental School, situate on school properties designated as No. 929 Clay street; authorizing and directing the Board of Public Works to enter into contract for said construction, approving plans therefor, appropriating and authorizing the expenditure of \$120,800.00 out of School Construction Account, Public Building Fund, bond issue 1908, for said construction, and permitting progressive payments to be made during the progress of said construction as provided by Section 21, Chapter I, Article VI of the Charter."

Ayes—Supervisors Bancroft, Caglieri, Andrew J. Gallagher, George E. Gallagher, Giannini, Hayden, Hilmer,

Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang—18.

#### Substitute.

Thereupon, Supervisor Bancroft presented and moved its *passage to print*:

Bill No. 2856, Ordinance No. — (New Series). Ordering the construction of the Oriental School on property belonging to the City and County, and situate on the southerly line of Washington street, distant thereon 137 feet 6 inches westerly from the westerly line of Stockton street; authorizing and directing the Board of Public Works to enter into contract for said construction, approving plans and specifications therefor, appropriating and authorizing the expenditure of \$120,800.00 out of School Construction Account, Public Building Fund, Bond Issue 1908, for said construction and for inspection, and permitting progressive payments to be made during the progress of said construction as provided by Section 21, Chapter 1, Article VI of the Charter.

#### Privilege of the Floor.

H. Scholar, representing the North Beach Promotion Association, was granted the privilege of the floor and addressed the Board. He alleged that an error of judgment had been committed in the selection of the site for the Oriental School on Washington street. He said that the western limit of Chinatown is Stockton street and that the residents of the North Beach District wished to keep it there. He thought that a better site for the Oriental School could be found in the Chinese quarter on Sacramento street, between Stockton and Dupont streets, and that school in its proposed location on Washington street would work an injury on those who were assessed for the Stockton street tunnel and who had good reason for expecting some benefit. He also declared that inasmuch as the Washington Grammar and Jean Parker schools in the North Beach District are now overcrowded and a new school will soon be needed, the Washington street site can be used for that purpose. He believed that the North Beach Promotion Association should be taken into conference in district affairs. The constant warfare of oriental and caucasian bays was a menace to the peace of the neighborhood and resulted already in the death of one white boy. It is proper to respect the rights of orientals, but our own should not be neglected. He requested that the ordinance be sent back to Committee.

Mr. Condon, property owner, also addressed the Board, requesting that sight for Oriental School be changed,

that matter be recommitted to Committee for reconsideration.

Passed for Printing.

Whereupon, the foregoing Bill No. 2856 was passed for printing by the following vote:

Ayes—Supervisors Bancroft, Caglieri, George E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang—17.

No—Supervisor Andrew J. Gallagher—1.

**Garage, Oil and Laundry Permits.**

Resolution No. 10626 (New Series), as follows:

Resolved, That the following revocable permits are hereby granted:

*Public Garage.*

J. Seiler and A. Brunswick, at the southwest corner of Lombard and Divisadero streets; also to store 300 gallons of gasoline.

*Oil Storage Tank.*

**Spur Track Permit.**

Bill No. 2837, Ordinance No. 2583 (New Series), as follows:

Granting permission, revocable at will of the Board of Supervisors, to J. P. Holland to construct, maintain and operate a spur track along and upon the following route, to-wit:

Commencing at a point in the existing spur track of the Southern Pacific Company on Beach street, distant 200 feet, more or less, easterly from the easterly line of Larkin street; thence westerly on a curve to the right and reversing to the left, crossing Larkin street, between Beach and Jefferson streets; thence entering private property and continuing westerly parallel to and eight feet northerly from the northerly line of Beach street to the easterly line of Polk street.

Be it ordained by the people of the City and County of San Francisco, as follows:

Section 1. Permission, revocable at will of the Board of Supervisors, is hereby granted to J. P. Holland to construct, maintain and operate a spur track along and upon the following described route, to-wit:

Commencing at a point in the existing spur track of the Southern Pacific Company on Beach street, distant 200 feet, more or less, easterly from the easterly line of Larkin street; thence westerly on a curve to the right and reversing to the left, crossing Larkin street, between Beach and Jefferson streets; thence entering private property and continuing westerly parallel to and eight feet northerly from the northerly line of Beach street to the easterly line of Polk street.

Said permission is granted subject to the provisions of Ordinance No. 69 (New Series), of the Board of Supervisors, approved October 12, 1906, and particular reference is hereby made to Section 8 of this Ordinance, reading as follows:

“The railway operating any spur track on any public street or property hereafter constructed in the City and County shall, upon demand of the person, firm or corporation for the use or benefit of which such spur track is operated, place upon such spur track the freight cars of any railway which has, in this City and County, track connections with the operating railway, such cars so placed to be used for the receipt and delivery of freight in carloads only. And the operating railway shall receive and deliver the cars of the connecting railway over, at and upon such connecting track in the performance of such switching service for such persons, firms or corporations; and such railway shall perform such service without undue delay or discrimination. The operating railway shall perform such service for the same charge or rate that it charges for corresponding service for its own cars upon the track for like purpose. The provisions of this section shall apply only to such portions of such spur tracks as are not constructed, maintained or operated upon or across private land, and no permit for a spur track shall hereafter be granted by the Board of Supervisors which does not specifically contain the provisions and conditions of this section.”

Provided, That said spur track shall be laid under the supervision and to the lines and grades as furnished by the City Engineer's office; and that any and all expense connected with the installation of the track, restoration of the pavement, and any additional requirements for the surface drainage, be paid for by J. P. Holland.

Provided, No car or cars shall at any time be allowed to stand on said tracks so as to block or obstruct a street or street crossing to exceed five minutes.

Provided, That J. P. Holland shall erect and maintain one all-night arc

lamp at the crossing of Larkin and Beach streets.

Provided further, That no debris shall be carried over this spur track to be dumped on the property bounded by Hyde, Polk, Beach and Lewis streets.

Section 2. This ordinance shall take effect immediately.

complishing such exhumations, re-*

*removals and reinterments; providing that an assessment may be levied on property from which said removals have been made at public expense; and providing for the sale of property subject to such assessment and for the disposition of the proceeds from such sale.*

Be it Ordained by the People of the City and County of San Francisco as follows:

That under and in accordance with the authority granted to the Board of Supervisors of the City and County of San Francisco by the Act of the Legislature approved April 24, 1911, entitled "An Act providing for the removal of human remains from cemeteries in any city and county in this State and repealing all acts in conflict therewith"; and under and by virtue of the general police powers conferred upon said Board of Supervisors in Article II, Chapter II, Section 1 of the Charter of said City and County, and in conformity with the provisions of Resolution No. 9594 (New Series) of said Board of Supervisors, approved August 29, 1912, giving notice of intention to cause the exhumation and removal of all human remains from the cemeteries situated within the following boundaries, viz.:

Commencing at a point formed by the intersection of the westerly line of Broderick street with the southerly line of California street; thence running westerly along said southerly line of California street to the easterly line of Arguello boulevard; thence southerly along said easterly line of Arguello boulevard to the southerly line of Fulton street; thence easterly along said southerly line of Fulton street to the westerly line of Broderick street; thence northerly along said westerly line of Broderick street to the southerly line of California street and point of commencement, including the Laurel Hill, Calvary, Masonic and Odd Fellows cemeteries.

Section 1. All cemeteries situated within the above described limits are hereby declared to be a public nuisance and a menace and detriment to the public health and welfare, and it is hereby ordered that all of said cemeteries be abolished and all bodies interred within any and all parts of said cemeteries be removed therefrom and reinterred outside of said limits, or otherwise properly disposed of in accordance with law.

Section 2. Within sixty days from and after the date this ordinance takes effect the Board of Health of this City and County shall prepare and serve a notice in writing directing every person, corporation or as-

sociation owning or claiming any cemetery lots situated within the above described limits to remove within six months from the date this ordinance takes effect all bodies which may be interred in said lots so owned or claimed and to reinter or otherwise dispose of said bodies outside of said limits in accordance with law. Said notice shall further state that if said bodies are not so removed within six months from the date this ordinance takes effect, such removals will thereafter be made either by the person, corporation or association owning or controlling the cemetery in which said bodies are buried, or by the Board of Health in accordance with the provisions of this ordinance. Said notice shall further state that if the removals are made by the Board of Health, as herein provided, then all lands situated within the cemeteries from which such removals are made by said Board, may be sold to pay the cost of removing the bodies therefrom in accordance with the procedure herein set forth, and that in such event the cost incurred by individuals theretofore making removals at their own expense, not exceeding the cost per body incurred by the City authorities for each removal, will be refunded to such individual out of the proceeds from the sale of such lands, upon presentation to the Auditor of a properly verified statement of such expense, duly approved by the Board of Health and Board of Supervisors. Service of the above notice shall be made as follows:

1. Upon individuals who have filed with the County Recorder the statement provided for in Chapter 577 of the Statutes of 1911 and who can be found at the place designated within such notice, personally, in the manner provided for service of summons at law.

2. Upon persons who have filed such statements but who cannot be found at the respective places therein designated, and upon all other persons or lot-owners whose identity and residence can be ascertained through information supplied by the persons, corporations or associations owning or in control of said cemeteries, by mailing a copy of said notice to each of said persons in a proper enclosure addressed to such person at the address ascertained from the above sources of information or to his last known address, with postage thereon duly prepaid.

3. Upon all other persons by publishing, for a period of sixty days in a daily newspaper published in this City and County, a copy of the above notice and by posting for the same length of time upon each of the exterior gates

of said cemeteries a copy of said notice with a heading entitled "Notice of Cemetery Removals," which heading shall be in letters not less than two inches in height.

Section 3. Every person, corporation or association owning or claiming any cemetery lot or lots situated within the above described cemeteries shall, in compliance with the above notice, proceed, within six months from the date this ordinance takes effect, remove any and all bodies which may be interred in said lot or lots and reinter or otherwise dispose of the same in accordance with law, outside of said limits, and if such persons, corporations or associations do not complete said removals in accordance with said notice then further proceedings shall be taken, as herein provided.

Section 4. If, at the expiration of six months from the date this ordinance takes effect, there shall still be bodies left in any one or more of said cemeteries, then the Board of Health shall serve upon the person, corporation or association owning or controlling the cemetery or cemeteries in which such bodies remain interred a written notice directing them and each of them to commence within three months from date of service of such notice, and proceed continuously thereafter, to remove all bodies which may still remain interred in their respective cemeteries above described and to complete such removals within two years thereafter. Said notice shall also state that if such removals are not commenced within three months from service of such notice or continuously proceeded with thereafter, or completed within the time above specified, that the Board of Health will proceed to make such removals and that further proceedings will be taken in accordance with the provisions of this ordinance.

Section 5. Within three months after receipt of such notice the persons, corporations or associations owning or controlling such cemeteries are hereby ordered to commence and to proceed continuously thereafter to remove all bodies which may still be interred in their respective cemeteries, and to complete said removals within the time specified in said notice. All bodies removed shall be reinterred outside of said cemeteries, or otherwise disposed of, in accordance with law.

Section 6. If said removals from any one or more cemeteries have not been commenced by said persons, corporations or associations owning or controlling said cemeteries within three months from and after the date of service upon them of said notice,

or having been so commenced are not being prosecuted continuously thereafter until all of said bodies have been removed, as aforesaid, then said removals shall be made from such cemeteries whose owners have failed to comply with this ordinance by the Board of Health of the City and County of San Francisco in accordance with the procedure herein prescribed, and the land in which said bodies are interred may thereafter be sold in the manner herein provided, and the proceeds from such sale applied to the payment of the expenses of the exhumation, removal and reinterment of such bodies, including the cost of lands in which such bodies are reinterred.

Section 7. The City Engineer shall, upon request of the Board of Health, forthwith prepare a map of any one or more of said cemeteries, which map shall be entitled and known as the "Map of Cemetery Lands." The City Engineer shall cause necessary surveys to be made with corresponding delineations upon such map, to subdivide said cemeteries into convenient tracts for sale purposes, making proper provision for the future extension of public streets through said cemeteries. Said subdivisions shall be numbered consecutively. The City Engineer shall transmit said map to the Board of Health who shall file the same with the County Recorder in the manner provided by law, after approval by the Board of Public Works. All descriptions of cemetery lands in subsequent sales or transfers thereof under the provisions of this ordinance shall be made by reference to said "Map of Cemetery Lands" and the subdivisions delineated thereon.

Section 8. After the expiration of nine months from and after the date this ordinance takes effect, and after the expiration of the time provided in the aforesaid notices the Board of Health must commence the removal of bodies which may be still interred in any one or more of said subdivisions of cemeteries whose owners have not complied or are not then complying with the provisions of this ordinance. Removals may be made by contract or by the employees of the Board of Health under its direction. All disinterments, removals and reinterments must be made carefully and respectfully. Not more than one body shall be reinterred in one grave. All stones and monuments shall be removed and placed over the corresponding new graves. In its discretion, the Board of Health may comply with requests of religious or fraternal societies that remains of former members of such societies whose names are furnished, may be reinterred in sepa-

rate subdivisions of the new cemeteries to facilitate perpetual care of the graves of such persons by such societies. A careful record shall be kept by name and location of all bodies removed, which records shall be filed and always open to public inspection in the office of the Coroner. Reinterments made by the Board of Health or its contractors shall be made in lands now owned or hereafter to be acquired by the City for cemetery purposes situated outside of the limits of the City and County. Provided, that any person having the right to the possession of any one or more bodies buried within the above cemeteries shall at any time prior to its actual disinterment and removal have the right to make such disinterment and removal by so notifying the Board of Health, the cemetery association, or the contractor charged with such work and proceeding forthwith to make such disinterment and removal. If after having given such notice he fails to make such disinterment or removal within twenty-four hours thereafter the Board of Health, cemetery association or contractors may proceed with it in the same manner as if no notice had been given.

Section 9. When all the bodies in a given subdivision shall have been removed therefrom the Board of Health shall within ten (10) days after completing such removal, file with the Board of Supervisors a statement setting forth the cost of making all exhumations, removals and reinterments of bodies taken from such subdivision, describing the same by reference to the "Map of Cemetery Lands," including the cost of land in which said bodies are reinterred, which cost shall be pro-rated and include the proportionate cost of land necessary for avenues and paths in the new cemetery, and including also the amounts, demands for which have been approved by the Board of Health as reimbursement to individuals who have made removals from such subdivisions in the manner provided in Section 2 of this ordinance. Upon receipt of such statement the Board of Supervisors may by ordinance levy an assessment on such subdivision for the amount of the expenses set forth in said statement. Said assessment shall become a charge against the persons, corporations or associations owning the cemetery or cemeteries from which said removals have been made and shall constitute and be a lien upon the subdivision from which all of said bodies have been removed, and unless said assessment is paid to the Tax Collector within thirty (30) days, said subdivision upon which it is levied shall be sold by the Tax Collector at

public auction, to satisfy the lien of such assessment. Said sale shall be made to the highest bidder over the amount of said assessment and the costs of such sale.

Section 10. At any time within thirty (30) days from the date of levying such assessment the person, corporation or cemetery association owning or controlling the cemetery in which such subdivision is situated, may satisfy and discharge the lien of same by paying to the Tax Collector the amount of said assessment. The Tax Collector shall keep an accurate record of the levy and payment of said assessments and shall pay all moneys received by him in payment thereof or from sales under this ordinance to the Treasurer to the credit of a fund to be known as the Cemetery Removal Fund.

Section 11. If said assessment shall not be satisfied within thirty (30) days from the date of levy as aforesaid the Tax Collector shall cause to be published in a daily newspaper, published in this City and County, for a period of not less than ten (10) days, notice of a public sale of the subdivision or subdivisions upon which payment thereof may be delinquent to be held at his office on a date not less than fifteen (15) days from and after the first date of publication between the hours of 9 a. m. and 4 p. m. of said day, and that on said date and at said place and hour said subdivision or subdivisions will be sold to the highest bidder over the amount of said assessment plus the costs of said publication and sale. At any time prior to the date of said sale the person or association owning or controlling the cemetery in which said subdivision is situated shall have a right to discharge the assessment on the same by paying the amount thereof as aforesaid plus the costs of publication.

Section 12. If said assessment is not paid and discharged as aforesaid on or before the date of said sale, the Tax Collector shall proceed on the date and hour set in said notice to offer said subdivision for sale at public auction at his office and shall sell the same for cash to the person making the highest bid over and above the amount of said lien plus the costs of publication and sale as aforesaid. The Tax Collector shall give to such purchaser a certificate of sale and file a duplicate thereof for record with the County Recorder, which certificate shall show (1) a description of the real property sold with reference to said Map of Cemetery Lands, (2) the price bid therefor, (3) the period of redemption as hereinafter provided.

The proceeds of said sale shall be applied as follows: (1) to the payment of the costs of sale and publication of notice therefor; (2) to the payment of the expense incurred in making said removals from the subdivision sold as shown by the statement filed. Any surplus left after meeting these expenses shall be paid over to the person, corporation or cemetery association having the fee of the cemetery in which said subdivision is located.

Section 13. Such person, association or cemetery association holding the fee of said land shall also have the right to redeem said subdivision from such sale at any time within one year from the date thereof by payment to the purchaser at such sale or to the Tax Collector the amount paid at such sale for such subdivision with interest thereon at 1 per cent per month from date thereof to the date of redemption together with all taxes or assessments which may have been paid on such property subsequent to such sale with interest thereon. If redemption is made by payment to the Tax Collector he shall issue to the redemptioner a proper certificate of redemption which shall be entitled to record, and the Tax Collector shall hold the money received from said redemption subject to order of the purchaser at said sale. If no redemption is made within a period of one year as aforesaid, the Tax Collector shall execute and deliver a deed conveying to said purchaser all the right, title and interest of said person or association owning said cemetery in and to said subdivision at the date of said sale.

Section 14. Nothing in this ordinance contained shall be construed as preventing the Board of Supervisors at any future date from issuing permits to any person, corporation or cemetery association for the construction of a mausoleum or mausoleums of a design to be approved by the Board of Supervisors, which mausoleum may be located with the approval of said Board within the limits of this City and County.

Section 15. If any section, subsection, clause or phrase of this ordinance is for any reason held to be illegal or unconstitutional, such decision shall not affect the validity of the remaining portions of this ordinance. It is hereby declared that this ordinance would have been adopted and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared illegal or unconstitutional.

Section 16. This ordinance shall take effect immediately.

Veto Sustained.

The question being, Shall the ordinance finally pass notwithstanding the objections of his Honor the Mayor? the roll was called with the following result:

Noes—Supervisors Bancroft, Cagliari, Andrew J. Gallagher, George E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang—18.

Thereupon the chair declared the motion lost and the Mayor's veto sustained.

Whereupon, the following bill, heretofore passed for printing, was taken up:

Abandonment of Cemeteries.

Bill No. 2853, Ordinance No. — (New Series), Providing for the exhuming, taking up, removal and reinterment of the human remains interred in the cemeteries located within the following boundaries:

Commencing at a point formed by the intersection of the westerly line of Broderick street with the southerly line of California street; thence running westerly along said southerly line of California street to the easterly line of Arguello Boulevard; thence southerly along said easterly line of Arguello Boulevard to the southerly line of Fulton street; thence easterly along said southerly line of Fulton street to the westerly line of Broderick street; thence northerly along said westerly line of Broderick street to the southerly line of California street and point of commencement, including the Laurel Hill, Calvary, Masonic and Odd Fellows Cemeteries.

Prescribing the procedure for accomplishing such exhumations, removals and reinterments; providing that an assessment may be levied on property from which said removals have been made at public expense; and providing for the sale of property subject to such assessment and for the disposition of the proceeds from such sale.

Be it ordained by the People of the City and County of San Francisco as follows:

That under and in accordance with the authority granted to the Board of Supervisors of the City and County of San Francisco by the Act of the Legislature approved April 24, 1911, entitled "An act providing for the removal of human remains from cemeteries in any city and county in this State and repealing all acts in conflict therewith"; and under and by virtue of the general police powers conferred upon said Board of Supervisors in Article II, Chapter II, Section 1 of the Charter of

said City and County, and in conformity with the provisions of Resolution No. 9594 (New Series) of said Board of Supervisors, approved August 29, 1912, giving notice of intention to cause the exhumation and removal of all human remains from the cemeteries situated within the following boundaries, viz.:

Commencing at a point formed by the intersection of the westerly line of Broderick street with the southerly line of California street; thence running westerly along said southerly line of California street to the easterly line of Arguello Boulevard; thence southerly along said easterly line of Arguello Boulevard to the southerly line of Fulton street; thence easterly along said southerly line of Fulton street to the westerly line of Broderick street; thence northerly along said westerly line of Broderick street to the southerly line of California street and point of commencement, including the Laurel Hill, Calvary, Masonic and Odd Fellows Cemeteries.

Section 1. All cemeteries situated within the above described limits are hereby declared to be a public nuisance and a menace and detriment to the public health and welfare, and it is hereby ordered that all of said cemeteries be abolished and all bodies interred within any and all parts of said cemeteries be removed therefrom and reinterred outside of said limits, or otherwise properly disposed of in accordance with law.

Section 2. Within sixty days from and after the date this Ordinance takes effect the Board of Health of this City and County shall prepare and serve a notice in writing directing every person, corporation or association owning or claiming any cemetery lots situated within the above described limits to remove within fourteen months from the date this Ordinance takes effect, all bodies which may be interred in said lots so owned or claimed and to reinter or otherwise dispose of said bodies outside of said limits in accordance with law. Said notice shall further state that if said bodies are not so removed within fourteen months from the date this Ordinance takes effect, such removals will thereafter be made either by the person, corporation or association owning or controlling the cemetery in which said bodies are buried, or by the Board of Health in accordance with the provisions of this Ordinance. Said notice shall further state that if the removals are made by the Board of Health, as herein provided, then all lands situated within the cemeteries from which such removals are made by said Board, may be sold to pay the cost of removing the bodies therefrom in accord-

ance with the procedure herein set forth, and that in such event the cost incurred by individuals theretofore making removals at their own expense, not exceeding the cost per body incurred by the City authorities for each removal, will be refunded to such individual out of the proceeds from the sale of such lands, upon presentation to the Auditor of a properly verified statement of such expense, duly approved by the Board of Health and Board of Supervisors. Service of the above notice shall be made as follows:

1. Upon individuals who have filed with the County Recorder the statement provided for in Chapter 577 of the Statutes of 1911 and who can be found at the place designated within such notice, personally, in the manner provided for service of summons at law.

2. Upon persons who have filed such statements but who cannot be found at the respective places therein designated, and upon all other persons or lot-owners whose identity and residence can be ascertained through information supplied by the persons, corporations or associations owning or in control of said cemeteries, by mailing a copy of said notice to each of said persons in a proper enclosure addressed to such person at the address ascertained from the above sources of information or to his last known address, with postage thereon duly prepaid.

3. Upon all other persons by publishing, for a period of sixty days in a daily newspaper published in this City and County, a copy of the above notice and by posting for the same length of time upon each of the exterior gates of said cemeteries a copy of said notice with a heading entitled "Notice of Cemetery Removals," which heading shall be in letters not less than two inches in height.

Section 3. Every person, corporation or association owning or claiming any cemetery lot or lots situated within the above described cemeteries shall, in compliance with the above notice, proceed, within fourteen months from the date this Ordinance takes effect, remove any and all bodies which may be interred in said lot or lots and reinter or otherwise dispose of the same in accordance with law, outside of said limits, and if such persons, corporations or associations do not complete said removals in accordance with said notice then further proceedings shall be taken, as herein provided.

Section 4. If, at the expiration of fourteen months from the date this Ordinance takes effect, there shall still be bodies left in any one or more of said

cemeteries, then the Board of Health shall serve upon the person, corporation or association owning or controlling the cemetery or cemeteries in which such bodies remain interred a written notice directing them and each of them to commence, within three months from date of service of such notice and proceed continuously thereafter, to remove all bodies which may still remain interred in their respective cemeteries above described and to complete such removals within three years and six months thereafter. Said notice shall also state that if such removals are not commenced within three months from service of such notice or continuously proceeded with thereafter or completed within the time above specified, that the Board of Health will proceed to make such removals and that further proceedings will be taken in accordance with the provisions of this Ordinance.

Section 5. Within three months after receipt of such notice the persons, corporations or associations owning or controlling such cemeteries are hereby ordered to commence and to proceed continuously thereafter to remove all bodies which may still be interred in their respective cemeteries, and to complete said removals within the time specified in said notice. All bodies removed shall be reinterred outside of said cemeteries, or otherwise disposed of, in accordance with law.

Section 6. If said removals from any one or more cemeteries have not been commenced by said persons, corporations or associations owning or controlling said cemeteries within three months from and after the date of service upon them of said notice, or having been so commenced are not being prosecuted continuously thereafter until all of said bodies have been removed, as aforesaid, then said removals shall be made from such cemeteries whose owners have failed to comply with this Ordinance by the Board of Health of the City and County of San Francisco in accordance with the procedure herein prescribed, and the land in which said bodies are interred may thereafter be sold in the manner herein provided, and the proceeds from such sale applied to the payment of the expenses of the exhumation, removal and reinterment of such bodies, including the cost of lands in which such bodies are reinterred.

Section 7. The City Engineer shall, upon request of the Board of Health, forthwith prepare a map of any one or more of said cemeteries, which map shall be entitled and known as the

"Map of Cemetery Lands." The City Engineer shall cause necessary surveys to be made with corresponding delineations upon such map, to subdivide said cemeteries into convenient tracts for sale purposes, making proper provision for the future extension of public streets through said cemeteries. Said subdivisions shall be numbered consecutively. The City Engineer shall transmit said map to the Board of Health who shall file the same with the County Recorder in the manner provided by law, after approval by the Board of Public Works. All descriptions of cemetery lands in subsequent sales or transfers thereof under the provisions of this Ordinance shall be made by reference to said "Map of Cemetery Lands" and the subdivisions delineated thereon.

Section 8. After the expiration of seventeen months from and after the date this Ordinance takes effect, and after the expiration of the time provided in the aforesaid notices the Board of Health must commence the removal of bodies which may be still interred in any one or more of said subdivisions of cemeteries whose owners have not complied or are not then complying with the provisions of this Ordinance. Removals may be made by contract or by the employees of the Board of Health under its direction. All disinterments, removals and reinterments must be made carefully and respectfully. Not more than one body shall be reinterred in one grave. All stones and monuments shall be removed and placed over the corresponding new graves. In its discretion, the Board of Health may comply with requests of religious or fraternal societies that remains of former members of such societies whose names are furnished may be reinterred in separate subdivisions of the new cemeteries to facilitate perpetual care of the graves of such persons by such societies. A careful record shall be kept by name and location of all bodies removed, which records shall be filed and always open to public inspection in the office of the Coroner. Reinterments made by the Board of Health or its contractors shall be made in lands now owned or hereafter to be acquired by the City for cemetery purposes situated outside of the limits of the City and County. Provided, that any person having the right to the possession of any one or more bodies buried within the above cemeteries shall at any time prior to its actual disinterment and removal have the right to make such disinterment and removal by so notifying the Board of Health, the cemetery asso-

ciation, or the contractor charged with such work and proceeding forthwith to make such disinterment and removal. If after having given such notice he fails to make such disinterment or removal within twenty-four hours thereafter the Board of Health, cemetery association or contractors may proceed with it in the same manner as if no notice had been given.

Section 9. When all the bodies in a given subdivision shall have been removed therefrom the Board of Health shall within ten (10) days after completing such removal, file with the Board of Supervisors a statement setting forth the cost of making all exhumations, removals and reinterments of bodies taken from such subdivision, describing the same by reference to the "Map of Cemetery Lands," including the cost of land in which said bodies are reinterred, which cost shall be pro-rated and include the proportionate cost of land necessary for avenues and paths in the new cemetery, and including also the amounts, demands for which have been approved by the Board of Health as reimbursement to individuals who have made removals from such subdivision in the manner provided in Section 2 of this Ordinance. Upon receipt of such statement the Board of Supervisors may by ordinance levy an assessment on such subdivision for the amount of the expenses set forth in said statement. Said assessment shall become a charge against the persons, corporations or associations owning the cemetery or cemeteries from which said removals have been made and shall constitute and be a lien upon the subdivision from which all of said bodies have been removed, and unless said assessment is paid to the Tax Collector within thirty (30) days said subdivision upon which it is levied shall be sold by the Tax Collector at public auction, to satisfy the lien of such assessment. Said sale shall be made to the highest bidder over the amount of said assessment and the costs of such sale.

Section 10. At any time within thirty (30) days from the date of levying such assessment the person, corporation or cemetery association owning or controlling the cemetery in which such subdivision is situated, may satisfy and discharge the lien of same by paying to the Tax Collector the amount of said assessment. The Tax Collector shall keep an accurate record of the levy and payment of said assessments and shall pay all moneys received by him in payment thereof or from sales under this Ordinance to the Treasurer to the credit of a fund to be known as

the Cemetery Removal Fund.

Section 11. If said assessment shall not be satisfied within thirty (30) days from the date of levy as aforesaid the Tax Collector shall cause to be published in a daily newspaper, published in this City and County, for a period of not less than ten (10) days, notice of a public sale of the subdivision or subdivisions upon which payment thereof may be delinquent to be held at his office on a date not less than fifteen (15) days from and after the first date of publication between the hours of 9 a. m. and 4 p. m. of said day, and that on said date and at said place and hour said subdivision or subdivisions will be sold to the highest bidder over the amount of said assessment plus the costs of said publication and sale. At any time prior to the date of said sale the person or association owning or controlling the cemetery in which said subdivision is situated shall have a right to discharge the assessment on the same by paying the amount thereof as aforesaid plus the costs of publication.

Section 12. If said assessment is not paid and discharged as aforesaid on or before the date of said sale, the Tax Collector shall proceed on the date and hour set in said notice to offer said subdivision for sale at public auction at his office and shall sell the same for cash to the person making the highest bid over and above the amount of said lien plus the costs of publication and sale as aforesaid. The Tax Collector shall give to such purchaser a certificate of sale and file a duplicate thereof for record with the County Recorder, which certificate shall show (1) a description of the real property sold with reference to said Map of Cemetery Lands, (2) the price bid therefor, (3) the period of redemption as hereinafter provided.

The proceeds of said sale shall be applied as follows: (1) to the payment of the costs of sale and publication of notice therefor; (2) to the payment of the expense incurred in making said removals from the subdivision sold as shown by the statement filed. Any surplus left after meeting these expenses shall be paid over to the person, corporation or cemetery association having the fee of the cemetery in which said subdivision is located.

Section 13. Such person, association or cemetery association holding the fee of said land shall also have the right to redeem said subdivision from such sale at any time within one year from the date thereof by payment to the purchaser at such sale or to the Tax Collector the

amount paid at such sale for such subdivision with interest thereon at 1 per cent per month from the date thereof to the date of redemption together with all taxes or assessments which may have been paid on such property subsequent to such sale with interest thereon. If redemption is made by payment to the Tax Collector he shall issue to the redemptioner a proper certificate of redemption which shall be entitled to record, and the Tax Collector shall hold the money received from said redemption subject to the order of the purchaser at said sale. If no redemption is made within a period of one year as aforesaid, the Tax Collector shall execute and deliver a deed conveying to said purchaser all the right, title and interest of said person or association owning said cemetery in and to said subdivision at the date of said sale.

Section 14. Nothing in this Ordinance contained shall be construed as preventing the Board of Supervisors at any future date from issuing permits to any person, corporation or cemetery association for the construction of a mausoleum or mausoleums of a design to be approved by the Board of Supervisors, which mausoleum may be located with the approval of said Board within the limits of this City and County.

Section 15. If any section, subsection, clause or phrase of this Ordinance is for any reason held to be illegal or unconstitutional, such decision shall not affect the validity of the remaining portions of this Ordinance. It is hereby declared that this Ordinance would have been adopted and each section, subsection, sentence, clause or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared illegal or unconstitutional.

Section 16. This Ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Caglieri, George E. Gallagher, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murphy, Payot—13.

Noes—Supervisors Andrew J. Gallagher, Murdock, Nolan—3.

Absent—Supervisors Vogelsang, Giannini—2.

#### Communications.

The following matters were presented and read:

*Communication*—From George E. Terry, Secretary Laurel Hill Cemetery Association, transmitting protest against passage of Bill No. 2853 and

favoring preservation of cemeteries in Western Addition.

*Communication*—From Outdoor Art League, protesting against passage of ordinance providing for removal of bodies interred in Laurel Hill, Calvary, Masonic and Odd Fellows cemeteries.

*Communication*—From E. S. M. Grosjean, Secretary Cemetery Protective Association, against the passage of Bill No. 2853, providing for removal of bodies in cemeteries in the Western Addition.

#### Privilege of the Floor.

*Sidney Van Wyck* was granted the privilege of the floor and addressed the Board in opposition to foregoing ordinance. He declared that at last election people defeated candidates who favored cemetery removal and this should be taken as an indication of the people's wishes in the matter.

#### Submission of Cemetery Ordinance to People.

Supervisor Andrew J. Gallagher offered the following as a substitute for consideration, under suspension of the rules:

Bill No. —, Ordinance No. — (New Series), entitled, "Providing for the submission of a proposed ordinance to the vote of the electors of the City and County of San Francisco, which proposed ordinance has been introduced into the said Board of Supervisors and is known and designated as Bill No. 2853, Ordinance No. — (New Series), and is hereafter more fully set forth."

*Refused* consideration under suspension of the rules by the following vote:

Ayes—Supervisors Bancroft, Caglieri, George E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murphy, Payot, Vogelsang—15.

Noes—Supervisors Andrew J. Gallagher, Murdock, Nolan—3.

#### Final Passage.

Whereupon, the foregoing Bill No. 2853 was finally passed as Ordinance No. 2597 (New Series) by the following vote:

Ayes—Supervisors Bancroft, Caglieri, George E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murphy, Payot—14.

Noes—Supervisors Andrew J. Gallagher, Murdock, Nolan, Vogelsang—4.

#### ADJOURNMENT.

There being no further business, the Board at the hour of 4:30 p. m. adjourned, to meet tomorrow at 12 noon.

JOHN S. DUNNIGAN, Clerk.

Approved by the Board of Supervisors January 12, 1914.

Pursuant to Resolution No. 3402 (New Series), of the Board of Supervisors of the City and County of San Francisco, I, J. S. Dunnigan, hereby certify that the foregoing are true and correct copies of the Journal of Proceedings of said Board of the dates thereon stated, and approved as above recited.

The Board of Supervisors met pursuant to adjournment for the purpose of inducting into office the members who were elected at the municipal election held November 11th, 1913.

### ROLL CALL.

The Roll was called and the following Supervisors were noted present:

Supervisors Bancroft, Andrew J. Gallagher, George E. Gallagher, Gianini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang—17.

Quorum present.

His Honor, Mayor Rolph, presiding.

Resignation of Supervisor Geo. E. Gallagher.

The following matter was presented, read, accepted and ordered *filed*:  
January 7, 1914.

Hon. James Rolph, Jr., Mayor, San Francisco, Cal.

Dear Sir: I herewith tender my resignation as Supervisor, to take effect at midnight, January 7, 1914.

Very truly yours,  
GEO. E. GALLAGHER.

Address of Mayor.

Thereupon, his Honor Mayor Rolph addressed the Board as follows:

Gentlemen: As the present Board of Supervisors is the first, constituted under that biennial election provision of the Charter, providing that one-half of the Board shall be subject to election every two years, it is appropriate that I should call your attention to what has been accomplished by the city government in the two preceding years, and what is hoped from the city government in the two years to come.

In welcoming the new members, chosen by the people, it is not more than just to say that the Board, during the last two years, has achieved greater things for the city than any similar body in our municipal history.

Under its administration, the Geary Street Railway—the first city road in

America to be owned and operated by the people—has become a splendid fact, from the ferry to the ocean—an inspiring and profitable enterprise. To this public system has recently been added the Presidio and Ferries Railroad, more commonly known as the "Union street line".

The Hetch Hetchy rights have been acquired from the Federal Government, insuring to San Francisco, for all time, an unlimited supply of purest water, and securing, for public use, a source of vast hydro-electric power. There should be no delay in making this water and power available.

A suit for condemnation has been instituted by the city against the Spring Valley Water Works, in the Superior Court. Unless the controversy between the city and the Spring Valley Water Company, for the acquisition of these properties, should be otherwise terminated, to the satisfaction of the people, this suit must solve the problem. The ownership by the city of these properties, is now only a question of time, and every effort should be exerted to acquire the properties needed, at the earliest date possible, at a price fair to the city and fair to the company.

A large portion of the Civic Center lands has been acquired by the people, and there is now rising thereon, a City Hall and other municipal buildings, which will rival those of any city, in convenience and architectural beauty. There must be no delay in completing this great undertaking.

The auxiliary High Pressure Salt Water System has been finished, guaranteeing unexcelled protection to life and property and a further reduction in fire insurance rates.

A City and County Hospital building, that will establish San Francisco's position among the cities whose humane treatment of the unfortunate sick is noted, is nearly completed. No time should be lost in disposing of the bonds already authorized to make it ready for use, as the plans for its completion are ready.

Other public buildings are well under way.

The Stockton street tunnel, which will enlarge our municipal railroad system, and be of other advantage, is more than half finished.

Preliminary steps have been taken to construct the Twin Peaks tunnel, which improvement will insure rapid transit from the center of the city to the ocean, and make all unoccupied lands, within the city, convenient for residence purposes.

A problem that has confronted the outgoing Board, and which presents itself to the new Board, is finding work for the unemployed.

There is no indictment of our civilization more damaging than the fact that honest men, seeking work, can find none. Nothing can give greater credit to San Francisco, before the world, than her capacity to deal with this subject.

The term of the new Board of Supervisors covers the period of the Panama-Pacific International Exposition—the occasion when San Francisco shall find her opportunity.

Nothing should be left undone, by this Board, to perform its part in making a triumphal success of that great event.

Let us set an example to the whole people of concertive action, subordinating individual feelings to collective good.

Let us all pull together, for two years, for San Francisco!

#### Presentation of Credentials.

The Clerk announced that the credentials of the newly elected members of the Board of Supervisors had been duly presented; whereupon said credentials were read and ordered *filed*.

The Roll was then called and the following Supervisors-elect, whose credentials had been filed, answered to their names and were duly seated:

Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

#### Appointment of Standing Committees.

Thereupon Supervisor Hayden presented:

#### Motion.

*Supervisor A. J. Gallagher* moved that the foregoing resolution be laid over until next Monday.

Motion *lost* by the following vote:

Ayes—Supervisors Deasy, Gallagher, Murdock, Nelson, Power, Suhr, Vogelsang, Walsh—8.

Noes—Supervisors Bancroft, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Nolan, Payot—9.

#### Motion.

*Supervisor A. J. Gallagher* moved that naming of members of committees be left to his Honor Mayor Rolph.

#### Amendment.

*Supervisor Power* moved as an amendment that a committee of four be appointed by the Mayor to recommend membership of committees.

#### Substitute for Whole.

*Supervisor Murdock* moved as a substitute for the whole that the appointment of committees be made a Special Order of Business for 3 p. m. Monday.

Substitute *lost* by the following vote:

Ayes—Supervisors Deasy, Gallagher, Murdock, Nelson, Power, Suhr, Vogelsang, Walsh—8.

Noes—Supervisors Bancroft, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Nolan, Payot—9.

#### Amendment Lost.

*Supervisor Power's* amendment was then voted on, with the following result:

Ayes—Supervisors Deasy, Gallagher,

Murdock, Nelson, Power, Suhr, Walsh  
—7.

Noes—Supervisors Bancroft, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Nolan, Payot, Vogel-sang—10.

Thereupon, the question was taken on Supervisor Gallagher's original motion and the same was *lost* by the following vote:

Ayes—Supervisors Deasy, Gallagher, Murdock, Nelson, Power, Suhr, Walsh  
—7.

Noes—Supervisor Bancroft, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Nolan, Payot, Vogel-sang—10.

#### Resolution Adopted.

Whereupon, the question being taken on the resolution submitted by Supervisor Hayden, the same was *adopted* by the following vote:

Ayes—Supervisors Bancroft, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Nolan, Payot, Vogel-sang—10.

Noes—Supervisors Deasy, Gallagher, Murdock, Nelson, Power, Suhr, Walsh  
—7.

#### Notice of Reconsideration.

*Supervisor Gallagher*, before the result of the above vote was announced, changed his vote from *no* to *aye* and gave notice of reconsideration at next meeting.

#### Motion.

*Supervisor Hayden* moved the immediate reconsideration of the resolution.

Motion *carried* by the following vote:

Ayes—Supervisors Bancroft, Deasy, A. J. Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogel-sang, Walsh—17.

#### Point of Order.

*Supervisor Power* raised the point of order that new Board should appoint its own committees.

His Honor the Mayor ruled point of order not well taken inasmuch as new Board was now acting on a resolution submitted by one of its members.

#### Reconsideration.

Thereupon, the vote by which the foregoing resolution was *adopted* was again *adopted* by the following vote:

Ayes—Supervisors Bancroft, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Nolan, Payot, Vogel-sang—10.

Noes—Supervisor Deasy, Gallagher, Murdock, Nelson, Power, Suhr, Walsh  
—7.

#### Half Rate Street Railway Fares.

Supervisor Gallagher presented:

Bill No. —, Ordinance No. —

(New Series), entitled, "Regulating rates of fare to be charged for the transportation of passengers over street railroads within the City and County of San Francisco."

*Referred to Public Utilities Committee.*

#### Addresses.

Former Supervisor *Daniel C. Murphy* addressed the Board. He thanked his Honor Mayor Rolph for the courtesy extended to him as a member of the Board of Supervisors during the two years of his incumbency. He referred to the great public improvements inaugurated during the first two years of the Rolph administration. He expressed his appreciation of the friendly relations that existed between himself and the other members of the previous Board of Supervisors and hoped that the new Board would be successful in achieving big things for San Francisco.

Former Supervisor *Mauzy* thanked the members of the previous Board for the pleasant relations that he enjoyed as a member and wished the incoming Board every success.

Appreciation of Services of Former Supervisor *George E. Gallagher*.

*Supervisor Bancroft* spoke of the great work done by former Supervisor *George E. Gallagher* as a member of the Public Buildings Committee, and requested that Board now express its appreciation of his services.

Whereupon, the Board, by unanimous vote, expressed its appreciation of the services of former Supervisor *George E. Gallagher*.

Former Supervisor *George E. Gallagher* congratulated the Board on the good work it had accomplished in the past two years, and welcomed the incoming members. He declared that in his new position as School Director he would try to act as conscientiously in the public service as he had in the past as a member of the Board of Supervisors.

*Supervisor Murdock* expressed his appreciation of former Supervisors *Murphy*, *Mauzy*, *Caglieri*, *Giannini* and *Koshland*. While he sometimes had differences with them, they were honest differences. He had respected their opinions and appreciated their characters as good public officials.

Former Supervisor *Giannini* referred to the arduous and conscientious work of the Finance Committee during the past two years. He expressed his appreciation and admiration of its members for the faithful manner in which they handled the public funds during the past two years, and expressed the hope that their earnestness and zeal in the public interest would be appreciated.

*Supervisor Vogelsang* also addressed the Board, expressing his appreciation of the work of the retiring members, and hoped that the ensuing term would be as fruitful in results for the public good as the two years just past.

*Supervisor James Power* wished the retiring members every success, and declared it to be his intention to do his duty wherever he saw it in the position to which he had been called by the electorate of San Francisco.

Remarks of Thos. Monahan, Mayor of San Jose.

His Honor Mayor Rolph presented Honorable Thomas Monahan, Mayor of San Jose, who expressed his pleasure at being permitted to witness the inauguration of the new Board of Supervisors. He said that before he came to this meeting he was convinced that San Jose's council should be composed of more than five members, but now he was convinced that five were quiet enough. He declared that the people of San Jose had the most kindly feeling for San Francisco. "We feel that we are a part of this great community, and we love, respect and admire you." He thanked the Board for granting him the privilege of addressing it, and invited the members to visit San Jose when opportunity afforded.

#### ADJOURNMENT.

There being no further business the Board, at the hour of 2:00 p. m., adjourned.

JOHN S. DUNNIGAN,  
Clerk.

Bill of Sale for One-half Interest in Lower Market Street Tracks.

Supervisor Nolan presented the following matter which was ordered spread in Journal:

Know All Men by these Presents: That the Sutter Street Railway Company, a corporation organized and existing under and by virtue of the laws of the State of California, and having its principal place of business in the City and County of San Francisco, the party of the first part, for and in consideration of the sum of nineteen thousand five hundred eighteen dollars and eighty-four cents (\$19,518.84) gold coin of the United States of America paid to the Sutter Street Railway Company by the City and County of San Francisco, a municipal corporation, the party of the second part, the receipt whereof

is hereby acknowledged, does by these presents sell, convey and transfer unto the said party of the second part and to its successors and assigns forever one-half interest in the outer tracks and appurtenances and fixtures in the street and overhead equipment except poles on Market street, from Sutter street to the City Front, heretofore constructed by the Sutter Street Railway Company, said tracks comprising approximately forty-six hundred (4,600) feet of single track, free and clear of incumbrances, liens or claims of any kind, character, nature or description whatsoever.

And the said party of the first part, its successors and assigns, covenants and agrees to and with the said party of the second part, its successors and assigns, to warrant and defend the title to the said property, goods and chattels unto the said party of the second part, its successors and assigns, against all and every person or persons whomsoever may claim the same.

In witness whereof, the said party of the first part has hereunto caused its name to be signed and its corporate seal to be affixed hereto by its officers thereunto only authorized by resolution of its board of directors, a copy of which resolution is hereto annexed and made a part hereof, this 27th day of December, 1913.

SUTTER STREET RAILWAY COMPANY.

By (Sgd) FRED C. BOECHMANN,  
President.

By (Sgd) GEO. E. BENNETT,  
Secretary.

Resolved, That the President and Secretary of the Sutter Street Railway Company be and they are hereby authorized, directed, empowered and instructed to make and execute a bill of sale, free and clear of encumbrances, liens or adverse claims of any kind or character whatsoever of the outer tracks, appurtenances and fixtures in the street and overhead equipment except poles on Market street, from Sutter street to the City Front, heretofore constructed by the Sutter Street Railway Company, the said track comprising approximately 4,600 feet of single track; the consideration for said bill of sale being the sum of nineteen thousand five hundred eighteen dollars and eighty-four cents (\$19,518.84), which said sum is hereby accepted in full payment for the said property in accordance with the terms of an agreement heretofore entered into on the 19th day of November, A. D. 1912, by and between the City and County of San Francisco, a municipal corporation, the party of the first part, and the United Railroads of San Francisco, a

corporation organized and existing under and by virtue of the laws of the State of California, the party of the second part, and the Sutter Street Railway Company, a corporation organized and existing under and by virtue of the laws of the State of California, the party of the third part.

This is to certify that at a special meeting of the board of directors of the Sutter Street Railway Company, a corporation organized, existing and carrying on business under and by virtue of the laws of the State of California, said special meeting having been duly called, noticed and held on the 27th day of December, 1913, and at which meeting a majority of the board of directors of said corporation were present, said board of directors duly and regularly adopted the above and foregoing resolution.

In witness whereof, I have hereunto set my hand and the seal of the Sutter Street Railway Company, a corporation, on this 27th day of December, 1913, at the offices of said company in the City and County of San Francisco, State of California.

(Sgd) GEO. E. BENNETT,  
Secretary of the Sutter Street Railway Company.

**Extension of Vulcan Street.**

On motion of Supervisor McCarthy: Resolution No. — (New Series), as follows:

Whereas, On the 22d day of September, 1913, the Supervisors of the City and County of San Francisco duly and regularly and finally passed Resolution No. 10417 (New Series), which resolution was, on the 24th day of September, 1913, duly and regularly approved by the Mayor of the City and County of San Francisco, and said resolution being in words and figures as follows, to-wit:

Resolution No. 10417 (New Series).

Resolved, That it is the intention of the Board of Supervisors of the City and County of San Francisco to order the extension of Vulcan street as follows:

That said Vulcan street be produced and extended from its present easterly termination through Horner's Addition Block No. 201 to a uniform width of forty-one and sixty-seven hundredths (41.67) feet to the westerly line of Ord street in the City and County of San Francisco, as said street is laid out and delineated upon

the official map of the City and County of San Francisco:

The lands and property deemed necessary to be taken for said extension of said street are described as follows:

All those certain lots, pieces or parcels of land situate, lying and being in the City and County of San Francisco and particularly described as follows, to-wit:

Description of property to be acquired for the extension of Vulcan street from the present easterly termination of Ord street.

Commencing at a point on the westerly line of Ord street distant thereon 424 feet 7 $\frac{3}{4}$  inches northerly from the northerly line of Seventeenth street; thence northerly and along said westerly line of Ord street 41 feet 8 inches; thence at right angles westerly 136 feet to the easterly boundary of the Park Lane Tract; thence at right angles southerly and along said easterly boundary of the Park Lane Tract 41 feet 8 inches; thence at right angles easterly 136 feet to the westerly line of Ord street and the point of commencement; being a portion of Horner's Addition Block No. 201.

And said Board of Supervisors does hereby determine and declare that said proposed extension of Vulcan street is of more than local or ordinary public benefit and will affect and benefit the lands and district hereinafter described and which said district is hereby declared to be the district affected and benefited by said extension and that therefore the entire damages, costs and expenses of said extension shall be and are hereby made chargeable against and shall be assessable upon said lands and district, which lands and district are within the City and County of San Francisco, State of California, and the exterior boundaries of said lands and district affected and benefited by said extension are particularly described as follows:

Description of lands benefited by and to be assessed for the opening of Vulcan street from its present easterly termination to Ord street.

Commencing at the intersection of the westerly line of Ord street with the southerly boundary of the San Miguel Rancho; thence westerly and along said southerly boundary of the San Miguel Rancho 415 feet, more or less, to the easterly line of Juno street; thence southerly and along said easterly line of Juno street 205 feet 1 $\frac{1}{2}$  inches to the northerly line of Lower Terrace; thence easterly and along said northerly line of Lower Terrace 122 feet 2 $\frac{1}{2}$  inches;

thence easterly and along the southerly line of Lot No. 11, Block "U", Park Lane Tract, 105 feet  $4\frac{3}{4}$  inches to the westerly line of Lot No. 13; thence southerly and along said westerly line of Lot No. 13, 74 feet, more or less; thence easterly 75 feet; thence northerly 67 feet, more or less; thence easterly 136 feet to the westerly line of Ord street; thence northerly and along said westerly line of Ord street 100 feet, more or less, to the southerly boundary of the San Miguel Rancho and the point of commencement.

Said extension of Vulcan street shall be done in pursuance of Chapter III of Article VI of the Charter of the City and County of San Francisco and shall be done in the manner and in accordance with the provisions of Section 2 and the sections following Section 2 of said Chapter III of Article VI of said Charter of the City and County of San Francisco.

Finally Passed—Board of Supervisors, San Francisco, September 22, 1913.

Ayes—Supervisors Bancroft, Caglieri, A. J. Gallagher, G. E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzv, McCarthy, Murdock, Murphy, Nolan, Payot.

Absent—Supervisors McLeran, Vogelsang.

JOHN W. ROGERS, Acting Clerk.

Approved, San Francisco, September 24, 1913.

JAMES ROLPH, JR., Mayor.

And whereas, The Clerk of the Supervisors of the City and County of San Francisco did transmit to the Board of Public Works of the City and County of San Francisco a certified copy of said resolution, and the said Board of Public Works did, upon receipt of said resolution, cause to be posted in the manner and as required by law, notices of the passage of said resolution and did also cause, in the manner and as required by law, a notice, similar in substance, to be published for a period of ten days in the official newspaper of the City and County of San Francisco:

And whereas, Certain persons interested, either objecting to said improvement or to the extent of the district and lands to be affected and benefited by said improvement and to be assessed to pay the costs and expenses thereof, or to both, did make objections to the same within ten days after the expiration of the time of said publication of said notice, which objections were delivered to the Clerk of the Supervisors who endorsed thereon the date of their reception by him and at the next meet-

ing of the Supervisors after the expiration of said ten days, did lay said objections before the Supervisors, who thereupon fixed a time for hearing said objections, viz.: the 5th day of January, 1914, at the hour of 3:00 p. m. of said day, which time was not less than one week, after said meeting of said Board of Supervisors;

And whereas, The Clerk of the Supervisors did notify the persons making said objections by depositing a notice of said hearings in the post office, postage prepaid, addressed to such objectors;

And whereas, At the time specified for the hearing of said objections the Supervisors did hear the objections urged and did overrule said objections;

And whereas, The public interest and convenience requires said improvement to be done as specifically described in said Resolution No. 10417 (New Series);

And whereas, The Supervisors have acquired jurisdiction to order that said Vulcan street be extended as aforesaid and as specifically described and proposed in said Resolution No. 10417 (New Series);

Now therefore, Be it Resolved, that it be ordered, and it is hereby ordered, that said Vulcan street be extended as aforesaid and as specifically described and proposed in said Resolution No. 10417 (New Series); and

Be it Further Resolved, That the lands and property described in said Resolution No. 10417 (New Series), and declared to be deemed necessary to be taken for said extension of said street, be taken for said extension; and

Be it Further Resolved, That the entire damages, costs and expenses of said extension be and they are hereby made chargeable against and shall be assessable upon the lands and district described in said Resolution No. 10417 (New Series), as being the lands and district affected and benefited by said extension and against which the entire damages, costs and expenses of said extension should be made chargeable; and

Be it Further Resolved, That said extension of Vulcan street be done in pursuance of Chapter III of Article VI of the Charter of the City and County of San Francisco and in the manner laid down in and in accordance with the provisions of Section 2 and the sections following Section 2 of said Chapter III of Article VI of said Charter.

His Honor, Mayor Rolph, announced the appointment of the following committee to attend Inland Water Congress to be held in San Francisco January 15-17, 1914, to wit: Supervisors Hayden, Hilmer, Hocks, Power, Suhr; alternates—Vogelsang, Walsh, McLeran, Nolan, Dunnigan.

**REMARKS OF OLIVER F. ERICKSON, MEMBER OF PUBLIC UTILITIES COMMISSION OF SEATTLE.**

Oliver F. Erickson, a member of the Public Utilities Commission of Seattle, was presented by his Honor Mayor Rolph and he stated that he is visiting San Francisco for the purpose of investigating its public utilities and the general policy of the Board of Supervisors toward them.

"In some respects," said Mr. Erickson, "I find that the city of Seattle is in advance of San Francisco in the matter of municipal control and ownership. In other respects San Francisco has outstripped us. We have, for instance, the Cedar River municipal water supply system, which the city owns and controls. On the other hand you have already taken a long step toward owning your own street car system.

"In reference to the municipal water supply which we inaugurated some fifteen years ago, I notice that you have been opposed in every step you have taken for the acquirement of a supply in the Hetch Hetchy by the same class of corporations and individuals who have opposed us in the same matter.

"I want to congratulate you on having been at length victorious. I assure you that with the municipality owning its own water and power plants, you will be able to give cheaper service. No householder using the ordinary amount of water in Seattle pays more than 50c per month. Our power plant is not large enough to supply the entire needs of Seattle, but it has been large enough so that we have been able to regulate the rates of all electric power concerns doing business in the city. We have reduced the rates for electric lighting, for instance, from 20c per kilowatt hour to 6c per kilowatt hour and the rate for power from 10c per

kilowatt hour to 4c, and for some kinds of service as low as ½c per kilowatt hour.

"The public service corporations are compelled to meet the rate the city fixes for its own consumers.

"As a matter of comparison, I can cite Spokane, which has a hydro-electric plant in the very heart of the city, and still the lighting rates under private monopoly are 17c per kilowatt hour.

"I wish to warn you against the surrender of municipal control to the State Utilities Commission, or, I believe it is called the Railroad Commission in this State.

"Over a year ago there was introduced in our council an ordinance compelling all street railway conductors to sell 25 tickets for \$1 or 6 tickets for 25c to any patron of the lines who demanded it. Owing to the fact of some complication under the charter, the companies were unable to enjoin us for one year. Meanwhile the new ordinance went into effect. Finally at the end of a year we were enjoined by the courts and the injunction was made permanent for the reason that under our public utilities act all rates must be fixed by the utilities commission. We carried the matter before the commission and they ordered that the same rates as fixed by the ordinance should stand. Now the traction companies have enjoined the Railroad Commission from enforcing the order and we are paying the same rates as prevailed before the ordinance passed. I am not familiar with the provisions of your public utilities act, but I caution against such an experience as we have had in Seattle."

**Settlement of Claims of City to Naturalization Fees of County Clerk.**

On motion of Supervisor Jennings: J. R. No. 1063.

The City Attorney is hereby directed and authorized, upon receiving for and on behalf of the City and County of San Francisco from Harry I. Mulcrevy, County Clerk of said City and County, the sum of \$20,668.50, to execute on behalf of said City and County and in favor of said County Clerk Mulcrevy and Fidelity and De-

posit Company of Maryland, a corporation, and Empire State Surety Company, a corporation, a full and complete release of any and all claims by said City and County in the matter of naturalization fees collected by said County Clerk during the period commencing September 28, 1906, and ending December 31, 1913, under the Act of Congress of June 29, 1906, entitled, "An Act to Establish a Bureau of Immigration and Naturalization and to Provide for a Uniform Rule for the Naturalization of Aliens Throughout the United States."

The City Attorney is further authorized, upon the receipt of said sum of money from said Harry I. Mulcrevy, to execute on behalf of said City and County of San Francisco a full and complete satisfaction of judgment in the matter of judgments heretofore rendered in favor of the City and County of San Francisco in those certain causes entitled:

1. City and County of San Francisco, a municipal corporation, plaintiff, vs. Harry I. Mulcrevy and Fidelity and Deposit Company of Maryland, a corporation, defendants, No. 17405, in the Superior Court of the State of California in and for the City and County of San Francisco;

2. City and County of San Francisco, a municipal corporation, plaintiff, vs. Harry I. Mulcrevy and Empire State Surety Company, a corporation, defendants, No. 17404, in the Superior Court of the State of California, in and for the City and County of San Francisco.

The City Attorney is further authorized and directed, upon the receipt of the aforesaid sum of money, to enter a dismissal of, and give on behalf of said City and County a full and complete release to the defendants in each of the hereinafter described actions heretofore filed and now pending in the Superior Court of the State of California, in and for the City and County of San Francisco:

1. City and County of San Francisco, a municipal corporation, plaintiff, vs. Harry I. Mulcrevy and Empire State Surety Company, a corporation, defendants, No. 22839;

2. City and County of San Fran-

cisco, a municipal corporation, plaintiff, vs. Harry I. Mulcrevy and Empire State Surety Company, a corporation, defendants, No. 31037;

3. City and County of San Francisco, a municipal corporation, plaintiff, vs. Harry I. Mulcrevy and Empire State Surety Company, a corporation, defendants, No. 33872;

4. City and County of San Francisco, a municipal corporation, plaintiff, vs. Harry I. Mulcrevy and Empire State Surety Company, a corporation, defendants, No. 40154;

5. City and County of San Francisco, a municipal corporation, plaintiff, vs. Harry I. Mulcrevy and Pacific Coast Casualty Company, a corporation, defendants, No. 47395.

The City Attorney is further authorized and directed, upon receipt of the aforesaid sum of money, to pay the same to the City and County Treasurer and to execute on behalf of said City and County a full and complete release of any and all claims due on the official bond of said County Clerk Mulcrevy filed for the calendar year 1913 in the matter of the above described naturalization fees.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Approved January 19, 1914.

#### REPORTS OF COMMITTEES.

The following Committees, by their respective Chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Fire Committee, by Supervisor McLeran, Chairman.

Police Committee, by Supervisor Hocks, Chairman.

Public Buildings Committee, by Supervisor Bancroft, Chairman.

Lands and Tunnels Committee, by Supervisor Deasy, Chairman.

Streets Committee, by Supervisor McCarthy, Chairman.

Supplies Committee, by Supervisor Hilmer, Chairman.

#### Report of Finance Committee on Workmen's Compensation Act.

The following report was presented, read, adopted and ordered spread at length in Journal:

January 19, 1914.

To the Honorable Members of the Board of Supervisors, City and County of San Francisco—

Gentlemen:

Your Committee on Finance has com-

pleted an investigation in relation to the liability of the City and County under the Workmen's Compensation, Insurance and Safety Acts, Statutes of 1913, with special reference to determining the policy of the City in insuring with the State for its accident liability under that act.

The accountant of this Committee has made a report showing that it will cost the City approximately \$67,000 a year to insure such of its employees as the City would be subject to indemnity under the act.

Under the opinion of the attorney for the State Accident Board the City has no liability for accidents to members of the Police and Fire Departments, as the Charter provisions on this subject are superior to the State law, and its liability for injuries to the judicial officers and members of the School Department is questionable. This reduces the risk to a comparatively small number of City employees, and is so small that, in the opinion of your Committee, the cost of insurance would exceed any sum that the City might be called upon to pay as indemnity for accidents.

Your Committee therefore recommends that the City carry its own accident risk in preference to insuring with the State; also, that all employees receiving injuries in the course of their employment, receive treatment at the City's hospitals, otherwise no hospital benefits will be paid.

Incidentally, it will be necessary to vest in some department, preferably in the office of the Clerk of this Board, authority to receive accident reports from the several departments of the City, and to transmit the same to the State authorities.

Respectfully submitted,

THOMAS JENNINGS,  
WM. H. MCCARTHY,  
HENRY PAYOT.

San Francisco, California,

December 26, 1913.

To the Honorable, the Finance Committee, Board of Supervisors, City and County of San Francisco—  
Gentlemen:

In compliance with instructions received from you, I have endeavored to determine approximately the amount that the City and County of San Francisco would have to pay as premium for insurance under the Workmen's Compensation, Insurance and Safety Act, Statutes of 1913.

Based upon the payrolls of the City and County of San Francisco for the fiscal year 1912-13, the approximate amounts are as follows:

		Av. Rate.	Est. Premium.
General and Special Fund payrolls...	\$4,947,777.00	\$1.27	\$ 62,931.00
Bond Fund payrolls.....	294,484.00	1.42	4,174.00
	\$5,242,261.00	\$1.28	\$ 67,105.00
Police Dept. (Budget 1913-14).....	1,455,520.00	5.09	74,086.00
Fire Dept. (Budget 1913-14).....	1,343,038.00	6.94	93,207.00
Payrolls .....	\$8,040,819.00		\$234,398.00

Section 46, Chapter 176, Laws of 1913, provides as follows:

"Each county, city and county, city, school district, or other public corporation within the state may insure against its liability for compensation with the State Compensation Insurance Fund and *not with any other insurance carrier* unless such fund shall refuse to accept the risk. When application for insurance is made, and premium therefore shall be a proper charge *against the General Fund* of each such political subdivision of the state."

I quote further from pages 3 and 4 of the opinion of Chris. M. Bradley, attorney for the Industrial Accident Board (Dec. 12, 1913), as follows:

"We think there can be no question that the Charter provisions with reference to relief for disabled or killed policemen and firemen will supersede the provisions of this act and we have come to the conclusion that the provisions of the Charter are with reference to municipal affairs."

In the limited time at my disposal and due to the fact that the State Insurance Fund was unable to give me the use of a rate manual which showed both classifications and rates the segregation of the pay rolls for the fiscal year 1912-13 is at best an approximation, but it is believed that if the pay rolls were minutely classified that the total estimated premium would be in excess of \$67,000.00 annually, stated above, rather than a smaller sum.

The chief difficulty lies in connection with the proper classification for laborers who—for rate making purposes, take the rate of the occupation. There is no rate for laborers. There is a rate for laborers on street work, a rate for laborers on building construction, a rate for laborers on bridges, a rate for laborers on sewers, etc.

Mr. Bradley, in his opinion on page 5, indicates: "The employee cannot select his own hospital and physician and charge the employer with the same unless the latter neglects or refuses to do so, and that the city may give service in its own hospital." Mr. Bradley answers question 7 by saying that "the employees of the city will be classified as to their oc-

cupations" and indicates in answer to question 8 that "it is a matter of policy to be determined by the Insurance Fund as to whether they will accept the insurance risk of *all* or only certain classifications of the city's employees".

Mr. Hart, the manager of the Insurance Fund, was in no position to determine whether the judges and other officers of the Superior Court are subject to compensation insurance from the city and county. Nor was he prepared to give an opinion with reference to school teachers. The Department of Justice pay roll for the last fiscal year was approximately \$350,000.00; the School Department pay roll \$1,500,000.00. The rate in both instances would only be \$.16 per hundred dollars, and if excluded would reduce the premium about \$2,700.00.

Owing to the heavy premium, estimated at not less than \$67,000.00 annually, I am of the opinion that it will be cheaper for the City and County of San Francisco to carry its own insurance, *i. e.*, not avail itself of the State Insurance Fund, but pay claims under the provisions of the act as they may arise. The Industrial Accident Board will sit in judgment on each case whether the city is insured with the State Insurance Fund, with another insurance carrier or whether it carries its own insurance.

Faithfully yours,

Certified Public Accountant.

#### Report on Accounting System of the Park Commissioners.

The Finance Committee presented to the Board the report of William Dolge, Expert Accountant of the committee, on the accounting system of the Park Commissioners.

The report in full, with charts and statistical tables, is on file in the Clerk's office of the Board of Supervisors open for inspection.

The following is context taken from the report:

San Francisco, California,  
November 5, 1913.

To the Honorable the Finance Committee, Board of Supervisors of the City and County of San Francisco, California.

Gentlemen: Pursuant to your instructions, I have made an examination and investigation of the affairs and the accounts of the Park Commission of the City and County of San Francisco. The examination of the accounts cover generally the fiscal year 1912-1913, but in some instances it was deemed advisable to go back as far as the year 1908 for the purpose of presenting proper exhibits and charts.

Upon the conclusion of this attention there is submitted the following statements and graphic charts together with a general report:

1. Condensed cash statement for the fiscal year ending June 30, 1913.

2. Analysis of maintenance disbursements (Golden Gate Park), 1912-1913.

3. Analysis of maintenance disbursements (small parks), 1912-1913.

4. Analysis of construction disbursements (Golden Gate Park), 1912-1913.

5. Analysis of construction disbursements (small parks) 1912-1913.

6. Comparative chart of actual disbursements and Park Budget, fiscal year 1912-1913.

7. Transcript of additions and deductions, Park Revolving Fund, Jan., 1908, to July, 1913.

8. Condensed statement of Revolving Fund, March 1, 1912, to June 1, 1913.

9. Statement of account with the Mission Bank, Feb. 24, 1910, to Sept. 25, 1913.

10. Statement of account with the Donohoe-Kelly Banking Co., December 2, 1913, to September 25, 1913.

11. Summary of transactions in five banks, July 1, 1913, to October 22, 1913.

12. Children's quarters, analysis of disbursements classified as to monthly expenditures, May 1, 1912, to June 30, 1913.

13. Children's quarters, receipts, May, 1912, to April, 1913, classified for comparison with statement of expenditures.

14. Children's quarters, expenditures May 1, 1912, to April 30, 1913, classified for comparison with statement of receipts.

#### Charts.

1. Comparative chart of the 11 largest cities of the United States showing the gross amounts paid for recreation, 1910.

2. Comparative chart of the 11 largest cities of the United States showing the percentages available for maintenance and for outlays, of the total amount available for recreations, 1910.

3. Comparative chart of the 11

largest cities of the United States showing per capita payment in cents for maintenance and for outlays for recreation, 1910.

4. Comparative chart of the 11 largest cities of the United States showing percentage of total annual expenditure devoted to recreation, i. e., parks, playgrounds, etc., 1910.

5. Comparative chart of the 11 largest cities of the United States showing value of properties employed for parks, etc., 1910.

#### Children's Quarters.

6. Comparative chart showing disbursements on account children's quarters from May 1, 1912, to April 30, 1913.

7. Children's quarters, restaurant receipts, compared with expenditures May, 1912, to April, 1913.

#### Golden Gate Park and Small Parks.

8. Comparative chart showing total number of employees each month—two years—from May, 1911, to April, 1913; also showing for the same period total number of employees outside parks, Golden Gate Park grounds and nursery and for all other work.

9. Comparative chart showing expenditures for labor, for material and for labor and material, in the maintenance of small parks.

10. Comparative chart showing the expenditures for labor, for material and for labor and material, in the maintenance of Golden Gate Park.

11. Comparative chart showing the expenditures for labor, for material and for labor and material, in the maintenance of Golden Gate Park and small parks.

12. Comparative chart showing the expenditures for labor, for material and for labor and material, in construction of Golden Gate Park.

13. Comparative chart, showing the expenditures for labor, for material and for labor and material, in construction of small parks.

14. Comparative chart showing the expenditures for labor, for material and for labor and material in construction of Golden Gate Park and small parks.

The Superintendent has adopted and carried out all, or nearly all, of the recommendations made in my report to the Park Commissioners on August 23, 1909, subject only to the changes as were made in the accounting procedure by direction of the Park Commission. In the children's quarters, in the secretary's office and by the bookkeeper, neither the accounting procedure as installed in 1909 nor as amended in 1910 is being carried out. For example, in the annual report filed with the Mayor for the fiscal year 1910-1911

there is reported a disbursement of \$112.50 for premium on employees' bonds. Such a disbursement, if made, would be illegal. The premium on the bonds was actually paid personally by President W. H. Metson of the Board, but the park report and the park records still show the apparent payment out of park funds of the amount indicated. The Board of Park Commissioners has two active and three dormant bank accounts of which there is no record on the park books. The accounts at the park have not been in reconciliation with those of the Auditor for many years, a condition of affairs which is deplorable and inexcusable because the accounting of the park funds is simple and readily susceptible to complete check, and because such a condition invites fraud in the Auditor's and Treasurer's offices. The accounts of the children's quarters showed an overdraft of at least \$6,000.00 as at June 30, 1913, if all bills have been presented, and there was an overdraft of approximately \$4,000.00 more on the general park accounts.

The management of children's quarters is extravagant and wasteful. The bookkeeper's accounts are much behind and do not reflect the actual transactions. The segregation of expenditures is arbitrary and frequently at complete variance with facts. The inability of the secretary to maintain properly the Revolving Fund Account speaks for itself. Since Mr. McLaren has been relieved of the responsibility for children's quarters, Museum and Beach Chalet, these departments appear to have been without responsible heads, and it is urgently recommended that the Park Commission take some steps to give these departments closer supervision.

The claim frequently made that the amount of money allowed for park purposes in the City of San Francisco is less than that allowed by other cities of smaller size is completely refuted by the accompanying charts which were prepared from the basis of the census report "Statistics of Cities Over 30,000—1910", where it is shown that San Francisco spends more than most cities of the United States for park purposes.

In this connection it should be remembered that San Francisco is necessarily under less expense on account of mild winters, than are the Eastern cities with whom comparison has been made in the recent park report.

A careful examination of over 100 reports from Park Commissions in various parts of the country shows it to be impossible to prepare there-

from any kind of a comparative statement. This is owing to the lack of uniformity in general information as well as in the financial statements presented. The best financial reports are those of the Lincoln Park (Chicago) Commissioners for the year 1910 and the South Park (Chicago) for the year 1911. The latter is particularly valuable and interesting in that the attendance records of various features of the park are stated.

Your particular attention is directed to the charts submitted covering statistics of eleven largest cities, of the cost of park maintenance and construction of children's quarters, receipts and expenses. An endeavor has been made to present in condensed form valuable information available only by close study of many statistical tables.

Detailed consideration of the important findings of this examination are taken up in the general report which succeeds the exhibits and charts.

Faithfully yours,

(Signed) WILLIAM DOLGE,  
Certified Public Accountant.

*General Report.*

This is a report on the general examination of the accounts and transactions of the Board of Park Commissioners for the fiscal year 1912-1913, and special investigation of certain departments for longer periods.

In the report made by me to the Board of Park Commissioners on August 23, 1909, it was recommended that Mr. McLaren be relieved of responsibility for the operation of children's quarters, beach chalet and the museum. This recommendation was adopted, and since that time those three departments appear to have been without supervision.

The improvement in ordering, receiving and accounting supplies for Golden Gate Park and the small parks has been marked. The Superintendent has co-operated to the extent of his power, but it is quite evident that the accounting procedure as installed by Mr. Allan Munro meets with the approval of the park bookkeeper as little as that introduced by me. The following quotations from the report of 1909 hold with equal force today:

"The accounts as now kept indicate disbursements under the various segregations only in a general way and no attempt is made to determine in what manner the expenditures for park purposes affect the revenues."

"The distribution of expenditures is arbitrary and it is doubtful whether from the records at hand, it is possible to determine with any

degree of accuracy true costs of maintenance and construction."

"The accounts of the Park Commission have not been in reconciliation with those of the Auditor of the City and County for many years, a condition which is deplorable and inexcusable because the accounting of the park funds is so simple and readily susceptible to check."

There is no proper accounting of the delivery to and receipt of materials and supplies at the children's quarters, although there is a proper method provided. With reference to accounting of material demands of children's quarters, and labor demands, generally there is considerable duplication of effort and very little real check upon the expenditures. The requisition is merely a troublesome form so far as its use by children's quarters is concerned.

It is unfortunate that the accounting procedure introduced in 1909 has not been continued. That procedure was based upon a budget and an appropriation system and would have been a model for a complete double-entry system of accounts for the city as a whole. It was not an experiment in accounting, because the method has been used most successfully to account \$9,000,000.00 of receipts and disbursements of the Relief Corporation. The budget method has since been introduced and is used with marked success in the cities of Pasadena, Vallejo, Sausalito, Hayward, etc., showing its adaptability to cities both large and small. The change to the procedure based upon cash receipts and cash disbursements, instead of revenues and expenditures, was a step backward without serious consequences, provided the accounts are properly maintained as outlined by Mr. Munro. In subsequent paragraphs reference will be made to careless and arbitrary entries. In view of the fact that the clerical work done by the bookkeeper does not require over two hours' time daily, the Board is not unreasonable in requiring the accounts to be accurate and up to date.

#### Consideration of the Exhibits.

Cash Statement: The cash statement submitted is as prepared from the park ledger, the accounts of which are known to be incorrect and misleading:

#### RECEIPTS.

Ledger balance July 1, 1912.	\$ 2,881.57
Taxes	358,046.97
General fund appropriations	27,950.00
Children's quarters	37,760.10

Beach chalet	2,960.50
Sundry	2,865.39
	<u>\$432,464.53</u>

#### DISBURSEMENTS.

Park maintenance and administration, etc.	\$297,146.79
Construction	91,297.62
Children's quarters	35,295.39
Beach chalet	2,923.70
May Day, 1912.	508.54
May Day, 1913.	792.06

Ledger balance June 30, 1913	4,500.43
	<u>\$432,464.53</u>

From this statement it appears that children's quarters have been operated at a profit of \$2,500.00 when as a matter of fact there were over \$6,000.00 of unpaid bills on June 30, 1913. In a like manner the beach chalet is made to show a small profit. The ledger balance shows \$4,500.43 as at June 30, 1913, but this is purely arbitrary and created only by withholding bills that should have been entered. Without restating all of the business of the fiscal year just closed, it is impossible to present a complete and correct statement and hence we have accepted the accounts as they appear upon the park ledger. The total amount spent for construction purposes in small parks was \$34,289.43, of which \$24,450.00 was from the General Fund appropriations.

#### Exhibit 2—Maintenance Disbursements.

The classification of the disbursement accounts appear to be very arbitrary and in some instances impossible of proper comparison with prior or subsequent periods. A classification of the maintenance accounts according to location in the park would be both practical and simple. A suggested classification follows:

1. Great Highway
2. West End
3. Stadium Center
4. West Center
5. Stow Lake
6. Music Stand
7. Recreation Grounds
8. East End
9. Park Lodge
10. Panhandle
11. Presidio Parkway
12. Roving

This would appear a more logical classification than that shown on Exhibit 2 for the accounts designated as follows:

1. Tennis Courts

2. Roads and Walks
3. Grounds
4. Stadium
5. Presidio Parkway
6. Drains
7. Rolling stock and implements

Why the tennis courts should have been singled out for classification purposes while the recreation grounds, the bowling green and other pleasure spots are merged in "Grounds," does not appear. An ideal accounting procedure would show up each separately, but until such time it is suggested that more information will be available to the superintendent and to the Park Commission from the classification suggested, than from the classification now in use.

The remaining maintenance accounts should appear as follows:

13. Main Water Works
14. Wind Mills
15. Stables
16. Nursery
17. Conservatory
18. Forests
19. Zoo
20. Repair Shop
21. Buildings and Structures
22. Roads

This classification may be subject to some revision after consideration with the Superintendent. The classification should be a practical one and designed primarily to develop the information that is of value to the Superintendent. It is submitted that the maintenance accounts of Golden Gate Park (Exhibit 2) as taken from the park ledger showing the disposition of \$180,625.66 for the fiscal year just closed is little better than a jumble of figures.

*Exhibit 3—Maintenance—Small Park.*

The distribution of disbursements for small parks practically includes all expenditures and gives a true picture of the cost of operating each park for one year. \$21,380.92 of the cost of material is for water. Other material cost \$1,363.57. In connection it is suggested that the small parks might be able to use water from the high pressure system at a considerable reduction of cost. Golden Gate Park receives no credit on the books for plants and other supplies furnished to small parks.

Attention is directed to the so-called general account near the bottom of the exhibit showing disbursements aggregating \$962.64 not distributed.

*Exhibit 4—Construction Disbursements—Golden Gate Park.*

It would appear to be more logical and a more readily understood statement to have located the costs of the

swings, seesaws, etc., to the particular playground at which they are installed. To include the labor of installing electric light poles under general heading of "Buildings and structures" and to capitalize the disbursement on account of their erection is extraordinary bookkeeping. Note also \$123.00 for cement arbitrarily included in the cost of buildings and structures.

The expenditure for the water works shows \$8,743.54 for the sumps. It would be interesting to know just how much the water works have cost during the last ten years.

Note that the construction cost of roads and walks is almost entirely for the Great Highway and that construction cost of grounds includes \$2,795.00 of undistributed items in "general."

*Exhibit 5—Construction Disbursements—Small Parks.*

Like the maintenance accounts of the small parks, the construction accounts appear to be fairly correct and representative of true conditions. Attention is directed, however, to some of the smaller items which on a more conservative basis would have been charged to maintenance.

*Exhibit 6—Comparative Statement of Disbursements and Park Budget.*

A comparison of the figures shown for the park budget and the actual disbursements will develop a remarkable coincidence that the sub-total of maintenance disbursements is \$307,820.00 for the park budget and \$307,235.18 for the disbursements. In the park budget, however, no provision has been made for maintenance expense of the Great Highway, Stadium, Presidio Parkway, Nursery and May Day. These five items add \$29,431.30 to the budget estimate. Comparison with the individual items will indicate that in many instances the budget is presented merely in compliance with Charter requirements. Obviously, the budget as submitted cannot have been intended for use as an administrative guide.

This view is confirmed by an examination of the summary wherein it appears that the budget requests aggregate \$685,320.00 or over 60 per cent more than actual disbursements for the current year. Attention is directed to the expenditure on construction account.

*Exhibit 7—Park Revolving Fund, 1908 to 1913.*

This is a transcript of the additions and the deductions on the revolving fund cash book kept by the secretaries from January 1, 1908, to July 1, 1913. It is a fair sample of the accounting of funds. Ordinarily

a revolving fund is an even sum of resolution by the Board. The addition, and is increased only upon that of \$2.50 in January, 1909 (Secretary Healy), was irregular; the receipt should have been deposited in the Treasury. The addition of \$400.00 in March, 1910 (Secretary Lomasney), out of funds deposited in the Mission Bank was irregular, both as to deposit and withdrawal from bank, as well as addition to revolving fund. The addition of \$100.00 in July, 1911, for Museum fund was proper. The deduction in August, 1911, of \$193.85, paid Burt La Rue, manager children's quarters, account of overdeposit, was improper and without authority. The overdeposit should have been corrected by drawing a demand upon the Treasury for the amount overdeposited, or by withholding a similar amount from the next deposit. In the final settlement of his account Secretary Lomasney apparently forgot to remove \$5.70 from the cash box, so that the total amount turned over to Secretary De Succa in March, 1912, was \$537.99. At the very commencement of Secretary De Succa's term \$50.40 is added to the revolving fund (in cash book), being the February, 1912, expenses of the museum twice added. This error was not corrected until July, 1913, when the amount was deducted. Likewise in July, 1913, there was entered on the cash book \$100.00 account of children's quarters revolving fund, which should have been added to the fund on the cash book in March, 1912, and \$145.25 which was erroneously collected by Mr. De Succa on a demand against the park fund.

From the foregoing it appears that at no time since March, 1912, has the cash book of the revolving fund reflected the fund's true condition.

*Exhibit 8—Revolving Fund Cash Receipts and Disbursements, March 1, 1912, to June 1, 1913.*

This exhibit is a condensed statement of revolving fund cash receipts and disbursements to show clearly that the payment of \$145.25 to Secretary De Succa in April, 1913, was in error and not a reimbursement as claimed. As noted above from the very first month of Mr. De Succa's term the cash book was wrong, being \$50.40 over on account of museum expenses, and \$100.00 short on account of the children's quarters revolving fund. On May Day, 1912, Mr. La Rue deducted \$145.25 from the day's receipts to pay extra labor, and as a voucher he submitted a receipted list of employees paid. The Secretary made the proper deposit in the City Treasury and subsequently mislaid the receipted list. In

April, 1913—nearly one year later—the receipted list was again found, and without further investigation was made the foundation for a demand in favor of Secretary De Succa in the sum of \$145.25. It is submitted that after making due allowance for the Secretary's extraordinary error, it was clearly the book-keeper's duty to investigate this demand, which would have led to the discovery of the facts as stated. No account of the revolving fund appears on the park ledger, hence it was suggested to Mr. De Succa to account the repayment of the \$145.25 on the revolving fund cash book, to which suggestion Mr. De Succa promptly acceded.

In my opinion \$783.24 is entirely too large a revolving fund. The fund at the children's quarters, \$100.00, showed an average on the day of examination, containing some of Mr. La Rue's private moneys. This fund should be increased to \$150.00 to meet demands for extra help. The fund at the museum, \$100, was reported to contain \$10.00 on the day of examination, the curator, Mr. Barron, being absent on a vacation and collection expedition. The museum fund should be reduced to \$25.00, which will be ample for all emergency purchases. The office fund (\$583.24) should be reduced to \$325.00, a sum that will be found sufficient to pay all expressage, freight and other items of an emergency nature that might occur from month to month. The summary would show:

Office—Superintendent and	
Secretary .. .. .	\$325.00
Children's quarters .. . . .	150.00
Museum .. . . .	25.00

Total .... \$500.00

The balance, \$283.24, should be deposited in the Treasury at once.

*Exhibit 9—Statement of Account with the Mission Bank.*

Under the provisions of Section 6, Article 14, of the Charter: "They (the Park Commissioners) shall have the exclusive management and distribution of all funds legally appropriated or received from any source for the support of said parks, squares, avenues and grounds." But this section is qualified by Section 8, which provides:

" \* \* \* All moneys that may be derived from such donations, legacies and bequests shall, unless otherwise provided for by the terms of such gift, legacy, or bequest, be deposited in the Treasury of the City and County to the credit of the park fund. \* \* \* If the money derived from such gifts, bequests or

legacies shall at any time exceed in amount the sum necessary for immediate expenditure on said park, squares, avenues and grounds, the Board shall invest all or part of the same in interest bearing bonds of the United States, or of the State of California or of any municipality thereof."

Obviously then all receipts, other than donations, legacies and bequests, must be deposited in the Treasury of the City and County and hence the opening of an account at the Mission Bank with the proceeds of a permit for dumping sand in February, 1910, was distinctly irregular, although in accordance with the resolution of the Board. The withdrawal in May, 1910, of \$400.00 for Secretary Lomasney's revolving fund was improper, as were all subsequent deposits to the account. The deposits represent the proceeds of the sale of elk, buffalo, deer and kangaroo, rent of vegetable garden, refund on cement sacks, payment of labor performed in the park for San Francisco Gas Company, Pacific Telephone and Telegraph Company, United Railroads of San Francisco, park program privilege, sale of wool, rebates from the San Francisco Gas Company and an unknown item of \$25.00. The aggregate deposits of the three years are \$2,897.44 of which \$2,494.55 was deposited in a period of fifteen months.

In November, 1911, a check for \$2,094.55 was drawn and cashed and a deposit of this amount made in the Treasury. This amount is the sum of the deposits made to May 18, 1911, less \$400.00 drawn out for the revolving fund. The only other disbursement was a check drawn on account of Mike Stavros, an injured employee, \$140.00, leaving a balance of \$260.89 in the Mission Bank as of September 25, 1913.

The payment to Mike Stavros is irregular. The procedure in cases of this character is defined. The balance now at the Mission Bank should be withdrawn and deposited in the Treasury.

*Exhibit 10—Account with Donohoe-Kelly Banking Co.*

The opening of the account in the Donohoe-Kelly Banking Company is not noted in the minutes. I venture the opinion that the deposit of the check of Monson Bros., \$750.00 (made on account of their bid), was unnecessary. The payment to Mrs. L. F. M. Haley on account of miniature lost in the museum is no doubt in order, but the payment should have been made in the regular way. The Finance Committee will recognize rejected item of \$28.00 paid Purity Water Company from this account in

February, 1913, for water bills at museum incurred in 1911 and 1912. A curious commentary on park bookkeeping is the fact that the correct sum of the Purity Water Company's bill was \$28.50 and not \$28.00, the amount of the check.

An additional payment to Mike Stavros (injured employee) of \$164.00 is made from this account, making a total payment to Stavros of \$304.00. The balance of \$8.00 in this bank should be withdrawn and deposited in the Treasury.

*Exhibit 11—Summary of Banking Accounts.*

In addition to the two active accounts above noted the Park Commissioners have two dormant accounts. The account in the Bank of California, \$698.36 dates back to July 1, 1903, and is reported to be balance of donation for "De Laveaga Dell." In a savings bank compounded at 4 per cent this deposit would now amount to \$1,003.57, or \$335.21 more than the deposit ten years ago. On October 22, 1913, a check for \$142.50 was drawn on the Anglo-California Trust Company for expenditure account "De Laveaga Dell," for ferns from Honolulu. The withdrawal should have been from the Bank of California account.

In November, 1908, \$375.00 was deposited in the First National Bank and withdrawn in the same month. No other data or information on this account has been available.

Since January, 1907, no withdrawals have been made against the balance of the amount donated for a trotting course in the stadium, \$1,290.50, deposited in the Anglo-California Trust Company, until the erroneous withdrawal noted above. Insofar as information is available there are no restrictions relative to the deposit of the donation for "De Laveaga Dell" or for the trotting course at the stadium, and it is recommended that these bank accounts be closed and the money deposited in the Treasury. I have made inquiry at every commercial and savings bank and trust company in San Francisco and certify that no other moneys are reported on deposit for account of the Park Commission.

None of these bank accounts appear on the park ledger or any of the park books. There is no record anywhere to indicate their existence, an indication of faulty bookkeeping and indifferent secretarial work. In this connection it is urged that as a matter of record some mention should appear on the park books of the bequest made to Commissioners Lloyd and Spreckels of certain lands in San Mateo County for park purposes.

*Exhibit 12—Analysis of Disbursements—Children's Quarters—Classified as Monthly Expenditures, May 1, 1912, to June 30, 1913, as Prepared from the Register of Demands.*

No exhibit will show up so clearly this unbusinesslike manner of conducting children's quarters as Exhibit 12 and the corresponding graphic chart, No. 6. Labor is paid and charged in the month the service is rendered, but supply bills string out over a period of from four to six months or a year.

For example, in August, 1912, supply bills amounting to \$3,006.24 were charged on the demand register. These applied as follows:

Prior to April 30, 1912....	\$33.75
May Day, 1912 .....	75.00
May .....	587.85
June .....	738.54
July .....	1,421.10
August .. .....	150.00

Total .....

The bills incurred in August, 1912, were charged on the demand register as follows:

In August, 1912.....	\$150.00
September .....	1,116.99
October .. .....	1,380.43
November .. .....	154.53
December .. .....	48.00
January, 1913 .....	9.80

Merchants are compelled to wait usually sixty days, often ninety days, and sometimes four months or more for payment of supplies furnished children's quarters. The prices of supplies furnished indicate that this long wait is taken into account and it is probably not unfair to assume that advantage is taken of careless buying and receiving methods. Not less than \$409.04 of expenses incurred on May Day, 1912, were paid in the fiscal year 1912-1913, the last item being entered in April, 1913—one year later.

Comparison of expenditures incurred for May Day, 1912, May and June, 1912, with the corresponding accounts for 1913 shows that at least \$6,000.00 of liabilities of the current year 1912-1913 are not reported. The requisition system—which requires the return of the original requisition with the invoice—and is designed to prevent unintentional approval or payment of duplicate bills, is made a travesty of system at children's quarters. At children's quarters the requisition is made out *after* the bill has been received. It is made out

because otherwise neither the Secretary nor the bookkeeper will approve the bill. The requisition form appearing, the demand is passed for approval. No accounting procedure can succeed if the underlying principles of the integrity of the accounting are ignored, and the empty form is followed. To cite a few glaring examples:

255—John G. Ills & Co.—Copper milk boiler. Bill dated February 27, 1912. Requisition dated August 19, 1912.

215—Charles Brown & Sons—Bills of April, May and June, 1912. Requisition dated July 3, 1912.

282—Searle & Hayman—Lumber bill, dated March 29, 1912. Requisition dated August 30, 1912.

82—Walter N. Brunt Co.—Printing bill, dated January 8, 1912. Requisition dated October 7, 1912.

203—Heyman-Weil Co.—Sundry supplies furnished in March, June, July, September and October, 1912. The bill, \$115.60, is dated December 11, 1912. The requisition (No. 7123), is dated June 7, 1912, but could not have been written until December, 1912, because requisition No. 7122 is dated November 30, 1912, and No. 7124 is dated December 12, 1912.

286—Jos. Fredericks & Co.—Bills, \$75.75, of July and August, 1912. Requisition dated September 11, 1912, which included item already requisitioned, \$67.65, on July 29th. The duplication was discovered by the park bookkeeper and only \$8.15 was paid on the second bill. The correct amount should have been \$8.10.

As a final flagrant example of back dating requisitions must be noted No. 7128, dated March 2, 1912, in favor of Union Seltzer Water Company, for items from March to September, 1912. This requisition could not have been issued until December, 1912, or January, 1913, since the requisitions immediately preceding are in December, 1912. It must further be evident that it is hardly possible to forecast the amount of seltzer water used from March to September, and that in no event should the requisition have covered items for delivery beyond the end of the fiscal year.

*Exhibits 13 and 14—Receipts and Expenditures at Children's Quarters, May, 1912, to April, 1913, Classified for Comparison.*

These exhibits are to be considered together with chart No. 7 in which the essential information is graphically shown. The year at children's quarters commences with May Day and hence that has been taken as the beginning. Your attention is di-

rected to the total receipts from restaurant, picnic cafe, candy stand and cornucopias, \$29,254.40, against expenditures of \$29,619.00, showing a loss on operation of \$364.60. But if it is remembered that \$15,578.05 of the total receipts (55 per cent) are almost equally divided between the picnic cafe and candy and cornucopias, it becomes evident that the loss in the restaurant must be a very heavy one (not less than \$3,000.00), to absorb all the profit in the other departments.

Despite the reduction of the price of tickets from 2 for 5 cents to 3 for 5 cents for the merry-go-round and the donkey-run, these prove most profitable enterprises. The total receipts for the period were \$8,728.50, as against expenses of \$5,689.00, leaving a net profit of \$3,039.50 in spite of the fact that the merry-go-round has been bearing an excessive labor charge during the past year.

#### *Contracts.*

I can see no good reason why the park should not join other city departments in the annual contract for supplies. The advantage would be entirely with the Park Commission, having a larger list of articles to select from, and saving the expense and the work in connection with independent bids and awards. In its own departments occasional absurdities occur, as for example:

March 11, 1912, the museum bought a case of Sapolio from F. M. Kaiser, Seventh avenue and Clement street, for \$5.00.

December 2, 1912, the Superintendent bought a case of Sapolio from Wm. Cluff Co. for \$4.50. (The Superintendent obeyed the procedure and shopped for prices. The museum did not.)

The museum paid \$3.50 for Brilliant Shine, the Superintendent \$3.15, the beach chalet bought "one tin" for 25 cents.

The Superintendent bought 2 dozen Gold Dust at \$2.25. The beach chalet bought one dozen at \$2.50.

The museum bought 2 cases Babbitt's soap for \$8.50; children's quarters bought one box Ivory soap for \$8.00; beach chalet bought 12 bars Home soap for 50 cents; children's quarters bought one case Ivory soap for \$4.50.

The beach chalet buys toilet paper in lots of one dozen rolls at 90 cents, the Superintendent is buying better paper at \$7.50 per case. This is a lack of co-ordination manifested in the accounts that should have been brought to the attention of the Park Commission by the Secretary or the bookkeeper long ago.

Frequently minor bills for nails,

putty, paint, files, locks, etc., are noted. These supplies ought to be furnished and no doubt would be furnished by the repair shops if requisitions were made.

Children's quarters supplies aggregate about \$21,000.00 per year, a considerable amount of which could and should be contracted for. Many of the items used appear on the city contract schedule, certain special items could be added to good advantage.

#### *Bookkeeping.*

The work of the bookkeeper is slipshod, inaccurate, arbitrary. At the beginning of this examination the summary account was out of balance by \$1,751.46. This necessitated a check to locate the difference; the error was dismissed by the bookkeeper because "it would have been found at the end of the year."

An interesting example of arbitrary change in classification is shown in museum expenses for February, 1912, \$50.40 charged as "general expenses;" exactly similar items for March, 1912, \$47.73, are charged as "sundries." In October, 1911, an item for feed, \$47.31, is entered in the demand register as a charge to "stables," in the ledger the item appears under "Roads and Walks." Resultingly the whole structure of classification falls. No dependence can be placed upon any figure submitted. Since the books are not in reconciliation with the City Auditor, the door is open to fraud, and undoubtedly only the painstaking attention of President W. H. Metson to details that should be watched and corrected by the Secretary and the bookkeeper has prevented flagrant error and fraud.

According to the records of the fiscal year 1912-1913 the unpaid bills of 1911-1912 amounted to \$12,608.28. These were paid in 1912-1913. To meet them there was a ledger balance of \$2,881.57, so that there was a ledger over-draft on July 1, 1912, of \$9,726.71.

The overdraft on July 1, 1913, was certainly not less, as the coming year will demonstrate. The incurring of liabilities in excess of revenues is against Charter and constitutional provisions. It can be avoided by proper accounting.

#### *Recommendations.*

The salary of the Secretary is \$175.00 per month, the salary of the bookkeeper \$125.00 per month. The duties of both could easily be combined in one person and at \$200.00 a month a suitable man should be available. With the assistance of the stenographer—a very capable young lady—the work of the office will be done more efficiently.

The adoption of the budget appropriation system of accounting and the establishment of a general ledger upon which accounts will be kept with revolving funds, special deposits, gifts, bequests and other assets of the park, I am quite satisfied that any accountant selected by the Park Commission will approve the procedure I have formulated.

The preparation of the park report to be part of the Secretary's duties. Last year's report cost \$1,282.33. The report to be published biannually and to be a continuous narrative of park activities.

The monthly reconciliation of the park accounts with those of the Auditor.

Introduction of simple accounting methods at children's quarters and close watch on costs. Installation of a receiving system insuring proper check, weight and count on all goods received. Children's quarters should receive the special attention of the commissioner.

Elimination of duplicate work in pay roll distribution, either discontinuing secretary's ponderous record, or the small books of the superintendent's clerk. Only one is necessary.

Purchase of supplies under city's

general contract. Storage of supplies at Park Lodge or other suitable place, for delivery to children's quarters, Beach Chalet and Museum.

Sale of park postal cards at Lodge, Museum, children's quarters and Beach Chalet. Introduction of public telephone at various points in the park, stadium, Beach Chalet, etc.

Charge a small fee for the storage of model yachts.

Acquire a clay deposit, a rock quarry. Both will become increasingly valuable.

Examination into the salaries and wages of employees, to determine who are favored with perquisites in the shape of free rent, light, fuel, water and vegetables, etc.

In conclusion, I beg to acknowledge courteous co-operation of President W. H. Metson and Superintendent McLaren in this examination and investigation.

**Extension of Vulcan Street.**

Resolution No. 10640 (New Series), as follows:

Whereas, On the 22d day of September, 1913, the Supervisors of the City and County of San Francisco duly and regularly and finally passed Resolution No. 10417 (New Series), which resolution was, on the 24th day of September, 1913, duly and regularly approved by the Mayor of the City and County of San Francisco, and said resolution being in words and figures as follows, to-wit:

Resolution No. 10417 (New Series).

Resolved, That it is the intention of the Board of Supervisors of the City and County of San Francisco to order the extension of Vulcan street as follows:

That said Vulcan street be produced and extended from its present easterly termination through Horner's Addition Block No. 201 to a uniform width of forty-one and sixty-seven hundredths (41.67) feet to the westerly line of Ord street in the City and County of San Francisco, as said street is laid out and delineated upon the official map of the City and County of San Francisco:

The lands and property deemed necessary to be taken for said extension of said street are described as follows:

All those certain lots, pieces or parcels of land situate, lying and being in the City and County of San Francisco and particularly described as follows, to-wit:

Description of property to be acquired for the extension of Vulcan street from the present easterly termination of Ord street.

Commencing at a point on the westerly line of Ord street distant thereon 424 feet  $7\frac{3}{4}$  inches northerly from the northerly line of Seventeenth street; thence northerly and along said westerly line of Ord street 41 feet 8 inches; thence at right angles westerly 136 feet to the easterly boundary of the Park Lane Tract; thence at right angles southerly and along said easterly boundary of the Park Lane Tract 41 feet 8 inches; thence at right angles easterly 136 feet to the westerly line of Ord street and the point of commencement; being a portion of Horner's Addition Block No. 201.

And said Board of Supervisors does hereby determine and declare that said proposed extension of Vulcan street is of more than local or ordinary public benefit and will affect and benefit the lands and district hereinafter described and which said district is hereby declared to be the district affected and benefited by said extension and that therefore the entire damages, costs and expenses of said extension shall be and are hereby made chargeable against and shall be assessable upon said lands and district, which lands and district are within the City and County of San Francisco, State of California, and the exterior boundaries of said lands and district affected and benefited by said extension are particularly described as follows:

Description of lands benefited by and to be assessed for the opening of Vulcan street from its present easterly termination to Ord street.

Commencing at the intersection of the westerly line of Ord street with the southerly boundary of the San Miguel Rancho; thence westerly and along said southerly boundary of the San Miguel Rancho 415 feet, more or less, to the easterly line of Juno street; thence southerly and along said easterly line of Juno street 205 feet  $1\frac{1}{8}$  inches to the northerly line of Lower Terrace; thence easterly and along said northerly line of Lower Terrace 122 feet  $2\frac{3}{4}$  inches; thence easterly and along the southerly line of Lot No. 11, Block "U", Park Lane Tract. 105 feet  $4\frac{3}{4}$  inches to the westerly line of Lot No. 13; thence southerly and along said westerly line of Lot No. 13, 74 feet, more

or less; thence easterly 75 feet; thence northerly 67 feet, more or less; thence easterly 136 feet to the westerly line of Ord street; thence northerly and along said westerly line of Ord street 100 feet, more or less, to the southerly boundary of the San Miguel Rancho and the point of commencement.

Said extension of Vulcan street shall be done in pursuance of Chapter III of Article VI of the Charter of the City and County of San Francisco and shall be done in the manner and in accordance with the provisions of Section 2 and the sections following Section 2 of said Chapter III of Article VI of said Charter of the City and County of San Francisco.

Finally Passed—Board of Supervisors, San Francisco, September 22, 1913.

Ayes—Supervisors Bancroft, Caglieri, A. J. Gallagher, G. E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, Murdock, Murphy, Nolan, Payot.

Absent—Supervisors McLeran, Vogelsang.

JOHN W. ROGERS, Acting Clerk.  
Approved, San Francisco, September 24, 1913.

JAMES ROLPH, JR., Mayor.

And whereas, The Clerk of the Supervisors of the City and County of San Francisco did transmit to the Board of Public Works of the City and County of San Francisco a certified copy of said resolution, and the said Board of Public Works did, upon receipt of said resolution, cause to be posted in the manner and as required by law, notices of the passage of said resolution and did also cause, in the manner and as required by law, a notice, similar in substance, to be published for a period of ten days in the official newspaper of the City and County of San Francisco;

And whereas, Certain persons interested, either objecting to said improvement or to the extent of the district and lands to be affected and benefited by said improvement and to be assessed to pay the costs and expenses thereof, or to both, did make objections to the same within ten days after the expiration of the time of said publication of said notice, which objections were delivered to the Clerk of the Supervisors who endorsed thereon the date of their reception by him and at the next meeting of the Supervisors after the expiration of said ten days, did lay said objections before the Supervisors, who thereupon fixed a time for hearing said objections, viz.: the 5th day of January, 1914, at the hour of

3:00 p. m. of said day, which time was not less than one week, after said meeting of said Board of Supervisors;

And whereas, The Clerk of the Supervisors did notify the persons making said objections by depositing a notice of said hearings in the post office, postage prepaid, addressed to such objectors;

And whereas, At the time specified for the hearing of said objections the Supervisors did hear the objections urged and did overrule said objections;

And whereas, The public interest and convenience requires said improvement to be done as specifically described in said Resolution No. 10417 (New Series);

And whereas, The Supervisors have acquired jurisdiction to order that said Vulcan street be extended as aforesaid and as specifically described and proposed in said Resolution No. 10417 (New Series);

Now therefore, Be it Resolved, that it be ordered, and it is hereby ordered, that said Vulcan street be extended as aforesaid and as specifically described and proposed in said Resolution No. 10417 (New Series); and

Be it Further Resolved, That the lands and property described in said Resolution No. 10417 (New Series), and declared to be deemed necessary to be taken for said extension of said street, be taken for said extension; and

Be it Further Resolved, That the entire damages, costs and expenses of said extension be and they are hereby made chargeable against and shall be assessable upon the lands and district described in said Resolution No. 10417 (New Series), as being the lands and district affected and benefited by said extension and against which the entire damages, costs and expenses of said extension should be made chargeable; and

Be it Further Resolved, That said extension of Vulcan street be done in pursuance of Chapter III of Article VI of the Charter of the City and County of San Francisco and in the manner laid down in and in accordance with the provisions of Section 2 and the sections following Section 2 of said Chapter III of Article VI of said Charter.

Also, Resolution No. 10644 (New Series), as follows:

Whereas, An action in condemnation has been instituted in the Superior Court, Department No. 1, entitled "City and County of San Francisco vs. The Hotaling Estate Co. et al", being Action No. 50106, for the acquisition by the City and County of certain land situate at the intersection of the easterly line of the Great Highway with the southerly line of Cabrillo street, of dimensions 197 feet  $2\frac{1}{4}$  inches by 80 feet, required as a site for the western terminus of the Municipal Railway, and

Whereas, The owner of said property has tendered an offer to the City Attorney to sell the entire property to the City for the sum of \$40,000.00, and

Whereas, The offer is considered an equitable and fair price within the appraised value of the property, and would be advantageous to the City to own the entire strip; therefore be it

Resolved, That the City Attorney be authorized and requested to purchase the entire property for and in behalf of the City and County, free of all incumbrances, including taxes for the current fiscal year, with the so-called McEnerney title thereto or the reservation of sufficient moneys to obtain the said title, for the sum of \$40,000.00, the land being situate and described as follows:

Commencing at a point formed by the intersection of the easterly line of the Great Highway with the southerly line of Cabrillo street; running thence easterly along said southerly line of Cabrillo street 197 feet  $2\frac{1}{4}$  inches, more or less, to the westerly line of La Playa; thence at a right angle southerly along said westerly line of La Playa 80 feet; thence at a right angle westerly 197 feet  $2\frac{1}{4}$  inches, more or less, to the easterly line of the Great Highway; thence northerly along said easterly line of the Great Highway 80 feet to the southerly line of Cabrillo street and point of commencement; and be it further

Resolved, That the City Attorney be and is hereby authorized and directed to cause the dismissal of condemnation proceedings pending in the Superior Court as hereinbefore referred to.

#### Extension of Time.

Resolution No. 10649 (New Series), as follows:

Resolved, That Fay Improvement Company is hereby granted an extension of sixty days' time from and after December 6, 1913, within which to complete, under private contract, the street work on Balboa street, between Twenty-fourth and Twenty-fifth avenues.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that the larger portion of the grading is finished and a part of the sewer.

The contractor has been unable to complete the work owing to the inclement weather.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Also, Resolution No. 10650 (New Series), as follows:

Resolved, That G. W. McGinn & Co. are hereby granted the following extensions of time to complete street work:

Sixty days' time from and after De-

cember 9, 1913, to complete street work on Wisconsin street, between Twenty-second and Twenty-third streets.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that the work is nearly completed, but owing to the inclemency of the weather, the contractor has been delayed in the prosecution of the work.

Ninety days' time from and after December 14, 1913, to complete the contract for the paving of San Bruno avenue, between Twenty-fifth street and Oakdale avenue.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that the contractor has been delayed by various causes in the progress of the work, one being the reconstruction of the United Railroad tracks.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Also, Resolution No. 10651 (New Series), as follows:

Resolved, That the City Street Improvement Company is hereby granted the following extensions of time to complete street work:

Thirty days' time from and after December 27, 1913, to complete paving and curbing Lawton street, between Seventh and Eighth avenues.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the grading has been done, but the contractor has been delayed owing to the inclemency of the weather.

Sixty days' time from and after December 17, 1913, to complete the paving and curbing of Ocean avenue, between Lee and Harold avenues.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that the concrete curbs have been constructed, and as there was considerable grading and because of the inclement weather, the contractor has been delayed in the prosecution of the work.

Sixty days' time from and after December 27, 1913, to complete the paving, curbing and sewerage of Balboa street, between Fourteenth and Fifteenth avenues.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that the sewerage and grading has been completed, but owing to the inclemency of the weather the contractor has been delayed in the prosecution of the work.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks,

Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Also, Resolution No. 10652 (New Series), as follows:

Resolved, That Flinn & Treacy are hereby granted the following extensions of time to complete certain street work:

Ninety days' time from and after December 15, 1913, to complete paving of Maynard street, between Mission and Craut streets.

Ninety days' time from and after December 15, 1913, to complete the improvement of the crossing of Maynard and Craut streets.

Ninety days' time from and after December 15, 1913, to complete the curbing and paving of Maynard street, between Congdon and Craut streets.

These extensions of time are granted upon the recommendation of the Board of Public Works, for the reason that the contractors have been delayed on account of change of grades ordered on the above streets.

Sixty days' time from and after December 6, 1913, to complete contract for paving and curbing the City's frontage on Buena Vista avenue, between Buena Vista Terrace and Java street.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that the contractor was delayed in the work by reason of the inclemency of the weather.

Ninety days' time from and after December 13, 1913, within which to complete contract for the curbing and paving of the northerly half of Lincoln way and Forty-first avenue to the Great Highway, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that the contractors were delayed on account of the railroad company reconstructing tracks at the time.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Also, Resolution No. 10653 (New Series), as follows:

Resolved, That Blanchard-Brown Company is hereby granted an extension of thirty days' time from and after December 21, 1913, within which to complete contract for the improvement of Geary street, between Thirteenth and Fourteenth avenues, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that the work has been completed with the exception of the wearing surface for the pavement.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

#### Pole Permit, City Electric Co.

Also, Resolution No. 10637 (New Series), as follows:

Resolved, That the City Electric Company be granted permission to erect twelve poles on south side of Sixteenth street, from Kansas to Wisconsin streets, and five poles on the east side of Irwin street, from Wisconsin to Seventh streets, and place wires thereon, such installation to be done to the satisfaction of the Board of Public Works and the Department of Electricity.

This permission shall not be construed to grant any easement in said streets, and any rights herein granted shall be revocable at any time, and any property in said streets shall be removed upon ten days' notice by the Board of Supervisors.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Fixing Date for Hearing Protests Against Confirmation of Report of Board of Public Works for Change of Grade on Main Street.

J. R. No. 1066.

On motion of Supervisor McCarthy: Whereas, The Board of Public Works did on the 15th day of January, 1914, file with the Board of Supervisors the written report of said Board of Public Works of the damages and benefits resulting by reason of the change of grades on Main street, between Folsom and Bryant streets, and on Harrison street, between Spear and Beale streets; therefore be it

Resolved, That Monday, February 16, 1914, 3:00 p. m., be fixed as the day for all persons interested to show cause, if any they have, before the Board of Supervisors why the report of the Board of Public Works filed on the 15th day of January, 1914, should not be confirmed; and be it

Further Resolved, That the Clerk of the Board of Supervisors is hereby directed to publish for a period of ten (10) days a notice of the filing with the Board of Supervisors of the report of the Board of Public Works, that the 16th day of February, 1914, has been fixed as the day for all persons to show cause why such report should not be confirmed.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

### Mayor to Sell Scrap Iron Pipe and Steel Rails.

On motion of Supervisor Hilmer:

J. R. No. 1067.

Whereas, The Board of Public Works did, by their Resolution No. 27671 (Second Series), duly passed on the 22d day of December, 1913, recommend the sale of the following described personal property now stored at the Municipal Pipe Yard, Sixth and Hubbell streets, as unfit and unnecessary for the use of the City and County, viz.:

1. A quantity of scrap cast iron pipe, estimated at between 250 and 300 tons.

2. A quantity of scrap steel rails, estimated at between five and ten tons; therefore be it

Resolved, That the Mayor is hereby requested and authorized to sell the above described personal property at public auction after five days' advertising.

### Ordering Construction of Oriental School.

The following matter, heretofore passed for printing, was taken up:

Bill No. 2856, Ordinance No. — (New Series), Ordering the construction of the Oriental School on property belonging to the City and County, and situate on the southerly line of Washington street, distant thereon 137 feet 6 inches westerly from the westerly line of Stockton street; authorizing and directing the Board of Public Works to enter into contract for said construction, approving plans and specifications therefor, appropriating and authorizing the expenditure of \$120,800.00 out of School Construction Account, Public Building Fund, bond issue 1908, for said construction and for inspection, and permitting progressive payments to be made during the progress of said construction as provided by Section 21, Chapter I, Article VI of the Charter.

Be it Ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works is hereby authorized, instructed and empowered to enter into contract for the construction of the Oriental School building on property belonging to the City and County, and situate on the southerly line of Washington street, distant thereon 137 feet 6 inches westerly from the westerly line of Stockton street, of dimensions 137 feet 6 inches frontage by a uniform depth of 137 feet 6 inches, in accordance with plans and specifications prepared therefor by the Board of Public Works and on file in its offices, which

plans and specifications are hereby approved and adopted.

Section 2. The sum of one hundred and twenty thousand eight hundred dollars (\$120,800.00) for the construction and inspection of said Oriental School building is hereby set aside, appropriated and authorized to be expended out of the School Construction Account of the Public Building Fund, bond issue of 1908.

Section 3. The said Board of Public Works is hereby authorized and permitted to incorporate in the contract for the construction of said Oriental School building, conditions that progressive payments shall be made in the manner set forth in said specifications on file in the office of the Board of Public Works, and as provided by Section 21, Chapter I, Article VI of the Charter.

Section 4. This ordinance shall take effect immediately.

Passed for Printing—Board of Supervisors, San Francisco, January 7, 1914.

Ayes—Supervisors Bancroft, Cagliari, G. E. Gallagher, Giannini, Hayden, Hilmer, Hocks, Jennings, Koshland, Mauzy, McCarthy, McLeran, Murdock, Murphy, Nolan, Payot, Vogelsang—17.

No—Supervisor A. J. Gallagher—1.

### Privilege of the Floor.

*George Skaller*, representing the North Beach Promotion Association, was granted the privilege of the floor. He requested the return of the bill to the Building Committee in order that he might present suggestions as to selection of a site on Sacramento street. He said that he was not opposed to an Oriental School, but believed it should be more in the center of the Oriental district. He did not believe the Oriental district should be enlarged, the policy should be to reduce it. The Oriental district now has not one-fifth of the population it had many years ago and the result is an improvement in the North Beach district and there is less of a moral or sanitary menace from the living conditions of the Oriental population. A second reason is that the North Beach property owners wish to see Stockton street as the western boundary of the Oriental district otherwise property of the whites will depreciate. He believed his suggestion should at least be given some investigation.

*J. H. Condon*, property owner, stated that he had no ulterior motives in his opposition to the Washington street site for the Oriental School. He said he sought only the peace of the neighborhood and the good of the public schools. If the Board in its wisdom decides against his protest he will abide by its decision.

*J. Creyer*, proprietor of grocery at corner of Jackson and Powell streets, said that the white boys and Chinese boys fight day after day, break windows and are a menace and nuisance to the neighborhood.

*Thos. H. McCarthy*, principal of the Washington Grammar School, stated that Oriental School was only a block and a half from his school and on the same street. He said he was twenty-five years teaching in that locality and frequently had to stop work to prevent fighting or some fracas between boys of the Oriental School and the Washington Grammar School. In order to get home or downtown white boys of the Washington Grammar School have to pass down Washington street and they have a perfect right to do so, but the mingling of the races is often provocative of trouble. He said that he had been told by certain people of conflicts in which as many as forty boys were engaged. He opposed the Oriental School on the Washington street site also because the very reason for the separate schools was to prevent these conflicts. He supposed it was impossible to prevent it now, but time would prove the justice of his protest.

*Albert Pissis*, representative, as architect of Oriental School, stated that plans for said school were completed and that it would not be practicable to use said plans for a building on Sacramento street without considerable alteration. The Sacramento street lot is much lower than the street and involves much more foundation work than the Washington street site.

*John McNab*, attorney representing the Chinese Six Companies and the Canton Bank, said that the less said about the fighting between the white boys and the Chinese boys the better. It is two years since the incident in which the Kane boy lost his life occurred. Conditions at present are peaceful. He wished to call to their attention the fact that there has been an Oriental School in San Francisco for over 20 years and that there are now over 500 pupils attending this school and crowded into shacks in various parts of the Oriental quarter. The Orientals are large taxpayers in San Francisco and this condition should not be permitted to exist any longer, especially since the people of San Francisco voted bonds for the Oriental School and the site has after careful consideration been decided upon the most available. He declared that the white boys and the Chinese boys are friendly and play peaceably together.

*Rev. Frank Church*, representing Bishop Nichols of the Episcopal

Church, favored the construction of the Oriental School because he wanted to co-operate in every way to better the conditions of the Chinese race in San Francisco.

*Celia C. Newhall*, principal of the Oriental School, requested that the discipline of the schools be left to the teachers. She thought that she could control the Chinese children and urged that the Oriental School be constructed as soon as possible as the children were now crowded into shacks and scattered in various parts of the Oriental quarter.

*Chas. Spader*, member of real estate firm of Center & Spader, also addressed the Board as to comparative values of site on Washington street and site on Sacramento street.

#### Communications.

*Communication*—From Chamber of Commerce, stating as its view that Supervisors should not be influenced to violate duty imposed by charter or disregard the will of the people as expressed in bond election of 1908 in matter of the construction of the Oriental School on Washington street.

Read and ordered filed.

Also, *Communication*—From Cecilia C. Newhall, Principal of the Oriental School, stating that there is no feud between oriental and white children and urging construction of Oriental School on site selected.

Read and ordered filed.

Also, *Communication*—From North Beach Promotion Association, transmitting protest against construction of Oriental School on Washington street.

Mayor Recommends Appointment of Custodian of Records for Tax Collector's Office.

The following matter was presented, read and ordered *referred to Finance Committee*:

January 26, 1914.  
Hon. Board of Supervisors, City Hall,  
San Francisco:

Gentlemen—Whereas, Tax Collector Bryant has requested me to recommend to you the appointment of an assistant in his office, to be known as Custodian of Records, at a salary of \$125.00 per month, subject to the provisions of Article 13 of the charter of the City and County of San Francisco, said compensation to be paid out of the money set aside for the Tax Collector's extra clerks in the annual budget; and

Whereas, I have personally investigated and find this position necessary, I therefore recommend, in accordance with Article 16, Section 35 of the char-

ter, that said position be created by your Honorable Board.

Very respectfully yours,  
JAMES ROLPH, JR.,  
Mayor.

(Clerk directed to request Board of Civil Service Commissioners to furnish official designation for above position.)

Plans of Procedure for Extension of Water Mains.

The following communication was presented, read and *ordered spread in Journal*:

January 26, 1914.  
Gentlemen—My attention has been directed to Journal Resolution No. 959, which reads as follows:

"Resolved, That the City Engineer and City Attorney are hereby appointed a committee to formulate and recommend to the Board of Supervisors a plan of procedure under and by which water mains and pipes shall be laid in the streets of the City and County."

*Opinion.*  
A procedure adopted by some municipalities owning water works for the laying of water mains is to charge the whole or a part of the cost thereof upon private property according to frontage, or upon districts according to benefits. Laying of mains is put in the same category as laying of sewers, paving of streets and the ordinary street improvements, the cost of which is chargeable against property benefited.

Subdivision 19 of Section 2 of the Los Angeles charter provides that the City of Los Angeles shall have the right and power to levy assessments on property, according to frontage, or on a district, according to benefits, for laying water mains.

The theory underlying the assessment plan is that it is as much the duty of property owners and as much to their benefit to defray the whole or part of the cost of laying water mains as to defray the cost in ordinary street improvements, such as sewers, paving, etc. The objection to this plan is that the City, in conducting water works, is engaged in a business for profit and the business should carry the burden of its cost. The answer made to the objection is that the City does not, in conducting a water works, engage therein for purpose of profit, but solely to furnish a necessary service at the smallest expense to the consumer, and that profit is only justifiable to pay the cost of extension to the main system and to cover future deterioration and replacement in the system and things of a kindred nature.

In further support of the theory it is urged that if the City is to defray the cost of laying mains it will re-

sult that there will be in the ground many miles of pipe from which there is no return on the capital invested. This loss of interest on the invested capital must be borne by the rate payers in general who derive no benefit from the mains laid. The whole theory is to take municipal water works out of the category of a profit paying business and to place its conduct and management upon the same plane as ordinary governmental activities.

If the plan should be carried out it will have the effect of materially lowering water rates, making the cost of water its actual cost of production.

Another plan that has been followed is that whenever property owners desire the extension of mains the property owners shall pay the cost of such extensions into the City Treasury and when upon a proper survey it is shown that a permanent annual income of a given per cent is being derived from such mains, the money shall be returned to the property owners paying the cost of the mains into the Treasury.

A third plan is the assessment plan to which is coupled the plan of paying back to the assessed property owners money advanced by them for the cost of extensions whenever the returns from the extensions shall warrant such return. This plan is different in theory from the straight assessment plan since ultimately the cost is to be paid out of the profits of the business. It saves loss of interest on capital invested and obtains the capital invested from the returns of the business.

The value of this plan is that it provides a method for paying the cost for the laying of mains without the issuance of bonds and saves the interest on the investment. This plan likewise results in a lowering of water rates, but not so materially as in the straight assessment plan.

A fourth plan is for the City itself to lay the mains and entirely assume the cost thereof through issuance of bonds. The objection urged to this plan is that either the sinking fund and interest must be obtained from rates collected on the whole system, or must be paid through yearly taxation on property in general. If the entire system, including water mains, is to be paid out of future revenues it is urged that water rates during the early years of the municipal ownership of the system must necessarily be high and a burden on the rate payers.

I do not undertake to advise you on what is the best plan since that is a matter of policy which must be

decided after a careful study of the subject from the standpoint of the rate payers, the property owners and the best plan for financing the municipal water project.

The Charter, as it is now framed, permits only of the fourth plan. Chapter II of Article VI provides for the improvement of streets by levying the cost thereof upon property fronting on the improvement or upon a district benefited by the improvement. The street improvements, however, the cost of which can then be charged against private property, is defined in Section 26 of Chapter II as follows:

"The word 'improvement' shall be held to include grading, paving, planking, macadamizing, piling and capping; and the construction of repairs of sewers, cesspools, manholes, culverts, drains, sidewalks and curbs."

In order for the Supervisors to levy assessments upon property for the construction of water mains the Charter must be amended so as to confer upon the Supervisors that power. The only method laid down by the Charter to construct a public utility is to pay the cost thereof out of current revenues or by the sale of bonds. Extensions can be made from the same sources or from the surplus of the earnings. None of the foregoing plans are therefore available to the City except the latter plan. The Charter, however, may be amended so as to permit mains to be laid under the first, second or third plan outlined or any other plan that may be devised. The plan to be adopted, if a plan other than the one permitted by the Charter is to be followed, is a matter of policy to be determined by your Board and submitted to the people in the shape of a Charter amendment.

Respectfully,

PERCY V. LONG,  
City Attorney.

Relative to Claims of Josephine Lynch  
and Sarah Conlon.

January 15, 1914.

The following communication was presented and read by the Clerk:  
Hon. Board of Supervisors, San Francisco, California:

Gentlemen—In the matter of the claims presented to your Honorable Board by Josephine Lynch and Sarah Conlon for damages on account of the death of the husbands of said claimants, which was brought about as a result of injuries received by said deceased persons while in the performance of their duties working on the repair of the Clay street sewer in this City and County, your Board did, on the 29th day of September,

1913, adopt a report of your Finance Committee, which report recited as follows:

"In view of the opinion of the City Attorney your Finance Committee, appreciating the distress of the families of the deceased James Conlon and Patrick Lynch, and in view of the extreme, unusual and unfortunate circumstances of these cases, recommends that it be declared the policy of the Mayor and the Board of Supervisors that relief be granted these families; provided, however,

\* \* \* that the proper method of procedure outlined in his opinion be followed, and provided further, that the amount to be allowed these families shall not be in excess of the amount which they would be entitled to under the terms of the 'Workmen's Compensation Act'."

Since the adoption of the aforesaid report by your Board there have been filed in the Superior Court of this City and County two actions, one entitled Josephine Lynch, as Administratrix of the Estate of Patrick Lynch, deceased, and the other Sarah Conlon, as Administratrix of the Estate of James P. Conlon, deceased, and each brought against the City and County of San Francisco for and on behalf of the widows and minor children of the said deceased and each action praying damages in the amount of \$5,000.

I have assumed, in view of the adoption by the Board of Supervisors of the aforesaid report of your Finance Committee, that it is the desire of your Board that a settlement be made with these families in the amounts to which they would be entitled under the Workmen's Compensation Act, provided that some proper method of procedure may be indicated by this office.

The Charter of the City and County of San Francisco, Article V, Chapter II, Section 2, provides that the City Attorney "shall not settle or dismiss any litigation for or against the City and County under his control unless upon his written recommendation he is ordered to do so by the Mayor and Supervisors."

In accordance with the views heretofore expressed by me in my opinion rendered to your Board on September 27, 1913, and in view of the unusual and extreme circumstances of these most unfortunate cases, I herewith recommend the settlement of the above suits by the payment by the City and County to the family of Patrick Lynch of the sum of \$3600 and to the family of James P. Conlon of the sum of \$4500, these being the amounts to which these two families would be entitled, respectively, un-

der the Workmen's Compensation Act, had that Act been in force at the time of these deaths.

There is, however, contained in the above described report of your Finance Committee so adopted by your Board on September 29, 1913, the following proviso: "Provided, however, that the City Attorney shall, in conformity with his opinion, determine the legal liability of the City."

The aforesaid actions were filed subsequent to the said adoption of the report of your Finance Committee and I do not now feel in a position, prior to a final determination of said actions by the courts, to advise as to the legal liability of the City. In the event that you desire that said actions be defended I shall, of course, interpose all defenses which the City may have to the same in order that we may have a final ruling by the highest court of the State on the questions involved. If, however, as suggested in the other portion of the said report, it is the purpose of your Board and the Mayor to adopt the recommendation which I herewith make for the settlement of these claims in the amounts allowed under the terms of the Workmen's Compensation Act, I shall immediately proceed, by stipulation, to have judgment entered against the City and County in the amounts above indicated.

Awaiting your directions I am,

Yours very truly,

PERCY V. LONG,

City Attorney.

Whereupon the following Bill was introduced under suspension of the rules by Supervisor Vogelsang and passed for printing by the following vote:

City Attorney to Settle Litigation in Matter of Claims of Josephine Lynch and Sarah Conlon.

Bill No. 2876, Ordinance No. — (New Series), Directing the City Attorney to settle that certain litigation involved in actions entitled Josephine Lynch as Administratrix of the Estate of Patrick Lynch, Deceased, vs. City and County of San Francisco, a Municipal Corporation, No. 52490, and Sarah Conlon, as Administratrix of the Estate of James P. Conlon, Deceased, vs. City and County of San Francisco, a Municipal Corporation, No. 52489, filed in the Superior Court of the State of California, in and for the City and County of San Francisco, by consenting to a judgment in said actions in the amount of \$3600 and \$4500, respectively.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The City Attorney is hereby directed to settle those certain actions heretofore filed in the Superior Court of this City and County and entitled, Josephine Lynch, as Administratrix of the Estate of Patrick Lynch, Deceased, vs. City and County of San Francisco, a municipal corporation, No. 52490, and Sarah Conlon, as Administratrix of the Estate of James P. Conlon, Deceased, vs. City and County of San Francisco, a municipal corporation, No. 52489, in the following manner, to-wit: That there be paid to the aforesaid plaintiff Josephine Lynch the sum of \$3600 and to the said plaintiff Sarah Conlon the sum of \$4500 and that judgment may be entered in each of said actions in favor of said plaintiffs in the aforesaid amounts upon the City Attorney securing from said plaintiffs a complete and full satisfaction of judgment and release of any and all claims of whatsoever nature against the City and County of San Francisco.

Sec. 2. This Ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Hilmer, Hocks, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—13.

No—Supervisor Jennings—1.

Absent—Supervisors Gallagher, Hayden, Suhr—3.

**Receipt of Naturalization Fees From Assessor.**

The following matters were presented, read by the Clerk and ordered spread in the Journal:

January 26, 1914.

Board of Supervisors, San Francisco, Cal.

Gentlemen—I am writing to say that in accordance with the directions contained in J. R. No. 1063, adopted by your Honorable Board on January 19, 1914, I have today received from County Clerk H. I. Mulcrevy and deposited with the County Treasurer the sum of \$20,668.50, full amount of naturalization fees received and retained by the Clerk under authorization of the Naturalization Act of Congress during the period commencing September 28, 1906, and ending December 31, 1913.

Respectfully,

PERCY V. LONG,

City Attorney,

Emergency Hospital Service at Exposition.

January 22, 1914.

Honorable J. S. Dunnigan, Clerk of the Board of Supervisors, City and County of San Francisco:

Dear Sir—Your communication of the 15th inst. to the Panama-Pacific Exposition, regarding emergency hospital, has been referred to this division.

The Exposition is making preparations for opening a hospital in the Service Building, which will provide first aid to persons injured on the grounds. This work will be completed within the next ten days.

The Exposition has also acquired two automobile ambulances, one of which is now under shipment, the second one to be shipped as soon as it is constructed, which will probably be within the next two or three weeks. These ambulances will be put in service as soon as received, in connection with the hospital in the Service Building.

Trusting this is the information desired, I remain,

Yours very truly,

HARRIS D. H. CONNICK,

Director of Works.

Relating to Paving of Unaccepted Streets on Lines of Municipal Railway.

On motion of Supervisor Vogelsang:  
J. R. No. 1079.

Whereas, The construction of municipal railways results in great benefit and added value to the property fronting on the street wherein the same is constructed, and there is no reason why such property should be further benefited by the City constructing the pavement between the tracks and two feet on each side thereof; therefore,

Resolved, That the policy of this Board is to require pavements laid on unaccepted streets for the full width thereof at the expense of the abutting property, except that the City will furnish the heading blocks along the rails of municipal street railways.

**Charges of Supervisor Charles A. Nelson, Regarding City Hall Steel Construction.**

The following matters were presented by Supervisor Nelson, read by the Clerk and ordered *spread at length in the Journal*:

San Francisco, Cal.,  
January 26th, 1914.

To the Honorable Board of Supervisors, San Francisco, Cal.

Gentlemen: Complying with the request of the Building Committee to put in writing the charges of the faulty construction of the City Hall now in course of construction, I herewith charge the following:

Almost all the beams throughout the structure are short; many columns are not properly anchored; coping throughout is very poor; there is an excessive use of fillers; rivets are very poor; many connections are weak and there has been a general sweating throughout, making a saving of many tons to the contractor. The building is short three inches in length and one and one-half inches in width. If the specifications were properly enforced the majority of the work would be condemned and should be removed.

To substantiate the above charges, I hereby beg to append an engineer's report on same, whose authority cannot be questioned in this matter.

I further charge that Harry Rosenbaum and crew were removed from working on the alterations of the work by the order of one Frank Fay, representative of the United States Steel Products Co., after which Dan Dwyer was placed in charge of the work, who, with George Green, was also removed by the order of this representative, and after complaint from the representative of the union was reinstated by the contractor, when the representative of the United States Steel Products Co. ordered their money held up by the architect's representative, Mr. Wagner, who without any investigation complied with the request, and they were removed from work, much to the dissatisfaction of the ironworkers working on the job and the contractor who has the contract for erecting the work, as he maintains that they are competent mechanics.

Respectfully submitted.

CHAS. A. NELSON,  
Supervisor of the City and County of San Francisco.

San Francisco, Cal., Jan. 26th, 1914.  
Hon. Charles A. Nelson, City Hall,  
San Francisco, Cal.

Dear Sir: In accordance with your request of the 21st inst., the undersigned has carefully examined the plans, read the specifications and inspected the above structure, and while the time has been too limited to make this inspection as exhaustive as would be necessary so as to enable him to report in minute detail, sufficient inspection has been made to report, in general, on such defects as plainly exist.

The designed plans have been well conceived and executed and are sufficiently clear to warrant a true interpretation of the intent of the designing engineer.

While the specifications are somewhat general in character, they are explicit in so far that they demand "first-class workmanship". It is evident that the contractors have fallen short in this regard, in a number of instances, and more particularly in the matter of developing details, clearances in fit, coping, etc.

In the matter of the development of details, in general, there are a number of instances where such work was improperly executed, and more particularly in the matter of anchoring columns to steel bases and grillage beams, in connecting outside beams at second floor light well, in the connecting of girders G9, fourth floor, to columns, etc. To carry out the evident intent of the design, it is the writer's recommendation that such defects as exist in this respect be remedied and executed in a manner consistent with good engineering practice.

In the matter of clearances, there is hardly a beam on the entire work that complies with the specifications in this respect; the standard practice is to allow one-quarter inch from edge of connection angle to edge of beam, not more than one-sixteenth inch between beam and beam or beam and column on beams having web connections and three-eighths inch between beam and column on up and up connections; in most cases these clearances are far more, in many instances as much as one inch and over, and while this may appear to be a small individual item, with the number of beams in this building it amounts to considerable in the aggregate.

While it is an admitted fact that in a building of this size it is physically impracticable to secure an accurate, exact fit, without facing the ends of connection angles (which was not contemplated in these specifications) and that to prevent over running or creeping a reasonable amount

of fillers are necessary to plumb up the structure, in the writer's estimation the use of fillers in this structure has been excessive, and should, in the main, be corrected by the substitution of new connection angles in preference to fillers, to gain the three inches in length and the one and one-half inches in depth that this building has underrun; this should be done on each floor, where necessary, to prevent bends and kinks in columns now existing.

In the matter of coping of beams, the workmanship is exceedingly poor; these copes seem to have been gouged out without any regard to size of connecting beams, and instead of fitting to within one-quarter inch as is standard practice, the usual clearances seem to be one and one-half inches and a great deal more in some instances; while, in the main, the beam is not materially weakened by this excessive coping, the appearances are very bad and it cannot be called first-class workmanship; this, also, may appear individually as a small item, but also amounts to considerable in the aggregate.

Field rivets, which are evidently to be used, are very poor, having burred heads and shanks, and assorted sized heads not up to standard, with but few perfect rivets in the lot. The writer recommends that these be sorted and all imperfect rivets rejected.

No part of the structure has been riveted, and in the writer's opinion no part is in a condition to rivet; it must therefore be patent that the contractor for the erection has been delayed in the prosecution of his work, through no fault of his own, and that additional expenses and hardships, not contemplated under his contract, have been imposed upon him, and for which he has just claim for redress.

It must also be evident that this work has not been properly inspected in the shop, as many of the defects are sufficient cause for rejection by a competent inspector.

In closing, the writer wishes to state that while this report is necessarily general in character, he is most emphatic in declaring that the specifications for reasonable, first class workmanship have not been complied with, and that such workmanship as is evidenced would not be performed, tolerated or permitted from local manufacturers.

Respectfully submitted,

W. W. BREITE, C. E.

Investigation Announced.

*His Honor Mayor Rolph* announced that he would conduct an investiga-

tion of the above charges on Wednesday evening at 8 p. m., in the Chambers of the Board. He directed the Clerk to send copies of the charges and notify all interested parties of the time and place of the investigation.

Whereas, It is impossible for the members of said Committee to do so without necessary expert and clerical assistance, therefore be it

Resolved, That the sum of \$1000 be placed at the disposal of the Telephone Rates Committee for the purpose of employing such expert and clerical help as it may deem necessary for this purpose.

**Passed for Printing.**

The following Resolution was presented by Supervisor Vogelsang and passed for printing under suspension of the rules:

**Mayor to File Maps Required Under Acts of Congress in Matter of Use of Hetch Hetchy Valley as Source of Water Supply for San Francisco.**

Resolution No. — (New Series), as follows:

Whereas, The City and County of San Francisco is required by Section 2 of the Act of Congress, approved on the 19th day of December, 1913, entitled, "An Act granting to the City and County of San Francisco certain rights of way in, over and through certain public lands, the Yosemite National Park and Stanislaus National Forest, and certain lands in the Yosemite National Park, the Stanislaus National Forest, and the public lands in the State of California, and for other purposes, "to file with the Register of the United States Land Office, as provided in said Act, for the approval of the Secretary of the Interior, copies of any maps heretofore filed by said City and County or its grantors with any officer of the Department of the Interior or the Department of Agriculture, and approved by said departments, and

Whereas, There were prior to the approval of the aforesaid Act of Congress filed by the City and County of

San Francisco with the Register of the United States Land Office at Sacramento, California, on the 7th day of January, 1913, an "Amended map showing location of Hetch Hetchy reservoir site within the boundaries of Yosemite National Park as surveyed for the City and County of San Francisco," and also a copy of a "Map showing location of tunnel aqueduct line between Cherry and Hetch Hetchy Valleys within the boundaries of Yosemite National Park as surveyed for the City and County of San Francisco, State of California," and also on or about the 19th day of January, 1913, a copy of "Map showing location of tunnel aqueduct line between Hetch Hetchy Valley and Early Intake within the boundaries of Yosemite National Park as surveyed for the City and County of San Francisco, California."

Resolved, The Mayor of this City and County is hereby authorized to file with the United States Land Office at Sacramento, California, for approval of the Honorable Secretary of the Interior, copies of all of the aforesaid maps in order that the City and County of San Francisco may obtain the benefits of the aforesaid Act of Congress, so approved on the 19th day of December, 1913. And the Mayor of this City and County is hereby further authorized to apply on behalf of the said City and County to the United States Land Office, the Honorable Secretary of the Interior, the Honorable Secretary of Agriculture and any other department of the Government in order to obtain the benefits of the said Act of Congress, approved on the 19th day of December, 1913, or any amendments thereto, or of any law, which applications may be necessary for the successful completion of the municipal water supply with the Hetch Hetchy Valley and Lake Eleanor basin with the Yosemite National Park and the Cherry Valley within the Stanislaus National Forest and the waters of the Tuolumne River and its tributaries, as a source for obtaining such water supply.

The City Engineer is authorized and directed to prepare the necessary surveys, maps, copies of maps, and field notes for said applications or for any such further applications which it may be so necessary for said City and County to make.

The City Attorney is authorized and directed to appear before the United States Land Office, the Honorable Secretary of the Interior, the Honorable Secretary of Agriculture, or any other departments of government for and on behalf of the City and County in the matter of the said applications or any

other proceedings which may be necessary for the successful completion of the above described municipal water supply.

Report on Progress of Work on Municipal Railway Extensions.

January 28, 1914.

To the Honorable the Board of Supervisors of the City and County of San Francisco,

Gentlemen:

By Journal Resolution No. 1073 the City Engineer is instructed to report to the Board of Supervisors the exact routes which have been decided upon for the street railways which are to be constructed under the bond issue authorized August 26, 1913, what progress has been made in the construction of these street railways, when they will be placed in operation, what number of persons can be carried to or from the site of the Panama-Pa-

cific Exposition by these street railways, and whether the transportation so furnished will be sufficient.

A full discussion of each of the questions embodied in the above resolution is contained in the latter part of this report. Briefly, the questions asked may be answered as follows:

1. The exact routes of the proposed street railways are shown on the accompanying map.

2. The Van Ness avenue and Chestnut street railways, which will be the first completed, will be placed in operation on or before September 1st, 1914, and the Church street line, if all proceedings for opening that street are expedited by the Supervisors, which will be the last to be finished will be placed in operation on or before February 1, 1915.

3. Ninety per cent of the material necessary for the construction and equipment of the street railways has been ordered and is now in process of manufacture. The remainder of the material will be ordered within 30 days.

4. The carrying capacity of the proposed street railways will be limited by the number of cars operated. With the 100 cars which it is proposed to purchase and the 43 cars now owned by the City a maximum of 19,125 persons per hour can be transported to or from the Exposition.

5. The transportation so furnished will be sufficient during days of average attendance at the Exposition, provided passengers are willing to put up with some slight discomfort during the hours of heavy traffic owing to the crowded condition of the cars. It will be entirely inadequate during special days when the attendance is in excess of 100,000 persons.

The bond issue authorized August 26, 1913, provided the sum of \$3,500,000 for the construction and purchase of double track street railways aggregating 16.35 miles in length, together with the equipment necessary therefor.

*Routes Upon Which Proposed Street Railways Are to be Constructed, and Probable Dates of Completion.*

The streets upon which the proposed street railways are to be constructed, the dates upon which work will be commenced and the dates when the street railways will be finished and the lines placed in operation are as follows:

*Van Ness Avenue Line—*

To be constructed on Van Ness avenue from Market street to Chestnut street, length 1.89 miles; work will be commenced not later than April 15th, 1914, and completed on or before September 1, 1914.

*Chestnut Street Line—*

To be constructed on Chestnut street

from Van Ness avenue to Scott street, thence on Scott street to Greenwich street, thence on Greenwich street to Steiner street, thence on Steiner street to Union street, where connections will be made with the tracks of the Union street line; length 1.22 miles; work will be commenced not later than April 15th and be completed on or before September 1st.

*Potrero Avenue Line—*

To be constructed from Market street and Van Ness avenue, across Market street to Eleventh street, thence along Eleventh street to Division street, thence along Division street to Potrero avenue, thence along Potrero avenue to Twenty-fifth street; length 1.99 miles; provided there is no delay in the proposed widening of Division street from Seventh to Sixteenth streets, work on this line will be commenced not later than June 1st and be completed on or before October 1st.

*Union Street Line—*

The property of the Ferry and Presidio Railway Company was acquired during December, 1913, and placed in operation as a municipal railway on the 11th of December last. This street railway is operated along The Embarcadero from the Ferry to Jackson and Washington streets, thence to Columbus avenue, thence on Columbus avenue to Union street, thence out Union street to Larkin street, thence to Vallejo street, thence to Franklin street, thence to Union street, thence out Union street to Baker street, down Baker street to Greenwich street, thence on Greenwich street to the Presidio Military Reservation. The total length of this line is approximately 3.9 miles, of which slightly over one-half mile will have to be reconstructed. It is expected to commence this reconstruction not later than August 1st, and complete it on or before December 1st.

*Columbus Avenue Extension to Union Street Line—*

To be constructed on Columbus avenue from Union street to North Point street, thence on North Point street to Van Ness avenue, thence on Van Ness avenue to Chestnut street, where connections will be made with the tracks of the Van Ness avenue line; total length 1.26 miles. Work on this extension will be commenced not later than June 1st and completed on or before November 1st.

*Fort Mason Extension to Union Street Line—*

Connection is to be made with the tracks of the Columbus avenue extension to the Union street line at Bay street and tracks are to be constructed through the Fort Mason Military Reservation to a terminal on Laguna

street between Jefferson and Beach streets; total length .48 mile. Work on this extension will be commenced not later than August 15th and completed on or before October 15th.

#### *Stockton Street Line—*

To be constructed on Stockton street from Market street to Columbus avenue, where connection will be made with the tracks of the Union street line; total length .97 miles. The construction of this street railway is dependent upon the completion of the Stockton street tunnel. At the present time it is the expectation that work can be commenced not later than August 1st and completed on or before November 1st.

#### *California Street Line—*

To be constructed as an extension to the Geary street line. Tracks will be laid on Second avenue from Geary street to Cornwall street, thence on Cornwall street to its junction with California street at Fifth avenue, thence on California street to Thirty-third avenue; total length 2.1 miles. Work will be commenced not later than September 1st and be completed on or before January 1st, 1915.

#### *Church Street Line—*

To be constructed from Market street and Van Ness avenue out Market street to Church street, thence on Church street from Market street to Thirtieth and Church streets; total length 2.54 miles. The construction of this street railway is dependent upon the construction of the Mission Boulevard, which has been designed at the request of the adjacent property owners to overcome the steep grades of Church street between Eighteenth and Twenty-second streets. It is the present expectation that work on this street railway will be commenced not later than September 1st and completed on or before February 1st, 1915.

The location of all of the above described street railways is indicated graphically on the accompanying map.

#### *Progress of Work.*

Contracts contemplating the expenditure of \$871,811.04 were entered into on January 2nd for the following materials and equipment to be used in the construction of the street railways:

The amount named opposite each contract includes the contract price and the bonus which the contractor may earn by delivering the material before the the date specified.

Contract No. 1, with the United States Steel Products Company, for steel rails and rail joints.....	\$150,014.22
Contract No. 2, with the Payne Bolt Works, of San Francisco, for tie rods...	3,514.50

Contract No. 3, with Eccles & Smith, of San Francisco, for tie plates.....	15,264.32
Contract No. 4, with the United States Steel Products Company, for rail spikes .....	2,550.00
Contract No. 5, with the Caspar Lumber Company, of San Francisco, for red-wood ties .....	37,990.00
Contract No. 7, with the United States Steel Products Company, for track special work .....	94,338.00
Contract No. 13 A, with the Jewett Car Company, of Newark, Ohio, for car bodies .....	295,000.00
Contract No. 13 B, with Baldwin Locomotive Works, of Philadelphia, for car tracks .....	61,000.00
Contract No. 13 C, with Westinghouse Electric Mfg. Co., of Pittsburgh, for car motor equipments.	232,600.00
Contract No. 13 D, with Westinghouse Traction Brake Co., of Pittsburgh, for air brake equipment..	22,500.00

Total .....\$871,811.04

Work has been commenced on all of these contracts and it appears probable that all of the material will be delivered before the dates specified in the contracts for such delivery.

Specifications for the remainder of the material required and for the construction of tracks and car barn are being prepared and will be completed as needed. At the present time I see no reason why all of the work should not be completed on or before the dates mentioned above.

#### *Number of Persons Who Can be Transported to or from the Exposition by Proposed Street Railways.*

##### *Terminal Loops:*

By reference to the accompanying map it will be seen that the tracks on Van Ness avenue from Vallejo street to Chestnut street, on Chestnut street from Van Ness avenue to Scott street, on Scott street from Chestnut street to Greenwich street, on Greenwich street from Scott street to Steiner street, on Steiner street from Greenwich street to Union street, on Union street from Steiner to Franklin street, on Franklin street from Union to Vallejo street, and on Vallejo street from Franklin street to Van Ness avenue, form a double loop, differing from the terminal loop of the United Railroads at the Ferry only in its size, over which southbound cars from the Ferry or Stockton street, via Columbus avenue, or northbound cars from Geary street

or south of Market street, via Van Ness avenue, can be operated past the gates of the Exposition on Chestnut street and back to their points of origin, without loss of time other than that necessary to discharge or receive passengers.

The Fort Mason extension is also to be constructed with a terminal loop on Laguna street.

In other words, the arrangement of tracks of the proposed street railways will be such as to provide three single track terminal loops at the Exposition.

At the present time 263 cars per hour are operated over the two loops at the Ferry during the rush hours, notwithstanding the obstruction caused by the heavy traffic on The Embarcadero. By giving the Traffic Squad of the Police Department proper authority and making suitable provision for loading and unloading passengers on Chestnut street, it will be possible to operate as many or more cars (130 per hour) over each single track loop as are at present operated over each of the Ferry loops. With three loops we will then be able to operate 390 or say 400 cars per hour past the gates of the Exposition.

#### *Capacity of Tracks:*

Mr. Arnold, in his report on Transportation to the Exposition (see pages 59 and 60 of the Report on Transportation Facilities of San Francisco), estimated the capacity of a double track street railway at 120 cars per hour. Since Mr. Arnold's report was written, however, the operations of the Traffic Squad have so facilitated the movement of the street cars on Market street that the United Railroads are at the present time averaging 180 cars per hour over these tracks during the rush hours.

Taking into account the steeper grades on Van Ness avenue and on Columbus avenue and North Point street, it appears probable that the capacity of the Van Ness avenue and Columbus avenue lines will be somewhere between Mr. Arnold's estimate and the present capacity of Market street, or say 150 cars per hour, for each route, or say 300 cars per hour for both routes.

#### *Capacity of Cars:*

The City at the present time owns 43 cars, which are in use on the Geary Street Railway. One hundred additional cars have been ordered, so that there will be available for use on the Municipal Railways at the time of the Exposition, 143 cars. Assuming that 13 of these cars will be held in reserve, 130 cars will be available for the transportation of passengers.

The number of trips to the Exposition which can be made by these cars

depends upon the method of routing which is adopted. The following is a method which it is believed will prove satisfactory:

From the Ferry, via Columbus avenue, to the Fort Mason terminal.

From Market and Stockton street, via Columbus avenue, to Fort Mason terminal.

From the Ferry, via Geary street and Van Ness avenue, to Chestnut street terminal.

From Thirty-third avenue and Geary street, and from Thirty-third avenue and California street, via Geary and Van Ness avenue, to Chestnut street terminal.

From Potrero avenue and Twenty-fifth street, via Van Ness avenue, to Chestnut street terminal.

From Thirtieth and Church streets, via Van Ness avenue, to Chestnut street terminal.

At the present time the cars on the Geary Street Municipal Railway are operating at an average speed of slightly less than 11 miles per hour.

For the purpose of this estimate, it is assumed that cars on all of the Municipal Railways can be operated at an average speed of 9 miles per hour. This will enable us to maintain a headway of 2 minutes and 20 seconds on each of the above routes. The headway on each of the three loops at the Exposition will then be 1 minute and 10 seconds. In other words, 51 cars per hour will pass over each loop or 153 cars per hour over 3 loops.

The maximum capacity of the cars at present in use on Geary street is 125 persons. The maximum capacity of the proposed new cars is 150 persons. Assuming that during rush hours cars will carry to the Exposition an average of 125 persons per car, the maximum capacity of the proposed equipment of cars to the Exposition will be 19,125 persons per hour.

Summarizing the above statement, the capacity of the terminal loops at the Exposition is 400 cars per hour or 50,000 persons per hour. The capacity of the tracks of the proposed Municipal Street Railways to the Exposition is 300 cars per hour or 37,500 persons per hour. The capacity of the cars contemplated is 153 cars per hour, or 19,125 persons per hour.

In other words, the capacity of the terminal loops and tracks of the proposed street railways is far in excess of the number of cars which it is probable the City will own at the time of the Exposition.

Adding to 19,125 (the maximum number of persons transported by the Municipal Railways) 12,000 (the maximum number of persons transported by private lines), we have 31,125 per-

sons per hour as the maximum number which can be transported to and from the Exposition by Municipal and private lines combined.

It is to be noted that the above estimates contemplate operating cars in a crowded condition. They should be reduced by 20 per cent or to 24,100, to arrive at the comfortable carrying capacity of the cars. It is also to be noted that to secure this maximum carrying capacity it will be necessary to abandon through service on Geary street.

#### *Sufficiency of Transportation Provided.*

From estimates as to the probable attendance at the Exposition (see page 30 of City Engineer's report of April 5, 1913, on Transportation for the Panama-Pacific Exposition), it appears probable that on days of average attendance at the Exposition it will be necessary to provide transportation for from 20,000 to 25,000 persons per hour and that on special days when the attendance at the Exposition is greatest, it may be necessary to transport as many as 62,500 persons per hour.

Bearing in mind the fact that through traffic on Geary street cannot be abandoned except on special days without causing unreasonable inconvenience to the public, it appears probable that the transportation which can be furnished to and from the Exposition by means of the Municipal Street Railways in conjunction with privately owned street railways, will, even on days of ordinary attendance, necessitate the public enduring the discomfort of riding in overcrowded cars during the periods of heavy travel. It is also apparent that on days of maximum attendance, the transportation furnished will not be sufficient to meet the demand.

Respectfully submitted,  
M. M. O'SHAUGHNESSY,  
City Engineer.

#### REPORTS OF COMMITTEES.

The following Committees, by their respective Chairmen, presented reports on various matters referred, which reports were received, read and ordered placed on file:

Report of Public Welfare Committee on Measures of Relief for Unemployed.

The following report was presented, read and ordered spread in the Journal:

San Francisco, February 2, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco—

Gentlemen:

It seems fitting that the Public Welfare Committee report the general results to date of the efforts made in meeting the problem of the unemployed.

At the date of our last report the first stage of relief had been passed and the municipality, frankly admitting its inability to cope with the situation, excepting in co-operation with public-spirited citizens, had called upon a hundred or more men and women known to be sympathetic and generous, to meet and organize for service.

The response was gratifying, and with no delay steps were taken to meet the crisis. Bishop Hanna accepted the presidency, Mr. Jesse W. Lillienthal was made vice-president and chairman of the executive committee. Mr. Raphael Weill became treasurer, and committees on finance, on work, on feeding, on lodging, etc., were promptly selected, the various chairmen forming the executive committee. It was determined to raise funds by popular subscription and to put to work the men unable to find employment—in the meantime supplying pressing needs for food and lodging.

The question of rate and terms of pay immediately presented itself and developed radical differences of opinion. Many doubted the wisdom of paying more than \$1.00 per day, claiming that an emergency rate in no way established wages and should provide for subsistence only. Others more sympathetic would pay the Charter rate per hour for a half day—\$1.50 for four hours. The matter was referred to the executive committee, which effected a reasonable compromise on a six-hour day at 20 cents per hour.

The pay was not acceptable to the radical leaders of the unemployed and a somewhat violent demonstration, in which the demand was made for \$3.00 per day of eight hours, seriously prejudiced the raising of funds. The plans of the Citizens' Committee involved the collection of a sum that would provide work for all in need of it well

through the rainy season, but largely through the unreasonable attitude of an active minority response was slow and up to date has reached less than \$34,000.

This, however, has been so judiciously used that the result has exceeded the expectation of all. The sum was sufficient to establish the fact that a great majority of those applying for relief were in real need and deserving of help.

It has given relief without in any way impairing the self-respect of any man, and has tided over many families during a wet and stormy month, and led to better prospect of employment both in the city and the country.

As to the numbers involved, the maximum registration reached 7095, but those best informed consider that, duplications deducted, about 6,000 covers the total. Of these 750 were incapable of doing any work. About 70 per cent were laborers, the 30 per cent representing all trades and employment. 25 per cent were foreigners, speaking no English. Very few belonged to any organization. Comparatively few were married. Quite a good proportion belonged to the seasonal residents of the City, loggers, fishermen, sailors and others who commonly spend the winter in San Francisco. An unusually large number of Mexicans, Costa Ricans and other of our Southern neighbors seem to be visiting us. Of course the floaters and the mischief-makers swelled the ranks, but there were a painfully large number of hard-working, well meaning men that deserved a better fate.

On January 13th, 1350 men were given tickets for four days' work. The following morning when they were to report to work it rained severely, but 1142 of the number reported for work, drenched but eager. 672 of these were married.

While it has not been possible to carry forward any monumental work representing this fine effort of helpfulness, much good and wholly useful work has been done, on the streets and highways, both in the City and at the Presidio and the Relief Home. Many men establishing their worth have been found places in the country, and with the coming of days of sunshine have passed to independence. Later a report will be made summarizing the work accomplished and detailing the expenditure of the Citizens' Fund.

In the providing of food great improvement is to be noted. The dining-room established on Folsom street provided for seating 400 men at once. It was placed in charge of competent cooks, and kept under close control. At first about 6000 men per day were

served. This number fell off in a week to 4500. When the men were put to work it fell to 3000 and then to 2100. At breakfast this morning 942 presented themselves. We are reaching the limit of expenditure in this direction and it is hoped that with calls for labor in the country it can be closed without hardship in another week.

In like manner the number applying for lodging has rapidly declined. For sometime as many as 1400 were sheltered in the former Marshal Hotel. Now only 400 are cared for. Much relief has been afforded through the distribution of blankets and clothing liberally contributed and carefully dispensed.

The police authorities deserve acknowledgment for their co-operation and practical assistance. They not only discouraged violence by firm insistence on order, enforced without brutality, but investigated claims that were found to need investigation and in proof of their sympathy contributed over \$400 to the relief fund.

The success of our plan has been very gratifying. It remains to generously support the efforts of the Citizens' Committee that the fund at its disposal may enable work to be continued till all free distribution of food may be discontinued, and until those who have been compelled to accept emergency work may find remunerative employment in the prosperous year we believe to be opening before us.

Very respectfully,  
J. EMMET HAYDEN,  
HENRY PAYOT,  
CHARLES A. MURDOCK,  
Public Welfare Committee.

Resolved, That it is the intention of the Board of Supervisors to order a change of grade at Eighteenth and Church streets and that it is deemed inadvisable to charge the cost thereof upon property of a district benefited. Therefore, for the purpose of settling the policy of the Board of Supervisors with reference to the payment of the cost of such change, be it

Resolved, That the entire cost of such change, including damages which may be paid to property owners, be paid by the City and County of San Francisco out of funds to be hereinafter designated.

**Privilege of the Floor.**

Timothy Lyons, attorney at law, was granted the privilege of the floor and addressed the Board. He declared that inasmuch as the Municipal Railways was a public utility and the Church street extension was a feeder for the main lines serving the entire city, the whole city should pay for the purchase of the necessary land and the grading. He said that the district that is to be assessed is the poorest in the city. There has been no appreciable increase in values there for eighteen or nineteen years. The assessment, he said, embraces two propositions, the purchase of land amounting to \$153,000 and grading to cost \$125,000. If Supervisors have determined that latter shall be borne by city that is a strong reason why city should also pay the former. If the district were a business district there might be some advancement in value, but inasmuch as it is a residential district—a district of homes—there is no reason for expecting an increase in value.

Geo. Shadbourne believed that it would be illegal to assess a particular district for a public utility like a railroad that is a benefit to all the people. He said that people on the Castro Heights who are in the assessment district are now amply supplied with street railroad facili-

ties and will receive no benefit from the Church street extension.

*A. C. Scaife* endorsed Mr. Shadbourne's statements relative to the adequacy of street railroad facilities in the district.

*D. Ahern*, representing the Mission Heights Improvement Club, also addressed the Board favoring the proposed assessment.

**Action Deferred.**

Whereupon, the foregoing resolutions were laid over two weeks.

and 1 brick manhole with cast-iron frame and cover and galvanized wrought-iron steps along the center line of Liebig street between the easterly and center lines of Lessing street; and an 8-inch, vitrified, salt-glazed, ironstone pipe sewer along the center line of Lessing street between the northerly and center lines of Liebig street.

The improvement of Kansas street from Army street to a line 428 feet southerly therefrom, where not already so improved, by the construction of granite curbs and an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof; and by the resetting to official line and grade the existing brick catchbasins which are not at official line and grade.

That the said improvements are to be made under the direction and to the satisfaction of said Board of Public Works and in accordance with the specifications or plans and specifications prepared therefor and on file in the office of said Board, and to which reference is hereby made.

Adopted.

The following resolutions were adopted:

#### Extensions of Time.

On motion of Supervisor McCarthy: Resolution No. 10670 (New Series), as follows:

Resolved, That Geo. H. Roundey is hereby granted an extension of ninety days' time from and after January 23, 1914, within which to complete the contract for grading Woolsey street, between Somerset and Dartmouth streets, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that contractor has been delayed in his work owing to the inclemency of the weather.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, Murdock, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

Also, Resolution No. 10671 (New Series), as follows:

Resolved, That Owen McHugh is hereby granted an extension of sixty days' time from and after February 11, 1914, within which to complete contract for sewer in Golden Gate Park, from Thirtieth avenue and Lincoln way to Twenty-sixth avenue and Fulton street.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the contractor has been de-

layed in the work owing to the inclemency of the weather.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, Murdock, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

Also, Resolution No. 10672 (New Series), as follows:

Resolved, That the Fay Improvement Company is hereby granted an extension of forty days' time from and after January 23, 1914, within which to complete contracts for the improvement of Thirteenth avenue, Lake to Clement street; Thirteenth avenue, Anza to Balboa street; Thirteenth avenue, between Balboa and Cabrillo streets, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works, for the reason that owing to the recent rains contractors have been unable to proceed with the paving.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, Murdock, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

#### Amendment to Traffic Ordinance Relative to Standing Vehicles.

Also, Bill No. 2895, Ordinance No. — (New Series), as follows:

Amending Sections 21 and 65 of Ordinance No. 1857 (New Series), Regulating moving travel and traffic upon the streets and other public places of the City and County of San Francisco and providing a punishment for any violation thereof, and repealing Orders Nos. 70 and 175 (Second Series) and Ordinances Nos. 256, 723, 803, 807, 808, 809, 814, 825, 851, 888, 898, 899, 902, 1088, 1132, 1359, 1367, 1369, 1379, 1380, 1507, 1517, and Ordinances Nos. 339, 575, 649, 1527 and 2128 (New Series).

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section No. 21 of Ordinance No. 1857 (New Series), Regulating moving travel and traffic upon the streets and other public places of the City and County of San Francisco, and providing a punishment for any violation thereof, and repealing Orders Nos. 70 and 175 (Second Series) and Ordinances Nos. 256, 723, 803, 807, 808, 809, 814, 825, 851, 888, 898, 899, 902, 1088, 1132, 1359, 1367, 1369, 1379, 1380, 1507, 1517, and Ordinances Nos. 339, 575, 649, 1527 and 2128 (New Series), is hereby amended so as to read as follows:

Section 21. Between the hours of 10 o'clock a. m. and 12 o'clock m. and 1:30 o'clock p. m. and 6 o'clock p. m. of any day except Sunday and legal holidays it shall be unlawful for the driver, operator or owner of any motor or horse driven vehicle to permit such vehicle to stand for more than forty minutes on any of the fol-

lowing named streets or portions of the following named streets, to-wit:

Market street from Kearny street to Fifth and Powell streets.

Kearny street from Market street to Sutter street.

O'Farrell street from Grant avenue to Powell street.

Geary street from Kearny street to Powell street.

Post street from Kearny street to Stockton street.

Grant avenue from Market street to Sutter street.

Stockton street from Market street to Post street.

Powell street from Market street to Post street.

Vehicles for hire to be limited to the north side of Geary street, between Stockton street and Powell street.

Provided, however, that vehicles for hire shall not use the south side of Post street, between Stockton street and Powell street and the west side of Stockton street between Geary street and Post street, but the same shall be for the use of the public on all days except Sundays and holidays.

And further provided, that stoppages caused by fires, blockades, breakdowns or other emergencies, or an ambulance, shall not be considered within the provisions of this ordinance.

Provided, however, that the provisions of this section shall not apply to the standing of any freight or baggage vehicle, or for any passenger vehicle for which a permit has been granted, under the provisions of Ordinance No. 1898 (New Series), for such vehicle to stand upon any of the streets or portion of such streets, as herein defined, during the time such vehicle is in charge of a person competent to drive the same; and

Further provided, that the Board of Public Works shall erect and maintain suitable signs at proper points warning the owners and drivers of all vehicles of the provisions of this ordinance.

Section 2. That Section No. 65 of said Ordinance No. 1857 (New Series), referred to in Section No. 1 of this ordinance, is hereby amended so as to read as follows, viz.:

Section 65. It shall be unlawful for any person to operate upon the streets during the period from 8 o'clock p. m. to 6 o'clock a. m., any vehicle, except those driven by motors, unless such vehicle is provided with one white light, visible within a reasonable distance from both the front and rear of such vehicle.

Section 3. This ordinance shall take effect immediately.

Referred to Finance Committee.

### Recodification of City Ordinances.

Supervisor Gallagher called attention to necessity of re-codifying city ordinances and presented following suggested corrections in connection therewith.

Ordinance 1058, page 535—Prohibits bribery of police officers. Conflicts with the State law. Ordinance makes it a misdemeanor while the State law makes it a felony.

Ordinance 648, page 540—Regulating clairvoyants, fortune telling, etc. Prohibiting the carrying on or advertising of fortune telling or any business similar thereto. This ordinance has a proviso that nothing in the ordinance shall apply to any ordained or duly accredited minister of any form of religious belief, or to the faith, practice or teaching of any religious body, which makes the ordinance of no value whatever. Every clairvoyant and fortune teller carrying on and advertising their business in this city claim to be "ordained ministers" and the courts have sustained them. Even the gypsies who travel around the country have gotten onto the scheme and in order to beat the law are all ordained ministers while they are in this city.

The class of people who practice clairvoyance, palmistry, psychology, mediumship, prophecy, or other crafty science, are a dangerous set of crooks who filch thousands of dollars each year from unsuspecting persons in this city. Many of them, and in fact the most of them, never make any complaint, as they are ashamed when they come to their senses to admit that they have been "skinned."

There is no doubt but what an ordinance could be drawn that would put these crooks out of business. They have such laws in other cities.

Ordinance 846, page 543—Prohibits games of chance, throwing dice for money, property or valuables of any kind in a public place, or place open to public view, etc., or where the same may be seen by persons passing on the street, provided that cube or poker dice may be thrown for merchandise within a place of business where such merchandise is ordinarily sold. Proprietors of cigar stands claim the right under this ordinance to shake dice (the game of twenty-six, for instance), for cigars, although their places are open to public view.

Then comes Ordinance 1351, page 543, which is in direct conflict with the preceding ordinance, in this, that it prohibits the throwing or shaking of dice for anything whatever, in a public place, or place open to public view. One or the other should be repealed.

Ordinance 577, page 570—Regulating

period of horse racing in this city and county, should be repealed, as the State law prohibits pool selling, which is also prohibited by this ordinance.

Ordinances 651 and 86, pages 571 and 572, respectively, prohibiting pool selling and betting on dog races and contests between men, should be repealed as the subject matter of both ordinances is fully covered by the State law, and that takes precedence over any ordinance of a city or county.

Ordinance 908, page 581—Prohibiting the taking of opium into public institutions, is useless, as it is fully covered by the State law which makes it unlawful to have opium in possession, whether in a public institution or elsewhere.

Ordinance 399, page 586, prohibits smoking on the front platform of any car. This ordinance should be repealed, or re-enacted to suit the present types of cars. It is impossible to smoke on a car at all at present in this city. The ordinance forbids the front end, and the rules of the company forbid the rear end. Much annoyance is caused and many a fight started when both are enforced.

\*Ordinance 754, page 637, imposing a license on keepers of dance halls and ball rooms. This ordinance is useless in its present form and little or no revenue is derived by the city under its terms. The one night clause, which imposes a license of \$10 per night, is never paid, and is regarded as a sort of political requisite by some aspiring politicians. Dancing schools, of which there are several in the city, do not pay the license either, as they claim to be schools and are exempt, although they hold regular dances two or three times a week and an admission fee is charged. The ordinance should be amended to cover each, so that the city would derive some benefit.

\*This ordinance is in process of amendment.

Approval of Project of Sorting and Distributing Mail From Ferry Building.

Supervisor Hayden introduced the following resolution and moved its adoption under suspension of the rules:

J. R. No. 1101.

Whereas, A movement has been inaugurated to have all mail arriving at the Ferry Building sorted and distributed from that point, thereby saving several hours in delivery to the merchants of the down-town business district, and

Whereas, The local post office authorities and members of the State Harbor Commission have arranged for space in the Ferry Building for use of post office, subject to approval of Post

Office Department at Washington, D. D.; therefore be it

Resolved, That the Board of Supervisors heartily endorses this movement which will be of great benefit to the citizens of San Francisco.

*Motion.*

*Supervisor Gallagher* moved as an amendment that the resolution be referred to the Public Welfare Committee.

*Motion lost* by the following vote:

Ayes—Supervisors Deasy, Gallagher, Power, Walsh—4.

Noes—Supervisors Bancroft, Hayden, Hilmer, Hocks, Jennings, McCarthy, Murdock, Nolan, Payot, Suhr, Vogelsang—11.

**City Attorney to Dismiss Condemnation Proceedings for Land Required for Municipal Railway Extension.**

On motion of Supervisor Vogelsang:  
J. R. No. 1103.

Whereas, The City Attorney has recommended the dismissal of action No. 52026, pending in the Superior Court of this City and County, entitled, City and County of San Francisco, a municipal corporation, vs. the John Center Company et al., defendants, which suit was instituted for the acquisition of lands for municipal railway purposes; and

Whereas, The land described in the above action is no longer necessary to be acquired by the City and County; therefore be it

Resolved, That the City Attorney is authorized and requested to cause a dismissal of condemnation proceedings of the hereinabove entitled action.

Ayes—Supervisors, Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, Murdock, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

Supplementary Report of Wm. Dolge on Accounting System of Park Commission.

The following report was presented, read and ordered *referred to the Finance Committee and spread in the Journal:*

San Francisco, California,

February 3, 1914.

To the Honorable the Finance Committee, Board of Supervisors, San Francisco, California.

Gentlemen:

Enclosed you will find a condensed statement of the demands passed by the Park Commission *since July 1, 1913*, which apply to expenditures incurred for supplies for Children's Quarters prior to *June 30, 1913*, amounting to \$5,200.32. This amount is subject to increase when all demands are returned by the Treasurer to the Auditor. The statement was prepared from the demands on file in the City Auditor's office.

My contention that there were at least \$6,000.00 of liabilities incurred for Children's Quarters in 1912-1913 that do not appear on the Park books as of June 30, 1913, was based on the following figures taken from the Park ledger:

Expenditures for	
May Day, 1912.....	\$1,464.78
May, 1912 .....	4,783.14
June, 1912 .....	3,627.82

Total, 1912 .....\$9,875.74

Expenditures for	
May Day, 1913.....	\$867.56
May, 1913 .....	1,624.40
June, 1913 .....	1,098.65

Total, 1913 .....\$3,590.61

All of the unpaid bills for Children's Quarters for the fiscal year 1912-1913 were not available at the time of the examination.

The expenditure as shown above for 1912 was.....\$9,875.74

The recorded expenditure for 1913 was ..... 3,590.61

Difference .....\$6,285.13

It did not appear unreasonable to assume that the expenditures for 1912-1913 were at least as much as those for 1911-1912 and I am still of the opinion that when all the demands are finally paid that the records will support my contention.

There is also enclosed a statement submitted to me at the meeting of the Park Board held January 23, 1914, together with my notes thereon.

Faithfully yours,

WILLIAM DOLGE,  
Certified Public Accountant.

were paid in 1912-1913 and	
If park fund balance July 1, 1912, was.....	2,881.57
as shown by park ledger	

The park fund was overdrawn at least..... \$3,226.80  
 on July 1, 1912, without taking other de-  
 partments into account.

If bills of 1912-1913, amounting to..... \$4,980.70\*  
 were paid in 1913-1914 and

If park fund balance July 1, 1913, was..... 4,500.43  
 as shown by park ledger,

Then the park fund was overdrawn at least.... \$480.27  
 on July 1, 1913, without taking other de-  
 partments into account.

\*Demands on file in Auditor's office January 31, 1914, show bills of 1912-1913 paid in 1913-1914 amounting to \$5,200.32.

J. R. No. 1115.

Resolved, That the Board meet in Committee of the Whole on Thursday, February 19, 1914, at 2 o'clock p. m., for the purpose of conducting hearing on telephone rates for the year 1914-1915.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

**City Attorney to Advise in Matter of Main Street Change of Grade.**

On motion of Supervisor Gallagher:  
J. R. No. 1116.

Whereas, The Board of Public Works has made its report to this Board of the damages sustained by the various persons claiming damages as a result of the change in the grade of Main street, in accordance with the Ordinance of this Board, No. 2235; and

Whereas, Those persons claiming damages and whose property is situate outside of the assessment district have not been allowed anything on account of their respective claims for damages; and

Whereas, This Board is advised that the said persons so denied damages will be actually damaged, but that the Board of Public Works in refusing to allow them any damages has been acting under the advice of the City Attorney to the effect that under a strict and technical construction of the law said persons are not entitled to receive such damages, now therefore be it

Resolved, That the City Attorney be requested to advise this Board in regard to the matters hereinabove stated, as well also to answer the following questions:

1. If the damages are such as under the State Constitution must be paid, is the City any the less liable for the payment of such damages because

of the fact that the Charter does not provide for their payment?

2. Assuming that actual and special damages will be suffered by these persons as a result of this improvement, has the City the power to order such damages paid? If so, can they be made a charge against the assessment district formed in accordance with the above Ordinance, or must they be paid out of the General Fund?

3. Have you advised the Board of Public Works that the damages claimed by these persons could not be considered because under a technical construction of the law they were not legally entitled to them, irrespective of the fact whether or not such persons actually will suffer special damages as a result of the improvement?

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

**ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.**

Passed for Printing.

The following bill was introduced under suspension of the rules and passed for printing:

**Ordering Purchase of Underground Conduit Material for Municipal Railways.**

On motion of Supervisor Vogelsang: Bill No. 2904, Ordinance No. — (New Series), Ordering the purchase of underground conduit material necessary for the construction of a system of municipal street railways, authorizing the Board of Public Works to advertise for bids for the furnishing of said conduit, approving plans and specifications therefor, payment for said conduit to be borne out of the proceeds of the sale of Municipal Railway Bonds of issue 1913.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works is hereby authorized, instructed and empowered to advertise for bids for furnishing and delivering underground conduit material necessary for the construction of a system of municipal railways, in accordance with plans and specifications prepared therefor by the Board of Public Works, on file in its office, which specifications are hereby approved and adopted, payment for said material to be borne out of the proceeds of the sale of Municipal Railway Bonds, issue of 1913.

Section 2. This ordinance shall take effect immediately.

**Relative to Lighting of Nickelodeons.**

**Pageant Dansant Permit.**

On motion of Supervisor Hocks:

J. R. No. 1118.

Resolved, That the Indoor Yacht Club be and it is hereby granted permission to conduct a pageant dansant at Dreamland Rink and Pavilion Rink on Saturday evening, February 14, 1914, without the payment of the usual license fee, it being understood that the proceeds of such ball are to be devoted to charitable and benevolent purposes.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

**Enforcement of Laundry Ordinance.**

On motion of Supervisor McLeran:

J. R. No. 1119.

Whereas, The Board of Supervisors of the City and County of San Francisco, State of California, finally passed, on June 9, 1913, an amendment to Section 4 of Ordinance number 144, of said Board of Supervisors, regulating the establishment and maintenance of public laundries and public wash houses, within the City and County of San Francisco, State of California, so that said Section as amended reads as follows, to-wit: "Section 4.—No person or persons owning or employed in the public laundries or public wash-houses, provided for in Section 1 of this Ordinance, shall wash, mangle, starch,

iron, or do any other work on clothes between the hours of 6 o'clock p. m. and 7 o'clock a. m., nor upon any portion of that day known as "Sunday;" which Section, as so amended, was, on June 18, 1913, approved by James Rolph, Jr., Mayor of the City and County of San Francisco, State of California, and

Whereas, The Supreme Court of the State of California in the case entitled "*In re Wong Wing, on habeas corpus,*" filed on January 16th, 1914, its opinion affirming the constitutionality of said Section 4 of said Ordinance as amended, after legal attack thereon, upon constitutional questions; and

Whereas, Violators of the terms of said Section of said Ordinance should be detected and vigorously prosecuted, to the end that the same may be enforced in its letter and in its spirit, now therefore be it

Resolved, By the Board of Supervisors of the City and County of San Francisco that the special attention of the Chief of Police of the City and County of San Francisco be directed to the provisions of said Section 4 of said Ordinance and that said Chief of Police be requested to instruct the members of the Police Department to rigorously enforce the provisions of said Section 4 of said Ordinance. Be it further

Resolved, That the Clerk of this Board be directed to forward a copy of this Resolution to the Chief of Police.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

**Treasurer to Sell Hospital-Jail Bonds Over Counter.**

Supervisor McLeran presented:

J. R. No. —.

Resolved, That the Finance Committee be and is authorized and requested to take the necessary preliminary action authorizing and directing the Treasurer of the City and County to sell over the counter in his office from unsold balances of Municipal Bonds for Hospital and Hall of Justice Completion to the amount of three hundred thousand dollars.

Report of William Dolge on Interest Saved in Interest Charges on Sale of Bonds.

The following report was presented, read and ordered spread in the Journal:

San Francisco Cal., Jan. 22, 1914.  
To the Honorable, the Finance Committee of the Board of Supervisors, San Francisco, California:

Gentlemen—On March 3, 1913, a bid was submitted to the Board of Supervisors for the purchase of \$5,248,000.00 municipal bonds at a premium of \$53,632.00. The rejection of this bid and the subsequent sale of the bonds resulted in a saving of \$94,090.81 in interest charges, or a net saving of \$40,458.81 after consideration of premium offered as a deduction from the total interest saved.

For purposes of the computation on which these figures are based, it is assumed that the bonds would have been delivered to the bidder on April 1, 1913—28 days after the submission of the bid.

The saving on interest is the amount of interest from April 1, 1913, to the date of sale of each separate lot, as shown in the statement following:

Additionally the saving in interest on \$219,000.00 of unsold bonds on hand on December 31, 1913, should be taken into account.  
 An extended table of computations is presented hereto, attached.

Faithfully yours,  
 WILLIAM DOLGE,  
 Certified Public Accountant.

**City Attorney's Opinion on Removal of Overhead Wires at Exposition Grounds.**

*Communication*—From City Attorney, advising in matter of removal of overhead wires from exposition grounds.

*Referred to Exposition Committee. Exhibit of City Planning.*

The following matters were presented and read:

*Communication*—From Commonwealth Club of California, urging an appropriation of \$1,000 for the purpose of making an exhibit of city planning.

**Privilege of the Floor.**

*Charles Cheney*, representing Oakland Municipal Exhibit of City Planning, was granted the privilege of the floor and addressed the Board. He urged the Board to make an appropriation for the purpose of bringing the exhibit of city planning to San Francisco. He declared that the exhibit was of great educational value and not an advertising proposition.

*Jos. A. Leonard*, representing the Civic League, urged the appropriation.

Whereupon the following resolution was introduced by Supervisor Murdock and adopted:

J. R. No. 1121.

Whereas, the movement for city planning so general in progressive communities, American and foreign, demands earnest and intelligent consideration by the City of San Francisco, and

Whereas, the exhibit of American and foreign city planning prepared for the City of New York by the American City Bureau, after having aroused great interest in that city is now available for other communities, many of which have already secured its educational advantages, and through the action of the City of Oakland in appropriating \$1,000.00 for a ten days' exhibit beginning March 12th can be secured for San Francisco soon thereafter, therefore be it

Resolved, That the Board of Supervisors co-operate with the Commonwealth Club, the Civic League of Improvement Clubs, the Chamber of Commerce, the Real Estate Board, the California Club and other organizations interested in securing the exhibit at the earliest available date.

Resolved, That, subject to the approval of the Finance Committee, the sum of \$1,000.00 be appropriated toward the expense to be incurred, to be expended under the joint direction of the Public Welfare Committee and the Publicity Committee.

**City Attorney's Opinion on Main Street Change of Grade Damages.**

The following communication was presented, read and ordered spread in Journal:

February 16th, 1914.

Gentlemen:

My attention has been called to Journal Resolution No. 1116 which is as follows:

"Whereas, The Board of Public Works has made its report to this Board of the damages sustained by the various persons claiming damages as a result of the change in the grade of Main street, in accordance with the Ordinance of this Board, No. 2235; and

Whereas, Those persons claiming damages and whose property is situate outside of the assessment district have not been allowed anything on account of their respective claims for damages; and

Whereas, This Board is advised that the said persons so denied damages will be actually damaged, but that the Board of Public Works in refusing to allow them any damages has been acting under the advice of the City Attorney to the effect that under a strict and technical construction of the law said persons are not entitled to receive such damages, now therefore be it

Resolved, That the City Attorney be requested to advise this Board in regard to the matters hereinabove stated, as well also to answer the following questions:

1. If the damages are such as under the State Constitution must be paid, is the City any the less liable for the payment of such damages because of the fact that the Charter does not provide for their payment?

2. Assuming that actual and special damages will be suffered by these persons as a result of this improvement, has the City the power to order such damages paid? If so, can they be made a charge against the assessment district formed in accordance with the above Ordinance, or must they be paid out of the General Fund?

3. Have you advised the Board of Public Works that the damages claimed by these persons could not be considered because under a technical construction of the law they were not legally entitled to them, irrespective of the fact whether or not such persons actually will suffer special damages as a result of the improvement?

Adopted February 9, 1914."

#### OPINION.

In answer to the first question, I advise you that the City is not any the less liable for the payment of damages because of the fact that the Charter does not provide for their payment. The right to damages comes from the State Constitution and can neither be abridged nor taken away by the Charter. (See Article I, Section 14 of the Constitution.)

In answer to the second question, if the claimant suffered actual and special damages as a result of the improvement the City has the power to order such damages paid, otherwise the City would be powerless to proceed with the improvement. The charter provision for a change of grade under the assessment plan does not provide for the payment of damages to property owners whose property lies without the boundaries of the assessment district. (See Section 2, Chapter VI of Article VI of the Charter.)

Since, however, the City has the right to proceed with the improvement and since the City must pay damages, it would follow that the damages can be paid out of any fund of the City available for that purpose.

In answer to your third question I have advised the Board of Public Works that the damages claimed by these persons could not be considered because of the provisions of the Charter which permit the Board of Public Works, in making up the assessments, to allow damages only to those persons having property fronting on the improvement and within the assessment district. (See Section 2 of Chapter VI of Article VI of the Charter.)

I do not desire to be understood as in any way indicating or holding that the damages claimed by the various claimants are such damages as must be paid to the claimants under the Constitution of the State or that the claimants, as a matter of fact, have suffered damages. I simply confine myself to answering the questions categorically as presented by you.

Respectfully,

PERCY V. LONG,  
City Attorney.

Privilege of the Floor.

*W. F. Postelle* and *E. W. Hoey* appeared and requested that hearing be postponed until *J. J. Lerman*, who represented property owners, could be in attendance.

*Geo. C. Holberton*, representing the Chamber of Commerce, stated that it was a mistake to believe that the Chamber of Commerce was not in favor of the Main street change of grade. The organization, he said, was not in favor at the present time, of doing anything west of Beale street, but did favor the grade change on Main and other streets to the east.

*J. J. Lerman* appeared and stated that as he understood the Charter today was the time for filing objections and at the next meeting of the Board the date would be fixed for hearing them.

**Motion.**

Whereupon, Supervisor McCarthy moved that the Clerk be directed to prepare a resolution for next Tuesday's meeting fixing March 16, 1914, as the date for hearing objections to the report of the Board of Public Works on the Main street change of grade.

Motion carried.

Amendment to Building Laws.

Bill No. 2907, Ordinance No.—(New Series), as follows:

Amending Sections Nos. 32, 95, 106 and 133 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law" of the City and County of San Francisco.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Sections Nos. 32, 96, 106 and 133 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law," are hereby amended as follows:

*Walls.*

Section 32. Where any building

without a cross-wall or buttress exceeds a depth of one hundred and sixty (160) feet, the side or bearing walls thereof shall be increased in thickness four (4) inches more than is prescribed in this Ordinance for the thickness of walls, for each 100 feet or fraction thereof of such excess depth.

Section 95. Walls of concrete blocks or brick may be built of a thickness not less than eight (8) inches, provided that vertical steel rods not less than  $\frac{1}{2}$  of an inch diameter and spaced not over 24 inches apart horizontally are used to reinforce the walls. Such rods must be rigidly attached to the steel frame at each floor. No wall of this thickness shall be built of a height exceeding eighteen feet in each story and the materials shall be built in accordance with previous sections covering their construction. If the area of wall surface included between any two adjacent wall columns and adjacent floor girders exceeds 400 square feet, the thickness of the wall shall be not less than 12 inches.

*Partitions.*

Section 106. Partitions may be made of brick, solid concrete, reinforced concrete, metal lath and plaster on metal studs, terra cotta, plaster blocks on other forms approved by the Board of Public Works.

No partition shall rest upon a wooden floor, but must be carried down to the incombustible materials below.

Brick partitions shall be laid as walls and the thickness shall not be less than 8 inches.

Solid plain concrete partitions shall not be less in thickness than  $\frac{1}{30}$  of the height.

Reinforced concrete partitions shall not be less in thickness than  $\frac{1}{60}$  of the height.

Plastered partitions shall have a base of metal studs and metal lath. Up to the height of twelve feet solid partitions two inches thick with one layer of lath may be used. For greater heights studs with two layers of lath shall be used. The depth of the studs shall be at least  $\frac{1}{60}$  of the height of partition.

No grounds for fastening wooden parts shall be inserted in the plaster which must be continuous from floor to ceiling.

Terra cotta partitions shall have the blocks set in cement lime mortar and fastened with iron clips. Thickness of terra cotta shall be at least  $\frac{1}{40}$  of the height of the partition, provided, however, that where wire mesh or expanded metal reinforcement is used on each course of terra cotta, the full length of partitions,

the thickness shall be at least 1/60 of the height of partitions.

Plaster block partitions shall be built of solid plaster blocks of a thickness at least 1/40 of the height of partition and dowelled at top and bottom of each block.

Section 133. All exterior walls of Class "C" buildings, including outer shafts and courts, shall be built of brick. They may be built as continuous walls without openings of the thicknesses given below. If provided with openings the bearing stress shall not exceed the allowed bearing per unit of area as given in Section 58 of this Ordinance.

Walls may be built supporting a portion of the floor in addition to

Six-story building . . . . .	25 in.	21 in.	21 in.	21 in.	21 in.	21 in.	21 in.

If any story exceeds in height the number of feet prescribed in the table, the thickness of each wall throughout such story shall be increased four (4) inches for every five (5) feet or fraction thereof in excess of the tabulated height.

Buildings may be built of more stories except as herein provided, but the thickness for the heights given shall not be decreased and all changes in thickness shall be made at a floor level.

Section 2. This Ordinance shall take effect immediately.

Adopted,

The following resolution was adopted:

Mayor to Sell Portion of Marye Building on Civic Center Site.

On motion of Supervisor Bancroft:  
J. R. No. 1123.

Resolved, That his Honor the Mayor is hereby authorized and requested to sell at public auction, in accordance

their own weight, or self-supporting curtain walls only, in which latter case columns shall be built in the wall to carry floor loads. Where walls support floor loads, the center of any column or stud partition supporting floor loads shall be at a distance not greater than twenty-four (24) feet from the wall.

The thickness of bearing walls for any building not over fifty-five (55) feet in height nor over eighty-seven and one-half (87½) feet in depth, and when used only as a dwelling, lodging house, hotel or tenement house above the first floor, shall not be less than as given in the following table, except that party walls shall be four inches thicker:

**Stable Ordinance.**

On motion of Supervisor Walsh:  
Bill No. 2908, Ordinance No. —  
(New Series), as follows: Providing  
for the issuance of Revocable Per-  
mits by the Board of Supervisors for  
the Construction and Maintenance of  
Stables in the City and County of  
San Francisco.

Be it ordained by the People of  
the City and County of San Fran-  
cisco as follows:

Section 1. It shall be unlawful to  
construct and maintain a stable, or  
to maintain an existing stable for  
one or more horses, donkeys, mules,  
cows, goats or livestock without a  
permit therefor from the Board of  
Supervisors.

Section 2. Anyone now conduct-  
ing a stable of the kind herein desig-  
nated must secure such permit within  
a reasonable time, not to exceed six  
months after the passage of this or-  
dinance.

Section 3. No permit shall be  
granted for a stable hereafter to  
be constructed and maintained, or  
for the future maintenance as a stable  
of a building not used as such,  
except on the report of the Board of  
Health, or other satisfactory evi-  
dence, that the proposed place of  
construction or maintenance of such  
stable is unobjectionable from the  
point of view of sanitation and of the  
health and physical welfare of the  
inhabitants of the immediate neigh-  
borhood of its location.

Section 4. The Board of Super-  
visors shall not refuse a permit for  
the maintenance of a stable in a  
building now constructed and main-  
tained as a stable except upon satis-  
factory evidence that such stable is  
conducted in an insanitary manner  
and the failure to remove the objec-  
tion to the manner of its mainte-  
nance within a time to be prescribed  
by the Board of Supervisors.

Section 5. A permit granted here-  
under is subject to revocation by the  
Board of Supervisors.

Section 6. No permit shall be re-  
fused or revoked by the Board of Su-  
pervisors except after a full hearing,  
and then only in the exercise of a  
sound and reasonable discretion by  
said Board.

Section 7. Any person, firm or cor-  
poration violating any provision of  
this ordinance shall be guilty of a  
misdemeanor, and shall be punish-  
able by a fine of not more than five  
hundred dollars, or by imprisonment  
in the County Jail for not more than  
six months, or by both such fine and  
imprisonment.

Section 8. All ordinances or parts  
of ordinances, insofar as they may  
conflict with the provisions of this  
ordinance, are hereby repealed.

Section 9. This ordinance shall  
take effect immediately.

**Adopted.**

The following resolutions were  
adopted:

The following matters were *passed for Printing*:

Board of Public Works to Prepare Plans and Advertise for Bids for Boring Well; Installing Pumps, Purchasing Pipe for Municipal County Line Water Works.

On motion of Supervisor Vogelsang:  
Bill No. 2909, Ordinance No. —

(New Series), entitled, "Directing the Board of Public Works to prepare plans and specification and advertise for bids for boring a well and installing pumps in the Municipal Pumping Station on Leland avenue; near San

Bruno avenue, and purchasing pipe for the Municipal County Line Water Works."

Board of Public Works to Prepare Plans and Advertise for Bids for Constructing Extensions of the Municipal Railway.

Also, Bill No. 2910, Ordinance No. — (New Series), entitled, "Directing the Board of Public Works to prepare plans and specifications and contracts, and advertise for bids for constructing the roadbed for extensions of the Municipal Street Railway System as follows: Commencing at Market street and Van Ness avenue, thence on Van Ness avenue to Chestnut street to Scott street, thence on Scott street to Greenwich street, thence on Greenwich street to Steiner street, thence on Steiner street to Union street."

Relative to Assessment for Church Street Extension of the Municipal Railways.

#### Privilege of the Floor.

*H. W. Lascelle* was granted the privilege of the floor and addressed the Board. He declared that the assessment for the new extension of Church street was unjust and inequitable. He believed that the Municipal Railway should be carried under Church street by means of a tunnel and should be a charge on the entire City. If the people west of Church street wish the assessment it is all right, as they are the only ones who will be benefited, but he did not see why those on the other side should pay for an improvement that does them no good.

*Kenneth McClure* also addressed the Board and opposed the proposed plan of the City Engineer's office. He presented a plan of his own providing for a uniform grade by the construction of viaducts at certain intervals. He claimed for his project the merit of being much cheaper than the plan proposed.

*Wm. H. Hasselbrook* protested against what he called a double assessment. He was in favor of the railroad.

*H. Bräunagel* also favored the railway extension, but was opposed to the proposed assessment for the new street.

*Mrs. Drumm* favored a plan for the construction of a tunnel under Church street rather than the plan of the City Engineer's office. She believed the entire City should pay for the assessment.

*T. Nyhan, E. W. Purcell and Miss K. Bannan* also opposed the assessment.

*Daniel Ahearn, A. Klinebold, George Long and J. S. McClernan* favored the proposed new street and the assessment therefor. They urged the adoption of the City Engineer's plan

and the immediate commencement of the work.

*M. M. O'Shaughnessy* also addressed the Board. He explained the merits of the plan submitted by his office and declared that it was the result of very careful study and deliberation and was selected from among several others.

Adopted.

Whereupon, the following resolutions were presented and adopted:

#### Intention to Open New Street.

Resolution No. 10684 (New Series).

Resolved, That the public interest and convenience require the opening and it is the intention of the Board of Supervisors of the City and County of San Francisco to order the opening of a street described as follows, to-wit:

City to Pay Cost of Grade Change at Eighteenth and Church Streets.

Also, J. R. No. 1124.

Resolved, That it is the intention of the Board of Supervisors to order a change of grade at Eighteenth and Church streets, and that it is deemed inadvisable to charge the cost thereof upon property of a district benefited. Therefore, for the purpose of settling the policy of the Board of Supervisors with reference to the payment of the cost of such change, be it

Resolved, That the entire cost of such change, including damages which may be paid to property owners, be paid by the City and County of San Francisco out of funds to be hereinafter designated.

**ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.**

Passed for Printing.

The following Resolution was introduced by Supervisor Vogelsang under suspension of the rules and *passed for printing*:

Adopting Location of Canal Tunnel or Viaduct, Hetch Hetchy Water Supply.

Resolution No. — (New Series).

Whereas, for the successful consummation of the policy of the City and County of San Francisco of developing a complete municipal water supply, with the Hetch Hetchy Valley, Lake Eleanor, and the waters of the Tuolumne River and its tributaries in Tuolumne County, California, as a source for obtaining said water supply, it is necessary that the hereinafter described canal tunnel or aqueduct be fully developed; therefore,

Resolved, That the hereinafter described location be and the same hereby is adopted by the City and County of San Francisco as the definite location of the center line of a right of way one hundred feet wide, fifty feet on each side of said center line of the said City and County's canal tunnel or aqueduct, ten feet in diameter. And the Mayor of this City and County is hereby authorized to apply to the United States Land Office, the Honorable Secretary of the Interior and any other department of government on behalf of the City and County for permission to construct and complete said canal tunnel or aqueduct. Said application is to be made under the Act of Congress approved December 19, 1913, entitled "An Act granting to the City and County of San Francisco certain rights of way in, over, and through certain public lands, the Yosemite National Park, and Stanislaus National Forest, and certain lands in the Yosemite National Park, the Stanislaus National Forest, and the public lands

in the State of California, and for other purposes," in order that the City and County may obtain the benefits of said Act.

The Mayor is further authorized and directed to make, on behalf of the City and County, any other applications under said Act of Congress or under any law to any department of government, which may be necessary for the successful completion of the above described municipal water supply for the City and County of San Francisco.

The City Engineer is authorized and directed to prepare all the necessary surveys, maps and field notes for said application or for any other applications which it may be necessary to make under said Act of Congress, or under any law for the successful completion of the above described municipal water supply.

The City Attorney is authorized and directed to appear before the United States Land Office, the Secretary of the Interior, or any other department of government, for and on behalf of the city in the matter of this application, or any other proceeding which may be necessary for the successful completion of the above described municipal water supply.

Following is a description of the definite location of the canal tunnel, or aqueduct, above referred to:

The center line of a right of way 100 feet wide, 50 feet on each side of said center line of said City and County's canal tunnel, or aqueduct, 10 feet in diameter, described as follows, and located in Tuolumne County, Cal.

Beginning at a point designated as No. 10 of the canal tunnel or aqueduct survey, of a continued series from Hetch Hetchy Valley and identical with the intersection of the center line of this canal tunnel or aqueduct crossing the westerly boundary of the Yosemite National Park, which is S. 89° 36' E. 1833 feet distant from the Yosemite National Park monument No. 44, which is S. 89° 36' E. 63.36 feet distant from the true corner to Secs. 34, 35, 2 and 3, Township 1 N. and 1 S., R. 19, E. M. D. B. & M.; thence by true courses and distances 97,240.68 feet to a line between Sec. 30, R. 17 E., and Sec. 25, R. 16 E., the terminal point within the forest boundary, which is on this section line at a point south 2329.81 feet distant from the locus of the true corner to Secs. 19, 24, 25 and 30, T. 1 S., R. 16 E. and R. 17, E. M. D. B. & M.

The following Resolution was adopted:

**Appointment of Stenographer for Water Rates Investigation.**

On motion of Supervisor Gallagher: J. R. No. 1131.

Resolved, That the Water Rates Committee is hereby authorized to appoint an official stenographer to the Board of Supervisors in the matter of the investigation preliminary to the fixing and establishing of rates for water service for the ensuing fiscal year, at the usual compensation.

Ayes—Supervisors Bancroft, Deasy, A. J. Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Passed for Printing.

The following Bill was presented by Supervisor McCarthy and passed for printing:

**Underground Permit, Sierra and San Francisco Power Company.**

Bill No. 2911, Ordinance No. — (New Series), as follows:

An Ordinance granting to Sierra and San Francisco Power Company the right of laying down underground pipes, wires and conduits in certain city streets and under Lobos Square in the City and County of San Francisco and an overhead transmission line westerly along Chestnut street, between Buchanan and Fillmore streets, in place of existing overhead construction on certain streets of said City and County of San Francisco now within the grounds of the Panama-Pacific International Exposition.

Whereas, Sierra and San Francisco Power Company, a corporation, now owns, operates and maintains a certain electric transmission line consisting of poles and wires upon certain of the public streets of and in the City and County of San Francisco within the boundaries of the parcel of land set apart for the use of the Panama-Pacific International Exposition, said pole line being particularly described as follows, to-wit:

Six poles on the west side of Buchanan street, between Beach and Bay streets.

Five poles on the north side of Bay street, between Buchanan and Webster streets.

Four poles on the west side of Webster street, between Bay and Francisco streets.

Four poles on the north side of Francisco street, between Webster and Fillmore streets.

Four poles on the east side of Fillmore street, between Francisco and Chestnut streets.

And whereas, Sierra and San Francisco Power Company has been requested by said Panama-Pacific International Exposition Company to remove the said transmission line from

within the Exposition grounds, and place said line underground so as not to interfere with said Exposition, and

Whereas, It is the desire of the people of the City and County of San Francisco that said Sierra and San Francisco Power Company shall not be in any way prejudiced by a compliance with the terms of said request of said Exposition Company;

Now, therefore, be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The removal, pursuant to the request of the Panama-Pacific International Exposition Company, by Sierra and San Francisco Power Company of its poles and wires used for the purpose of transmitting and conducting electricity over the places upon streets of the said City and County of San Francisco where said poles now are, as hereinbefore specified, to an underground conduit system, except as hereinafter specified, extending from the power house of said company at Buchanan and Beach streets in said City and County of San Francisco, southerly along said Buchanan street to Bay street, and thence southerly across Lobos Square to Chestnut street, and thence westerly by overhead construction along Chestnut street to Fillmore street where said line will join a Mission line of said company extending southerly along Fillmore street, shall not be construed as prejudicing in any way any rights which said company now has or hereafter may have acquired to erect and (or) maintain overhead lines in said City and County of San Francisco; provided that nothing herein contained shall be construed to allow the said company to maintain and operate both of the transmission lines hereinabove referred to between its power house and the point of junction at Chestnut and Fillmore streets with the main line southerly along Fillmore street.

Section 2. The Sierra and San Francisco Power Company, for the reasons hereinbefore stated, is authorized to remove its said overhead transmission line from the streets first hereinabove mentioned where it is now maintained and constructed, which said streets are within the said Exposition grounds, and in lieu thereof is hereby granted the right to construct, operate and maintain an underground conduit system for its electric transmission line extending from its power house at the southeast corner of Buchanan and Beach streets, in the City and County of San Francisco, southerly along said Buchanan street to Lobos Square, and thence southerly across said Lobos Square to Chestnut street, and, by temporary permit, from thence by overhead construction west-

erly along said Chestnut street to Fillmore street where the same may join the present transmission line of said company extending southerly along said Fillmore street; provided, however, that said temporary permit shall be revocable at any time by order of the Board of Supervisors.

Section 3. It is understood that the right herein granted to the Sierra and San Francisco Power Company to construct an overhead electric transmission line along Chestnut street, between Buchanan and Fillmore streets, is for the purpose of giving said company a right of way for its said transmission line in lieu of the right of way which it now has along the streets within the boundaries of the land set apart for the use of the Panama-Pacific International Exposition.

Section 4. This franchise and permit shall not be considered as an exclusive franchise or permit.

Section 5. The City and County of San Francisco reserves the right to regulate the charges of any services rendered by said Sierra and San Francisco Power Company by means of the equipment and construction herein authorized.

Section 6. This franchise and permit is granted subject to the terms and conditions of any ordinance of the City and County of San Francisco, or other law, at present applicable, or which hereafter may be made applicable, to the installation of and disposal of the services herein described.

Adopted.

The following Resolution was introduced under suspension of the rules and adopted.

Exposition Legislation.

On motion of Supervisor Gallagher:  
J. R. No. 1132.

Resolved, That the Committee on Expositions take up with those cities in which expositions have been held in recent years the subject of what legislation they have found it necessary to enact just prior to and during the holding of same; to the end that this Board may be able to study their recommendations and advice, and be prepared to deal with the added legislative problems of the exposition year.

Adopted February 16, 1914.

Also Bill No. 2913, Ordinance No. — (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the Board of Public Works to enter into contract for doing the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the clerk of the Board of Supervisors February 14, 1914, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the pro-

visions of the Street Improvement Ordinance of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

The construction of an 8-inch, vitrified, salt-glazed, iron-stone pipe sewer with 16 Y branches and side sewers and two (2) brick manholes with cast-iron frames and covers and galvanized wrought-iron steps along the center line of Girard street from a point 20 feet northerly from Mansell street to Olmstead street.

For the improvement of San Bruno avenue from the southerly line of Dwight street, produced, to a line at right angles to the easterly line of San Bruno avenue at its intersection with the southerly line of Paul avenue and including the intersection of San Bruno avenue and Paul avenue by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof; by the construction of granite curbs and by the construction of artificial stone sidewalks and brick catchbasins with cast-iron frames, gratings and traps, and 10-inch, vitrified, salt-glazed, iron-stone pipe culverts on the angular corners thereof, excepting on that portion required by law to be paved and kept in repair by the railroad company having tracks thereon; and by the improvement of San Bruno avenue from a line at right angles to the easterly line thereof at its intersection with the southerly line of Paul avenue to the southerly line of Olmstead street, produced, including the intersection of San Bruno avenue and Olmstead street; by the construction of a basalt block pavement on sand on the roadway thereof; by the construction of granite curbs and by the construction of artificial stone sidewalks and brick catchbasins with cast-iron frames, gratings and traps and 10-inch, vitrified, salt-glazed, iron-stone pipe culverts on the angular corners, excepting that portion required by law to be paved and kept in repair by the railroad company having tracks thereon; and for the construction of a 21-inch, vitrified, salt-glazed, iron-stone pipe sewer along the center line of San Bruno avenue from a point 12 feet southerly from the northerly line of Olmstead street, produced, to the southerly line of Olmstead street, produced.

Adopted.

The following resolutions were introduced under suspension of the rules and adopted:

Appointment of Stenographer of Telephone Rates Investigation.

On motion of Supervisor Power:  
J. R. No. 1133.

Resolved, That the Telephones and Rates Committee is hereby authorized to appoint an official stenographer to the Board of Supervisors in the matter of the investigation preliminary to the fixing and establishing of rates for telephone service for the ensuing fiscal year, at the usual compensation.

Ayes—Supervisors Bancroft, Deasy, A. J. Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Leave of Absence, Supervisors Gallagher and Murdock.  
J. R. No. 1134.

Resolved, That in accordance with the recommendation of his Honor the Mayor, Andrew J. Gallagher and Charles A. Murdock, Supervisors of the City and County of San Francisco, be and are hereby granted leaves of absence for sixty days from and after February 20th, 1914, with permission to leave the State.

Ayes—Supervisors Bancroft, Deasy, A. J. Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Approval of City Planning Exhibit.

On motion of Supervisor Murdock:  
J. R. No. 1135.

Resolved, That the Board of Supervisors earnestly approve the proposed City Planning Exhibit and commends the organization undertaking it.

Its failure to appropriate money in aid of the exhibit was based wholly on the restriction imposed by the Charter, as interpreted by the Finance Committee, and it urges the public to generously support the public spirited citizens who hope to arrange for the exhibit.

It bespeaks the favor of the press and hopes that the attendance may be large, that its educational advantages may be generally enjoyed.

Ayes—Supervisors Bancroft, Deasy, A. J. Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

ADJOURNMENT.

There being no further business the Board at the hour of 6:40 p. m. adjourned.

JOHN S. DUNNIGAN,  
Clerk.

TUESDAY, FEBRUARY 17, 1914.

The Board of Supervisors met this day at 2 o'clock p. m. and resolved itself into the Committee of the Whole to make the investigation required by the Charter preliminary to fixing rates to be collected for telephone service during the year beginning July 1, 1914, and ending June 30, 1915.

The Board was called to order by Clerk J. S. Dunnigan and on motion regularly made and seconded Supervisor James E. Power was selected to act as chairman at all of the telephone rate investigations.

A statement from the Pacific Telephone and Telegraph Company, showing its revenues and expenditures for the year 1913, was read and marked Exhibit "A."

A communication from the Direct Line Telephone Company was read and marked Exhibit "B."

A communication from the Bay Cities Home Telephone Company was read and marked Exhibit "C."

J. W. Gilkyson presented a communication from the Pacific Telephone and Telegraph Company which was read and marked Exhibit "D."

The representatives of the Pacific Telephone and Telegraph Company, J. W. Gilkyson and F. Delury, were requested to prepare and present to the Committee of the Whole a statement showing increases in wages to employes in the several departments of the company, also a classified statement of the telephones in use in the City and County.

E. E. Quayle and J. W. Pembroke, representing the San Francisco Hotel Men's Association, were heard. They complained that the rates charged the hotels for telephone service were too high and asked that a reduction be made.

J. K. Gilkyson, representing the telephone company, was heard in reply.

The Committee of the Whole then reported back to the Board and adjourned the hearing until Tuesday, March 3, 1914, at 2 o'clock.

J. S. DUNNIGAN,  
Clerk.

Approved by the Board of Supervisors February 24, 1914.

Pursuant to Resolution No. 3402 (New Series), of the Board of Supervisors of the City and County of San Francisco, I, J. S. Dunnigan, hereby certify that the foregoing are true and correct copies of the Journal of Proceedings of said Board of the dates thereon stated, and approved as above recited.

J. S. DUNNIGAN,  
Clerk of the Board of Supervisors,  
City and County of San Francisco.

**Recommended.**

The following bill, heretofore passed for printing, was taken up and on motion ordered *recommended to Public Buildings Committee*:

**Amendment to Building Laws.**

Bill No. 2907, Ordinance No.— (New Series), as follows:

Amending Sections Nos. 32, 95, 106 and 133 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law" of the City and County of San Francisco.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Sections Nos. 32, 96, 106 and 133 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law." are hereby amended as follows:

**Walls.**

Section 32. Where any building without a cross-wall or buttress exceeds a depth of one hundred and sixty (160) feet, the side or bearing walls thereof shall be increased in thickness four (4) inches more than is prescribed in this Ordinance for the thickness of walls, for each 100 feet or fraction thereof of such excess depth.

Section 95. Walls of concrete blocks or brick may be built of a thickness not less than eight (8) inches, provided that vertical steel rods not less than  $\frac{1}{2}$  of an inch diameter and spaced not over 24 inches apart horizontally are used to reinforce the walls. Such rods must be rigidly attached to the steel frame at each floor. No wall of this thickness shall be built of a height exceeding eighteen feet in each story and the materials shall be built in accordance with previous sections covering their construction. If the area of wall surface included between any two adjacent wall columns and adjacent floor girders exceeds 400 square feet, the thickness of the wall shall be not less than 12 inches.

**Partitions.**

Section 106. Partitions may be made of brick, solid concrete, reinforced concrete, metal lath and plaster on metal studs, terra cotta, plaster blocks on other forms approved by the Board of Public Works.

No partition shall rest upon a wooden floor, but must be carried down to the incombustible materials below.

Brick partitions shall be laid as walls and the thickness shall not be less than 8 inches.

Solid plain concrete partitions shall not be less in thickness than  $\frac{1}{30}$  of the height.

Reinforced concrete partitions shall not be less in thickness than  $\frac{1}{60}$  of the height.

Plastered partitions shall have a base of metal studs and metal lath. Up to the height of twelve feet solid partitions two inches thick with one layer of lath may be used. For brick. #### Stable Ordinance.

Bill No. 2908, Ordinance No. 2639 (New Series), as follows: Providing for the issuance of Revocable Permits by the Board of Supervisors for the Construction and Maintenance of Stables in the City and County of San Francisco.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It shall be unlawful to construct and maintain a stable, or to maintain an existing stable for one or more horses, donkeys, mules, cows, goats or livestock without a permit therefor from the Board of Supervisors.

Section 2. Anyone now conducting a stable of the kind herein designated must secure such permit within a reasonable time, not to exceed six months after the passage of this ordinance.

Section 3. No permit shall be

granted for a stable hereafter to be constructed and maintained, or for the future maintenance as a stable of a building not used as such, except on the report of the Board of Health, or other satisfactory evidence, that the proposed place of construction or maintenance of such stable is unobjectionable from the point of view of sanitation and of the health and physical welfare of the inhabitants of the immediate neighborhood of its location.

Section 4. The Board of Supervisors shall not refuse a permit for the maintenance of a stable in a building now constructed and maintained as a stable except upon satisfactory evidence that such stable is conducted in an insanitary manner and the failure to remove the objection to the manner of its maintenance within a time to be prescribed by the Board of Supervisors.

Section 5. A permit granted hereunder is subject to revocation by the Board of Supervisors.

Section 6. No permit shall be refused or revoked by the Board of Supervisors except after a full hearing, and then only in the exercise of a sound and reasonable discretion by said Board.

Section 7. Any person, firm or corporation violating any provision of this ordinance shall be guilty of a misdemeanor, and shall be punishable by a fine of not more than five hundred dollars, or by imprisonment in the County Jail for not more than six months, or by both such fine and imprisonment.

Section 8. All ordinances or parts of ordinances, insofar as they may conflict with the provisions of this ordinance, are hereby repealed.

Section 9. This ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Payot, Power, Suhr, Vogelsang, Walsh—15.

#### Southern Pacific Terminal Franchise.

The following Bill, laid over from last meeting, was taken up:

Bill No. 2760, Ordinance No. — (New Series), entitled, "Providing for a grant and granting to Southern Pacific Company, a railroad corporation, its successors and assigns, the right to construct, maintain and operate certain standard-gauge railroad tracks under, over, along and across certain streets, avenues, alleys, places and properties in the City and County of San Francisco, State of California."

#### Privilege of the Floor.

G. V. Shoup, attorney representing Southern Pacific Company, was granted the privilege of the floor and ad-

ressed the Board. He opposed the striking out of the phrase "upon and along" in Section 1, as suggested by the City Attorney, for the reason that the proposed franchise included Jewett street, between Fourth and Fifth, Townsend and King streets, upon which the cars run. He believed, however, that section could be worded so as to include Jewett without jeopardizing the city's interest. There was no objection, he said, to suggested amendment to Subdivision A, Section 2, providing for additional flagmen. In the matter of the proposed amendment to Subdivision G, Section 2, that it be the duty of the Southern Pacific Company to keep in repair blocks in which crossings are situated, he requested that it be left to the charter to determine the company's obligation in this regard. He made a similar request regarding the proposition that the Southern Pacific Company and its assigns agree without objection to grade, pave and curb to official line such streets as may be required under the charter or the street improvement law.

The City Engineer's suggestion relative to construction of a subway instead of an overhead bridge on Fourth street was also opposed. He said that a subway would be too costly and that the company had no intention of constructing it. He requested that this matter be left to the discretion of the company and that the ordinance be permitted to remain as it is in this respect. He declared that the matter of an electric line through the Mission had to do with a separate franchise and its consideration in this connection would only complicate the question before the Board.

#### Action Deferred.

Whereupon, the foregoing Bill was on motion *laid over for one week*.

#### Final Passage.

The following matters heretofore passed for printing were taken up, *finally passed* by the following vote, and numbered as follows, to-wit:

Adopting Location of Canal Tunnel or Viaduct, Hetch Hetchy Water Supply.

Resolution No. 10692 (New Series).

Whereas, for the successful consummation of the policy of the City and County of San Francisco of developing a complete municipal water supply, with the Hetch Hetchy Valley, Lake Eleanor, and the waters of the Tuolumne River and its tributaries in Tuolumne County, California, as a source for obtaining said water supply, it is necessary that the hereinafter described canal tunnel or aqueduct be fully developed; therefore,

Resolved, That the hereinafter described location be and the same here-

by is adopted by the City and County of San Francisco as the definite location of the center line of a right of way one hundred feet wide, fifty feet on each side of said center line of the said City and County's canal tunnel or aqueduct, ten feet in diameter. And the Mayor of this City and County is hereby authorized to apply to the United States Land Office, the Honorable Secretary of the Interior and any other department of government on behalf of the City and County for permission to construct and complete said canal tunnel or aqueduct. Said application is to be made under the Act of Congress approved December 19, 1913, entitled "An Act granting to the City and County of San Francisco certain rights of way in, over, and through certain public lands, the Yosemite National Park, and Stanislaus National Forest, and certain lands in the Yosemite National Park, the Stanislaus National Forest, and the public lands in the State of California, and for other purposes," in order that the City and County may obtain the benefits of said Act.

The Mayor is further authorized and directed to make, on behalf of the City and County, any other applications under said Act of Congress or under any law to any department of government, which may be necessary for the successful completion of the above described municipal water supply for the City and County of San Francisco.

The City Engineer is authorized and directed to prepare all the necessary surveys, maps and field notes for said application or for any other applications which it may be necessary to make under said Act of Congress, or under any law for the successful completion of the above described municipal water supply.

The City Attorney is authorized and directed to appear before the United States Land Office, the Secretary of the Interior, or any other department of government, for and on behalf of the city in the matter of this application, or any other proceeding which may be necessary for the successful completion of the above described municipal water supply.

Following is a description of the definite location of the canal tunnel, or aqueduct, above referred to:

The center line of a right of way 100 feet wide, 50 feet on each side of said center line of said City and County's canal tunnel, or aqueduct, 10 feet in diameter, described as follows, and located in Tuolumne County, Cal.

Beginning at a point designated as No. 10 of the canal tunnel or aqueduct survey, of a continued series from Hetch Hetchy Valley and identical with the intersection of the center line of this canal tunnel or aqueduct cross-

ing the westerly boundary of the Yosemite National Park, which is S. 89° 36' E. 1833 feet distant from the Yosemite National Park monument No. 44, which is S. 89° 36' E. 63.36 feet distant from the true corner to Secs. 34, 35, 2 and 3, Township 1 N. and 1 S., R. 19, E. M. D. B. & M.; thence by true courses and distances 97,240.63 feet to a line between Sec. 30, R. 17 E., and Sec. 25, R. 16 E., the terminal point within the forest boundary, which is on this section line at a point south 2329.81 feet distant from the locus of the true corner to Secs. 19, 24, 25 and 30, T. 1 S., R. 16 E. and R. 17, E. Underground Permit, Sierra and San Francisco Power Company.

Bill No. 2911, Ordinance No. 2647 (New Series), as follows:

An Ordinance granting to Sierra and San Francisco Power Company the right of laying down underground pipes, wires and conduits in certain city streets and under Lobos Square in the City and County of San Francisco and an overhead transmission line westerly along Chestnut street, between Buchanan and Fillmore streets, in place of existing overhead construction on certain streets of said City and County of San Francisco now within the grounds of the Panama-Pacific International Exposition.

Whereas, Sierra and San Francisco Power Company, a corporation, now owns, operates and maintains a certain electric transmission line consisting of poles and wires upon certain of the public streets of and in the City and County of San Francisco within the boundaries of the parcel of land set apart for the use of the Panama-Pacific International Exposition, said pole line being particularly described as follows, to-wit:

Six poles on the west side of Buchanan street, between Beach and Bay streets.

Five poles on the north side of Bay street, between Buchanan and Webster streets.

Four poles on the west side of Webster street, between Bay and Francisco streets.

Four poles on the north side of Francisco street, between Webster and Fillmore streets.

Four poles on the east side of Fillmore street, between Francisco and Chestnut streets.

And whereas, Sierra and San Francisco Power Company has been requested by said Panama-Pacific International Exposition Company to remove the said transmission line from within the Exposition grounds, and place said line underground so as not to interfere with said Exposition, and

Whereas, it is the desire of the people of the City and County of San Francisco that said Sierra and San Francisco Power Company shall not be in any way prejudiced by a compliance with the terms of said request of said Exposition Company;

Now, therefore, be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The removal, pursuant to the request of the Panama-Pacific International Exposition Company, by Sierra and San Francisco Power Company of its poles and wires used for

the purpose of transmitting and conducting electricity over the places upon streets of the said City and County of San Francisco where said poles now are, as hereinbefore specified, to an underground conduit system, except as hereinafter specified, extending from the power house of said company at Buchanan and Beach streets in said City and County of San Francisco, southerly along said Buchanan street to Bay street, and thence southerly across Lobos Square to Chestnut street, and thence westerly by overhead construction along Chestnut street to Fillmore street where said line will join a Mission line of said company extending southerly along Fillmore street, shall not be construed as prejudicing in any way any rights which said company now has or hereafter may have acquired to erect and (or) maintain overhead lines in said City and County of San Francisco; provided that nothing herein contained shall be construed to allow the said company to maintain and operate both of the transmission lines hereinabove referred to between its power house and the point of junction at Chestnut and Fillmore streets with the main line southerly along Fillmore street.

Section 2. The Sierra and San Francisco Power Company, for the reasons hereinbefore stated, is authorized to remove its said overhead transmission line from the streets first hereinabove mentioned where it is now maintained and constructed, which said streets are within the said Exposition grounds, and in lieu thereof is hereby granted the right to construct, operate and maintain an underground conduit system for its electric transmission line extending from its power house at the southeast corner of Buchanan and Beach streets, in the City and County of San Francisco, southerly along said Buchanan street to Lobos Square, and thence southerly across said Lobos Square to Chestnut street, and, by temporary permit, from thence by overhead construction westerly along said Chestnut street to Fillmore street where the same may join the present transmission line of said company extending southerly along said Fillmore street; provided, however, that said temporary permit shall be revocable at any time by order of the Board of Supervisors.

Section 3. It is understood that the right herein granted to the Sierra and San Francisco Power Company to construct an overhead electric transmission line along Chestnut street, between Buchanan and Fillmore streets, is for the purpose of giving said company a right of way for its said transmission line in lieu of the right of way which it now has along the streets

within the boundaries of the land set apart for the use of the Panama-Pacific International Exposition.

Section 4. This franchise and permit shall not be considered as an exclusive franchise or permit.

Section 5. The City and County of San Francisco reserves the right to regulate the charges of any services rendered by said Sierra and San Francisco Power Company by means of the equipment and construction herein authorized.

Section 6. This franchise and permit is granted subject to the terms and conditions of any ordinance of the City and County of San Francisco, or other law, at present applicable, or which hereafter may be made applicable, to the installation of and disposal of the services herein described.

#### Congestion at Foot of Market Street.

At the hour of 3:30 p. m. the consideration of plans for the relief of traffic at the foot of Market street was taken up.

*City Engineer O'Shaughnessy* explained his plan. It provides for an elevated structure over the present tracks in center of Market street on a level with the second story of the

ferry building. Ingress and egress are provided by means of inclines commencing at Steuart street. The structure would cost approximately \$300,000 and could be constructed in seven months, in ample time to handle Exposition traffic. The building of this structure would not interfere with present traffic arrangements and would not be permanent in its character. It would serve to relieve conditions for five or seven years, when some more adequate plan must be devised. He did not believe that business men at lower end of Market street would be as seriously damaged as was feared. The public good, however, is paramount and some inconvenience will be suffered.

The City Engineer estimated that were the city to purchase all the property recommended by the president of the Board of Harbor Commissioners in the vicinity of The Embarcadero it would require \$6,000,000. All the plans heretofore considered were finally referred to the Public Utilities and Street Committees jointly for their investigation and recommendation.

*J. J. Dwyer, president of State Board of Harbor Commissioners,* presented the objections of said Board to the plan proposed by the City Engineer.

He declared the engineer for the Harbor Board had stated that the cost would be nearer \$1,600,000 than \$300,000, estimated by City Engineer O'Shaughnessy.

He stated that the City Engineer's estimate of the time required to construct elevated loop was much too short, even if work could be started at once, which is impossible. Reports must be made on property to be damaged, plans prepared, bids called for and contracts awarded—all of which will consume many months before the real work is commenced. Then the structural difficulties—finding a solid foundation and piling which is absolutely necessary in that part of the city by reason of the nature of the ground and the effect of the action of the tidewater upon it—will immensely increase the estimate of cost, and the time of construction to well within the Exposition year. In the meantime the present traffic arrangements will be seriously hampered.

He said that an analysis of the situation will show that the difficulty was in the throat of three loops where the cars are held up to permit teams and trucks to pass.

As a remedy for the present situation Commissioner Dwyer proposed that city open up two new streets, one from Steuart to The Embarcadero, between Market and Mission streets,

and another north of Market street. These streets, or street, to parallel Market street, would give much of the teaming around the ferry building an outlet and to that extent relieve congestion at the foot of Market.

As a measure of temporary relief he advocated doing away with the death curve at the corner of Sacramento and Market streets, where the Sacramento street line runs for a short distance over the loop line and is therefore an obstruction. He proposed that they be switched back Clay street to Drumm and over Drumm back into Sacramento.

Regarding vehicular traffic, Dwyer suggested that all traffic bound from the corner of Mission to Clay street, or vice versa, along The Embarcadero, be ordered to proceed up Mission to Spear, across Market to Drumm and thence down Clay or some other convenient street into The Embarcadero again.

These changes would cost very little money, he said, and might furnish considerable relief. He declared that the money which it was proposed to spend for an elevated loop might much better be expended in opening streets as suggested. These streets, if opened parallel to Market, would relieve congestion greatly and be a permanent improvement to the traffic facilities of the terminal.

Commissioner Dwyer, in criticising City Engineer's plan, stated at the outset that the Harbor Board would submit to any scheme the city adopts, even if it should not be in the judgment of the Board the best and most practical plan.

He declared any plan of permanent relief at the foot of Market street would cost a very big sum indeed. He favored an underground terminal as against other plans.

He believed that facilities for making change, additional conductors and cars with side entrances would greatly facilitate handling of passengers.

Chas. N. Black, vice-president and general manager of the United Railroads, stated that the cause of the congestion was the clash between teams and cars at the throat of the loops at the foot of Market street, and that he believed the suggestion as to opening of new streets to be a good one and worthy of earnest consideration. He declared that it was his opinion that the re-routing of the Sacramento street cars by way of Clay street would increase the danger instead of abolishing it. It would result in two "death curves" instead of one as at present.

Thos. A. Cashin, superintendent of the Municipal Railway, agreed that

congestion was caused by clash of teaming and cars and the opening of new streets would afford some measure of relief.

Willis Polk said that whatever temporary arrangements are now made, a permanent subway that will coincide with proposed subway in Market street should be considered as the ideal solution of the problem.

#### Suggestion for Relieving Foot of Market Street Congestion.

Supervisor Powers presented the following:

1. Incline cars from Steuart street to a point about 40 feet east of the west line of East street, allowing teams to go overhead; or incline East street, allowing teaming to go under the tracks.

2. Have double loop at ferry; that is, a north and south double loop.

3. United Railroads to have ticket booths at ferry.

4. United Railroads to have larger platforms on cars.

5. State Harbor Commissioners to construct foot bridges on north and south line of Market street over East street.

6. Sacramento street cars to be routed back Clay street.

Referred to Public Utilities and Streets Committee.

Adopted.

Whereupon the following resolution was presented and adopted:

Engineer's Data on Overhead Loop on Lower Market Street to be Referred to Mayor and Public Utilities and Streets Committee for Further Hearing and Report.

The following Resolutions were adopted:

**Extensions of Time.**

On motion of Supervisor McCarthy: Resolution No. 10696 (New Series), as follows:

Resolved, That Barber Asphalt Paving Company is hereby granted an extension of ninety days' time from and after February 1, 1914, within which to complete contract for the improvement of the crossings of Roanoke, Miguel and Mateo streets, with Laidley street.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that owing to the recent heavy rains, contractor was delayed in completing the work.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Payot, Power, Suhr, Vogelsang, Walsh—15.

Also, Resolution No. 10697 (New Series), as follows:

Resolved, That F. Rolandi is hereby granted an extension of 120 days' time from and after February 4, 1914, within which to complete contract for the construction of sewer in Forty-eighth avenue and Golden Gate Park, between Cabrillo and Lincoln way, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that this is an extremely difficult job; and also, contractor has been delayed in the work owing to the recent excessively wet weather.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Payot, Power, Suhr, Vogelsang, Walsh—15.

Also, Resolution No. 10698 (New Series), as follows:

Resolved, That Edward Malley is hereby granted an extension of sixty

days' time from and after March 17, 1914, within which to complete contract for the resewering and regrading of Polk and Chestnut streets under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that owing to the recent heavy rains contractor has been unable to complete the work in the specified time.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Payot, Power, Suhr, Vogelsang, Walsh—15.

Also, Resolution No. 10699 (New Series), as follows:

Resolved, That Church & Clark are hereby granted an extension of thirty days' time from and after February 15, 1914, within which to complete contract for the construction of sewers in Twenty-third street, between Carolina and Wisconsin streets, and the crossings of Carolina and Wisconsin streets, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that owing to the excessive rains contractors were delayed in completing the work.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Payot, Power, Suhr, Vogelsang, Walsh—15.

Revocable Laundry Permits.

Supervisor Nelson presented:  
Bill No. —, Ordinance No. — (New Series). Providing for the issuance by the Board of Supervisors of revocable permits for the establishment and maintenance, operation and carrying on of public laundries or wash houses in the City and County of San Francisco.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It shall be unlawful for any person, firm, corporation or association of persons to establish, maintain, operate or carry on in any building or premises in the City and County of San Francisco a public laundry or wash house without obtaining a permit therefor from the Board of Supervisors, specifying the name of the permittee and the location of the premises to be used as such laundry or wash house.

Section 2. The Board of Supervisors in the granting or refusal of any permit applied for hereunder shall exercise a reasonable and sound discretion, taking into consideration the charac-

ter of the applicant for such permit and the intended location of such laundry or wash house.

Section 3. No permit shall be granted except upon a certificate issued by the Department of Public Health, after diligent examination, and inspection of the premises, certifying that the establishment, maintenance, operation or carrying on of such laundry or wash house in the proposed building or premises is not inimical to the health, safety, comfort or moral welfare of those in the immediate neighborhood of such premises.

Section 4. All applications for permits to establish, maintain, operate or carry on such laundry or wash house shall be referred to the Fire Marshal for investigation and report as to fire conditions. Final action by the Board of Supervisors upon any application for such permit shall not be taken until such report shall have been received from the Fire Marshal.

Section 5. Permits for the establishment, maintenance, operation or carrying on of a public laundry or wash house issued hereunder are not transferable and may be revoked at the pleasure of the Board of Supervisors.

Section 6. Any person, firm, corporation or association of persons violating any provision of this ordinance shall be guilty of a misdemeanor, and shall be punishable by a fine of not more than five hundred dollars, or by imprisonment in the County Jail for not more than six months, or by both such fine and imprisonment.

Section 7. All ordinances, or parts of ordinances, insofar as they conflict with the provisions of this ordinance, are hereby repealed.

Section 8. This ordinance shall take effect immediately.

City Engineer to Report Plan for Boring Wells and Extending Mains in Districts Now Inadequately Supplied With Water.

Supervisor Power presented:

J. R. No. —.

Whereas, The inadequacy of water service and the urgent necessity for extending the mains in the outlying districts of this city constitutes the most serious problem now confronting the city; and

Whereas, The City Engineer has determined upon investigation that a large quantity of water to overcome this deficiency may be obtained from subterranean sources; and

Whereas, The Board of Supervisors has agreed to make necessary extensions where property owners dispose of Hetch Hetchy bonds; therefore be it

Resolved, That the City Engineer be directed to prepare plans and specifications for the boring of wells and the extensions of the mains in districts now inadequately supplied with water, provided property owners benefited dispose of Hetch Hetchy bonds to the amount required for such work.

The following matter was introduced under suspension of the rules and *passed for printing*:

Filing Maps Cherry Valley Reservoir Site.

On motion of Supervisor Vogelsang: Resolution No. — (New Series), as follows:

Whereas, the City and County of San Francisco is required by Section 2 of the Act of Congress, approved on the 19th day of December, 1913, entitled, "An Act granting to the City and County of San Francisco certain rights of way in, over, and through certain public lands, the Yosemite National Park, and Stanislaus National Forest, and certain lands in the Yosemite National Park, the Stanislaus National Forest, and the public lands in the State of California, and for other purposes," to file with the Register of the United States Land Office, as provided in said act, for the approval of the Secretary of the Interior, copies of any maps heretofore filed by said City and County or its grantors with any officer of the Department of the Interior or the Department of Agriculture, and approved by said departments; and,

Whereas, the City and County of San Francisco is further required to file with the said Register of the United States Land Office, as provided in said act, for the approval of the Secretary of the Interior, a map showing the boundaries, location and extent of any proposed rights of way and lands required for the purposes stated in said act; and,

Whereas, there was prior to the approval of the aforesaid act of Congress, filed by the City and County of San Francisco with the Register of the United States Land Office at Sacramento, California, on the 16th day of May, 1912, a map of the "Cherry Valley Reservoir Site, Tuolumne County, California;" and

Whereas, this Board of Supervisors did on the 29th day of April, 1912, by Journal Resolution No. 197, adopt the aforesaid "Cherry Valley Reservoir Site" as the definite location of the said reservoir site; and,

Whereas, it is desired by the said City and County that under the terms of the above act of Congress, approved December 19, 1913, the original map, affidavit and field notes of William Hammond Hall as chief engineer of the Sierra Ditch and Water Company, a corporation, and the original certificate of Joseph C. Love, as president of said Sierra Ditch and Water Company which were filed by the said City and County with the Register of the United States Land Office at Sacramento, California, on the 16th day of May, 1912, be adopted and approved by the said City and County as the successor in interest of the said Sierra Ditch and Water Company;

Resolved, That the Mayor of this City and County is hereby authorized to file at the United States Land Office at Sacramento, California, for

the approval of the Honorable Secretary of the Interior, a copy of the aforesaid map of the "Cherry Valley Reservoir Site, Tuolumne County, California," in order that the City and County of San Francisco may obtain the benefits of the aforesaid act of Congress so approved on the 19th day of December, 1913; and the Mayor of this City and County is hereby further authorized to apply on behalf of the said City and County to the United States Land Office, the Honorable Secretary of the Interior, the Honorable Secretary of Agriculture and any other department of the government in order to obtain the benefits of the said act of Congress, approved on the 19th day of December, 1913, or any amendments thereto, or of any law, which applications may be necessary for the successful completion of the municipal water supply with the Hetch Hetchy Valley and Lake Eleanor basin within the Yosemite National Park, and the Cherry Valley within the Stanislaus National Forest and the waters of the Tuolumne River and its tributaries, as a source for obtaining such water supply.

The City Engineer is authorized and directed to prepare the necessary surveys, maps, copies of maps, and field notes for said application or for any further applications which it may be so necessary for the City Engineer to make.

The City Attorney is authorized and directed to appear before the United States Land Office, the Honorable Secretary of the Interior, the Honorable Secretary of Agriculture, or any other department of government for and on behalf of the City and County in the matter of the said applications or any other proceeding which may be necessary for the successful completion of the above described municipal water supply. There is hereby approved and adopted by the said City and County all of the surveys, maps and field notes described in the affidavit of Marsden Manson, as the City Engineer of this City and County annexed to the aforesaid application so filed by the City and County on May 16, 1912, and which surveys, maps and field notes were originally filed, as described in said affidavit, by the Sierra Ditch and Water Company, a corporation, the predecessor in interest of said City and County.

The hereinafter described location is hereby adopted by the City and County of San Francisco as the definite location of the Cherry Valley Reservoir Site, Tuolumne County, California:

Commencing at a point in the N. E.  $\frac{1}{4}$  of the N. E.  $\frac{1}{4}$  of Sec. 32, Tp. 2 N., R. 19 E., M. D. M., from which point

the N. E. corner of said Section 32 bears N. 39° 31' E., 1209 feet; thence following a contour line one hundred and fifty (150) feet in elevation above the low water level of Cherry River at the proposed dam site, around Cherry Valley, a distance of 10.76 miles, to the point of beginning, and containing an area of 1179 acres, more or less.

Adopted.

The following Resolutions were introduced under suspension of the rules and *adopted*:

**Combining School Lots.**

J. R. No. 1146.

Whereas, There are in the districts known as Richmond and Sunset numerous school lots, to-wit: In Sunset District, from Twelfth avenue west, forty-four lots, measuring 150 x 240 feet, and in Richmond District, from Twelfth avenue west, nineteen lots, measuring 150 x 240 feet; and

Whereas, It would be very advisable and a distinct advantage to the city to have fewer lots, but with greater area, so that if possible a square block would be available for each school site in the future, instead of one-third of a block as at present: therefore be it

Resolved, That the Board of Education be and is hereby requested to notify this Board as to the probable location of schools in these two districts, so that the necessary legal steps may be taken to bring about the de-

sired result of having a square block of land for each school site.

Relative to Renewal of Lease of Temporary City Hall.

The following correspondence was presented by his Honor the Mayor and *ordered spread at length in the Journal*:

February 27, 1914.

Mr. J. S. Dunnigan, Clerk Board of Supervisors, San Francisco, Cal.:

Dear Sir—In accordance with your letter of February 19th, the enclosed letter was sent to Mr. James Otis, trustee under the will of A. C. Whitcomb, concerning the extension of lease on the temporary City Hall.

Enclosed also is a duplicate copy of a letter of acknowledgement received from James Otis, dated February 21st.

The City Attorney is in course of preparing a more formal extension of this lease, to be signed by James Otis.

Very truly yours,

SYLVESTER J. McATEE,

Assistant Secretary to the Mayor.

San Francisco, February 20, 1914.

Mr. James Otis, Trustee Under the Will of A. C. Whitcomb, 310 California Street, San Francisco, Cal.:

Dear Sir—Under the authorization in Journal Resolution No. 1122, adopted by the Board of Supervisors on February 16th, 1914, I beg to advise you that the City and County of San Francisco elects to continue

the lease made and entered into between James Otis, trustee under the will of A. C. Whitcomb, deceased, and the City and County of San Francisco, on the 24th day of January, 1911, and recorded June 20th, 1911, in Liber No. 39 of Leases, page 8, in accordance with the provision contained in said lease giving to the City and County of San Francisco the option to continue said lease.

And you will please be further advised that the City and County of San Francisco elects to continue the lease for a period of six months after the expiration of the term expressed in the said lease.

This notification is sent to you in accordance with said Journal Resolution No. 1122.

Will you kindly send an acknowledgement, in duplicate, of your receipt of this notification of the City's intention to continue the said lease?

Very respectfully yours,  
(Sgd.) JAMES ROLPH, JR.,  
Mayor.

February 21, 1914.

Hon. James Rolph, Jr., Mayor of the City and County of San Francisco:

My Dear Mr. Mayor—Herewith acknowledgement is made of your letter of the 20th inst., wherein you advise me that under the authorization in General Resolution No. 1122, adopted by the Board of Supervisors on February 16, 1914, the City and County of San Francisco elected to continue the lease made and entered into between it and the undersigned, James Otis, trustee under the will of A. C. Whitcomb, deceased, said lease being dated the 24th day of January, 1911, and recorded June 20, 1911, in Liber 39 of Leases, page 8.

The election to continue, as I understand it, is to be for a period of six months after the expiration of the term expressed in the lease as it now stands.

Respectfully,  
(Signed) JAMES OTIS,  
Trustee under the will of A. C. Whitcomb, deceased.

Relative to Gauging Flow of Tuolumne River as Required by Hetch Hetchy Grant.

The following matters were presented by his Honor the Mayor and ordered spread in the Journal:  
Department of the Interior,  
Washington.

February 20, 1914.

The Mayor, San Francisco, Cal.:

Sir—With reference to the act granting to the City and County of San Francisco certain rights in the public lands in the State of California for an adequate and an additional water supply from Hetch Hetchy Valley, Lake Eleanor and Cherry Valley in the Tuolumne River

drainage basin, approved December 19, 1913, and accepted by the City of San Francisco by letter of January 15, 1914:

I note that the grant of rights of way is limited to those areas which in the judgment of the Secretary of the Interior are required for the purposes of the act and that the use of the water is subject to certain provisions which will require the measurement of the flow to determine the quantity of water available, both before and after storage. Such measurement is necessary to insure the protection both of the recognized rights of the irrigation interests and of the City of San Francisco in the use and sale of the water remaining after such irrigation rights have been satisfied.

In order that the Secretary of the Interior may have the necessary information in regard to the available water supply, for the administration of the act, reliable stream-gauging records must be collected at many points. In my opinion the collection of these records should be started at once in order that complete data for one or more years may be available by the time any of the several rights of way for reservoirs or problems of distribution of the water under the grant are submitted for decision. As there are varied and divergent interests in the division of the waters of the Tuolumne River which must be considered under the act, the records of flow should be collected by an impartial organization equipped for such work in order that no question may arise as to their essential accuracy. Paragraph 1 of Section 9 of the act provides that such records shall be collected at the expense of the City under the direction of the Secretary of the Interior and with water measuring apparatus satisfactory to him.

In view of the requirements of the bill, I desire that you consult with the United States Geological Survey in regard to the establishment, maintenance, and conduct of stream-gauging work necessary or desirable for the proper administration of the act and make such arrangements for cooperation with that organization as may insure to the Secretary of the Interior the records needed by him as a basis for the decisions which he must make.

It is my opinion that initial steps should be taken immediately in order that the work may be inaugurated as early in the spring as it is feasible to reach the high areas of the Hetch Hetchy Valley and its vicinity.

Very truly yours,  
(Signed) ADOLPH C. MILLER,  
Assistant to the Secretary.

February 26, 1914.

Department of the Interior,

Washington, D. C.

Hon. Adolph C. Miller, Assistant to the Secretary—

Sir—Acknowledgment is hereby made by this office of your letter of the 20th inst., relating to the subject of gauging of streams to be made in connection with the recent act of Congress, granting to the City and County of San Francisco certain rights in public lands in this State for an adequate and additional water supply from Hetch Hetchy Valley, Lake Eleanor, and Cherry Valley in the Tuolumne River drainage basin.

Prompt attention will be given this subject by the proper authorities of this City and County.

Yours very truly,

(Signed) JAMES ROLPH, JR.,  
Mayor.

Department of the Interior.

Washington, Feb. 25, 1914.

Mr. Edward Rainey, Secretary to the Mayor of San Francisco, San Francisco, California:

Sir—Your letter of February 17, 1914, has been received, inquiring as to whether a copy of an ordinance of the Board of Supervisors complying with the provisions of Division 5 of Section 9 of the act of Congress, entitled, "An Act granting to the City and County of San Francisco certain rights of way in, over, and through certain public lands, the Yosemite National Park, and Stanislaus National Forest, and certain lands in the Yosemite National Park, the Stanislaus National Forest, and the public lands in the State of California, and for other purposes," approved December 19, 1913, had been received.

In response thereto I have to state the department has received the letter from the Mayor of San Francisco, dated January 15, 1914, transmitting Ordinance No. 2598 (New Series), of the Board of Supervisors of the City and County of San Francisco, accepting the terms and conditions of the act of December 19, 1913, above mentioned.

Copies of the letter of the Mayor and the Ordinance of the Board of Supervisors have been forwarded to the Commissioner of the General Land Office, the Director of the Geological Survey, and to Major Wm. T. Littebrant, acting superintendent of the Yosemite National Park, for their information and guidance.

Very respectfully,

(Signed) ADOLPH C. MILLER,  
Assistant to the Secretary.

Ordering Street Work.

On motion of Supervisor McCarthy: Bill No. 2924, Ordinance No. (New Series), entitled, "Ordering the construction of sewers and appurtenances in the Junipero Serra Boulevard and former Ocean avenue; authorizing and directing the Board of Public Works to enter into contract for said construction, approving plans and specifications therefor, and permitting progressive payments to be

made during the progress of said work, as provided by Section 21, Chapter I, Article VI of the Charter".

Also, Bill No. 2925, Ordinance No. — (New Series), entitled, "Ordering the improvement of Fifteenth street from Beaver street easterly in front of City property by the construction of granite curbs, basalt block gutters and basalt block pavement; authorizing and directing the Board of Public Works to enter into contract for said improvement, approving plans and specifications therefor; cost of said improvement to be borne out of Budget Item No. 73, Fiscal Year 1913-1914".

Providing \$5,000 to Cover Expense of Locating and Constructing Weirs, Etc., for Measurement of Flow of Tuolumne River and Its Tributaries.

Also, Resolution No. — (New Series), as follows:

Whereas, Under the provisions of sub-section I of Section 9 of the Act of Congress, approved December 19, 1913, granting to the City and County of San Francisco certain rights in the Hetch Hetchy Valley, the Yosemite National Park, and in, over and through the Stanislaus National Forest and public lands to the west thereof, the City and County of San Francisco is required at its own expense to locate and construct such weirs and other suitable structures for the accurate measurement of the flow of the Tuolumne River and its tributaries and to keep such hydrographic records as may be directed by the Secretary of the Interior; and

Whereas, Under the provisions of sub-section R of Section 9 of said Act of Congress, approved December 19, 1913, the City and County of San Francisco is required to meet the expense involved in any investigations made or to be made by the Department of the Interior respecting the rights, benefits or obligations specified in said Act of Congress, and

Whereas, It now appears that in the opinion of the Secretary of the Interior it is desirable to make certain gaugings and hydrographic measurements under the direction of the Secretary of the Interior and that said gaugings and hydrographic measurements will necessitate the expenditure of sums of money from time to time, which expenditures should properly be borne by the City and County of San Francisco under the aforesaid provisions of the said Act; now therefore

Be It Resolved, That the sum of Five Thousand (5,000) Dollars is hereby appropriated out of the moneys derived from the sale of the water supply bonds 1910 issue, for the purpose of covering the expense incident to such investigation and that the

Board of Public Works be and it hereby is authorized and directed to approve demands made by the Secretary of the Interior upon such fund for the purpose hereinabove specified.

Assessor and Auditor to Cancel Assessment on Schooner "Transit".

On motion of Supervisor Jennings:  
J. R. No. 1151.

Whereas, a communication has been received from the Assessor of the City and County of San Francisco reciting that the assessment of the Schooner "Transit" for the year 1913 is erroneous by reason of the fact that said property was not owned by the party to whom it was assessed nor was it within the State of California or liable to assessment during said fiscal year, and asking that said erroneous assessment be cancelled and the City Attorney having given his written consent to such cancellation, therefore

Resolved, That the Assessor and Auditor be directed to cancel the assessment of \$1,665.00 upon the Schooner "Transit" assessed to Reinhay Peterson, Vol. 17, Page 130, Sub. 33, Assessment Roll 1913.

Permit for Municipal Street Railways in Government Reservation at Fort Mason.

On motion of Supervisor Vogelsang:

Resolution No. 10714 (New Series), as follows:

Whereas, The City and County of San Francisco had adopted a scheme for constructing a system of Municipal street railways, which system includes the construction of a street railway into and through the Fort Mason Military Reservation in order to afford a means of communication for such reservation and the United States Transport Docks adjacent thereto; and

Whereas, The inclusion of such proposed street railway construction as a part of the scheme of Municipal street railways was the result of requests by the commanding officer of the said Fort Mason Military Reservation that the City of San Francisco provide suitable transportation facilities for such reservation; now, therefore,

Resolved, That the Honorable Secretary of War be requested to grant to the City and County of San Francisco license to construct, maintain and operate a line of standard gauge, overhead electric railway, on and over the United States Military Reservation at San Francisco, California, commencing at the entrance of said reservation at Van Ness avenue and Bay street, thence following generally on the south side of the road now constructed to Laguna street as shown on the maps on file in the office of the Board of Public Works. That the Clerk of this Board be directed to confer with the commanding officer of the Department of California and to transmit this request to the Honorable Secretary of War with such accompanying documents as may be necessary.

Passed for Printing.

The following Resolution was passed for printing:

#### Blasting Permit.

On motion of Supervisor McCarthy: Resolution No. — (New Series), as follows:

Resolved, That the Merchants' Ice and Cold Storage Company be and is hereby granted permission, revocable at will of the Board of Supervisors, to explode blasts for the purpose of grading the property situate in block bounded by Greenwich, Lombard, Montgomery and Sansome streets, provided the Merchants' Ice and Cold Storage Company shall construct and maintain a retaining wall to the height of the official grade along the easterly line of Montgomery street, between Greenwich and Lombard streets, in accordance with the recommendation of the City Engineer; also, provided, that said permittee shall execute and file a good and sufficient bond in the sum of — dollars, as fixed by the Board of Public Works, in accordance with Ordinance No. 1204.

Also, provided, that said blasts shall be exploded only between the hours of 7 a. m. and 6 p. m., and that the work of blasting shall be performed to the satisfaction and under the supervision of the Board of Public Works.

Also, further provided, that all costs of inspection of the work of grading the property and the erection of the retaining wall shall be paid by the Merchants' Ice and Cold Storage Company to the Board of Public Works, and that should any of the conditions of this resolution be violated by the petitioner, then this privilege and all

rights accruing thereunder shall immediately become null and void.

Referred to City Attorney.

The following Resolution was introduced by Supervisor McCarthy and on his motion referred to City Attorney:

Approving Map of Subdivision No. 1 of Sea Cliff.

Resolution No. — (New Series), as follows:

Approving map of the S. A. Born Building Company, re-subdivision of lots Nos. 4 to 19, inclusive, of Subdivision No. 1 of Sea Cliff, San Francisco, California.

Whereas, The Board of Public Works did by Resolution No. 28909 (Second Series), passed February 20, 1914, approve a map of the S. A. Born Building Company, re-subdivision of lots Nos. 4 to 19, inclusive, Subdivision No. 1 of Sea Cliff, San Francisco, California; now, therefore, be it

Resolved, That the map of the S. A. Born Building Company, re-subdivision of lots Nos. 4 to 19, inclusive, Subdivision No. 1 of Sea Cliff, San Francisco, California, approved by the Board of Public Works by Resolution No. 28909 (Second Series), in accordance with the provisions of Section 28, chapter 2, article VI of the Charter of the City and County of San Francisco, is hereby approved and adopted as the official map of the S. A. Born Building Company, re-subdivision of lots Nos. 4 to 19, inclusive, of Subdivision No. 1 of Sea Cliff, San Francisco, California.

Adopted.

The following Resolutions were adopted:

Intention to Change Grades.

On motion of Supervisor McCarthy:

Resolution No. 10716 (New Series), declaring it to be the intention of the Board of Supervisors to change and establish grades on Twenty-first avenue, between Santiago and Taraval streets, at certain points and elevations, in accordance with the written recommendation of the Board of Public Works filed February 18, 1914.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Resolution No. 10717 (New Series), declaring it to be the intention of the Board of Supervisors to change and establish grades on Bradford street, between Powhattan street and Cortland avenue, at certain points and elevations, in accordance with the written recommendation of the Board of Public Works filed February 18, 1914.

Ayes—Supervisors Bancroft, Deasy,

Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Extensions of Time.

Also Resolution No. 10718 (New Series), as follows:

Resolved, That G. W. McGinn & Co. are hereby granted an extension of forty-five days' time from and after February 9, 1914, within which to complete the contract for the completion of the paving of Lombard street, between Grant avenue and Kearny street, under private contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that the contractors have been delayed by the recent wet weather, the work being washed out by the rains.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Resolution No. 10719 (New Series), as follows:

Resolved, That the Healy-Tibbitts Construction Company is hereby granted an extension of sixty days' time from and after March 14, 1914, within which to complete contract for the construction of a sewer in Baker street, between Tonquin street and the Bay of San Francisco, under public contract.

This extension of time is granted upon the recommendation of the Board of Public Works for the reason that some of the work can be prosecuted only during low tides, and also contractors have been delayed by reason of the recent wet weather.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Board of Public Works to Recommend Street Work.

On motion of Supervisor McCarthy:

J. R. No. 1156.

Resolved, That the Board of Public Works is hereby directed to recommend the following street work:

The improvement of the roadway of Fourteenth street, between Guerrero and Dolores streets, where not already done.

The improvement of the roadway of Magnolia avenue, between Buchanan and Webster streets, where not already done.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

**Consideration of Southern Pacific Terminal Franchise.**

The following bill, laid over from last meeting, was taken up:

Bill No. 2760, Ordinance No. — (New Series), Providing for a grant and granting to Southern Pacific Railroad Company, a railroad corporation, its successors and assigns, the right to construct, maintain and operate certain standard-gauge railroad tracks under, over, along and across certain streets, avenues, alleys, places and properties in the City and County of San Francisco, State of California.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That the right of way be and is hereby granted unto the Southern Pacific Company, a railroad corporation incorporated under laws of the State of Kentucky, and having its principal office and place of business in the City and County of San Francisco, State of California, and to its successors and assigns, for the term of forty years from the date of the passage of this Ordinance, except as otherwise herein provided, said corporation having more than fifty miles of railroad actually constructed and in operation—to use the portions of streets, avenues, alleys, places and properties hereinafter mentioned and described, for railroad purposes as hereinafter set forth; and to that end said Southern Pacific Company, its successors and assigns, is hereby granted the right to construct, maintain and operate, by means of steam, electricity, or other motive power authorized by law, the following described standard-gauge railroad tracks upon, along, across and over the portions of said streets, avenues, alleys, places and properties hereinafter described, upon the route of and traversed by said railroad, and the right to construct, maintain and operate all necessary sidetracks, turnouts, switches, crossings, spur-tracks, yard tracks, depot tracks and terminal tracks and facilities, and to connect any or all of the tracks hereinbefore or hereinafter described with the main line or lines of railroad operated by said company, all as hereinafter set forth:

First: Beginning at four points in the existing passenger train double tracks and freight train double tracks of said Southern Pacific Company at or near the intersection of Seventh and Berry streets; thence in a northerly direction, on a curve to the right, crossing Berry street with five tracks, into and across yards and property of the Southern Pacific Company, crossing King street in a northerly

direction on a curve to the right with five tracks; crossing Sixth street between Townsend and King streets with twenty-one tracks; crossing Fifth street, between Townsend and King streets, with twenty-two tracks; and crossing Fourth street, between Townsend and King streets, with fourteen tracks.

Second: Beginning at two points in the existing freight train double tracks in the southeasterly line of Berry street, near Seventh street; thence in a northerly direction, on a curve to the right, crossing Berry street with two tracks, across the yards and property of the Southern Pacific Company to the southeasterly line of King street, between Sixth and Seventh streets; thence northeasterly along King street; crossing Sixth and Fifth streets with two tracks; thence continuing along King street in a northeasterly direction, crossing Fourth street with three tracks, to the southwesterly line of Third street; also a cross-over track connecting the said tracks on King street with tracks on the property of the Southern Pacific Company in the block bounded by Berry, King, Third and Fourth streets, said cross-over extending in a southwesterly direction across King street from a point near Third street to a point in the southeasterly line of said King street approximately 300 feet southwesterly thereon from the southwesterly line of Third street; also a single or double track cross-over connecting the said tracks on King street with tracks on the property of the Southern Pacific Company in the block bounded by King, Berry, Sixth and Seventh streets, extending in a southerly direction across King street and Sixth street from a point approximately one hundred and seventy feet northeasterly from the northeasterly line of Sixth street to a point near the south corner of King and Sixth streets.

Third: Also tracks beginning at two points in the existing freight train double tracks in Channel street, near Seventh street; thence in a northerly direction on a curve to the right into and across the yards and property of the Southern Pacific Company, crossing Berry street between Sixth and Seventh streets with five tracks; crossing Sixth street between Berry and King streets with eight tracks; crossing Fifth street between Berry and King streets with nine tracks; crossing Fourth street between Berry and King streets with eleven tracks. Also a single or double track cross-over extending in a westerly direction across King street from a point in the southeast-

erly line thereof distant thereon approximately 190 feet southwesterly from the southwesterly line of Fourth street, to a point in the northwesterly line of King street approximately four hundred feet southwesterly from the southwesterly line of Fourth street.

Fourth: Also tracks beginning at two points in the existing freight train tracks near the intersection of Seventh and Channel streets; thence in a northerly direction on a curve to the right crossing Channel street with two tracks into and across the yards and property of the Southern Pacific Company; thence continuing in a northeasterly direction, crossing Sixth street between Berry and Channel streets, with seven tracks; Fifth street, between Berry and Channel streets, with seven tracks; Fourth street, between Berry and Channel streets, with seven tracks; thence into private property of said Southern Pacific Company.

Fifth: Also for the term of thirty-two years, tracks beginning at three points in the existing tracks in private property at their intersection with the southerly line of Division street, between Kansas street and Vermont street; thence northeasterly on a curve to the left crossing Division street with three tracks into and along Townsend street; thence northeasterly along Townsend street crossing Eighth street with three tracks, Seventh street with four tracks, Sixth street with two tracks, Fifth street with two tracks and Fourth street with one track into and upon the property of the Southern Pacific Company near the northerly corner of Fourth and Townsend streets.

Of the above described tracks on Townsend street one track shall be laid with the center line of track thirteen feet northwesterly from and parallel with the southeasterly line of Townsend street, and the other track shall be laid with the center line of track twenty-one feet six inches southeasterly from and parallel with the northwesterly line of Townsend street, between Eighth street and Fourth street, so that there shall be a distance of forty-eight feet between the center line of tracks; the City and County of San Francisco reserves the right to grant permission to any company to lay down tracks in the strip left vacant between the tracks of the Southern Pacific Company on Townsend street at any time in the future, upon undertaking to keep said thirty-nine foot strip in repair, and it is further understood that the City and County of San Francisco shall have the right, at any time, during the term of the

franchise hereby granted, to construct, maintain and operate a Municipal Railroad over that portion of Townsend street between said tracks of the holder of this franchise, or, either overhead and above tracks of said Southern Pacific Company, or underground and beneath such tracks, or to use the tracks laid under the provisions of this Ordinance upon payment of a proportionate value thereof and a proportionate cost of the maintenance thereof, according to the relative use thereof by the several parties; and, also, on the same terms the said City and County shall have the right to use any tracks laid down and maintained by said Southern Pacific Company under the provisions of Order No. 2933, approved December 2, 1895.

Sixth: Also a single or double track beginning at a point in the last above mentioned tracks at or near the intersection of Division and Townsend streets; thence easterly on a curve to the right crossing Division street with one track; crossing Eighth street with two tracks, into and across the yards and property of the Southern Pacific Company, crossing King street, between Seventh and Division streets in an easterly direction, with two tracks; crossing Berry street, between Seventh and De Haro streets with two tracks; thence continuing in an easterly direction and connecting with the existing passenger train double tracks on Seventh street near its intersection with Channel street.

Seventh: Also upon and across any and all intervening streets, lanes, avenues, alleys, places and properties along the route of the tracks described in the foregoing paragraphs.

Section 2. The foregoing rights, privileges and easements are hereby granted upon the following terms, conditions and obligations all and each of which are hereby consented and agreed to by and on behalf of said Southern Pacific Company, its successors and assigns, viz.:

a. Fourth street and all other public streets mentioned herein shall remain open public streets subject to public use except that Fourth street may be temporarily closed to permit the arrival and departure of trains at the depot at Third and Townsend streets when trains are too long to be accommodated in the space between such depot and Fourth street. A flagman shall always be stationed at Fourth and Townsend streets and at Fourth and King streets.

b. A street is to be opened to public use, of the same width as Fourth street, distant one hundred eighty-seven and one-half feet southwesterly therefrom and parallel thereto to ex-

tend from Townsend to Berry street, and a flagman is to be stationed at either end thereof.

c. The Southern Pacific Company shall erect umbrella sheds across Fourth street paralleling its main line tracks, the same to be constructed so as to offer the least possible obstruction to traffic, and to be constructed and maintained to the satisfaction of the Board of Public Works or such other department of the government of the City and County as may have control of its public streets.

d. The said Southern Pacific Company shall, within one year from the date of taking effect of this Ordinance, construct a steel frame passageway or viaduct sufficient to accommodate pedestrian traffic over the roadway of Fourth street from Townsend street to King street, elevated at a distance to permit the passage of trains thereunder, such location and construction to be according to plans and specifications approved by the Board of Public Works and shall be maintained by said Southern Pacific Company to the satisfaction of said Board or other department of the government of the City and County having control of its public streets.

e. The said Southern Pacific Company shall grade to the official grade and shall pave and keep in repair all streets mentioned herein within the area in which tracks are laid whenever required so to do by the Board of Public Works or other officer or department of the City and County having control of its public streets.

f. Whenever in the opinion of the legislative body of the City and County of San Francisco it is deemed to be necessary for the preservation of the public safety and convenience that there should be a separation of grade of all streets over which passenger trains shall be operated, said Southern Pacific Company shall elevate all such tracks used by passenger trains to a height sufficient to insure public safety and not obstruct the public streets. The work of separation shall be commenced within one year after the determination of the necessity thereof by said legislative body and shall be completed within four years from the date of such commencement.

g. Said Southern Pacific Company shall cause all streets embraced in the area bounded by Fourth, Seventh, Townsend and King streets (inclusive of the streets named) to be lighted to the satisfaction of the Board of Supervisors.

h. The tracks of said Railway Company shall be laid flush with the level of the street wherever the same shall

have been graded, so as to offer as little obstruction as practicable to the crossing thereof of vehicles; and it is provided further that nothing in this Ordinance shall be construed so as to prevent the proper authorities of the said City and County of San Francisco from maintaining and exercising the same jurisdiction over the streets, and portions of streets, covered by this franchise which they are, or shall be, authorized hereafter by law to exercise over public streets in said City and County of San Francisco.

i. Said Southern Pacific Company, its successors or assigns, shall lay and maintain all the tracks of said railroad on Townsend street flush with the surface of said street, with rails of approved, grooved, girder type, where and when directed by the Board of Public Works, whenever the same is or shall be graded to the official grade and in such manner as to offer as little obstruction as practicable to the free use thereof by the public and by vehicles.

j. Upon a failure to fully observe the conditions herein imposed, all rights, privileges and easements herein granted shall cease and terminate.

k. No switching charge shall be made by said Southern Pacific Company for cars delivered to consignees or received from consignors, but all such cars shall be delivered free at any spur or industrial track within the City and County connected with its tracks.

Section 3. In consideration of the grant to the Southern Pacific Company of the rights and privileges contained herein, the said Southern Pacific Company hereby agrees to construct a retaining wall along both sides of its tracks in the so-called Bernal cut between Randall street and St. Mary's avenue, allowing a space of thirty feet between such walls for the use therein of two railway tracks of the said Southern Pacific Company, and such retaining walls to be of a height (to be determined by the Board of Public Works) sufficient to retain the earth embankment on the outer side of each wall and afford support for a roadway thirty feet nine inches wide from the inner face of each retaining wall; or, at the option of the Board of Supervisors perform such other work in the widening and retaining of said cut as may be determined by said Board in lieu thereof and to no greater cost to said Southern Pacific Company. The construction of such retaining walls or such other work as may be ordered in lieu thereof by the Board of Supervisors shall be commenced within three months after a request so to do shall be made by

said Board and completed within six months thereafter.

Said Southern Pacific Company does hereby agree to grant to the City and County of San Francisco for the purpose of a public street, an easement over, in and to that portion of its present right of way or property from a point approximately 400 feet northerly of Randall street and between such point and the intersection of San Jose avenue and Diamond street lying between the exterior boundaries of such right of way, or property of said Southern Pacific Company and two parallel lines drawn fifteen feet distant from the center line of such right of way or property. The grant as herein provided shall be made, accepted and recorded prior to the exercise of any right or privilege granted to said Southern Pacific Company by the provisions of this Ordinance.

Section 4. In case the property of the grantee erected or maintained in the streets herein named shall ever be acquired or sought to be acquired by any governmental or public authority, no value on account of any right or privilege herein granted shall be claimed by or paid to the grantee, but all such rights and privileges shall pass to such governmental authority as successors in interest to said grantee subject to the conditions herein set forth; and no value shall attach to any right or privilege herein granted or be asserted or claimed by said grantee for rate fixing purposes.

Section 5. No right, privilege or easement herein granted shall be construed as an abrogation of the police powers of the City and County or as a relinquishment of such control over its streets and thoroughfares as may be necessary to be exercised at any time to promote the public safety and convenience, and all Ordinances now in effect or that may be hereafter enacted relating to the public streets shall be given full force and effect.

Section 6. The rights hereby granted are upon the express conditions prescribed in and by the Charter of the City and County of San Francisco, and especially in and by Subdivision 28 of Section 1, Chapter II, Article II, thereof. The character and general arrangement of all structures herein referred to, the materials of which they are to be built, and all work of whatsoever kind or character done under this franchise upon public streets or highways, shall be subject to the approval of the Board of Public Works of said City and County of San Francisco.

Section 7. In case it should ever be determined that any conditions im-

posed upon, obligation assumed, right or privilege granted by said Southern Pacific Company in this Ordinance, is invalid, or beyond the power of the City and County to require, or beyond the power of said Southern Pacific Company to grant, then this Ordinance shall be held to be invalid in whole, and it is hereby declared that this Ordinance would not have been passed or approved should there have been an omission of any condition herein contained.

Section 8. This Franchise shall be accepted by a resolution of the Board of Directors of said Southern Pacific Company, and filed in the office of the Clerk of the Supervisors before any right under this Ordinance shall be exercised.

Section 9. This Ordinance shall go into effect upon the expiration of sixty days from the date it becomes final either (a) by approval of the Mayor, (b) without his approval by the expiration of the time prescribed by the Charter of the City and County of San Francisco within which the Mayor may disapprove it, or (c) by its passage by the Board of Supervisors over the objections of the Mayor in the event of such disapproval.

#### Amendments.

*Supervisor McCarthy* moved the following amendments, seconded by *Supervisor Vogelsang*:

(1) Amend Section 1, Subdivision 5, by striking out after the word "also" in the first line the words "for the term of two years."

*Carried* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(2) Amend Section 1, Subdivision 5, paragraph 2, line 17, by inserting after the word "tracks" the words "or to construct a Municipal Railway."

*Carried* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(3) Amend Section 1, Subdivision 5, paragraph 2, line 22, by inserting a *period* after the word "repair" and by striking out the remainder of the paragraph.

*Carried* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(4) Amend Section 1, Subdivision 7, line 1, by inserting after the

word "and" the words "along Jewett street, and."

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(5) Amend Section 2, Subdivision (a), line 3, by inserting after the word "public" the words "use, except that Fourth street may be", and by inserting at the end of the paragraph a semi-colon in place of the period and the words "and at such other street crossings as may hereafter be designated by the Board of Supervisors of the City and County of San Francisco."

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(6) Amend Section 2, Subdivision (c), line 2, by inserting after the word "shall" the words "when directed by the Board of Supervisors."

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(7) Amend Section 2, Subdivision (d), line 3, by inserting after the word "construct" the words "with approaches."

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(8) Amend Section 2 by striking out subdivisions (e), (f) and (g) and inserting the following:

"e. The grantee of this franchise, its successors and assigns, shall furnish and maintain such street lights in addition to those ordinarily maintained by the City as may be reasonably necessary upon and along those portions of the various streets in which the railroad tracks hereinabove shall be constructed."

"It shall be the duty of said Southern Pacific Company to keep in repair the streets crossed by said tracks for the block within which such crossings are situated."

Supervisor McCarthy also presented the following amendment to the amendment prepared by the City Attorney to be substituted for the last paragraph of the foregoing:

"It shall be the duty of said Southern Pacific Company (in addition to the Charter requirements), to keep in repair the streets crossed by said

tracks between Townsend and Channel streets, and from and including Fourth street to and including Sixth street (except that portion of Fourth street required to be kept in repair by the United Railroads of San Francisco); and also Eighth street, between Townsend street and Division street; it being understood that this should not apply to Berry street, between Third street and the point midway between Sixth and Seventh streets."

*Privilege of the Floor.*

Guy V. Shoup, attorney representing the Southern Pacific Company, was granted the privilege of the floor and stated that the officials of the Southern Pacific Company favor the foregoing amendment, provided that it was not made obligatory upon the company to keep the streets for an entire block in repair. He declared that the usual requirements are all that could be reasonably asked. He declared also that the tracks barely impinge on some of the streets mentioned, that there are only two tracks on some of the crossings and that the United Railroads as well as the Southern Pacific occupies Fourth street, between Berry and Channel streets. He maintained that there should be no more obligation on the Southern Pacific Company than the Charter imposes.

W. R. Scott, general manager of the Southern Pacific Company, also addressed the Board, objecting to the amendment requiring the company to keep entire block of streets repaired where the tracks of the company cross.

*Amendments Carried.*

Whereupon, the question being taken on the amendment suggested by the City Attorney, the same was carried by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Thereupon the question was taken on Subdivision (e), as amended, and the same was carried by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(9) Amend Section 2 by changing Subdivision (h) to (f).

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(10) Amend Section 2 by changing Subdivision (i) to (g) and insert

after the word "street," in the fourth line thereof, the words "and on all other streets on which such tracks run upon and along the same."

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(11) Amend Section 2 by changing Subdivision (j) to (h) and insert after the word "imposed," the words "after thirty days written notice from the Board of Supervisors."

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(12) Amend Section 2 by striking out Subdivision (k) and inserting the following:

i. Whenever so directed by the Board of Supervisors, said Southern Pacific Company, its successors or assigns, shall grade, curb and pave to official grade such of said streets or portions of said streets as may be legally required of it under the provisions of the Charter or the street improvement laws, and that no objection shall be interposed by the said Southern Pacific Company to such grading, curbing, paving or other work or improvement; and the said Southern Pacific Company, in consideration of this grant, hereby waives its right to object, as a property owner or otherwise, to the doing of any such grading, curbing, paving or other work or improvement, provided the Board of Supervisors gives the said Company six months' notice of its intention to require such grading, curbing, paving or other proposed improvement."

*Privilege of the Floor.*

*Guy V. Shoup*, attorney, representing the Southern Pacific Company, was granted the privilege of the floor and addressed the Board, objecting to the proposed amendment. He declared that it requires the Southern Pacific Company to waive as a property owner its right to protest in matter of street improvement work. He said that in the past it has been the policy of the Company to agree with other property owners in matters relating to street improvements and it can be depended upon to pursue the same policy in the future. He believed that the acceptance of the amendment might result in serious damage to the company at some time in the future under some other Board of Supervisors. He declared that if the provision was inserted that it will be accepted only in so far as the Company is legally liable.

Good faith on the Company's part, he said, required that he make such a statement.

*W. R. Scott*, general manager of the Southern Pacific Company, said that no one could point to a single instance in the matter of street improvement where the Company has acted in bad faith. The subsidence at Townsend street can be improved only for drainage purposes and it is more necessary for the Southern Pacific Company to have that done than anyone else. You make, he said, a club of this franchise to force us to do what you fear we will not do. He said Southern Pacific Company would meet the situation in the proper way when work is to be done; we are more interested in the matter than anyone else.

*Amendment Carried.*

Whereupon, the question being taken, the proposed amendment was carried by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(13) Amend by striking out Section 3.

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(14) Amend by changing number of Section 4 to 3.

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(15) Amend by changing number of Section 5 to 4.

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(16) Amend by changing number of Section 6 to 5, and add to end of paragraph the words "except to the extent that such authority is vested in the Railroad Commission of California."

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(7) Amend by striking out Section 7.

*Carried by the following vote:*

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, McCarthy, Mc-

Leran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

No—Supervisor Jennings—1.

(18) Amend by changing number of Section 8 to 6.

Carried by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

(19) Amend by changing number of Section 9 to 7.

Carried by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Passed for Printing.

Thereupon, the above Bill, as amended and in words and figures following, was passed for printing by the following vote:

Bill No. 2760, Ordinance No. — (New Series). Providing for a grant and granting to Southern Pacific Company, a railroad corporation, its successors and assigns, the right to construct, maintain and operate certain standard-gauge railroad tracks under, over, along and across certain streets, avenues, alleys, places and properties in the City and County of San Francisco, State of California.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That the right of way be and is hereby granted unto the Southern Pacific Company, a railroad corporation incorporated under laws of the State of Kentucky, and having its principal office and place of business in the City and County of San Francisco, State of California, and to its successors and assigns, for the term of forty years from the date of the passage of this Ordinance, except as otherwise herein provided, said corporation having more than fifty miles of railroad actually constructed and in operation—to use the portions of streets, avenues, alleys, places and properties hereinafter mentioned and described, for railroad purposes as hereinafter set forth; and to that end said Southern Pacific Company, its successors and assigns, is hereby granted the right to construct, maintain and operate, by means of steam, electricity, or other motive power authorized by law, the following described standard-gauge railroad tracks upon, along, across and over the portions of said streets, avenues, alleys, places and properties hereinafter described, upon the route of and traversed by said railroad, and the right to construct, maintain and operate all necessary side-tracks, turnouts, switches, crossings,

spur-tracks, yard tracks, depot tracks and terminal tracks and facilities, and to connect any or all of the tracks hereinbefore or hereinafter described with the main line or lines of railroad operated by said company, all as hereinafter set forth:

First: Beginning at four points in the existing passenger train double tracks and freight train double tracks of said Southern Pacific Company at or near the intersection of Seventh and Berry streets; thence in a northerly direction, on a curve to the right, crossing Berry street with five tracks, into and across yards and property of the Southern Pacific Company, crossing King street in a northerly direction on a curve to the right with five tracks; crossing Sixth street between Townsend and King streets with twenty-one tracks; crossing Fifth street, between Townsend and King streets, with twenty-two tracks; and crossing Fourth street between Townsend and King streets with fourteen tracks.

Second: Beginning at two points in the existing freight train double tracks in the southeasterly line of Berry street near Seventh street; thence in a northerly direction, on a curve to the right, crossing Berry street with two tracks, across the yards and property of the Southern Pacific Company to the southeasterly line of King street between Sixth and Seventh streets; thence northeasterly along King street; crossing Sixth and Fifth streets with two tracks; thence continuing along King street in a northeasterly direction, crossing Fourth street with three tracks, to the southwesterly line of Third street; also a cross-over track connecting the said tracks on King street with tracks on the property of the Southern Pacific Company in the block bounded by Berry, King, Third and Fourth streets, said cross-over extending in a southwesterly direction across King street from a point near Third street to a point in the southeasterly line of said King street approximately 300 feet southwesterly thereon from the southwesterly line of Third street; also a single or double track cross-over connecting the said tracks on King street with tracks on the property of the Southern Pacific Company in the block bounded by King, Berry, Sixth and Seventh streets, extending in a southerly direction across King street and Sixth street from a point approximately one hundred and seventy feet northeasterly from the northeasterly line of Sixth street to a point near the south corner of King and Sixth streets.

Third: Also tracks beginning at two points in the existing freight

train double tracks in Channel street near Seventh street; thence in a northerly direction on a curve to the right into and across the yards and property of the Southern Pacific Company, crossing Berry street between Sixth and Seventh streets with five tracks; crossing Sixth street between Berry and King streets with eight tracks; crossing Fifth street between Berry and King streets with nine tracks; crossing Fourth street between Berry and King streets with eleven tracks. Also a single or double track cross-over extending in a westerly direction across King street from a point in the southeasterly line thereof distant thereon approximately 190 feet southwesterly from the southwesterly line of Fourth street, to a point in the northwesterly line of King street approximately four hundred feet southwesterly from the southwesterly line of Fourth street.

Fourth: Also tracks beginning at two points in the existing freight train tracks near the intersection of Seventh and Channel streets; thence in a northerly direction on a curve to the right, crossing Channel street with two tracks into and across the yards and property of the Southern Pacific Company; thence continuing in a northeasterly direction, crossing Sixth street, between Berry and Channel streets, with seven tracks; Fifth street between Berry and Channel streets with seven tracks; Fourth street, between Berry and Channel streets, with seven tracks; thence into private property of said Southern Pacific Company.

Fifth: Also tracks beginning at three points in the existing tracks in private property at their intersection with the southerly line of Division street between Kansas street and Vermont street; thence northeasterly on a curve to the left crossing Division street with three tracks into and along Townsend street; thence northeasterly along Townsend street crossing Eighth street with three tracks, Seventh street with four tracks, Sixth street with two tracks, Fifth street with two tracks and Fourth street with one track into and upon property of the Southern Pacific Company near the northerly corner of Fourth and Townsend streets.

Of the above described tracks on Townsend street one track shall be laid with the center line of track thirteen feet northwesterly from and parallel with the southeasterly line of Townsend street, and the other track shall be laid with the center line of track twenty-one feet six inches southeasterly from and parallel with the northwesterly line of

Townsend street, between Eighth street and Fourth street, so that there shall be a distance of forty-eight feet between the center line of tracks; the City and County of San Francisco reserves the right to grant permission to any company to lay down tracks or to construct a municipal railway in the strip left vacant between the tracks of the Southern Pacific Company on Townsend street at any time in the future, upon undertaking to keep said thirty-nine foot strip in repair.

Sixth: Also a single or double track beginning at a point in the last above mentioned tracks at or near the intersection of Division and Townsend streets; thence easterly on a curve to the right crossing Division street with one track; crossing Eighth street with two tracks, into and across the yards and property of the Southern Pacific Company, crossing King street between Seventh and Division streets in an easterly direction with two tracks, crossing Berry street between Seventh and De Haro streets with two tracks; thence continuing in an easterly direction and connecting with the existing passenger train double tracks on Seventh street near its intersection with Channel street.

Seventh: Also upon and along Jewett street; and across any and all intervening streets, lanes, avenues, alleys, places and properties along the route of the tracks described in the foregoing paragraphs.

Section 2. The foregoing rights, privileges and easements are hereby granted upon the following terms, conditions and obligations all and each of which are hereby consented and agreed to by and on behalf of said Southern Pacific Company, its successors and assigns, viz.:

a. Fourth street and all other public streets mentioned herein shall remain open public streets subject to public use, except that Fourth street may be temporarily closed to permit the arrival and departure of trains at the depot at Third and Townsend streets when trains are too long to be accommodated in the space between such depot and Fourth street. A flagman shall always be stationed at Fourth and Townsend streets and at Fourth and King streets; and at such other street crossings as may hereafter be designated by the Board of Supervisors of the City and County of San Francisco.

b. A street is to be opened to public use, of the same width as Fourth street, distant one hundred eighty-seven and one-half feet southwesterly therefrom and parallel thereto to extend from Townsend to Berry street,

and a flagman is to be stationed at either end thereof.

c. The Southern Pacific Company shall, when directed by the Board of Supervisors, erect umbrella sheds across Fourth street paralleling its main line tracks, the same to be constructed so as to offer the least possible obstruction to traffic, and to be so constructed and maintained to the satisfaction of the Board of Public Works or such other department of the government of the City and County as may have control of its public streets.

d. The said Southern Pacific Company shall, within one year from the date of taking effect of this ordinance, construct with approaches a steel frame passageway or viaduct sufficient to accommodate pedestrian traffic over the roadway of Fourth street from Townsend street to King street, elevated a distance to permit the passage of trains thereunder, such location and construction to be according to plans and specifications approved by the Board of Public Works and shall be maintained by said Southern Pacific Company to the satisfaction of said Board or other department of the government of the City and County having control of its public streets.

e. The grantee of this franchise, its successors and assigns, shall furnish and maintain such street lights in addition to those ordinarily maintained by the City as may be reasonably necessary upon and along those portions of the various streets in which the railroad tracks hereinabove described shall be constructed.

It shall be the duty of said Southern Pacific Company (in addition to the Charter requirements), to keep in repair the streets crossed by said tracks between Townsend and Channel streets, and from and including Fourth street to and including Sixth street (except that portion of Fourth street required to be kept in repair by the United Railroads of San Francisco); and also Eighth street between Townsend street and Division street: it being understood that this should not apply to Berry street between Third street and the point midway between Sixth and Seventh streets.

f. The tracks of said Railway Company shall be laid flush with the level of the street wherever the same shall have been graded, so as to offer as little obstruction as practicable to the crossing thereof of vehicles; and it is provided further that nothing in this Ordinance shall be construed so as to prevent the proper authorities of the said City and County of San Francisco from maintaining and

exercising the same jurisdiction over the streets, and portions of streets, covered by this franchise which they are, or shall be, authorized hereafter by law to exercise over public streets in said City and County of San Francisco.

g. Said Southern Pacific Company, its successors or assigns, shall lay and maintain all the tracks of said railroad on Townsend street, and on all other streets on which such tracks run upon and along the same, flush with the surface of said streets, with rails of approved, grooved, girder type, where and when directed by the Board of Public Works, whenever the same is or shall be graded to the official grade and in such manner as to offer as little obstruction as practicable to the free use thereof by the public and by vehicles.

h. Upon a failure to fully observe the conditions herein imposed, after thirty days' notice from the Board of Supervisors, all rights, privileges and easements herein granted shall cease and terminate.

i. Whenever so directed by the Board of Supervisors, said Southern Pacific Company, its successors or assigns, shall grade, curb and pave to official grade such of said streets or portions of said streets as may be legally required of it under the provisions of the Charter or the street improvement laws, and that no objection shall be interposed by the said Southern Pacific Company, to such grading, curbing, paving or other work or improvement; and the said Southern Pacific Company, in consideration of this grant, hereby waives its right to object, as a property owner or otherwise, to the doing of any such grading, curbing, paving or other work or improvement, provided the Board of Supervisors gives the said Company six months' notice of its intention to require such grading, curbing, paving or other proposed improvement.

Section 3. In case the property of the grantee erected or maintained in the streets herein named shall ever be acquired or sought to be acquired by any governmental or public authority, no value on account of any right or privilege herein granted shall be claimed by or paid to the grantee, but all such rights and privileges shall pass to such governmental authority as successors in interest to said grantee subject to the conditions herein set forth; and no value shall attach to any right or privilege herein granted or be asserted or claimed by said grantee for rate fixing purposes.

Section 4. No right, privilege or easement here granted shall be con-

strued as an abrogation of the police powers of the City and County or as a relinquishment of such control over its streets and thoroughfares as may be necessary to be exercised at any time to promote the public safety and convenience, and all Ordinances now in effect or that may be hereafter enacted relating to the public streets shall be given full force and effect.

Section 5. The rights hereby granted are upon the express conditions prescribed in and by the Charter of the City and County of San Francisco, and especially in and by Subdivision 28 of Section 1, Chapter II, Article II, thereof. The character and general arrangement of all structures herein referred to, the materials of which they are to be built, and all work of whatsoever kind or character done under this franchise upon public streets or highways, shall be subject to the approval of the Board of Public Works of said City and County of San Francisco, except to the extent that such authority is vested in the Railroad Commission of California.

Section 6. This franchise shall be accepted by a resolution of the Board of Directors of said Southern Pacific Company, and filed in the office of the Clerk of the Supervisors before any right under this Ordinance shall be exercised.

Section 7. This Ordinance shall go into effect upon the expiration of sixty days from the date it becomes final either (a) by approval of the Mayor, (b) without his approval by the expiration of the time prescribed by the Charter of the City and County of San Francisco within which the Mayor may disapprove it, or (c) by its passage by the Board of Supervisors over the objections of the Mayor in the event of such disapproval.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh.

Absent—Supervisor Gallagher.

Whereupon, the following resolution was introduced by Supervisor McCarthy and adopted:

Mayor to Enter Into Agreement With Southern Pacific Company Conveying Portion of Bernal Cut.

Resolution No. 10721 (New Series), as follows:

Resolved, That the Mayor is hereby authorized to enter into an agreement with the Southern Pacific Company whereby said Southern Pacific Company agrees to execute a deed conveying to the City and County of San Francisco certain portions of a private right of way known as the Bernal Cut

occupied by the said Company, said agreement providing for certain obligations to be assumed by the City and County of San Francisco in connection therewith. Said deed provided for in such agreement to be placed in escrow, to be delivered to the Mayor upon the acceptance by the Southern Pacific Company of a certain franchise this day passed to print.

Remission of Stable Permit Advertising Fees.

On motion of Supervisor Walsh:

J. R. No. 1158.

Resolved, That the usual fees for advertising in the official newspaper will not be required where stable permits are granted under Ordinance No. 2639 (New Series), when satisfactory proof is presented to the Public Health Committee that the stable is now being conducted and maintained under permit heretofore granted by this Board and that the advertising fee was collected at the time said permit was granted.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Hearing of Appeal—Sewer Work in Kansas Street.

The hearing of appeal of Mrs. Rosamond Machabee against report of Board of Public Works determining assessment for sewer work in Kansas street, between Twentieth and Twenty-second streets, fixed for the hour of 3 p. m. this day, was taken up.

### Privilege of the Floor.

Mrs. Rosamond Machabee was granted the privilege of the floor and addressed the Board, stating that she was assessed for a sewer that was temporary in character and which she could not use. Property owners on other side of street who may use sewer and those in block above for whose benefit it is constructed will not have to pay. She declared that she would refuse to pay anything for the work.

### Denying Appeal and Confirming Assessment for Sewer Work on Kansas Street.

Whereupon Resolution No. 10720 (New Series), as follows:

Resolved, That the appeal of Mrs. Rosamond Machabee et al. from the decision of the Board of Public Works in issuing assessment No. 494 for the construction of a sewer in Kansas street, from a point 416 feet southerly from Twentieth street to Twenty-second street; also crossing of Kansas and Twenty-second streets, be denied and the assessment confirmed.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

### Board of Public Works to Consider Extension of Municipal Railway to Foot of Powell or Mason Street.

Supervisor Vogelsang presented:

J. R. No. —

Whereas, The congestion of traffic at the Ferries presents a problem calling for early solution; and,

Whereas, A diversion of ferry traffic from Marin County to the foot of Powell or Mason streets will tend, in some measure, to relieve said congestion, and will greatly lessen the time of transportation from said Marin County to the business center of San Francisco, in the event that suitable street transportation be provided from said foot of Powell or Mason streets; and,

Whereas, The completion of the Stockton street tunnel and the construction of a municipal railway from Stockton and Market streets to Fort Mason is already provided for, and an extension thereof to the foot of Powell or Mason streets is comparatively inexpensive;

Therefore, be it Resolved, That the Board of Public Works, at its earliest convenience, consider the problem of such extension; confer with the Board of Harbor Commissioners as to the likelihood of the establishment of ferry slips at such point on North Beach; and report to this Board the probable cost of such extension of the municipal railway to connect with said proposed ferry slips, and the time within which

said slips and said road may be completed.

Referred to Public Utilities Committee.

### ADJOURNMENT.

There being no further business, the Board, at the hour of 6:25 p. m., adjourned.

J. S. DUNNIGAN,  
Clerk.

Filling Maps Cherry Valley Reservoir Site.

Resolution No. 10725 (New Series), as follows:

Whereas, the City and County of San Francisco is required by Section 2 of the Act of Congress, approved on the 19th day of December, 1913, entitled, "An Act granting to the City and County of San Francisco certain rights of way in, over, and through certain public lands, the Yosemite National Park, and Stanislaus National Forest, and certain lands in the Yosemite National Park, the Stanislaus National Forest, and the public lands in the State of California, and for other purposes," to file with the Register of the United States Land Office, as provided in said act, for the approval of the Secretary of the Interior, copies of any maps heretofore filed by said City and County or its grantors with any officer of the Department of the Interior or the Department of Agriculture, and approved by said departments; and,

Whereas, the City and County of San Francisco is further required to file with the said Register of the United States Land Office, as provided in said act, for the approval of the Secretary of the Interior, a map showing the boundaries, location and extent of any proposed rights of way and lands required for the purposes stated in said act; and,

Whereas, there was prior to the approval of the aforesaid act of Congress, filed by the City and County of San Francisco with the Register of the United States Land Office at Sacramento, California, on the 16th day of May, 1912, a map of the "Cherry Valley Reservoir Site, Tuolumne County, California;" and

Whereas, this Board of Supervisors did on the 29th day of April, 1912, by Journal Resolution No. 197, adopt the aforesaid "Cherry Valley Reservoir Site" as the definite location of the said reservoir site; and,

Whereas, it is desired by the said City and County that under the terms of the above act of Congress, approved December 19, 1913, the original map, affidavit and field notes of William

Hammond Hall as chief engineer of the Sierra Ditch and Water Company, a corporation, and the original certificate of Joseph C. Love, as president of said Sierra Ditch and Water Company which were filed by the said City and County with the Register of the United States Land Office at Sacramento, California, on the 16th day of May, 1912, be adopted and approved by the said City and County as the successor in interest of the said Sierra Ditch and Water Company;

Resolved, That the Mayor of this City and County is hereby authorized to file at the United States Land Office at Sacramento, California, for the approval of the Honorable Secretary of the Interior, a copy of the aforesaid map of the "Cherry Valley Reservoir Site, Tuolumne County, California," in order that the City and County of San Francisco may obtain the benefits of the aforesaid act of Congress so approved on the 19th day of December, 1913; and the Mayor of this City and County is hereby further authorized to apply on behalf of the said City and County to the United States Land Office, the Honorable Secretary of the Interior, the Honorable Secretary of Agriculture and any other department of the government in order to obtain the benefits of the said act of Congress, approved on the 19th day of December, 1913, or any amendments thereto, or of any law, which applications may be necessary for the successful completion of the municipal water supply with the Hetch Hetchy Valley and Lake Eleanor basin within the Yosemite National Park, and the Cherry Valley within the Stanislaus National Forest and the waters of the Tuolumne River and its tributaries, as a source for obtaining such water supply.

The City Engineer is authorized and directed to prepare the necessary surveys, maps, copies of maps, and field notes for said application or for any further applications which it may be so necessary for the City Engineer to make.

The City Attorney is authorized and directed to appear before the United States Land Office, the Honorable Secretary of the Interior, the Honorable Secretary of Agriculture, or any other department of government for and on behalf of the City and County in the matter of the said applications or any other proceeding which may be necessary for the successful completion of the above described municipal water supply. There is hereby approved and adopted by the said City and County all of the surveys, maps and field notes described in the affi-

davit of Marsden Manson, as the City Engineer of this City and County annexed to the aforesaid application so filed by the City and County on May 16, 1912, and which surveys, maps and field notes were originally filed, as described in said affidavit, by the Sierra Ditch and Water Company, a corporation, the predecessor in interest of said City and County.

The hereinafter described location is hereby adopted by the City and County of San Francisco as the definite location of the Cherry Valley Reservoir Site, Tuolumne County, California:

Commencing at a point in the N. E.  $\frac{1}{4}$  of the N. E.  $\frac{1}{4}$  of Sec. 32, Tp. 2 N., R. 19 E., M. D. M., from which point the N. E. corner of said Section 32 bears N. 39° 31' E., 1209 feet; thence following a contour line one hundred and fifty (150) feet in elevation above the low water level of Cherry River at the proposed dam site, around Cherry Valley, a distance of 10.76 miles, to the point of beginning, and containing an area of 1179 acres, more or less.

#### Ordering Street Work.

Bill No. 2919, Ordinance No. 2653 (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the Board of Public Works to enter into contract for doing the same.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors February 13, 1914, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

The improvement of Vienna street, between Persia and Russia avenues, by the construction of granite curbs and by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway

thereof, where not already so improved.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—15.

Bill No. 2920, Ordinance No. 2654 (New Series), as follows:

Ordering the performance of certain street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the Board of Public Works to enter into contract for doing the same.

Be it ordained by the people of the City and County of San Francisco as follows:

Section 1. The Board of Public Works in written communication filed in the office of the Clerk of the Board of Supervisors February 13, 1914, having recommended the ordering of the following street work, the same is hereby ordered to be done in the City and County of San Francisco in conformity with the provisions of the Street Improvement Ordinance of said City and County of San Francisco, said work to be performed under the direction of the Board of Public Works, and to be done in accordance with the specifications prepared therefor by said Board of Public Works, and on file in its office, which said plans and specifications are hereby approved and adopted.

The improvement of Corbett avenue, between Hattie street and Corbin street, where not already so improved, by the construction of an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface on the roadway thereof; and by the construction of granite curbs; and for the improvement of Corbett avenue, between Corbin street and Danvers street, where not already so improved, by the construction of a basalt block pavement on a sand foundation for a width of 7 feet on either side of the center line thereof; and by paving the remainder of the roadway with an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface and by the construction of granite curbs.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—15.

Bill No. 2921, Ordinance No. 2655 (New Series), as follows:

Ordering the performance of the following street work to be done in the City and County of San Francisco, approving and adopting specifications therefor and authorizing the

Board of Public Works to enter into contract for doing the same, to-wit:

The improvement of Forty-second avenue, between Irving and Judah streets, by the construction of red-wood curbs and by the construction of a broken rock pavement on the roadway thereof, where not already so improved.

The improvement of Coleridge street, between Esmeralda and Fair avenues, by the construction of granite curbs, where not already constructed, and by the construction of basalt block gutters on concrete and a basalt block pavement on a sand foundation with a gravel filler on the unpaved portion of the roadway thereof.

The improvement of Vermont street, between Nineteenth and Twentieth streets, where not already so improved, by the construction of granite curbs, an asphalt pavement, consisting of a 6-inch concrete foundation and a 2-inch asphaltic wearing surface and a 14-foot central strip of basalt blocks on a 6-inch concrete foundation on the roadway thereof.

The improvement of the crossing of Forty-second avenue and Irving street by the construction of broken rock sidewalks and a broken rock pavement on the roadway thereof, and by the construction of the following vitrified, salt-glazed, iron-stone pipe sewers and appurtenances: an 18-inch with 1 brick manhole with cast-iron frame and cover and galvanized wrought-iron steps along the center line of Forty-second avenue, between the northerly and southerly lines of Irving street, and an 8-inch along the center line of Irving street between the center and easterly lines of Forty-second avenue.

The improvement of Craut street, between Ney and Maynard streets, by the construction of an 8-inch, vitrified, salt-glazed, iron-stone pipe sewer with 5 Y branches and 1 brick manhole with cast-iron frame and cover and galvanized wrought-iron steps along the center line of Craut street from the southerly line of Ney street to a point 100 feet southerly therefrom.

Section 2. This ordinance shall take effect immediately.

Providing for the Prevention of Sand or Dirt or Earth From Drifting or Being Blown or Otherwise Moved From Any Lot Into or Upon any Paved, Graded or Macadamized Street.

Bill No. 2922, Ordinance No. 2656 (New Series), as follows:

Providing for the prevention of sand or dirt or earth from drifting or being blown or otherwise moved from any lot into or upon any paved, graded or macadamized street.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. It shall be unlawful for any person, firm, or corporation owning any lot of land to permit any sand or dirt or earth to drift or be blown, or be otherwise moved therefrom into or upon any paved, graded or macadamized street.

Section 2. Every person, firm or corporation owning or having control of any premises fronting on any paved, graded, macadamized or planked street, must, within five days after notice from the Board of Public Works so to do, construct fences or bulkheads around such premises or lots, and plant upon such lot or premises sea bent grass roots, fifteen inches deep and not more than eighteen inches apart, or spread barley or oats, or some other grain seed upon the surface of such lots or premises, and cover such barley, oats or other grain seed with mulch, straw or manure, so as to prevent sand or dirt or earth from drifting or falling or being blown therefrom into or upon such street or the sidewalks thereof.

Section 3. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor, and, upon conviction thereof, shall be punished by a fine not to exceed one hundred (100) dollars, or by imprisonment in the County Jail for not more than sixty (60) days, or by both such fine and imprisonment.

Section 4. Ordinance No. 891, approved June 26, 1903, is hereby repealed.

Section 5. This ordinance shall take effect and be in force immediately.

#### PRESENTATION OF BILLS AND ACCOUNTS.

Demands on the Treasury amounting to \$54,277.12, numbered consecutively 58360 to 58383, inclusive, were presented, read and ordered referred to the Finance Committee.

#### REPORT OF FINANCE COMMITTEE.

The Finance Committee, by Supervisor Jennings, Chairman, reported in favor of allowing the demands heretofore read and referred, said Committee having duly examined and approved the same, and on his motion,

said demands were so allowed and ordered *paid* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—15.

**ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.**

Relating to Inland Waterways Association of California.

Privilege of the Floor.

*W. R. Wheeler*, representing the Inland Waterways Association of California, was granted the privilege of the floor and addressed the Board, urging the support of San Francisco in the work of the Inland Waterways Commission. He declared that the development of the San Joaquin River as far as Fresno and Bakersfield would result in a reduction of freight rates between those points and San Francisco and would give to this city many trade advantages now enjoyed by Los Angeles. He requested that his Honor the Mayor and the Supervisors become members of the Inland Waterways Association of California.

*A. S. Scott*, representing the merchants of San Francisco, said that this city should be particularly interested in the work of the Inland Waterways Association of California. He declared that important results can only be obtained by organization and San Francisco should join the cities of Marysville, Sacramento and Stockton in the development of the States' resources. None of these cities should be expected to do all the work in matters of mutual benefit and San Francisco should encourage the movement with its moral and financial support.

*E. A. Walcott* stated that he was authorized to appear on behalf of the Commonwealth Club for the Inland Waterways Association, which is the offspring of the Commonwealth Club. He declared that anything done for the interior is done for San Francisco. Our interests are identical.

*Isadore Jacobs* stated that in Canada vast sums have been spent in development work of this kind. Leipzig has done much to improve the Rhine, as have other cities in the German Empire. Cheap transportation of heavy products means prosperity and wealth, and development of interior means the wealth of this city.

**Adopted.**

Whereupon, the following resolution was introduced under suspension of the rules and *adopted*:

Endorsing Work of Inland Waterways Association of California.

On motion of Supervisor Hayden:  
J. R. No. 1159.

Whereas, San Francisco, at this time, is on the even of a new commercial and industrial era and will soon face conditions growing out of the opening to commerce of the Panama Canal; and

Whereas, Our natural advantages, and the acquired advantages that the canal will place in our reach, must be supplemented by our own activity, sagacity and public spirit, in order that the greatest possible benefit may be derived from such advantages; and

Whereas, The interests of San Francisco and the interests of the interior of this State are mutually related, and must be advanced or fail to advance together, just in proportion as facilities for trade are developed; and

Whereas, The Inland Waterways Association of California, representing many counties of this State, and including already in its membership the cities of Sacramento and Marysville, has adopted as its purpose the improvement of the inland waterways of California, which are avenues for the free passage of trade in large volume from and to San Francisco, and into the two great valleys of the interior of this State; and

Whereas, The carrying capacity of the inland waterways can be greatly increased by judicious action, with concurrent appropriations by Congress and the Legislature of California; and

Whereas, The Inland Waterways Association of California respectfully requests his Honor the Mayor to appoint ten citizens to represent San Francisco as delegates to aforesaid Association; therefore be it

Resolved, That this Board heartily endorses this movement as it will redound to the benefit of the commerce and trade of this City, and other bay communities.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—15.

**Adopted.**

The following resolutions were introduced under suspension of the rules and *adopted*:

Withdrawal of Papers of Edw. D. Wilbur From Files.

On motion of Supervisor Vogelsang:  
J. R. No. 1160.

Resolved, That Edward D. Wilbur be permitted to withdraw from the files of the Clerk's office certain communications and drawings in re the proposed Southern Pacific depot at Third and Townsend streets, said papers being his personal property.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—15.

Reduction of Sidewalks on Third Street Side of Call Building.

On motion of Supervisor Vogelsang:  
J. R. No. 1161.

Whereas, This Board has taken the preliminary steps looking toward the repavement of Third street, and

Whereas, All Third street has been widened by the reduction of the width of sidewalks adjoining the property known as the Call building, which was allowed to remain in its original condition on account of the fact that the press and printing equipment of the Call newspaper was housed beneath said sidewalk, and

Whereas, Said Call newspaper will shortly remove to another location and the building now occupied by it will be remodeled; therefore be it

Resolved, That the Board of Public Works be and it is hereby directed to take such steps as may be necessary to induce the owners of said Call building to reduce the width of the sidewalk on the Third street side of said building to the same extent as have all other owners on the southerly side of Third street.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—15.

Board of Public Works to Install Lights in Treasurer's Office.

On motion of Supervisor Nolan:  
J. R. No. 1162.

Resolved, That the Board of Public Works be and is hereby authorized and directed to install certain lights necessary in the office of the Treasurer of the City and County at a cost not to exceed \$75.00.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—15.

Appointment of Experts on Telephone Rates Investigation.

Supervisor Hilmer presented:  
J. R. No. —.

Resolved, That Messrs. Paul Oest and N. Randall Ellis are hereby appointed expert assistants to the Telephone and Rates Committee in the matter of the investigation preliminary to the fixing of rates for telephone service for the fiscal year 1914-1915.

Ordered referred to the Telephone Rates Committee.

Municipal Railways Extension to Proposed North Beach Ferry.

Supervisor Vogelsang presented:  
J. R. No. —.

Whereas, the congestion of traffic at the ferry presents a problem calling for early solution; and

Whereas, a diversion of ferry traffic from Marin County to the foot of Powell or Mason streets will tend, in some measure, to relieve said congestion, and will greatly lessen the time of transportation from said Marin County to the business center of San Francisco, in the event that suitable street transportation be provided from said foot of Powell or Mason streets; and

Whereas, the completion of the Stockton street tunnel and the construction of a municipal street railway from Stockton and Market streets to Fort Mason, is already provided for, and an extension thereof to the foot of Powell or Mason streets is comparatively inexpensive; therefore, be it

Resolved, That the Board of Public Works at its earliest convenience consider the problem of such extension, confer with the Board of Harbor Commissioners as to the likelihood of the establishment of ferry slips at such point on North Beach, and report to this Board the probable cost of such extension of the Municipal Railways to connect with said proposed ferry slips, and the time within which said slips and said road may be completed.

Referred to the Public Utilities Committee.

Relating to Specifications for Municipal Street Railway Cars.

His Honor Mayor Rolph presented the following communication which was ordered spread in the Journal:  
Union Iron Works Company.

San Francisco, March 3, 1914.

Hon. James Rolph, Jr., Mayor of San Francisco:

Sir—On account of urgent business in connection with a passenger vessel which must sail on time, I regret that it is impossible for me to come to the meeting of your honorable Board this afternoon in relation to the contract for building cars.

I am taking the liberty of having my assistant, Mr. Gunn, come to the meeting to explain why we did not bid on the cars.

Yours very truly,

J. J. TYNAN,

Vice-President and General Manager.

Read and ordered spread in Journal.

Whereupon, Mr. Gunn, representing J. J. Tynan, vice-president and general manager of the Union Iron Works Company, was granted the privilege of the floor and addressed the Board, stating that the Union

Iron Works Company, could have bid on the bodies of cars, but that in the matter of the trucks, airbrakes and motors the company would be subjected to the caprices of Eastern manufacturers from whom these parts must be obtained. There was nothing to show that they would be entitled to the bonus and the penalty was unusually heavy—\$500 per day. Twenty-two cars was the capacity of the plant, any more cars would encumber the yard. So if the Board of Public Works did not have storage room and refused to accept delivery of less than one hundred cars the company would be unable to handle the contract. Moreover, the margin was so small compared with the specials that the contract was not attractive. He stated that the Holman contract for the Geary street cars was taken over by the Union Iron Works Company and cars built as an accommodation to the city at the request of his Honor the Mayor.

In conclusion Mr. Dunn stated that the Union Iron Works Company could have bid upon the specifications if it desired to, but that the job was one that called for an assembling of parts that must necessarily be obtained from the East and was not attractive.

*Assistant City Engineer Ransome* was granted the privilege of the floor and stated that in preparing the specifications for the municipal railway cars, he made every effort to enable local dealers to bid. The steel specifications were made so as to favor the Union Iron Works. Where wood was called for California woods were required as against Eastern woods. The specifications for the Geary street cars called for Eastern woods. So local industries are favored in these specifications. Mr. Tynan of the Union Iron Works was invited to bid and he received a copy of the specifications. So far as the materials of the specifications were concerned, Mr. Ransome believed that the Union Iron Works could have bid if it wanted to. As to time requirements, the specifications are very rigid and delays are heavily penalized, that may be the reason the Union Iron Works did not see fit to bid. But as cars are absolutely needed before the Exposition opens no other course could be followed.

At the end of the hearing City Engineer O'Shaughnessy exhibited a chart showing comparisons between the time it had taken to complete the Geary Street Municipal Railway and the time it would take to complete the proposed extensions now under way.

#### Mayor's Report on City Hall Steel Investigation.

The following matter was presented by his Honor the Mayor and on motion of Supervisor Hayden ordered spread at length in the *Journal and Record*:

March 3, 1914.

To the Public and the Honorable Board of Supervisors, San Francisco:

In the matter of the charges of Supervisor Charles A. Nelson against the sufficiency and efficiency of the construction of the new City Hall, and asserting a disregard of specifications in the building.

These charges, presented by Supervisor Charles A. Nelson, were based on a statement furnished to him by one W. W. Breite, a civil engineer.

The testimony of this witness clearly established that his personal examination of the structural iron work of the City Hall had been so limited in time, considering the immensity of the building, that his knowledge must, necessarily, have been superficial.

This witness gave, as the foundation of his expert qualifications, a collegiate course in engineering at Columbia University, New York; but, on examination under oath, when confronted with a list of the graduates of that institution, admitted that he had not attended there in his own name, and refused, positively, to tell the public under what name he did attend and graduate.

Notwithstanding the questionable circumstances under which the charges were presented, the importance of the question, the fact that these buildings must be, not only the best possible, but that the public must be thoroughly satisfied that they are the best possible, caused the Board, and me as Mayor, to ignore the origin of the charges, and to make a full and minute investigation.

At the hearing, the best engineering and scientific testimony obtainable in this State was heard after the witnesses had made a very careful examination of the buildings.

Among others, hereafter named, were:

Professor Derleth of the University of California, employed by our State to instruct those who would graduate in engineering at this, our highest educational institution, a man who, throughout the United States, is second to none.

And, not to encumber this report with details, the following men, of high repute in engineering and construction:

H. J. Brunner, consulting structural engineer.

Willis Polk, architect.

Edward Noble, iron and steel manufacturer.

It was established by the testimony of these disinterested witnesses that the municipal buildings, now rising, are being erected on the most scientific principles of engineering and in accordance with the best rules of construction; that the material and workmanship are of the highest class; that the people are getting the best for their money; that the trifling alleged defects, selected for criticism by those instigating the charges, are not defects at all, but the ordinary matters, inseparable from any construction whatever, things that appear in all similar buildings, and are only imperfections to the extent that the science of structural engineering is itself imperfect; that they do not constitute weaknesses.

The result of this investigation is that, on the highest testimony obtainable, the people are assured that they are receiving the best work that can be done.

Approved by the Board of Supervisors March 9, 1914.

Pursuant to Resolution No. 3402 (New Series), of the Board of Supervisors of the City and County of San Francisco, I, J. S. Dunnigan, hereby certify that the foregoing are true and correct copies of the Journal of Proceedings of said Board of the dates thereon stated, and approved as above recited.

J. S. DUNNIGAN,  
Clerk of the Board of Supervisors,  
City and County of San Francisco.

While the results of this investigation are highly satisfactory, it is deeply regrettable that any man, whether connected with the government, or otherwise, should, in the hope of obtaining temporary political or other advantage, try to hinder the great and necessary improvement and development of the City that gives them a living by slandering her efforts to advance.

Until San Francisco can develop a class of public service that will place patriotism above politics and selfishness her welfare will never be safe and her greatness never be assured.

Respectfully,

JAMES ROLPH, JR.,

Mayor, City and County of San Francisco.

ADJOURNMENT.

There being no further business the Board at the hour of 4:50 p. m. adjourned.

J. S. DUNNIGAN,  
Clerk.

**Relative to Appointment of Bond and Bank Deputy in Treasurer's Office.**

The following matters were presented, read and referred to Finance Committee:

February 25, 1914.

To His Honor, Mayor James Rolph, Jr.,  
City Hall.

Dear Sir—Your recommendation is asked for the creation of the position of Bond and Bank Deputy in my office. Salary to be fixed at \$3,600 per annum.

Some of the important duties imposed upon this new official will be the increasing of bank deposits, which means additional revenue for the city. The most thorough and careful examination of the bond securities deposited by banks, in order that their valuation will at no time be less than that required by law. The management of the bond department, which is of such vital importance, in view of the acquisition of future public utilities, and the supervision of the clerical details of my office.

It is my aim to make the Treasurer's office a model treasury, that will bring credit to your administration, and this can be accomplished through your recommendation to the Board of Supervisors the creation of the above position.

Your official examination of my request is earnestly solicited.

Respectfully yours,  
JOHN E. McDOUGALD,  
City and County Treasurer.

March 9, 1914.

To the Honorable Board of Supervisors of the City and County of San Francisco:

Gentlemen—In accordance with Section 35 of Article XVI of the Charter, the Honorable John E. McDougald, Treasurer of the City and County, has made request upon me for authorization to appoint a deputy in his office, to be known as "Bank and Bond Deputy."

I have investigated the need of such additional deputy, and find it to be necessary. Therefore, in accordance with the section of the Charter above indicated, I respectfully recommend that an ordinance, a copy of which is hereto attached, be passed by your Honorable Board authorizing such appointment.

Very respectfully yours,  
JAMES ROLPH, JR.,  
Mayor.

Bill No.—, Ordinance No.— (New Series), Authorizing the appointment by the Treasurer of a confidential assistant and additional deputy to be known as Bank and Bond Deputy, to hold office during the pleasure of the Treasurer, and fixing his salary.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. In conformity with the recommendation of his Honor the Mayor, filed in the office of the Board of Supervisors....., 1914, the Treasurer of the City and County of San Francisco is hereby authorized and empowered to appoint an additional Deputy and Confidential Assistant to be known and designated as "Bank and Bond Deputy."

Section 2. Said Bank and Bond Deputy shall hold office during the pleasure of the Treasurer and shall receive an annual salary of \$3600.00 in the manner as provided by law.

Section 3. This ordinance shall be in full force and effect July 1st, 1914.  
**Appointment of J. C. Kortick, Supervisor.**

March 9, 1914.

To the Honorable Board of Supervisors,

City and County of San Francisco.  
Gentlemen:

I beg to advise you that I have this day appointed Mr. J. C. Kortick a member of the Board of Supervisors, vice Mr. George E. Gallagher, resigned, for the term beginning on the date hereof, and ending on the eighth day of January, 1916.

Yours respectfully,  
JAMES ROLPH,  
Mayor.

March 9, 1914. Presented and read and ordered spread in Journal.

His Honor the Mayor thereupon introduced Supervisor Kortick, who addressed the Board, expressing his pleasure in being selected to sit on the Board of Supervisors and expressed himself as honored by being chosen to fill a position on a Board with men of the character of those who compose the present Board of Supervisors.

**Recommending Appointment of Tunnel Accountant and Cashier, Tax Collector's Office.**

March 9, 1914.

To the Honorable Board of Supervisors of the City and County of San Francisco.

City Hall, San Francisco.  
Gentlemen:

In accordance with Section 35 of Article 16 of the Charter, the Hon. Edward F. Bryant, Tax Collector, has made application to me for the appointment of additional employees in his office, namely, a tunnel accountant and a tunnel cashier, each at a salary of \$150.00 per month.

I have investigated the need of these additional employees and find them to be necessary; therefore, in accordance with the charter provision above indicated, I respectfully recommend to your Honorable Board the passage of

an ordinance, creating the positions of tunnel accountant and tunnel cashier in the office of the Tax Collector.

Yours respectfully,  
**JAMES ROLPH,**  
 Mayor.

Read and ordered spread in the Journal.

Inventory and Estimate of the Presidio & Ferries Railroad Company.

San Francisco, March 6, 1914.  
 To the Honorable the Board of Public Works of the City and County of San Francisco.  
 Gentlemen:

In accordance with the provisions of the agreement existing between the City and County of San Francisco and the Presidio & Ferries Railroad Company, we have made an inventory and estimate of the value of the property of the Presidio & Ferries Railroad Company which was taken over by the City and County of San Francisco and made a part of the Municipal Railway system on December 10, 1913.

We find the reproduction cost of the properties taken over to be .....\$394,514.82  
 The depreciation to be.. 77,455.55

Leaving a present value of .....\$317,059.27  
 From this should be deducted the value of properties disposed of to other parties than the City ..... 4,726.60

Leaving the balance of properties taken over by the City at.....\$312,332.67  
 Under the terms of the contract, the Presidio & Ferries Railroad Company is therefore entitled to a payment equal to the difference between the present value of the properties .....\$312,332.67  
 and the amount already paid to the Presidio & Ferries Railroad Company ..... 50,000.00

Or .....\$262,332.67  
 together with interest on this sum at 5 per cent from December 10, 1913, until the date of payment of the above sum.

Assuming that this payment will be made on March 17th, there will then be due to the Presidio & Ferries Railroad Company the following:  
 On account of purchase of properties .....\$262,332.67  
 Interest on the above sum at 5% for 97 days..... 3,483.13

\$265,815.80

Respectfully submitted,  
 (Signed) M. M. O'SHAUGHNESSY,  
 City Engineer, acting on behalf of the

City and County of San Francisco and (Signed) T. C. MULLEN,  
 Acting on behalf of the Presidio & Ferries Railroad Company.  
 Ordered spread in Journal.

Providing \$5,000 to Cover Expense of Locating and Constructing Weirs, Etc., for Measurement of Flow of Tuolumne River and Its Tributaries.

Resolution No. 10728 (New Series), as follows:

Whereas, Under the provisions of sub-section I of Section 9 of the Act of Congress, approved December 19, 1913, granting to the City and County of San Francisco certain rights in the Hetch Hetchy Valley, the Yosemite National Park, and in, over and through the Stanislaus National Forest and public lands to the west thereof, the City and County of San Francisco is required at its own expense to locate and construct such weirs and other suitable structures for the accurate measurement of the flow of the Tuolumne River and its tributaries and to keep such hydrographic records as may be directed by the Secretary of the Interior; and

Whereas, Under the provisions of sub-section R of Section 9 of said Act of Congress, approved December 19, 1913, the City and County of San Francisco is required to meet the expense involved in any investigations made or to be made by the Department of the Interior respecting the rights, benefits or obligations specified in said Act of Congress, and

Whereas, It now appears that in the opinion of the Secretary of the Interior it is desirable to make certain gaugings and hydrographic measurements under the direction of the Secretary of the Interior and that said gaugings and hydrographic measurements will necessitate the expenditure of sums of money from time to time, which expenditures should properly be borne by the City and County of San Francisco under the aforesaid provisions of the said Act; now therefore

Be It Resolved, That the sum of Five Thousand (5,000) Dollars is hereby appropriated out of the moneys derived from the sale of the water supply bonds 1910 issue, for the purpose of covering the expense incident to such investigation and that the

Board of Public Works be and it hereby is authorized and directed to approve demands made by the Secretary of the Interior upon such fund for the purpose hereinabove specified.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogel-sang, Walsh—16.

**Final Passage.**

The following bill, heretofore passed for printing, was taken up, *finally passed* by the following vote and numbered as follows, to-wit:

**Automobile Supply Stations.**

Bill No. 2926, Ordinance No. 2659 (New Series), entitled, "Regulating the construction and use of buildings to be used as automobile supply stations; regulating and providing for the storage and use of gasoline in connection therewith."

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogel-sang, Walsh—16.

**Southern Pacific Franchise.**

The following bill, heretofore passed for printing, was taken up:

Bill No. 2760, Ordinance No. — (New Series). Providing for a grant and granting to Southern Pacific Company, a railroad corporation, its successors and assigns, the right to construct, maintain and operate certain standard-gauge railroad tracks under, over, along and across certain streets, avenues, alleys, places and properties in the City and County of San Francisco, State of California.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. That the right of way be and is hereby granted unto the Southern Pacific Company, a railroad corporation incorporated under laws of the State of Kentucky, and having its principal office and place of business in the City and County of San Francisco, State of California, and to its successors and assigns, for the term of forty years from the date of the passage of this Ordinance, except as otherwise herein provided, said corporation having more than fifty miles

of railroad actually constructed and in operation—to use the portions of streets, avenues, alleys, places and properties hereinafter mentioned and described, for railroad purposes as hereinafter set forth; and to that end said Southern Pacific Company, its successors and assigns, is hereby granted the right to construct, maintain and operate, by means of steam, electricity, or other motive power authorized by law, the following described standard-gauge railroad tracks upon, along, across and over the portions of said streets, avenues, alleys, places and properties hereinafter described, upon the route of and traversed by said railroad, and the right to construct, maintain and operate all necessary side-tracks, turnouts, switches, crossings, spur-tracks, yard tracks, depot tracks and terminal tracks and facilities, and to connect any or all of the tracks hereinbefore or hereinafter described with the main line or lines of railroad operated by said company, all as hereinafter set forth:

First: Beginning at four points in the existing passenger train double tracks and freight train double tracks of said Southern Pacific Company at or near the intersection of Seventh and Berry streets; thence in a northerly direction, on a curve to the right, crossing Berry street with five tracks, into and across yards and property of the Southern Pacific Company, crossing King street in a northerly direction on a curve to the right with five tracks; crossing Sixth street between Townsend and King streets with twenty-one tracks; crossing Fifth street, between Townsend and King streets, with twenty-two tracks; and crossing Fourth street between Townsend and King streets with fourteen tracks.

Second: Beginning at two points in the existing freight train double tracks in the southeasterly line of Berry street near Seventh street; thence in a northerly direction, on a curve to the right, crossing Berry street with two tracks, across the yards and property of the Southern Pacific Company to the southeasterly line of King street between Sixth and Seventh streets; thence northeasterly along King street; crossing Sixth and Fifth streets with two tracks; thence continuing along King street in a northeasterly direction, crossing Fourth street with three tracks, to the southwesterly line of Third street; also a cross-over track connecting the said tracks on King street with tracks on the property of the Southern Pacific Company in the block bounded by Berry, King, Third and Fourth streets, said cross-over extending in a southwesterly direction across King street

from a point near Third street to a point in the southeasterly line of said King street approximately 300 feet southwesterly thereon from the southwesterly line of Third street; also a single or double track cross-over connecting the said tracks on King street with tracks on the property of the Southern Pacific Company in the block bounded by King, Berry, Sixth and Seventh streets, extending in a southerly direction across King street and Sixth street from a point approximately one hundred and seventy feet northeasterly from the northeasterly line of Sixth street to a point near the south corner of King and Sixth streets.

Third: Also tracks beginning at two points in the existing freight train double tracks in Channel street near Seventh street; thence in a northerly direction on a curve to the right into and across the yards and property of the Southern Pacific Company, crossing Berry street between Sixth and Seventh streets with five tracks; crossing Sixth street between Berry and King streets with eight tracks; crossing Fifth street between Berry and King streets with nine tracks; crossing Fourth street between Berry and King streets with eleven tracks. Also a single or double track cross-over extending in a westerly direction across King street from a point in the southeasterly line thereof distant thereon approximately 190 feet southwesterly from the southwesterly line of Fourth street, to a point in the northwesterly line of King street approximately four hundred feet southwesterly from the southwesterly line of Fourth street.

Fourth: Also tracks beginning at two points in the existing freight train tracks near the intersection of Seventh and Channel streets; thence in a northerly direction on a curve to the right, crossing Channel street with two tracks into and across the yards and property of the Southern Pacific Company; thence continuing in a northeasterly direction, crossing Sixth street, between Berry and Channel streets, with seven tracks; Fifth street between Berry and Channel streets with seven tracks; Fourth street, between Berry and Channel streets, with seven tracks; thence into private property of said Southern Pacific Company.

Fifth: Also tracks beginning at three points in the existing tracks in private property at their intersection with the southerly line of Division street between Kansas street and Vermont street; thence northeasterly on a curve to the left crossing Division street with three tracks into and along Townsend street; thence

northeasterly along Townsend street crossing Eighth street with three tracks, Seventh street with four tracks, Sixth street with two tracks, Fifth street with two tracks and Fourth street with one track into and upon property of the Southern Pacific Company near the northerly corner of Fourth and Townsend streets.

Of the above described tracks on Townsend street one track shall be laid with the center line of track thirteen feet northwesterly from and parallel with the southeasterly line of Townsend street, and the other track shall be laid with the center line of track twenty-one feet six inches southeasterly from and parallel with the northwesterly line of Townsend street, between Eighth street and Fourth street, so that there shall be a distance of forty-eight feet between the center line of tracks; the City and County of San Francisco reserves the right to grant permission to any company to lay down tracks or to construct a municipal railway in the strip left vacant between the tracks of the Southern Pacific Company on Townsend street at any time in the future, upon undertaking to keep said thirty-nine foot strip in repair.

Sixth: Also a single or double track beginning at a point in the last above mentioned tracks at or near the intersection of Division and Townsend streets; thence easterly on a curve to the right crossing Division street with one track; crossing Eighth street with two tracks, into and across the yards and property of the Southern Pacific Company, crossing King street between Seventh and Division streets in an easterly direction with two tracks, crossing Berry street between Seventh and De Haro streets with two tracks; thence continuing in an easterly direction and connecting with the existing passenger train double tracks on Seventh street near its intersection with Channel street.

Seventh: Also upon and along Jewett street; and across any and all intervening streets, lanes, avenues, alleys, places and properties along the route of the tracks described in the foregoing paragraphs.

Section 2. The foregoing rights, privileges and easements are hereby granted upon the following terms, conditions and obligations all and each of which are hereby consented and agreed to by and on behalf of said Southern Pacific Company, its successors and assigns, viz.:

a. Fourth street and all other public streets mentioned herein shall remain open public streets subject to

public use, except that Fourth street may be temporarily closed to permit the arrival and departure of trains at the depot at Third and Townsend streets when trains are too long to be accommodated in the space between such depot and Fourth street. A flagman shall always be stationed at Fourth and Townsend streets and at Fourth and King streets; and at such other street crossings as may hereafter be designated by the Board of Supervisors of the City and County of San Francisco.

b. A street is to be opened to public use, of the same width as Fourth street, distant one hundred eighty-seven and one-half feet southwesterly therefrom and parallel thereto to extend from Townsend to Berry street, and a flagman is to be stationed at either end thereof.

c. The Southern Pacific Company shall, when directed by the Board of Supervisors, erect umbrella sheds across Fourth street paralleling its main line tracks, the same to be constructed so as to offer the least possible obstruction to traffic, and to be so constructed and maintained to the satisfaction of the Board of Public Works or such other department of the government of the City and County as may have control of its public streets.

d. The said Southern Pacific Company shall, within one year from the date of taking effect of this ordinance, construct with approaches a steel frame passageway or viaduct sufficient to accommodate pedestrian traffic over the roadway of Fourth street from Townsend street to King street, elevated a distance to permit the passage of trains thereunder, such location and construction to be according to plans and specifications approved by the Board of Public Works and shall be maintained by said Southern Pacific Company to the satisfaction of said Board or other department of the government of the City and County having control of its public streets.

e. The grantee of this franchise, its successors and assigns, shall furnish and maintain such street lights in addition to those ordinarily maintained by the City as may be reasonably necessary upon and along those portions of the various streets in which the railroad tracks hereinabove described shall be constructed.

It shall be the duty of said Southern Pacific Company (in addition to the Charter requirements), to keep in repair the streets crossed by said tracks between Townsend and Channel streets, and from and including Fourth street to and including Sixth street (except that portion of Fourth

street required to be kept in repair by the United Railroads of San Francisco); and also Eighth street between Townsend street and Division street; it being understood that this should not apply to Berry street between Third street and the point midway between Sixth and Seventh streets.

f. The tracks of said Railway Company shall be laid flush with the level of the street wherever the same shall have been graded, so as to offer as little obstruction as practicable to the crossing thereof of vehicles; and it is provided further that nothing in this Ordinance shall be construed so as to prevent the proper authorities of the said City and County of San Francisco from maintaining and exercising the same jurisdiction over the streets, and portions of streets, covered by this franchise which they are, or shall be, authorized hereafter by law to exercise over public streets in said City and County of San Francisco.

g. Said Southern Pacific Company, its successors or assigns, shall lay and maintain all the tracks of said railroad on Townsend street, and on all other streets on which such tracks run upon and along the same, flush with the surface of said streets, with rails of approved, grooved, girder type, where and when directed by the Board of Public Works, whenever the same is or shall be graded to the official grade and in such manner as to offer as little obstruction as practicable to the free use thereof by the public and by vehicles.

h. Upon a failure to fully observe the conditions herein imposed, after thirty days' notice from the Board of Supervisors, all rights, privileges and easements herein granted shall cease and terminate.

i. Whenever so directed by the Board of Supervisors, said Southern Pacific Company, its successors or assigns, shall grade, curb and pave to official grade such of said streets or portions of said streets as may be legally required of it under the provisions of the Charter or the street improvement laws, and that no objection shall be interposed by the said Southern Pacific Company, to such grading, curbing, paving or other work or improvement; and the said Southern Pacific Company, in consideration of this grant, hereby waives its right to object, as a property owner or otherwise, to the doing of any such grading, curbing, paving or other work or improvement, provided the Board of Supervisors gives the said Company six months' notice of its intention to require such grading, curbing, paving or other proposed improvement.

Section 3. In case the property of the grantee erected or maintained in the streets herein named shall ever be acquired or sought to be acquired by any governmental or public authority, no value on account of any right or privilege herein granted shall be claimed by or paid to the grantee, but all such rights and privileges shall pass to such governmental authority as successors in interest to said grantee subject to the conditions herein set forth; and no value shall attach to any right or privilege herein granted or be asserted or claimed by said grantee for rate fixing purposes.

Section 4. No right, privilege or easement here granted shall be construed as an abrogation of the police powers of the City and County or as a relinquishment of such control over its streets and thoroughfares as may be necessary to be exercised at any time to promote the public safety and convenience, and all Ordinances now in effect or that may be hereafter enacted relating to the public streets shall be given full force and effect.

Section 5. The rights hereby granted are upon the express conditions prescribed in and by the Charter of the City and County of San Francisco, and especially in and by Subdivision 28 of Section 1, Chapter II, Article II, thereof. The character and general arrangement of all structures herein referred to, the materials of which they are to be built, and all work of whatsoever kind or character done under this franchise upon public streets or highways, shall be subject to the approval of the Board of Public Works of said City and County of San Francisco, except to the extent that such authority is vested in the Railroad Commission of California.

Section 6. This franchise shall be accepted by a resolution of the Board of Directors of said Southern Pacific Company, and filed in the office of the Clerk of the Supervisors before any right under this Ordinance shall be exercised.

Section 7. This Ordinance shall go into effect upon the expiration of sixty days from the date it becomes final either (a) by approval of the Mayor, (b) without his approval by the expiration of the time prescribed by the Charter of the City and County of San Francisco within which the Mayor may disapprove it, or (c) by its passage by the Board of Supervisors over the objections of the Mayor in the event of such disapproval.

#### Privilege of the Floor.

*Guy V. Shoup*, attorney, representing the Southern Pacific Company, was granted the privilege of the

floor and stated that if franchise is finally passed in its present form the company hopes to live up to all its provisions, except the provision requiring the company to keep in repair the entire block of any street where its tracks cross. In that respect the company could only obligate itself to the extent the court construed that section of the Charter relating to the matter. He declared that all the papers necessary have been drawn and documents ready for signatures.

*W. B. Scott*, general manager of the Southern Pacific Company, addressed the Board as follows:

As I explained to you at the last meeting of the Board, it is customary for the railroad to remain neutral in matters of this kind until the other property owners have signified a desire of what they want, and then we sign with the majority. It developed in the discussion here the other day that the reason that you wanted this in here was because the property owners would not sign for that, and you therefore wanted to have this provision inserted in there so that they would not have any power to block it. That, I understand, was the statement here the other day, and I stated I thought it was unfair to put the company in that position, and I think so now.

I do not believe, if the franchise is accepted with the exceptions noted, that there will be any difficulty or any trouble about any street improvement down there—not at all probable that there will be. As I said, we will be more interested in that than anyone else, by reason of our property lying between Townsend street and the Channel, where the rise must be made. Then, too, we have agreed to raise to the official grade all streets where we cross between Townsend street and the Channel, which, as I said, ought to be accepted as an earnest of our good faith in the matter. It seems to me that the provision in there, inserted in the franchise as printed, requesting the company to waive its rights to protest as property owner, is far-fetched and has no place there, and I would like to say, just as his Honor the Mayor has said, put yourselves in the other fellow's place and see how you would like to have that apply. It is not according to good faith on the part of anyone—

The Mayor (interrupting): I would like to tell you how I would feel, Mr. Scott, if I were in your shoes. There are eighteen members of the Board of Supervisors very anxious, and I assume the Board is a unit on this franchise, I don't know, but I assume

so; eight of them alternate every two years—

A Voice (interrupting): Nine—

The Mayor: Nine alternate every two years. If I was the Southern Pacific officials I would take a chance with men who are as sincere as these men are to do something to bring this thing about. They must protect the city and must protect this franchise for forty years. I would take a chance by co-operating—as a public service man I would work in—co-operate with the city officials at all times, and they would get along better; that is the way I would get along with the putting of myself in your shoes. As I expressed myself, I would take the chance with them instead of holding this up, instead of putting the members, who represent the city, in bad on something they cannot do.

Mr. Scott: I don't want to be placed in the light of being an obstructionist, and I don't want to be put in that light—it is not their desire to retard this at all. I think we have on every occasion expressed the desire to meet you fairly and squarely on every matter brought up, and in all matters giving the city the best of it in every change that has been made.

*Supervisor Alexander T. Vogelsang*  
—Mr. President: I have given this matter a great deal of consideration first and last since it has been in this Board, now nearly a year. My view of the law of the case is precisely as expressed by Mr. Shoup of the Southern Pacific Company. I don't believe, however, that in this particular feature of the franchise to which the company now takes exception, that we are infringing the law, either in my view or in his. I think this is probably—it is merely to clear a doubt—it is in my opinion to the advantage instead of to the detriment of the company to have it. I, as I said before, believe that a Court could reasonably construe the obligation to have been from curb to curb of any street over which a railway track is laid, under the provisions of the Charter; also the obligation to put that track up on the proper grade of that street, no matter what it involved, and this provision is the only one that will be invoked at the time that other property owners on that street raise one-half of it to grade; they have the chance by this means of doing one-half the grading when, on the other hand, they assume the risk of court construction, that they are bound to do it all. I am very much disappointed at this attitude—more than I can say. I have been subjected to criticism—no end, in and

out of the Board of Supervisors—in and out of the City Hall, for the views I hold upon the law of this case conscientiously, and I don't want, when I hold this view on this particular provision, myself—I dislike very much to vote for the franchise with the understanding that, in this particular respect, there shall be a reservation. It looks to me as though a crisis has arrived in this matter, and we will have a station—we will have a new terminal, or we won't, on the turning of the hand. I feel at this moment like moving a continuance of this matter for one week, and if there is no change in the attitude of the company on this proposition, I shall feel very much, when it comes up again, like voting against it. Now, I say this with a full responsibility of my obligation to the city, and my oath of office, and I feel that every other supervisor feels likewise. Possibly through efforts of my own, or to some extent, at least, many proposed reservations and burdens have been from this, first and last, and I feel that upon this one I am not inconsistent in standing firmly for it; and I am almost prepared to say now that, without its acceptance, it cannot be passed.

The Mayor: Mr. Scott and Mr. Shoup, may I ask a question, and which I trust you will not consider impertinent or unfair? Have the property owners down on that street approached you and put you in this proposition?

Mr. Scott: No, sir.

The Mayor: In no way, shape or form?

Mr. Scott: No, sir.

The Mayor: You are not protecting the property owners down there?

Mr. Scott: No.

The Mayor: You have no strings tied to you?

Mr. Scott: No, sir.

The Mayor: Or jammed, and afraid to say Yes or No?

Mr. Scott: No, sir.

The Mayor: Because I was going to say we would find a way to—

Supervisor Power: I move the matter be laid over a week.

#### Action Deferred.

Whereupon, the question being put, Supervisor Power's motion was unanimously carried and the foregoing bill laid over one week.

#### Final Passage.

The following matters heretofore passed for printing were taken up, finally passed by the following vote and numbered as follows, to wit:

#### Prohibiting Advertising Signs on Poles.

Bill No. 2927, Ordinance No. 2660 (New Series), as follows:

Prohibiting the placing of advertising signs on telegraph, telephone or electric light poles, lamp posts or upon any public sidewalk or roadway, and excepting street and hospital signs.

Be it ordained by the people of the City and County of San Francisco, as follows:

Section 1. It shall be unlawful for any person, firm or corporation to paste, paint, affix or fasten, or cause to be pasted, painted, affixed or fastened on any telegraph, telephone or electric light pole or lamp post, or on the sidewalk or roadway of any public street, any advertisement, bill, notice, card, sign, or advertising device, excepting street or hospital signs for which permission must first be obtained from the person, firm or corporation owning or controlling such poles, and from the Board of Supervisors.

Section 2. Every person, firm or corporation, or business representative thereof, named in, or authorizing the publication of any advertisement, bill, notice, card, sign, or advertising device, which now is pasted, painted, affixed or fastened on any telegraph, telephone or electric light pole or lamp post, or on the sidewalk or roadway of any public street, except as provided in this ordinance, must immediately remove the same therefrom.

Section 3. Any person, firm or corporation who shall violate any of the provisions of this ordinance shall be guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine not to exceed one hundred (\$100) dollars, or by imprisonment in the County Jail for not more than ten (10) days, or by both such fine and imprisonment.

Section 4. Ordinance No. 839 (approved June 11, 1903) is hereby repealed.

Section 5. This ordinance shall take effect immediately.

**Board of Public Works to Prepare Plans, etc., and Advertise for Bids for Con- struction of Extensions of Municipal Railways.**

Supervisor Vogel-sang presented:

Bill No. 2940, Ordinance No. — (New Series), as follows:

Directing the Board of Public Works to prepare plans, specifications and contracts, and advertise for bids for furnishing and delivering the neces- sary material therefor, and construct- ing the extensions of the Municipal Street Railway System, for which funds were provided in the bond issue authorized August 26, 1913.

Be it ordained by the people of the City and County of San Francisco, as follows:

Section 1. The Board of Public Works is hereby authorized, instructed and empowered to immediately pre- pare plans, specifications and con- tracts, and advertise for bids for fur- nishing additional materials necessary and constructing the extensions to the Municipal Street Railway System for which funds were provided in the bond issue authorized August 26, 1913, and more specifically described as fol- lows:

**Van Ness Avenue Line**—A double track street railway on Van Ness ave- nue, from Oak street to North Point street.

**Chestnut Street Line**—A double track street railway on Chestnut street, from Van Ness avenue to Scott street, thence on Scott street to Green- wich street; thence on Greenwich street to Steiner street; thence on Steiner street to Union street, and connect- ing with the tracks of the Union street line.

**Potrero Avenue Line**—A double track street railway connecting with the tracks of the Van Ness avenue line at Van Ness avenue and Oak street; thence along Van Ness avenue to Market street, thence across Market street to Eleventh street, thence along Eleventh street to Division street, thence along Division street to Potrero avenue, thence on Potrero avenue to Twenty-fifth street.

**Columbus Avenue Extension to Union Street Line**—A double track street railway, commencing on Columbus avenue at Union street, thence on Union street to North Point street, thence on North Point street to Van Ness avenue, connecting with the tracks of the Van Ness avenue line.

**Fort Mason Extension to Union Street Line**—A double track street railway connecting to the tracks of the Van Ness avenue line at Bay street, thence meandering through the Fort Mason Military Reservation to a terminal on Laguna street, between Jefferson and Beach streets.

**Stockton Street Line**—A double track street railway on Stockton street from Market street to Columbus avenue, connecting with the present tracks of the Union street line on Columbus avenue.

**California Street Line**—A double track street railway, connecting to the tracks of the present Geary street line at Second avenue and Geary street, thence along Second avenue to Cornwall street, thence along Cornwall street to its junction with California street at Fifth avenue, thence on California street to Thirty-third avenue.

**Church Street Line**—A double track street railway, commencing with the tracks of the Van Ness avenue line at Market and Oak streets, thence along Van Ness avenue to Market street, thence along Market street, on either side of the United Railroad tracks, to Church street, thence on Church street to Dorland street.

**Union Street Line**—The reconstruction of that portion of the double track roadbed of the Union street line, which will be necessary in order to operate cars of the type ordered for the Municipal Street Railway System.

Section 2. The Board of Public Works is hereby authorized and permitted to incorporate in the contracts for said extensions to the Municipal Street Railway System provisions to the effect that progressive payments shall be made as provided by Section 21, Article IV, Chapter I, of the Charter.

Section 3. This ordinance shall take effect immediately.

**Privilege of the Floor.**

*Mr. Herring* was granted the privi-

lege of the floor and read the protest of the property owners on Second avenue who opposed the construction of the Municipal Railway on said avenue.

*M. H. Landers*, property owner, residing at 311 Second avenue, called attention to the fact that there is an engine house on Second avenue, between Geary street and Clement street. In case of fire an engine runs out swiftly and all cars going and coming are expected to stop when approaching the engine house. This will cause delay in transportation of passengers and increase danger from accidents.

*W. F. Wedemeyer*, property owner, also addressed the Board, stating that the fire house was a nuisance and that the street cars will be more so. The street railway will be more safe as far as the public is concerned on First avenue, which is wider.

*Mrs. W. F. Wedemeyer* stated that she circulated the protest and that everyone on Second avenue signed except saloonkeepers and that there should be more than fourteen signatures as she obtained more than twenty-one names herself.

*J. M. Shields*, property owner, declared himself in favor of the proposed car line on Second avenue. Property owners who signed the protest did so under a misapprehension, fearing that they would have to pay for reducing sidewalk and recurbing street.

*Miss Barrett* favored street railway on Second avenue and said she believed it would be a distinct advantage to the street.

*P. Phillippi* stated that he has been in the restaurant and saloon business on Second avenue for many years and before there were any houses there to speak of. He favored the street railway in Second avenue.

*Mme. Sobier* opposed the construction of the municipal railway extension on Arguello boulevard, which, she said, would be one of the finest streets in San Francisco since it has been determined to put municipal railway on Van Ness avenue. Dangerous curves on Clement street and Euclid avenue and school on Arguello boulevard make its use for street railway purposes undesirable from the point of view of safety.

*Donald McKenzie* opposed the street railway on Arguello boulevard. He declared that he paid a high price for his property many years ago on the understanding that the street would be maintained as a boulevard.

*M. M. O'Shaughnessy*, City Engineer, stated that Second avenue was the only logical route, both from an

engineering and an operating standpoint.

*Assistant City Engineer Ransome* stated that the track specials for the Second avenue route have been already ordered and it would delay construction of the road if cars routed on Second avenue to California street, coming and returning on Third avenue to Geary street, it would necessitate some change in the track specials increasing the cost. The district covered will not be so large and the receipts from fares will be decreased. He did not think it would be necessary to narrow the sidewalks on Second avenue.

**Amendment.**

Supervisor *McCarthy* moved that matter of Church street extension be referred back to *Public Utilities Committee*.

*So ordered.*

**Passed for Printing.**

Whereupon, the foregoing bill, as amended, was passed for printing.

**Indefinite Postponement.**

The following resolution was introduced by Supervisor *Vogelsang* and on motion indefinitely postponed:

**Board of Public Works to Construct Extension of Municipal Railways Through Fort Mason Military Reservation to Transport Docks.**

On motion of Supervisor *Vogelsang*:  
J. R. No. —.

Resolved, That the Board of Public Works be directed to construct the proposed extension to the Municipal Railway through the Fort Mason Military Reservation at the earliest possible moment, and that the work of completing this extension to the Transport Dock be carried on simultaneously with the construction of the Municipal Railway on Van Ness avenue.

**Adopted.**

The following resolution was adopted:

**Pole and Wire Permits.**

On motion of Supervisor *Vogelsang*:

Five 50-foot poles on north side of Leland avenue, between Desmond street and Peabody street, to be used as a guy pole.

Twelve 50-foot poles along west side of Peabody street, between Leland avenue and county line.

All construction shall be done under the supervision of and to the satisfaction of the Board of Public Works and the Department of Electricity, and in the manner provided by the ordinances of the city and county.

Section 2. The permission herein granted shall not be construed to grant any easement in or to the streets herein mentioned, or to constitute a contract by or with the city and county, and it may be revoked at any time and said poles and wires shall be removed within ten days after receipt of notice so to do given by the Board of Supervisors, or said wires may be placed underground as provided by the ordinances of the city and county.

Section 3. The city and county shall have the right to place wires on the poles to be erected under this reso-

lution for the purpose of conducting electricity for any public purpose.

Prohibiting Excavations in Third Street.

On motion of Supervisor McCarthy:

Bill No. —, Ordinance No. — (New Series), as follows:

Prohibiting excavation in Third street and damage to the pavement thereof for the period of two years, and providing a penalty for the violation thereof.

Whereas, It is the intention to repave Third street for its entire length with a permanent pavement and that it is essential that such pavement shall not be torn up or damaged for a considerable period thereafter, therefore

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It shall be unlawful for any person, firm or corporation to make any excavation in Third street in the City and County of San Francisco, or to tear up or damage the pavement during the period of two years from and after the taking effect of this ordinance and all ordinances in so far as they may conflict with the provisions of this ordinance are hereby repealed, and all permits to make excavations in said street are hereby revoked.

Section 2. The Board of Public Works is hereby directed to cause notices to be mailed to the owners of property fronting on said street and to all public service corporations, giving notice of its intention to repave said street and the passage of this ordinance; also to post similar notices along the line of said street.

Section 3. This ordinance shall take effect sixty days from and after its passage and thereafter said Board of Public Works for the period of two years shall not grant any permit to excavate in said street contrary to the provisions hereof.

Section 4. Any person, firm or corporation violating the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be subject to a fine of not less than two hundred dollars nor more than five hundred dollars or by imprisonment in the County Jail for a period of not more than six months or by both such fine and imprisonment.

Action Deferred.

On motion of Supervisor Hilmer:  
J. R. No. 1168.

Resolved, That the Clerk of the Board of Supervisors is hereby directed to advertise for proposals for supplying the various municipal departments, not otherwise specifically provided for in the Charter, during the fiscal year 1914-15 with general supplies, printing, books and stationery, as per specifications prepared by the Supplies Committee.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogel-sang, Walsh—16.

Relating to Opening and Extending Streets in City Land Association Tract Into Ingleside Terraces.

Privilege of the Floor.

Jos. A. Leonard was granted the privilege of the floor and addressed the Board and stated that he did not know that the matter of opening streets of the City Land Association Tract into Ingleside Terraces was being considered today and that he desired to offer his objection in the matter. He declared that about two years ago he offered to sell land necessary for this purpose for \$1200 for each lot plus interest up to the time the deal is consummated. He said that a flat price of \$1200 is not acceptable to him. He said since the agreement was made an assessment of \$2139 for the Twin Peaks tunnel has been levied on this property. He has spent \$500 per lot in constructing catchbasins and sewers providing drainage for the City Land Association Tract.

Chas. Holcomb, Assistant City Engineer, stated that the City Engineer's office could not consider assessment for Twin Peaks tunnel and did not understand that offer of Urban Realty Company included interest.

Reconsideration.

Whereupon, Supervisor McCarthy moved the reconsideration of the action heretofore taken on the foregoing subject.

Recommended.

Whereupon, the matter of opening and extending streets in City Land Association Tract into Ingleside Terraces was ordered *recommended* to the Streets Committee.

ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

Adopted.

The following resolutions were introduced under suspension of the rules and *adopted*:

**Board of Public Works to Use Rock and Clay from Rincon Hill for Filling in Kentucky Street.**

Supervisor Power presented:  
J. R. No. —.

Whereas, certain street work is contemplated by this Board on Kentucky street and Railroad avenue, and

Whereas, in connection with said work it will be necessary to raise the grade two or three feet, therefore, be it

Resolved, That the Board of Public Works is instructed to report on the advisability of using the rock and clay from that portion of Rincon Hill lying west of Second street that remains ungraded to fill in Kentucky street and Railroad avenue in order to bring it to the necessary grade.

*Referred to Streets Committee.*

**Widening of Sloat Boulevard.**

Supervisor Nolan presented:  
J. R. No. —.

Whereas, it is proposed to provide in the coming budget for a large sum of money for the improvement and repaving of Sloat boulevard; and

Whereas, it is desirable before any

great permanent work is done on that thoroughfare to widen it to a considerable extent, providing the property owners abutting thereon are willing to deed to the City and County the necessary right-of-way; therefore

Be it Resolved, That the Board of Public Works is hereby directed to report to this Board as to the feasibility and practicability of widening Sloat boulevard and the proper improvement thereof.

*Referred to Streets Committee.*

**Board of Public Works to Estimate Cost of Church Street Extension of Municipal Railways.**

Supervisor Power presented:  
J. R. No. —.

Resolved, That the Board of Public Works be and is hereby instructed to furnish to the Board of Supervisors the estimated cost of constructing the Municipal Railway on Church street, from Market street to Thirtieth street, and also the estimated cost of construction for the following units of said Church street line:

1. From Market street to Dorland street.

2. From Dorland street to Twenty-second street (as per plans for new street, etc.).

3. From Twenty-second street to Thirtieth street.

4. The amount that will be saved by using the tracks of the United Railroads on Church street, from Market street to Sixteenth street.

*Referred to Public Utilities Committee.*

Relative to Appropriation for Stream Gaging on Tuolumne River.

The following was presented, read and referred to Public Utilities Committee:

Department of the Interior.

Washington, March 10, 1914.

Mr. John S. Dunnigan, Clerk, Board of Supervisors, City and County of San Francisco, San Francisco, Cal.:

Sir—Your telegram of February 28, stating that \$5000 has been set aside for the expense of the Geological Survey in stream gaging work in the Tuolumne River and Hetch Hetchy Valley, has been received.

Mr. McGlashan, district engineer of the Geological Survey, has been authorized and instructed to confer with the City Engineer and to make arrangements for the installation and operation of such gaging stations as appear to the Geological Survey and the City Engineer to be necessary or desirable in connection with the administration of the Act of December 19, 1913, granting to the city certain rights of way through the Yosemite National Park.

Very respectfully,

(Signed) ADOLPH C. MILLER,  
Assistant to Secretary.

#### Hearing of Protests.

##### *Main Street Change of Grade.*

The hearing of the objections of J. J. Lermen et al. to the confirmation of the report of the Board of Public Works upon the damages and benefits resulting by reason of the change of grade on Main street, between Folsom and Bryant, and on Harrison street, between Spear and Beale streets, in compliance with Resolution of Intention No. 9896 (New Series), approved December 23, 1912, and Ordinance No. 2235 (New Series), approved March 25, 1913, fixed for the hour of 3 p. m. this day, was proceeded with.

##### Privilege of the Floor.

J. J. Lermen, property owner, was granted the privilege of the floor and objected to the piecemeal cutting down of Rincon Hill. He said on advice of City Attorney damages were not allowed outside the assessment district fixed by the Board of Public Works. He claimed that his property would be damaged to the amount of \$6,000. He said that it was the duty of the Board of Supervisors, under the Constitution, to fix the damages, inasmuch as the Board of Public Works has not done so. Damages sustained outside the district cannot

be forced on those inside the district. To solve the problem he said, you can, if you wish, put all the damages resulting from this improvement on those within the district who want the improvement; otherwise repeal the ordinance.

Martin Kelly, property owner, said that large property owners were agitating the cutting down of the grade on Main street and to do so were using the Chamber of Commerce. There are not twelve people in the Chamber of Commerce who own property in the district affected.

Geo. C. Holberton, representing Rincon Hill Committee of the Chamber of Commerce, said that a committee of the San Francisco Real Estate Board has filed a report with the Chamber of Commerce and the question of financing a project of removing the entire hill is under consideration. He declared that the Chamber of Commerce is as active as ever in the matter of the removal of Rincon Hill and would report a scheme for financing the project in a short time. He did not believe that it would be necessary to discontinue car service on Harrison street for any great period of time, consequently the damages would not be as great as anticipated.

Louis V. Crowley, attorney, representing John Brickell and Charles Ward, also addressed the Board and opposed any further delay in the reduction of the grades in Main street. He declared that the Draymen's Association, the Downtown Association, the Merchants' Association and the Chamber of Commerce were all in favor of the project and the work should proceed without interruption.

##### Action Deferred.

Whereupon, Supervisor Bancroft moved that matter lay over four weeks. Motion carried.

##### Adopted.

Thereupon, the following resolution was introduced under suspension of the rules and adopted:

City Attorney and City Engineer to Report as to Whether Claims for Damages for Property Owners Outside the Assessment District.

On motion of Supervisor McCarthy:  
J. R. No. 1178.

Resolved, That the City Attorney and the City Engineer be and are requested to immediately report whether in their judgment those property owners outside of the assessment district now claiming damages from the proposed Main street change of grade are entitled to same or to any proportion of the amount claimed.

Adopted March 16, 1914.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

**Indefinite Postponement.**

The following bill heretofore passed for printing was taken up and on motion *indefinitely postponed*:

**Additional Employees, Tax Collector.**

Bill No. 2935, Ordinance No. — (New Series), entitled, "Authorizing the appointment of additional employees in the office of Tax Collector, fixing the term of their employment and their compensation."

**Passed for Printing.**

Whereupon, the following bill was introduced and *passed for printing*:

Bill No. 2950, Ordinance No. — (New Series), as follows:

Authorizing the appointment of additional employees in the office of the Tax Collector, fixing the term of their employment and their compensation.

Be it ordained by the people of the City and County of San Francisco, as follows:

Section 1. The Tax Collector is hereby authorized to appoint a Deputy Tax Collector to serve for a period of five months, at a compensation of one hundred and fifty dollars a month, and one Deputy Tax Collector for a period of three months at a compensation of one hundred and fifty dollars a month; such deputies to respectively perform the duties of Twin Peaks Tunnel Accountant, and Twin Peaks Tunnel Cashier; all to be a charge against the Twin Peaks Tunnel Assessment.

Section 2. This ordinance shall take effect immediately.

**Final Passage.**

The following matters heretofore passed for printing, were taken up, *finally passed* by the following vote and numbered as follows, to-wit:

City Attorney to Compromise Thos. J. Tully Suit.

Bill No. 2936, Ordinance No. 2666 (New Series), entitled, "Directing the City Attorney to compromise that certain litigation involved in the action entitled Thomas J. Tully vs. City and County of San Francisco, a Municipal Corporation, No. 47792, filed in the Superior Court of the State of California, in and for the City and County of San Francisco, by waiving the right of the City and County of San Francisco to appeal from a judgment rendered against it, and tendering nine thousand dollars in full payment to the plaintiff Thomas J. Tully of any and all his demands, as set forth in his complaint in the said action."

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock,

Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Granite In Old City Hall Site to be Cut and Dressed for Curbing.

Bill No. 2937, Ordinance No. 2667 (New Series), entitled, "Ordering the cutting and dressing of curbing from granite on the old City Hall site; authorizing and directing the Board of Public Works to enter into contract for said construction, approving plans and specifications therefor; payment for said work to be borne out of Budget Item No. 73, fiscal year 1913-1914."

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

**Laundry Permit Ordinance.**

Bill No. 2938, Ordinance No. 2668 (New Series), entitled, "Providing for the issuance, by the Board of Supervisors, of revocable permits for the establishment, maintenance, operation or carrying on of public laundries or washhouses in the City and County of San Francisco."

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

**Commodities and Merchandise Ordinance.**

The following matter heretofore passed for printing, was *taken up*:

Bill No. 2939, Ordinance No. — (New Series), entitled, "Regulating the sale of bread, meat, coal, milk, cream, butter, ice, hay, straw, grain, mill feed and other commodities and merchandise; requiring inspection by the Sealer of Weights and Measures and providing a penalty for the violation thereof."

**Privilege of the Floor.**

E. A. Foley, representing the Wholesale and Retail Bakers, opposed the ordinance because of limitation it placed in the size of the loaf. Flour, he said, is subject to change in price, and there should be some leeway in the size and weight of bread to meet the fluctuation in price of flour. He said ordinance would destroy competition. The stamp feature, he said, was also objectionable.

**Recommended.**

Whereupon, the foregoing bill was, on motion of Supervisor Power, *recommended to the Judiciary Committee*.

**Final Passage.**

The following matters heretofore passed for printing, were taken up, *finally passed* by the following vote and numbered as follows, to-wit:

Board of Public Works to Prepare Plans, etc., and Advertise for Bids for Construction of Extensions of Municipal Railways.

Bill No. 2940, Ordinance No. 2669 (New Series), as follows:

Directing the Board of Public Works to prepare plans, specifications and contracts, and advertise for bids for furnishing and delivering the necessary material therefor, and constructing the extensions of the Municipal Street Railway System, for which funds were provided in the bond issue authorized August 26, 1913.

Be it ordained by the people of the City and County of San Francisco, as follows:

Section 1. The Board of Public Works is hereby authorized, instructed and empowered to immediately prepare plans, specifications and contracts, and advertise for bids for furnishing additional materials necessary and constructing the extensions to the Municipal Street Railway System for which funds were provided in the bond issue authorized August 26, 1913, and more specifically described as follows:

Fort Mason Extension to Union Street Line—A double track street railway connecting to the tracks of the Van Ness avenue line at Bay street, thence meandering through the Fort Mason Military Reservation to a terminal on Laguna street, between Jefferson and Beach streets.

Stockton Street Line—A double track street railway on Stockton street from Market street to Columbus avenue, connecting with the present tracks of the Union street line on Columbus avenue.

California Street Line—A double track street railway, connecting to the tracks of the present Geary street line at Second avenue and Geary street, thence along Second avenue to Cornwall street, thence along Cornwall street to its junction with California street at Fifth avenue, thence on California street to Thirty-third avenue.

Union Street Line—The reconstruction of that portion of the double track roadbed of the Union street line, which will be necessary in order to operate cars of the type ordered for the Municipal Street Railway System.

Section 2. The Board of Public Works is hereby authorized and permitted to incorporate in the contracts for said extensions to the Municipal Street Railway System provisions to the effect that progressive payments shall be made as provided by Section 21, Article IV, Chapter I, of the Charter.

Section 3. This ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Action Deferred.

The following bill, laid over from last meeting, was taken up and on motion of Supervisor Vogelsang again laid over one week:

Southern Pacific Franchise.

Bill No. 2760, Ordinance No. — (New Series). Providing for a grant and granting to Southern Pacific Company, a railroad corporation, its successors and assigns, the right to construct, maintain and operate certain standard-gauge railroad tracks under, over, along and across certain streets, avenues, alleys, places and properties in the City and County of San Francisco, State of California.

Final Passage.

The following matters heretofore passed for printing, were taken up, finally passed by the following vote and numbered as follows, to-wit:

Prohibiting Excavations in Third Street.

Bill No. 2941, Ordinance No. 2670 (New Series), as follows:

Prohibiting excavation in Third street and damage to the pavement thereof for the period of two years, and providing a penalty for the violation thereof.

Whereas, It is the intention to repave Third street for its entire length

with a permanent pavement and that it is essential that such pavement shall not be torn up or damaged for a considerable period thereafter, therefore

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. It shall be unlawful for any person, firm or corporation to make any excavation in Third street in the City and County of San Francisco, or to tear up or damage the pavement during the period of two years from and after the taking effect of this ordinance and all ordinances in so far as they may conflict with the provisions of this ordinance are hereby repealed, and all permits to make excavations in said street are hereby revoked.

Section 2. The Board of Public Works is hereby directed to cause notices to be mailed to the owners of property fronting on said street and to all public service corporations, giving notice of its intention to repave said street and the passage of this ordinance; also to post similar notices along the line of said street.

#### Establishing Grades, Steuben Street.

The following bill, laid over from last meeting, was taken up:

Bill No. —, Ordinance No. —

(New Series), entitled, "Establishing grades on Steuben street, between Augusta and Helena streets."

#### Privilege of the Floor.

M. Hutchinson, representing Mr. Hardy, stated that his client had been very much damaged by the grade that has already been made. He opposed the proposed ordinance.

Chas. Holcomb, Assistant City Engineer, stated that a permit had been granted by the Board of Public Works heretofore. He said the Board of Public Works Commissioners were not inclined to raise the grade, but Mr. Hardy stated that if the grade was raised a foot he would be satisfied. He had consented to the grade and we thought the matter settled, but he has now filed a new protest. He said that the proposed grade was made to suit Mr. Hardy, but that if the matter was referred back to the Board of Public Works he would recommend that the street be put at proper grade.

Mr. Hardy addressed the Board in opposition to the proposed grade. He said that the street grade had been established at the present elevation to suit the convenience of the Newell Company.

#### Action Deferred.

Whereupon, Supervisor Walsh moved that the matter lay over one week and that the Board of Public Works be requested to furnish the Board with a copy of the permit granted the Newell Company for the grading of the street.

Motion carried.

#### Passed for Printing.

The following matters were passed for printing:

#### Creating City Planning Commission.

On motion of Supervisor Payot: Bill No. 2964, Ordinance No. — (New Series), as follows:

An Ordinance creating a City Planning Commission, prescribing the number and qualifications of its members and the duties to be performed.

Be it ordained by the People of the City and County of San Francisco as follows:

#### Purpose.

Section 1. In order to make adequate provision for, and to guide the future development and efficient growth of San Francisco, a City Planning Commission is hereby established.

#### Appointment and Term of Office.

Section 2. The City Planning Commission shall consist of nine members, one of whom shall be the City Engineer, one the City Attorney, one the person in charge of the architectural work of the City and six persons to be appointed by the Mayor, at least one of whom shall be an architect, and at least one an engineer. They may or may not be residents of the City. The six appointed members shall, at the first meeting of the Board, determine their terms of service by lot, one each serving for one, two, three, four, five and six years. At the expiration of one year from the date of their appointment, and annually thereafter, the Mayor shall appoint one member to serve for six years. Should a vacancy occur the Mayor shall appoint for the unexpired portion of the term.

Section 3. Three shall be a quorum. The Commission may make and alter rules and regulations for their own organization and procedure, consistent with the ordinances of the City and the law of the State. They shall serve without compensation and report annually to the Mayor their transactions and recommendations.

Section 4. The Clerk of the Board of Supervisors shall, upon introduction, furnish to the City Planning Commission, for its consideration, a copy of all ordinances and bills relating to the location of any public building of the City, and to the location, extension, widening, enlargement, ornamentation and parking of any street, boulevard, parkway, park, playground or other public grounds, and to the vacation of any street, or other alteration of the city plan of streets and highways, and to the location of any bridge, tunnel or subway, or of any surface, underground or elevated railway. The said commission may make a report or suggestion in relation thereto, if it deems a report necessary or advisable, for the consideration of the Supervisors. All such reports

when delivered to the Clerk of the Board of Supervisors shall be for the information of the public as well as of the Supervisors, and the commission shall furnish to any newspaper of the City, on request, for publication, a copy of any such report.

Section 5. The City Planning Commission may make, or cause to be made, and lay before the Supervisors, and in its discretion cause to be published, a map or maps of the City, or any portion or portions thereof, including territory extending three miles beyond the city limits, showing the streets and highways and other natural or artificial features; and also locations proposed by it for any new public buildings, civic center, street, parkway, boulevard, park, playground, or any other public ground or public improvement; or any widening, extension or relocation of the same, or any change in the city plan, by it deemed advisable; and it may make recommendations to the Supervisors, from time to time, concerning any such matters and things aforesaid for action of the Supervisors; and, in so doing shall have regard for the present conditions and future needs and growth of the city, and the distribution and relative location of all the principal and other streets and railways, waterways and all other means of public travel and business communications, as well as the distribution and relative location of all public buildings, public grounds and open spaces devoted to public use, and the planning and laying out for urban uses of private grounds brought into the market from time to time.

Section 6. The City Planning Commission may make recommendations to any public authorities, or any corporations or individuals, with reference to the location of any buildings, structures, or works to be erected or constructed by them.

Section 7. All plans, plots, or replots of lands laid out in building lots, and the streets, alleys or other portions of the same intended to be dedicated to public use, or for the use of purchasers or owners of lots fronting thereon or adjacent thereto, and located within the city limits, shall be submitted to the City Planning Commission who shall report upon them in writing to the Board of Public Works. Owners and purchasers shall be deemed to have notice of the published plans, maps and reports of the commission affecting property within its jurisdiction.

Section 8. Any department or board of the City Government having control of the acceptance, placing or designing of structures, or objects of art,

may call upon the commission for a report thereon.

Section 9. There shall be furnished to said Commission suitable quarters for the transaction of business and the carrying on of its investigations. Said Commission shall meet at least once a month.

Section 10. This Ordinance shall take effect immediately.

Relative to Exchange of Library Lot for Sutro Cliff Property.

On motion of Supervisor Bancroft:  
J. R. No. 1179.

Whereas, the certain land belonging to the City and County and situate at the westerly line of Van Ness avenue and extending from the southerly line of Hayes street to the northerly line of Fell street, of dimensions 275 feet frontage on Van Ness avenue by an approximate depth of 137 feet 6 inches, and being a portion of the Public Library site in Western Addition Block No. 73, which was recently exchanged with the library trustees for certain other land in the Civic Center by authority of the Charter; and

Whereas, the Van Ness Avenue Improvement Association and others have urged that the said certain described strip of land on Van Ness avenue be sold or exchanged for the purpose of converting the same into commercial or business property, and advising that the Sutro estate would entertain the proposition to exchange with the city its certain lands adjoining Lincoln Park on the north and northwesterly boundary thereof, extending to the ocean front, and from a line with Thirty-third avenue to a point northerly from the "Sutro Baths;" or, as an alternative, the property of the Sutro estate being the baths contiguous to the "Cliff House;" and

Whereas, it is deemed advisable by this Board that the public interest would be conserved by such exchange of properties for the reason that the said unused Van Ness avenue property would be converted into commercial enterprises to the advancement of the surrounding neighborhood, and thereby bring increased revenues to the city, and that the acquisition by the city of the certain hereinbefore described Sutro estate property would be a creditable addition to the Lincoln Park site and would be preserving the ocean front for scenic purposes and the pleasure of our citizens, as well as becoming a valuable advantage for extensions

of the Municipal Railway projects; therefore, be it

Resolved, That the Committees on Public Buildings and Lands and Tunnels of the Board of Supervisors be and is hereby authorized and directed to negotiate with the said Sutro estate to the end that a satisfactory exchange of the said lands may be consummated, subject to the approval of the Board of Supervisors.

#### Mayor to Sell Personal Property of City.

On motion of Supervisor Hilmer:  
J. R. No. 1181.

Resolved, That his Honor the Mayor is hereby authorized and requested to sell at public auction, pursuant to a request filed by the Board of Fire Commissioners, the following described personal property, to-wit:

#### AT CORPORATION YARD.

(San Francisco and Stockton streets.)

- 4 tons of old iron.
- 2 tons of brass and borings, containing some iron.
- 400 pounds old tires and suction.
- 17 wagon wheels.
- 3 battery wheels.
- 1 express wagon wheel.
- 10 buggy wheels.
- 6 lengths of old 2¾-inch cotton hose.

#### DRILL TOWER.

- 50 tons miscellaneous scrap iron, including old horse shoes, etc.
- 50 old hydrants.

Miscellaneous lot of old rubber hose and tires.

#### DEPARTMENT STABLES.

- 4,000 old grain sacks.

Said property is unfit and unnecessary for the use of the City and County.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock,

Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

#### Preservation of Site of Proposed Aquatic Park.

Supervisor McLeran presented:

Whereas, The land bounded on the west by the high water mark on the property or lands known as Fort Mason, a Military Reservation, and on the south by the north line of Beach street, and on the east by the west line of Hyde street, is composed partly of land submerged at high tide and of land that is submerged even at low tide, and, therefore, under the law announced by the Supreme Court of the State of California, the said land is subject to an easement in favor of the residents of the State of California, for fishing and navigation; and

Whereas, The waters covering said land are navigable and have been used by the residents of the State of California, from the remote past, for fishing and navigation, but now the march of commercialism is ignoring the rights of the public and individuals and is filling in said lands and seeking to deprive the citizens and residents of the rights to fish in and navigate in said waters, rights which have been respected and acknowledged by the laws of all countries from the sixteenth century down to the present day, and

Whereas, Other than the premises above described, there is no place on the shore line of San Francisco suitable for an aquatic park or for fishing, swimming or boating, and

Whereas, The march of commercialism has forced the people interested in aquatic sports from one part of the city to the other, beginning with the removal from Old Long Bridge to the foot of Third street, thence to the end of Sixteenth street and finally to the premises above described, and

Whereas, By Section 2524a of the Political Code of the State of California the Harbor Commissioners were authorized to select, set apart and assign any property under their control for a period not exceeding ten years to any corporation, club or association for the purpose of developing and promoting aquatic sport;

Whereas, Certain boat clubs and other associations and organizations interested in aquatic sports have at great expense erected buildings and other improvements upon the property herein described, with the permission of the State Board of Harbor Commissioners; and

Whereas, The success of the present attempt to fill in the waters will be an acknowledgment that the "dollar sign" is placed above the manhood of the citizens of the community, and

said premises will be totally unfitted for fishing, navigation, swimming and other aquatic sports; and

Whereas, The filling in is not only without lawful right, but is a crime under Section 13 of the River and Harbor Act, adopted by the United States Congress and approved by the President of the United States on the 3rd day of March, 1899, and is also made a criminal offense by Section 370 of the Penal Code of the State of California, now, therefore, be it

Resolved, By the Board of Supervisors that we invite the co-operation of all citizens of San Francisco who are interested in the moral and physical welfare of the citizens of the State of California in the creation of a sentiment that will arrest this march of commercialism and attempted theft of public rights; and be it

Further Resolved, That Charles M. Fickert, Esq., District Attorney of the City and County of San Francisco, be and he is hereby requested to initiate proceedings against the contractors and others who are dumping in and filling in the waters of said bay; and be it

Further Resolved, That Thomas H. Rees, Esq., head of the United States Engineers Office, War Department, be invited to assist in the prosecution of prevention of injury to navigation by such filling and dumping into the waters of said bay; and be it

Further Resolved, That John W. Preston, Esq., the United States District Attorney in and for the Northern District of California, be and he is hereby requested to take proceedings against the contractors and others who are filling in the navigable waters of said premises.

**City Attorney to Appear Before State Railroad Commission in Matter of Water Extensions.**

On motion of Supervisor Walsh:

J. R. No. 1182.

Whereas, There is now pending before the Railroad Commission of the State of California a matter entitled Roy A. Pratt et al., complainants, vs. Spring Valley Water Company, a

corporation, defendants, wherein the complainants, who are residents of the City and County of San Francisco have invoked the jurisdiction of the said Railroad Commission to compel the defendants to give complainants an adequate water service for their domestic requirements; and,

Whereas, By Resolution No. 1021 (New Series), adopted December 15, 1913, this Board requested the Railroad Commission to take such action as may be in their power to the end that adequate relief may be afforded districts of this City now suffering from inadequate service; and,

Whereas, This Board has heretofore been advised by the City Attorney that it is questionable whether this Board has the power to compel the said Spring Valley Water Company to make capital expenditures necessary for extensions or improvements of service; and,

Whereas, By a recent decision in Case No. 442 the Railroad Commission decided that it had authority to compel extensions and improvements of public utility service in chartered cities where the cities themselves are not expressly vested with such powers;

Now Therefore, Be It Resolved, That the City Attorney be and he is hereby authorized and directed to appear before the Railroad Commission in the above entitled matter, and to urge in behalf of this City and County that they take such action as may afford adequate relief to the complainants in such case.

### READING AND APPROVAL OF MINUTES.

The Journals of the meetings of March 3, 10 and 16, 1914, were read and approved.

### ROLL CALL FOR PETITIONS FROM MEMBERS.

#### Call for Special Session.

The following matter was presented and read by the Clerk:

March 20, 1914.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco.

Gentlemen—With the opening of the Exposition only a little over ten months hence, there are several important public questions which, in my judgment, require prompt attention on your part for settlement.

Among these are:

Definite action leading to the relief of the congested traffic conditions at the foot of Market street.

Southern Pacific terminal and depot. Transportation to the Exposition grounds.

Extensions to the Municipal Railway System, particularly to the foot of Stockton street and to South San Francisco.

General street conditions, preparatory to the opening of the Exposition, and for the growth of the city.

Progress of the Civic Center and the City and County Hospital.

Pending litigation regarding the acquisition of the Spring Valley properties.

Provisions for new school buildings.

These questions are, in my judgment, of sufficient importance to call you together in special session, and, under Section 5, Chapter 1, Article 4 of the Charter of the City and County of San Francisco, I do hereby call a special and extra session of the Board for Monday night, March 23, 1914, in the chambers of the Board of Supervisors, City Hall, for the consideration of the objects referred to herein.

This meeting will be the beginning of a number of special sessions which I feel will be necessary for the Board to hold in order that these and other public questions may be solved, and the city made ready for the opening of the Exposition in February, 1915.

Very respectfully,

(Signed) JAMES ROLPH, JR.,

Mayor.

Relative to Purchase of Properties of Spring Valley Water Company, Marie Bauchou and V. Gamboni Mazzitelli; Required for the Extension of Fourteenth Avenue Northerly to the Presidio.

The following matters were presented, read by the Clerk and *ordered spread in the Journal*:

March 23, 1914.

Board of Supervisors, San Francisco, Cal.

Gentlemen—I am herewith transmitting an offer from the Spring Valley Water Company, Marie Bauchou and V. Gamboni Mazzitelli to sell to the City and County of San Francisco all their right, title and interest in and to all property in which they have any interest or title, located in this City and County and bounded on the north by the southerly line of the Presidio Military Reservation, on the east by the westerly line of Mountain Lake Park and the westerly line of Thirteenth avenue, and on the south by the northerly line of Lake street and on the west by the westerly line of Fourteenth avenue as it is and if extended northerly to the southerly boundary line of the said Military Reservation.

The property actually claimed as owned by these parties is the northern portion thereof, as is more particularly described in this offer and the same is offered to the City for the sum of \$4500, \$3500 to be paid upon a satisfactory report on the title and the delivery of a deed, and the balance of \$1000 to be paid upon the removal from said property of the building at present located thereon.

The Finance Committee of your Honorable Board has gone into this question very thoroughly with these different parties and with this office and has decided to recommend the acceptance of this offer, in order that Fourteenth avenue, may be extended northerly to the southerly boundary line of the Presidio.

I feel that the offer is a fair and reasonable one, and therefore recommend that your Honorable Board accept the offer as set forth.

Yours very truly,

PERCY V. LONG,  
City Attorney.

San Francisco, March 23, 1914.  
Percy V. Long, Esq., City Attorney,  
San Francisco, California.

Dear Sir:

We hereby tender an offer to the City and County of San Francisco, for the sum of four thousand five hundred (\$4,500.00) dollars, all that certain lot, piece or parcel of land, situate, lying and being in the City and County of San Francisco, State of California, and more particularly described as follows, to-wit:

Beginning at a point on the westerly line of Fourteenth avenue, distant thereon two hundred and twenty-seven and six tenths (227.6) feet northerly from the northerly line of Lake street; thence north 78° 58' east one hundred and fifteen and forty-nine hundredths (115.49) feet to the westerly line of Mountain Lake Park; thence north 30° 15' west eighty-seven and seventy-two hundredths (87.72) feet, more or less, to the southerly boundary line of the Presidio Military Reservation; thence westerly and along the said southerly boundary line of said Reservation and to its intersection with the westerly line of Fourteenth avenue, if produced northerly; thence southerly and along said westerly boundary line of Fourteenth avenue, if produced northerly, eighty-nine and sixty-eight hundredths (89.68) feet, more or less, to the point of beginning, together with the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining.

Also any and all right, title and interest of the undersigned in and to

that certain block of land bounded on the west by the westerly line of Fourteenth avenue, as it is and if extended northerly to the southerly boundary line of the Presidio Military Reservation; bounded on the north by the southerly boundary line of the said Military Reservation, and bounded on the east by the westerly line of Mountain Lake Park and the westerly line of Thirteenth avenue, and bounded on the south by the northerly line of Lake street.

In the event of the acceptance of this offer to sell said property to the City, for the sum named herein, we agree to convey to said City and County, by good and sufficient grant, bargain and sale deed, all of the above described premises, free from all liens and incumbrances, and we agree to pay all taxes levied thereon for the fiscal year.

Of the above price, three thousand five hundred (\$3,500.00) is to be paid within thirty (30) days, upon the delivery of a good and sufficient deed to said premises, providing that within said period of 30 days the Title Insurance and Guaranty Company, of said City and County, reports that such a conveyance from the undersigned will vest in the said City and County the fee simple title in and to the said parcel of land firstly hereinabove described, and providing said Title Company will insure the title of the City and County upon the delivery of said deed. Should the said Title Company report the title to said premises defective in any respect during said period of 30 days, then and in that event a reasonable time shall be given the undersigned to perfect title to said premises.

The further sum of one thousand (\$1,000.00) dollars is to be paid upon the removal from said premises of any and all building, fences or structures of any character whatsoever, such buildings or fences or structures to be removed at a time not later than 60 days from the delivery of said deed and the payment of said sum of \$3,500.00. Demand in said sum of \$1,000, properly approved by the Supervisors of said City and County, to be deposited with the said Title Company, to be delivered upon the removal as aforesaid of said buildings, etc.

Estimate of Cost of Constructing Church Street Extension of Municipal Railway.

The following was presented, read,

referred to Public Utilities Committee and ordered spread in the Journal:  
March 24, 1914.

Department of Public Works, Bureau of Engineering.

Mr. John S. Dunnigan, Clerk, Board of Supervisors, San Francisco, Cal.

Dear Sir—In response to your letter of the 12th instant requesting information concerning the cost of construction of the Municipal Railway on Church street, I have to reply as follows:

- 1.—Cost from Market to Dorland street ..... \$155,500
- 2.—Cost from Dorland street to Twenty-second street, as per plans of new street, including cost of street work; etc ..... 400,600  
Of which the cost of the Street Railway is estimated at \$68,600.  
And the cost of the street work, including opening of street and change of grades at..... \$332,000.
- 3.—Cost of Twenty-second street to Thirtieth street 101,400
- 4.—The amount that may be saved by using tracks of the United Railroads on Church street from Market street to Sixteenth street ..... 5,000

It will be impossible to construct a street railway on Church street without making arrangements to use the tracks of the United Railroads from Market to Sixteenth street.

Summarizing the above and omitting the cost of opening new street from Eighteenth to Twenty-second street, we have cost of constructing a street railway from Market and Van Ness to Thirtieth and Church:

- 1.—Market to Dorland st...\$155,500
- 2.—Dorland to Twenty-second street ..... 68,600
- 3.—Twenty-second to Thirtieth street ..... 101,400

Total cost of roadbed .. \$325,500  
Cars and car barn .. 172,500

Total cost of street railway and equipment .. \$498,000

This is the amount provided in the bond issue for this purpose. See page 11 of City Engineer's Report of April 5, 1913.

Yours truly,  
M. M. O'SHAUGHNESSY,  
City Engineer.

Relative to Steuben Street, Change of Grade.

The following was presented, read and ordered spread in the Journal:  
March 23, 1914.

To the Honorable, the Board of Pub-

lic Works, of the City and County of San Francisco:

Gentlemen—In answer to the request of the Honorable Board of Supervisors, dated the 17th inst. requesting a copy of the permit granted to E. W. Newell to excavate in Steuben street, also such other information as we may have on the proposed grade, a brief history of this Steuben street matter is as follows:

December 11, 1912, E. W. Newell filed Petition No. 18,477, requesting the establishment of grades on all of the streets in the vicinity of Steuben street, and Mr. W. Hardy filed Petition No. 17,795, requesting that grades be established on Steuben street between Augusta and Helena streets. Mr. Newell at that time had a scheme wherein he proposed to close many of the then existing streets in the marsh adjacent to Oakdale avenue (formerly Fifteenth avenue South) and open new streets more advantageous to the property and general public. This office took the position at that time that the grades of these streets, including Steuben street, should not be established until it was definitely known and determined where the new streets were to be.

On May, 23, 1913, we received Petition No. 20309 from the Honorable, the Board of Public Works, which was as follows:

"To the Honorable, the Board of Public Works, of the City and County of San Francisco:

"Gentlemen—We, the undersigned, respectfully petition your Honorable Board for permission to grade Steuben street between Helena and Augusta streets to a grade tentatively agreed upon between the City Engineer's Office and E. W. Newell in front of the property of those owners signing a contract for the doing of the work without any cost to such owners and with the further provision that without cost to such owners the street in front of such properties will be graded to the grade finally established:

"Carrie Cohn, 50 feet; Amalia Radovich, 50 feet; M. Hardy, 125 feet; Margaret Ryan, per T. Ryan, 25 feet; R. H. Cross, 30 feet; Mrs. O'Malley, per Chas. O'Malley, 50 feet; E. W. Newell, 375 feet; Henry Raab (signed), 50 feet; Mary Ann Lewellyn (signed), 25 feet; L. W. Newport, 50 feet; I. Ososke, 75 feet; Esther Levy, 75 feet; Mercantile Trust Co. of S. F., executor of the will of Johan H. C. Prien, deceased, 115 feet; Elizabeth R. Hanlon, 115 feet; Sarah Weinstein, 25 feet.

"(Signed) E. W. NEWELL,

"By S. W. Newell, his Attorney in Fact."

On June 2, 1913, the following letter in answer to the above petition was forwarded to the Honorable Board of Public Works:

"Gentlemen—Herewith I return Petition No. 20,309 of E. W. Newell, requesting permission to grade Steuben street between Helena and Augusta streets to a grade tentatively agreed upon by the City Engineer's office, in front of the property of those owners whose signatures appear upon the attached petition without cost to such owners.

Your petitioners have the signatures of all property owners with the exception of two, whose frontage aggregates 100 feet. There is no objection to the proposed work and I recommend that the requested permit be granted, upon the condition that the existing private sewer serving the property of Mr. Hardy be restored, if disturbed, to a condition as good as at present, in the judgment of this Board.

"Respectfully submitted,

"(Signed):

M. M. O'SHAUGHNESSY,  
"City Engineer."

On June 2, 1913, the Board of Public Works issued the following permit under Resolution No. 24083 (Second Series):

"Whereas, Application for permission to grade Steuben street between Helena and Augusta streets to a grade tentatively agreed upon by the City Engineer's office, in front of the property of those owners whose signatures appear upon the attached petition, without cost to such owners,

(This permit is given upon the express condition that the existing private sewer serving the property of Mr. Hardy be restored, if disturbed, to a condition as good as at present, in the judgment of this Board.) was made in writing by E. W. Newell, Petition 20309, to this Board on the 24th day of May, A. D. 1913,

And Whereas, This Board investigated the said application and determined that said proposed work is expedient;

And it appearing that the owners of the major part of the frontage of the lots and lands liable for the cost of said proposed work have entered into contract therefor; therefore, be it

Resolved, That the permission applied for by said E. W. Newell be, and the same is hereby granted; provided, however, that said proposed work shall be commenced within fifteen days and completed within ninety days from the date of the

adoption of this resolution; and provided

Further, That said proposed work or improvement must be done under the direction and to the satisfaction of the Board of Public Works, and the materials used therefor must be in accordance with the specifications adopted by the Board of Supervisors for similar work; and be to the satisfaction of the said Board of Public Works.

No street work of any kind shall be done, nor shall any obstruction be placed on any portion of said street to the center line thereof, in front of a lot fronting thereon, until the owner or agent of such lot shall have contracted for the performance of the proposed street work herein described.

Passed by the following vote:

Ayes—Commissioners Laumeister, Fraser and Judell.”

On June 3, 1913, a schedule of grades for Steuben street was submitted by this office to the Honorable Board of Public Works conforming with the tentative plan agreed upon by Mr. Newell and this office in answer to Petition No. 17795 of Mr. W. Hardy.

On June 4, 1913, the Board of Public Works recommended to the Honorable Board of Supervisors the establishment of these grades under Resolution No. 24142, and the Board of Supervisors on June 16, 1913, passed a Bill No. 2583 declaring their intent to establish said grades.

On July 24, 1913, Mr. Hardy filed Petition No. 2082 protesting against the establishment of said grades. This office sent notices to all the property owners affected by said grades to meet at the City Engineer's office July 30, 1913, for the purpose of trying to determine a grade for said Steuben street that would be acceptable to all. It developed at this meeting that Mr. Hardy wanted the grades established in conformity with his ideas and wishes regardless of any consideration of the other property owners who had ideas different from his, and the conference terminated in a fistic encounter between Mr. Hardy and Mr. Ososke.

On August 28, 1913, the Street Committee of the Honorable Board of Supervisors indefinitely postponed all matters pertaining to the grade of Steuben street until the new map was submitted by the Newell people showing the position of the proposed new streets as first mentioned in this communication.

The California Home Building and Loan Company, et al., under Petition No. 21446, renewed the question of establishing official street grades on

Steuben street. Petition was also received from Mr. Hardy. A grade was recommended by this office, which was protested against by Mr. Hardy, and on January 19, 1914, Commissioners Judell and Fraser met on the ground with Mr. Holcomb, Mr. Hardy and others. It was there finally agreed by Mr. Hardy and the Commissioners of the Board of Public Works to raise the grade one foot above that already recommended in front of Mr. Hardy's property.

On February 10, 1914, a new schedule of grades was recommended by this office to the Honorable Board of Public Works in conformity with the agreement of Mr. Hardy and Board of Public Works' Commissioners January 19, 1914, and February 16, 1914, the Board of Public Works approved and recommended to the Honorable Board of Supervisors under Resolution No. 28824 the schedule of grades as above agreed, and Mr. Hardy appeared before the Street Committee of the Honorable Board of Supervisors at their next meeting and protested against this grade. After some deliberation of the Street Committee, they decided to sustain the Engineering Department and recommended the grade as submitted by the City Engineer. Mr. Hardy protested in open meeting of the Board of Supervisors on the following Monday. It was referred then back to the Street Committee. The Street Committee reconsidered it on the following Thursday and after considerable discussion finally decided to stand with the recommendation of the City Engineer. On the following Monday Mr. Hardy protested at the meeting of the Board of Supervisors and the subject matter was postponed for one week. At the next meeting the Board of Supervisors requested that this report and information be submitted to them Monday, March 24.

Most respectfully submitted,

M. M. O'SHAUGHNESSY,  
City Engineer.

Relative to Error in Determining Value of Properties of Presidio and Ferries Railway Company.

The following was presented, read, referred to Finance Committee and ordered spread at length in the Journal:

March 21, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen—In checking the calculations which were made for the purpose of determining the present value of the property of the Presidio & Ferries Railway Company, we find that a number of clerical errors were made. The exact amount by which the value of

the properties of the Presidio & Ferries Railway Company will be reduced or increased cannot be definitely determined without rechecking some 7,000 different computations, but will not in any event exceed \$1,500.

As the checking of all of these items will require several weeks, and under the contract between yourselves and the Presidio & Ferries Railway Company you are required to pay interest on approximately \$260,000 until this sum is finally paid to the Presidio & Ferries Railway Company, it is hereby recommended that the payment of \$262,332.67 recommended on March 6th be made at once, with the understanding that when the final corrections in the estimates of the value of the properties of the Presidio & Ferries Railway Company have been made the Presidio & Ferries Railway Company will refund to the City or the City will pay to the Presidio & Ferries Railway Company, as the case may require, any difference, not exceeding \$1,500, between this \$262,332.67 and the amount properly due the Presidio & Ferries Railway Company.

Inasmuch as the Presidio & Ferries Railway Company are entitled to a further payment of approximately \$3,700 on account of interest on the value of their properties, the interests of the City will be amply protected if this procedure is followed.

Yours truly,

M. M. O'SHAUGHNESSY,  
City Engineer,

GEO. A. NEWHALL,

President Presidio & Ferries Railway Co.

Absence of Supervisor Gallagher.

The following was presented, read and request granted:

March 23, 1914.

To the Honorable the Mayor and the Board of Supervisors, City and County of San Francisco.

Gentlemen—I regret that illness prevents my attendance at the meeting of the Board of Supervisors today and this evening. I therefore respectfully beg to be excused from attendance.

Respectfully,

A. J. GALLAGHER,  
(D)

Amending Building Law Relating to Permits.

Bill No. 2950, Ordinance No. 2678 (New Series), as follows:

Amending Section No. 5 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law" of the City and County of San Francisco.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section No. 5 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law" of the City and County of San Francisco is hereby amended to read as follows:

"Section 5. It shall be unlawful for any person, firm or corporation to commence or proceed with the erection, construction, alteration, repair, moving or demolition (restoration of plastering or painting excepted) of any building or other structure either private, public, municipal, state or federal in the City and County of San Francisco, unless a permit so to do shall have been first obtained from the Board of Public Works. The application for such permit shall in all cases state the estimated cost of the work."

Section 2. The City and County of San Francisco, the State of California and the Federal Government shall be exempted from the payment of the fees charged for such permit under the provisions of the Building Law.

Section 3. This Ordinance shall take effect immediately.

#### Adopted.

Thereupon, the following resolution was adopted:

Declaring Intention Not to Require Re-grading of Townsend Street for Five Years.

On motion of Supervisor Vogelsang: Resolution No. 10,752 (New Series), as follows:

Whereas, Bill No. 2760, Ordinance No. 2683, granting a certain franchise to the Southern Pacific Company, a railroad corporation, has this day been passed by the Board of Supervisors of the City and County of San Francisco, State of California; and,

Whereas, as one of the considerations mentioned in the said franchise are certain requirements for the performance of street work by said Southern Pacific Company set forth in Sub-division "I" of Section 2 of said Bill and Ordinance; and,

Whereas, under said provisions said Southern Pacific Company might be required forthwith to regrade Town-

send street; and,

Whereas, It is desirous to permit said Southern Pacific Company to put down its tracks upon the present grade of said Townsend street at this time if so desired by said company,

Now, therefore, be it resolved, That the Board of Supervisors of the City and County of San Francisco, State of California, hereby declares that it is the intention of said Board, and the authorities of said City and County of San Francisco, not to require the re-grading of said Townsend street under said provisions of said franchise until after five years from the date of said franchise.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Kortick, McCarthy, McLaren, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

On motion of Supervisor Hocks:

Bill No. 2970, Ordinance No. — (New Series):

Requiring persons owning or operating moving vans, furniture cars, transfer wagons, express wagons, delivery wagons, or any other vehicle engaged in moving for hire, to file with the Chief of Police of the City and County of San Francisco weekly statements giving a record of removals made by them in the City and

County of San Francisco; and making a violation of the ordinance a misdemeanor; and prescribing a penalty therefor and prescribing the duties of the Chief of Police in connection therewith.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Every person owning or operating any moving van, furniture car, transfer wagon, express wagon, delivery wagon or any other vehicle engaged in moving or hauling for hire in the City and County of San Francisco shall keep a record of the place from which and the place to which he moves any article of household goods, trunks or personal effects, which record shall show the name and address of the mover, the name of the person for whom the moving was done, the address from which and to which such moving was done, with the date thereof and the character of the articles moved.

Sec. 2. Every person owning or operating any of the vehicles aforesaid shall, on Monday of each week, file in the office of the Chief of Police of the City and County of San Francisco, or send by registered mail to said Chief of Police a full and correct statement of all of such hauling or moving done in the previous week, containing the information as required by Section 1 hereof. Upon receipt of such statements the Chief of Police shall file the same in his office. Such statements shall not be open to the inspection of the public. The Chief of Police shall keep a register of all such transactions in a book or books to be kept for that purpose, with an alphabetical index of the names of the persons for whom such hauling has been done. Said register shall not be open to the inspection of the public, but the said Chief of Police shall furnish to any person inquiring therefor information as to any particular change or removal.

Sec. 3. It shall be unlawful for any person to give a fictitious name, or to deceive the owner or person in charge of any vehicle hauling or moving household goods, trunks, or personal effects, as to the name of the person for whom the hauling was done.

Sec. 4. The Chief of Police shall prepare and deliver blank statements, free of charge, for the use of every person owning or operating any of the vehicles named in Section 1 hereof, who is required by the terms hereof, to file such statements with the Chief of Police.

Sec. 5. The statements provided

for herein shall be substantially in the following form:

*Report on Removals.*

Name and address of owner of vehicle or of person operating same.  
 .....  
 Character of articles moved.....  
 ..... (whether household goods, trunks or personal effects).  
 Name of person for whom the articles were moved.....  
 Place from which moved.....  
 .....  
 Place to which moved.....  
 .....  
 Date of moving .....

(This form to be used in conformity with Ordinance No. —, of the City and County of San Francisco.)

Sec. 6. Any person violating any of the provisions of this ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than five hundred dollars or by imprisonment in the County Jail for a period not exceeding six months, or by both such fine and imprisonment.

Sec. 7. This ordinance shall take effect thirty days after its passage.

**Adopted.**

The following resolutions were adopted:

**Outdoor Carnival Permit.**

On motion of Supervisor Hocks: Resolution No. 10755 (New Series), as follows:

Resolved, That the Golden Gate Valley Carnival Association is hereby granted permission to hold an outdoor park celebration from April 28 to May 3, 1914, on Fillmore street from Chestnut street to Broadway, and on the cross streets for two blocks, on each side of Fillmore street, between Chestnut street and Broadway, without payment of the license fee required for said entertainments or any concessions connected therewith; that said organization be permitted to decorate, with electric lights or otherwise, the said locations for said time, provided that the City and County of San Francisco shall be at no expense for such decorations or for the removal thereof. That Resolution No. 10733 (New Series) is hereby repealed.

**Sells-Floto Shows Permit.**

On motion of Supervisor Hocks: J. R. No. 1189.

Resolved. That Sells-Floto Shows are hereby granted permission to give an exhibition at Twelfth and Market streets, on the 22d, 23d, 24th, 25th and 26th days of April, 1914, upon payment of the license fee required by Ordinance No. 1850 (New Series).

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings,

Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

**Award of Contract, Printing Municipal Reports.**

Supervisor Hayden presented:  
Resolution No. — (New Series),  
as follows:

Resolved, That the contract for printing, binding and furnishing the Municipal Reports for the fiscal year 1912-13, to the City and County of San Francisco, in accordance with specifications and notice inviting proposals therefor, which proposals were received and considered by this Board on the 29th day of December, 1913, be and the same is hereby awarded to the Neal Publishing Company at the prices stated in its bid therefor; provided the sureties on the bond of said Neal Publishing Company, which is hereby fixed at one thousand (\$1,000.00) dollars, are satisfactory to his Honor the Mayor, who is hereby authorized to enter into such contract at such prices.

**Motion.**

Supervisor Hocks moved recommitment to committee and that Clerk be directed to advertise for new bids.

**Privilege of the Floor.**

John O'Connell, Secretary of the San Francisco Labor Council, was granted the privilege of the floor, and addressed the Board, opposing the award of contract to the Neal Publishing Company. He said he had not intended to speak, but that he felt that he would be recreant in his duty if he failed to offer the protest of the Labor Council at this time. He said the pressmen would have no difficulty in settling their differences with their employers if Mr. Roundtree of the Franklin Association had been eliminated from the councils of the employers. He said the employers had refused to arbitrate the differences, and that there are 102 union shops in San Francisco and twenty-seven that cannot furnish the label.

Chas. Radebold, representing the Allied Printing Trades Council, also addressed the Board and opposed the adoption of the resolution.

Mr. Kohlmeyer, representing the Neal Publishing Company, addressed the Board, saying that resolution passed in 1898 requiring union label on city printing had become nugatory by reason of the recent decision of Judge Seawell and that it had no force and effect in this instance.

**Recommitted.**

Whereupon, the question being taken the above resolution was, by the following vote, ordered recommitment to the Publicity Committee

with instructions to reject all bids and re-advertise:

Ayes—Supervisors Deasy, Hocks, Kortick, McLeran, Nelson, Nolan, Power, Suhr, Walsh—9.

#### Creating City Planning Commission.

On motion of Supervisor Payot:  
Bill No. 2964, Ordinance No. — (New Series), as follows:

An Ordinance creating a City Planning Commission, prescribing the number and qualifications of its members and the duties to be performed.

#### ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.

#### Adopted.

The following resolution was introduced under suspension of the rules and *adopted*:

Mayor to Lease School Lot at Sansome and Vallejo Streets for School Purposes.

On motion of Supervisor Bancroft:

J. R. No. 1194.

Whereas, A communication has been filed by the Board of Education, requesting that the certain lot of land situate at the southwest corner of Sansome and Vallejo streets, being of dimensions 137 feet 6 inches by 137 feet 6 inches, be leased by the city from the owners thereof for a period of one year, with an option of extension thereon, to be used for the temporary occupation of the Washington Irving School shacks during the construction of the new school building, at a monthly rental of fifty (\$50.00) dollars; therefore, be it

Resolved, That his Honor the Mayor be and he is hereby authorized and requested to enter into a lease with the owners of the hereinabove described lot of land for a period of one year at a monthly rental of fifty (\$50.00) dollars. The said lease shall contain a condition whereby the city may enjoy an option of extending the same for any portion of the succeeding year at the same monthly rental.

Relative to Raising of Popular Subscription to Advertise San Francisco in the East.

Supervisor McLaren presented:

J. R. No. —.

Whereas, Necessity continually arises for funds with which properly to advertise and make known the commercial, artistic and healthful advantages of the City and County of San Francisco, and

Whereas, The City Charter does not now provide for such a fund in the City Treasury, and

Whereas, Five hundred men and women from the best citizenship of the State of California will tour the United States in May in an effort to call to the attention of millions of people in the East the advantages and opportunities that await them in this City and County and state, and

Whereas, These loyal Californians are asking the counties of California to provide the literature for their laudable purpose, now be it

Resolved, That we, the Board of Supervisors of the City and County of San Francisco, do hereby request the people of the City and County to make up by popular subscription the sum of \$2500 for the purpose, the surplus of such subscription, if any, to form the nucleus of a fund that will be in the hands of the Clerk of the Board of Supervisors of this City and County, as custodian, from which the Publicity Committee of the Board of Supervisors may direct the expenditure thereof from time to time such sums as may be expedient to use for the purpose of advertising the City and County of San Francisco in such a manner as may be determined by the said Publicity Committee or by the Board of Supervisors.

*Referred to Publicity Committee.*

#### Adopted.

The following resolution was introduced under suspension of the rules and *adopted by rising vote*:

In Memory of Mother of Congressman Kent.

On motion of Supervisor Murdock:

J. R. No. 1195.

Resolved, That the Board of Supervisors of the City and County of San Francisco would express their sincere sympathy with their proven friend, William Kent, in the death of his de-

voted mother. She was a woman of high character and personal charm, sharing in the broad human sentiments that actuated her husband and that so endeared to all loyal Californians her public-spirited son. Her sympathy for those less fortunate in worldly possessions was manifested in many helpful ways, and her life was made happy in the happiness of others, her years deeply blessed and filled with blessings for others, mercifully ended with no painful siege of suffering; relief came suddenly on the way to visit her well-beloved son.

Her death was as natural as the falling of the leaf in the autumn, as peaceful as the beautiful sunset in her California home.

Across the continent, we could clasp the hand of one we hold in deep respect and affection, in token of our feeling for him in the loss of one so near and dear.

Relative to Changing of Location of Sausalito Ferry from Foot of Market Street to the Foot of Powell or Mason Street.

Supervisor Hayden presented:

J. R. No. —.

Whereas, By Resolution of the Board of Supervisors, requesting of the Board of Public Works an estimate of the costs of extension of the Stockton street branch of the Municipal Railway to the foot of Powell or Stockton streets, an impression has gone forth that this Board desires to force a change of Northwestern Pacific Railway ferry slips from the Union Ferry Depot to certain proposed ferry slips at the foot of Powell or Stockton streets; therefore be it

Resolved, That this Board declares that it is concerned only in making such extension of the Municipal Railway as will give the best possible transportation service to the citizens of San Francisco, and that the allotment of ferry slips on the water front is beyond its power and is solely under the jurisdiction of

The following resolutions were introduced under suspension of the rules and adopted:

Clerk to Prepare Bond Statement.

On motion of Supervisor Power:

J. R. No. 1196.

Resolved, That the Clerk of this Board have prepared and furnish to each member of the Board a statement showing the balance of funds available or bonds unsold in the various bond issues, the contracts entered into and still unpaid, and the estimated cost of any contracts still to be entered into.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Citizens to be Given Preference in Construction of Extensions to Municipal Railway.

On motion of Supervisor Walsh:

J. R. No. 1197.

Whereas, The City and County has contracted for the construction of a large amount of municipal street railway, which will afford employment for a large number of men; and

Whereas, It is desirable that the number of unemployed within the city be reduced as much as possible; therefore,

Resolved, That the contractors who are engaged in such construction be requested to give preference to residents of the City and County of San Francisco, to the end that as much of the cost of the road as possible may be returned to the citizens who will be burdened by its payment.

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

## BOARD OF SUPERVISORS

MONDAY, MARCH 23, 1914, 8 P. M.

In Board of Supervisors, San Francisco, Monday, March 23, 1914, 8 p. m.

The Board of Supervisors met in special session.

### CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogelsang, Walsh—15.

Quorum present.

His Honor Mayor Rolph presiding.

### READING AND APPROVAL OF MINUTES.

The Journal of the meeting of March 23 was laid over until next meeting.

### Call for Special Session.

The following matter was presented and read by the Clerk:

March 20, 1914.

Honorable Board of Supervisors, City and County of San Francisco, City Hall, San Francisco.

Gentlemen—With the opening of the Exposition only a little over ten months hence, there are several important public questions which, in my judgment, require prompt attention on your part for settlement.

Among these are:

Definite action leading to the relief of the congested traffic conditions at the foot of Market street.

Southern Pacific terminal and depot. Transportation to the Exposition grounds.

Extensions to the Municipal Railway System, particularly to the foot of Stockton street and to South San Francisco.

General street conditions, preparatory to the opening of the Exposition, and for the growth of the city.

Progress of the Civic Center and the City and County Hospital.

Pending litigation regarding the acquisition of the Spring Valley properties.

Provisions for new school buildings.

These questions are, in my judgment, of sufficient importance to call

you together in special session, and, under Section 5, Chapter 1, Article 4 of the Charter of the City and County of San Francisco, I do hereby call a special and extra session of the Board for Monday night, March 23, 1914, in the chambers of the Board of Supervisors, City Hall, for the consideration of the objects referred to herein.

This meeting will be the beginning of a number of special sessions which I feel will be necessary for the Board to hold in order that these and other public questions may be solved, and the city made ready for the opening of the Exposition in February, 1915.

Very respectfully,

(Signed) JAMES ROLPH, JR.,  
Mayor.

### Congestion at Foot of Market Street.

His Honor Mayor Rolph thereupon called to the attention of those assembled the necessity of getting the city ready for the opening of the Panama-Pacific International Exposition one year hence. Immediate measures for the relief of the congestion at the foot of Market street, he said, are imperative. President of the Board of State Harbor Commissioners Dwyer's ideas in this regard, he said, should be given very careful consideration. Mr. Dwyer, he said, has prepared a map of the water front and is here to-night to elucidate his suggestions. Mr. Dwyer has impressed us very forcibly by his solution of the condition at the foot of Market street and we should endeavor to do something to-night to put some of his suggestions in effect. He had been approached in New York, Chicago and other Eastern cities during his recent visit by friends of San Francisco urging upon him the necessity of doing something at once in this regard.

Up to the present time we have not arrived anywhere in our previous deliberations. We must now arrive at a conclusion and solve that question.

Southern Pacific Terminal and Depot.

I included the Southern Pacific terminal and depot in my call, but now it may be eliminated, because that matter has been settled to-day.

Transportation to Exposition Grounds.

The City Engineer is here to make

us feel assured that we will be able to take care of the Exposition crowds.

The Harbor Commissioners will spend over \$1,000,000 for docks at the foot of Stockton street. We want transportation to those docks that are to be built there. We want transportation to the southern end of the city—to Twenty-fifth and Potrero avenue as the terminus of the municipal road. When we get to Army street we will find a way to reach South San Francisco.

#### Progress of Civic Center and City Hall.

Supervisor Bancroft will report on the construction of the City Hall and Civic Center. The people voted ten to 1 in favor of the bond issue for the construction of the City Hall. We want to see that nothing is being done to prevent the completion of the work before the Exposition opens.

#### Condemnation of the Spring Valley Water Company.

The sooner we sit down and take up the water question the better. Our proposed conference in this matter must, unfortunately, be deferred on account of the sickness of Supervisor Andrew J. Gallagher, Chairman of the Water Committee.

#### Provision for New School Buildings

We have to have new school buildings. The Public Buildings Committee and the Board of Education have plans to submit for a bond issue for new school buildings in districts where they are needed. There is nothing more important for us to do than the building of new school buildings where they are absolutely needed.

Supervisor Bancroft explained that the Building Committee at the present time is not planning a bond issue for new schools. We have, however, secured a report for the Board of Education as to the necessity of new schools and new school lands to be acquired. The Building Committee is determined to make further investigations into the necessities of the different localities before going to a bond issue. There is some question as to whether a bond issue will carry at the present time. We should, therefore, devote some other evening to the question as to whether we are going to have a bond issue and when.

In regard to the hospital, it is contemplated to immediately finish the main group, install electric fixtures and complete yard. The Board of Health must equip the building; this Board has nothing to do with that. The Board of Supervisors will not have so much control in this matter as in the buying of the furniture of the City Hall. The contracts will all be let before April 30, three months after the building will be completed

and ready for furniture. It will be occupied by January 1. This does not include the tubercular hospital. He did not think it would be wise to go ahead with plans for that until we have the money. He suggested that he be allowed to make an investigation first. The Coroner's portion in the County Jail building has already been let. Plans for raised building have had to be revised and will be ready inside of two weeks and contracts will be let the first week in May for the completion of the jail. We have no estimate as to when the building will be completed.

In regard to the Civic Center, the architects have been completing plans for parking it before the Exposition. Commissioner Metson, of the Board of Park Commissioners, has assured us that he will supply all the trees and shrubs needed.

The architects have some estimates for doing the parking and completing the Civic Center approaches, etc. To get it in readiness for the Exposition will cost about \$64,000, maybe a little less. This does not mean permanent finish; about two-thirds of the \$64,000 will be for permanent work, one-third for finishing up the interior and making it presentable for the Exposition. We don't want to spend bond money for this purpose. But there are other ways we can raise the money—through rents received from buildings in the Civic Center site.

There are eight buildings in the Civic Center that we have to have torn down, being in the portion to be parked. Two other buildings, the Burlington Hotel and the Department of Electricity, will have to be removed. The Building Committee is negotiating with the lessee of the Burlington Hotel and within ten days will settle with him and the building torn down. The last building in the Civic Center to be torn down will be the Department of Electricity building. The Building Committee and the Finance Committee are working together in this matter and we expect to get all the streets through to Market as speedily as possible. In order to get Grove street through the back of the Marye building will have to be taken down. The Hotel Carlin's lease terminates on June 5th this year, a little over two months from now. We will then tear that building down and get Larkin and Fulton streets into Market street. It is not possible to get these streets through in straight lines.

The Market street opening will be eighty feet wide and will not have a straight vista up Market street at the present time. The Building Committee does not think it advisable at the

present time to try and finance a project to straighten these streets. It was understood that the Civic Center plan was not complete, that it would not probably be completed in our life-time, but when the work laid out has been done the City Hall and Civic Center will be presentable for the Exposition year. By conserving our funds, he said, we have been able to use California granite in the construction of the City Hall and Auditorium.

#### Congestion at Foot of Market Street.

*Jos. Dwyer*, President of the State Board of Harbor Commissioners, was then called upon. He drew attention to the necessity of improving the street plan in the neighborhood of the foot of Market street. The whole of lower Market street, he said, needs relief. The most important thing in the city is its streets. San Francisco in its business section is trying to do business on plans laid out sixty years ago. Almost all cities are the same way, except Washington, D. C., which was made to order, and is the best engineered city in the United States. Paris had to spend enormous sums to improve its street plans. San Francisco has done nothing in the way of improving its street plans in the business district. I have brought here a map showing how defective is the street plan in the neighborhood of the Ferry. The ferries for a long time must center at the foot of Market street, where our great crowds will congregate.

He suggested and urgently recommended the extending of the Stockton street municipal line to the foot of Stockton street; seven wharves will be building in that vicinity by the first of May. He urged the condemnation for street purposes of the land at the corner of The Embarcadero, Sacramento and Market streets. Take all the lot, he said, except a portion in the rear. The business men and the improvement clubs of that section are in favor of such action. He urged, further, the opening of two parallel streets, one to the south of Market street, two blocks to Spear or three blocks to Main street, and one to the north of Market street from The Embarcadero to Drumm street.

*M. M. O'Shaughnessy*, City Engineer, also addressed the Board. He said that he agreed with all that Commissioner Dwyer said. He declared that his office is now engaged in making plans and estimates for the proposed work. He suggested as an additional measure of relief that some of the ferry slips be placed at the foot of Mission street. Plans and estimates of the cost of the Stockton street extension of the municipal railway, he said, are now being prepared. The

Main street change of grade, he said, he recommended over a year ago and the Board of Supervisors approved his recommendation. The reduction of the grade on Beale street, he said, is of the greatest importance to the city and will be of as great a benefit as Main street grade change. Every street south of Market in that district should be treated in similar manner. All these matters, he said, should be given careful consideration by a commission consisting of the Harbor Board, the Board of Supervisors and the transportation companies.

#### Motion.

*Supervisor Vogelsang* moved the reference of this matter to the Streets Committee to report as soon as possible; also as to the purchase of the Cowell land.

*Supervisor McCarthy* stated that the city was in no position to finance propositions offered for relief of congestion at the foot of Market street. The people are in no frame of mind for more assessment districts for street purposes. If streets that now exist are improved great relief will be afforded. Market street, he said, would not be Market street if it were not congested.

*Supervisor McLeran* stated that the congestion was caused by teams at the neck of the loop. If you are going to relieve conditions there, accept the remedy offered by Mr. Dwyer. Buy the property if you can, if you cannot, lease it.

#### Amendment.

*Supervisor Murdock* moved as an amendment that the Board approve the suggestions for the relief of traffic at the Ferry and refer matter to proper committee to report back plans for doing the work.

#### Privilege of the Floor.

*L. Dietjen*, representing the Ferry District Improvement Club, said his organization had passed resolutions favoring the acquisition of the Cowell land. He did not believe in an assessment district, but thought that the purchase of the property was up to the Board of Supervisors. He recommended the re-routing of the Sacramento and Clay street cars as a relief measure. He said that 25 per cent of the congestion could be avoided by the Police Department diverting teams at Main street, Spear street and across Drumm street.

*Lieut. Mathewson* of the Traffic Squad also addressed the Board. He said that the police now had orders to turn traffic off at Jackson and Washington streets into Drumm, but that condition of Drumm street is against this plan. It needs repairing. The suggestion made tonight, he said, was

good, but the remedy for the condition is to put in more loops at the terminal. The rule of traffic in European cities, he said, is to keep your traffic moving. That's what we want to do.

**Amendment.**

*Supervisor Nelson* moved as an amendment to the amendment that a bond election be called after proper estimates and recommendations had been made by the City Engineer for the opening of streets north and south of Market street.

**Substitute for the Whole.**

Whereupon, *Supervisor Murdock* offered the following resolution as a substitute for the whole:

J. R. No. 1198.

Resolved, That the Board of Supervisors expresses its appreciation and approval of the suggestions of Harbor Commissioner *Dwyer* for the relief of

the congested condition at the foot of Market street.

Resolved, That the City Engineer be requested to report at his earliest convenience his recommendation as to what the city should do at the present time in regard to changes in the present streets or the acquisition of new streets, with the approximate cost of each item of expense involved.

*Adopted* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Vogel-sang, Walsh—16.

Absent—Supervisors Gallagher, Suhr—2.

**ADJOURNMENT.**

Whereupon, the Board at the hour of 11:45 p. m. adjourned.

### SPECIAL ORDER—3 P. M.

The following bill, laid over from last meeting and made a special order for 3 p. m. this day, was taken up:

Creating City Planning Commission.

Bill No. 2964, Ordinance No. — (New Series), entitled, An Ordinance creating a City Planning Commission, prescribing the number and qualifications of its members and the duties to be performed.

### Privilege of the Floor.

John E. Lathrop was granted the privilege of the floor and addressed the Board. He said we are formulating a new science of city planning, and it means large savings in the administration of municipal government to all cities who have the foresight to organize planning commissions. Ordinances covering the entire scope of city planning were discussed at City Planning Conference at Chicago recently and are well worthy of the consideration of city officials. He suggested the cabinet idea of a city planning commission.

### Amendment.

Supervisor Power moved to amend by providing that the members of the commission be required to reside in San Francisco.

Motion lost by the following vote:

Ayes—Supervisors Deasy, Nelson, Power, Walsh—4.

Noes—Supervisors Bancroft, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McLeran, Murdock, Nolan, Payot, Suhr, Vogelsang—13.

Absent—Supervisor McCarthy—1.

### Passed for Printing.

Whereupon, the above entitled bill was passed for printing by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Kortick, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—15.

Noes—Supervisors Jennings, McLeran—2.

Absent—Supervisor McCarthy.

### UNFINISHED BUSINESS.

#### Final Passage.

The following matters heretofore passed for printing, were taken up, finally passed by the following vote, and numbered as follows, to-wit:

Accepting Offer of Spring Valley Water Company, Marie Bauchou and V. Gamboni Mazzitelli to Sell for \$4,500 Certain Land Required for the Extension of Park-Presidio Boulevard.

Resolution No. 10774 (New Series), as follows:

Whereas, the City Attorney has received an offer from Spring Valley Water Company, Marie Bauchou and V. Gamboni Mazzitelli to sell to the City and County of San Francisco all their right, title and interest in and to the hereinafter described parcel of real property located in this City and County for the sum of forty-five hundred (4500) dollars, thirty-five hundred (3500) dollars of said sum to be paid upon the delivery of a good and sufficient deed to said premises and a report from the Title Insurance and Guaranty Company of this City and County that such a conveyance will vest in the said City and County the fee simple title in and to the said parcel of land, provided said company will insure the title of the said City and County upon the delivery of said deed; the further sum of one thousand (1000) dollars to be paid upon the removal from said premises of any and all buildings, fences or structures of any character whatsoever; and

Whereas, the said offer appears to be reasonable, just and equitable and is recommended by the City Attorney,

Now, therefore, be it Resolved, That the aforesaid offer of said parties be and the same is hereby accepted and the City Attorney be and he hereby is directed and authorized to close the aforesaid sale in accordance with the terms of said offer and with this resolution.

The said property is that property located in the City and County of San Francisco and more particularly described as follows, to-wit:

Beginning at a point on the western line of Fourteenth avenue, distant thereon two hundred and twenty-

seven and six-tenths (227.6) feet northerly from the northerly line of Lake street; thence north  $75^{\circ} 58'$  east one hundred and fifteen and forty-nine hundredths (115.49) feet to the westerly line of Mountain Lake Park; thence north  $3^{\circ} 15'$  west eighty-seven and seventy-two hundredths (87.72) feet, more or less, to the southerly boundary line of the Presidio Military Reservation; thence westerly along the said southerly boundary line of said Reservation and to its intersection with the westerly line of Fourteenth avenue, if produced northerly; thence southerly and along said westerly boundary line of Fourteenth avenue, if produced northerly, eighty-nine and sixty-eight hundredths (89.68) feet, more or less, to the point of beginning, together with the tenements, hereditaments and appurtenances thereunto belonging, or in anywise appertaining.

Also any and all right, title and interest of the undersigned in and to that certain block of land bounded on the west by the westerly line of Fourteenth avenue, as it is and if extended northerly to the southerly boundary line of the Presidio Military Reservation; bounded on the north by the southerly boundary line of the said Military Reservation, and bounded on the east by the westerly line of Mountain Lake Park and the westerly line of Thirteenth avenue, and bounded on the south by the northerly line of Lake street.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Providing \$4,500 for Purchase of Land of Spring Valley Water Company, Marie Bauchou and V. Gamboni Mazzitelli for the Extension of Park-Presidio Boulevard.

Resolution No. 10775 (New Series), as follows:

Resolved, That the sum of forty-five hundred (4500) dollars be and the same hereby is set aside and appropriated out of the General Fund, 1912-13, for the purchase by the City and County of a certain parcel of land located in said City and County from Spring Valley Water Company, Marie Bauchou and V. Gamboni Mazzitelli under the terms of an offer of said parties dated March 23, 1914, addressed to Percy V. Long, City Attorney, said parcel being definitely described in said communication and being all of the right, title and interest of said parties in and to that certain block of land bounded on the west by the westerly line of Fourteenth avenue as it is and if extended northerly to the southerly line

of the Presidio Military Reservation, bounded on the north by the southerly boundary line of the said Presidio Military Reservation, and bounded on the east by the westerly line of Mountain Lake Park and the westerly line of Thirteenth avenue, and bounded on the south by the northerly line of Lake street.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

#### Amending Ordinance Relating to Maintenance of Public Garages.

Bill No. 2969, Ordinance No. — (New Series), Amending Section 1 of Ordinance No. 1864 (New Series), entitled, "Amending Ordinance No. 746 (New Series), entitled, 'Regulating the construction of buildings used as public automobile garages; regulating and providing for the storage and use of gasoline in public and private automobile garages;' repealing Ordinance No. 33 (New Series), approved July 16, 1906, by adding a new section thereto to be numbered 13½," the provisions of which make it unlawful for any person, firm or corporation to hereafter construct and maintain within the City and County of San Francisco, a public garage the maintenance of which is within the boundaries of two hundred feet of the main entrance of any school or church.

#### Final Passage.

The following matters heretofore passed for printing, were taken up, *finally passed* by the following vote and numbered as follows, to-wit:

#### Stable Permit.

Resolution No. 10780 (New Series), as follows:

Resolved, That the following revocable permit is hereby granted:

#### Stable.

John Lauer, for one horse, at 3743 Seventeenth street (renewal; fees previously paid).

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

#### Bread Ordinance.

Bill No. 2939, Ordinance No. 2698 (New Series), as follows:

Regulating the sale of bread, meat,

coal, milk, cream, butter, ice, hay, straw, grain, mill feed and other commodities and merchandise; requiring inspection by the Sealer of Weights and Measures and providing a penalty for the violation thereof.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

#### Moving Van Ordinance.

The following Bill heretofore *passed for printing* was taken up:

Bill No. 2970, Ordinance No. — (New Series):

Requiring persons owning or operating moving vans, furniture cars, transfer wagons, express wagons, delivery wagons, or any other vehicle engaged in moving for hire, to file with the Chief of Police of the City and County of San Francisco weekly statements giving a record of removals made by them in the City and County of San Francisco; and making a violation of the ordinance a misdemeanor; and prescribing a penalty therefor and prescribing the duties of the Chief of Police in connection therewith.

#### Privilege of the Floor.

A. W. Brouillet was granted the privilege of the floor and addressed the Board. He alleged that the ordinance in its effect would be extremely vicious, establishing, he said, a system of espionage more insidious than that in vogue in any country in Europe, except Russia. He said that it meant a great increase in activity of Police Department and a corresponding increase in the cost thereof. The provisions of the ordinance require a report on all details, even to the moving of a single trunk, and if ordinance is put in effect it will make San Francisco ridiculous to all who will come to our Exposition in 1915.

#### Laid Over—Recommitted.

Whereupon the foregoing bill was taken up and on motion *laid over one week and recommitted to Police Committee*.

#### Final Passage.

The following matters heretofore passed for printing, were taken up, *finally passed* by the following vote and numbered as follows, to wit:

**NEW BUSINESS.**

Passed for Printing.

The following bill was passed for printing:

Providing for the Abandonment of Certain Franchises and the Granting of Others for the Purpose of Re-Routing Street Cars in the Civic Center.

On motion of Supervisor Bancroft: Bill No. 2975, Ordinance No. — (New Series), as follows:

Whereas, United Railroads of San Francisco is the owner as successor in interest of the street railroad franchises heretofore granted to A. W. Rose, Jr., and associates, by Order No. 1890; and

Whereas, In the building and establishment by the City and County of San Francisco of what is known as the "Civic Center" public convenience, interest and necessity require that said United Railroads of San Francisco agree and consent to surrender that portion of its franchise and the rights granted under Order No. 1890 of the Board of Supervisors of the City and County of San Francisco, finally passed and approved on December 27, 1886; and

Whereas, Said United Railroads of San Francisco by agreement with the City and County of San Francisco dated March 26, 1914, has agreed, under the terms and conditions contained in said agreement, to cease operating its double track street railroad over and along Polk street, between Hayes and Grove streets, and over and along Grove street, between Polk and Larkin streets, and over and along City Hall avenue (formerly Park avenue), between Larkin street and McAllister street; now, therefore, be it

Ordained by the people of the City and County of San Francisco, as follows:

Section 1. That the abandonment by the United Railroads of San Fran-

cisco of those portions of the route heretofore granted under Order No. 1890 of the Board of Supervisors of the City and County of San Francisco, finally passed and approved December 27, 1886, and of which they are the owners as successors in interest, be and the same is hereby consented to, and said United Railroads of San Francisco is hereby granted the right and permission to cease operating the said double-track street railroad over and along Polk street, between Hayes and Grove streets, and over and along Grove street, between Polk and Larkin streets, and over and along City Hall avenue (formerly Park avenue), between Larkin street and McAllister street.

Section 2. In consideration of the cessation of operation of said street railway by United Railroads of San Francisco over and along and upon the streets referred to in Section 1 of this ordinance, and the surrender of a portion of its said franchise under said Order No. 1890, the City and County of San Francisco does hereby grant to United Railroads of San Francisco, its successors or assigns, the right to connect its tracks now on Hayes street with the tracks now on Larkin street; and to connect its tracks now on McAllister street with the tracks now on Larkin street; and to connect its tracks now on McAllister street with the tracks now on Leavenworth street; and permission is hereby granted to open the said streets at said points for the installation of such crossing and connections as may be necessary to make the connections herein referred to and to keep the same in repair.

Section 3. The cessation of operation of the cars of the United Railroads over the streets and portions of the streets referred to in Section 1 of this ordinance, and the surrender by said United Railroads of San Francisco of a portion of its said franchise under Order No. 1890 and the change in routing of said cars of United Railroads over and along the streets herein referred to, shall in no wise prejudice any of the rights of said United Railroads of San Francisco under said Order No. 1890, but said cessation of operation and change of route of said cars by said United Railroads of San Francisco shall be without prejudice to any of the rights of said company, its successors or assigns, under said Order No. 1890.

Section 4. This ordinance shall take effect immediately.

**Action Deferred.**

The following matter was introduced by Supervisor Bancroft and on motion laid over one week:

**Amending Building Law Relative to Fees.**

Bill No. 2976, Ordinance No. — (New Series), Amending Section 12 of Ordinance No. 1008 (New Series), entitled, "Regulating the construction, erection, enlargement, raising, alteration, repair, removal, maintenance, use and height of buildings; regulating character and use of materials in and for buildings; establishing fire limits, and repealing all ordinances in conflict with this ordinance," approved December 22, 1909.

Be it ordained by the people of the City and County of San Francisco, as follows:

Section 1. Section 12 of Ordinance No. 1008 (New Series), entitled, "Regulating the construction, erection, enlargement, raising, alteration, repair, removal, maintenance, use and height of buildings; regulating character and use of materials in and for buildings; establishing fire limits, and repealing all ordinances in conflict with this ordinance," approved December 22, 1909, known as the "Building Law" of the City and County of San Francisco, is hereby amended to read as follows:

Section 12. The applicant or applicants for such building permit shall pay the Board of Public Works for expenses of inspection and examination of the building and plans and specifications the sum of one dollar (\$1.00) if the estimated cost of said building, structure, alteration or improvement shall be five hundred dollars (\$500.00) or less; the sum of two dollars (\$2.00) if the estimated cost of said building, structure, alteration or improvement shall be more than five hundred dollars (\$500.00) and less than one thousand dollars (\$1,000.00), and if the estimated cost of said building, structure, alteration or improvement shall exceed one thousand dollars (\$1,000.00) then the sum of two dollars (\$2.00) for each one thousand dollars (\$1,000.00) of the estimated cost or fraction thereof up to twenty thousand dollars (\$20,000.00), and forty cents (.40) for each one thousand dollars (\$1,000.00) of the estimated cost above twenty thousand dollars (\$20,000.00).

Section 2. All ordinances and parts of ordinances in conflict with this ordinance are hereby repealed.

Section 3. This ordinance shall be in force and effect immediately.

The following matters were *passed for printing*:

**Amending Building Law Relative to Partition Walls.**

Bill No. 2907, Ordinance No. — (New Series), as follows:

Amending Sections Nos. 32, 95, 106 and 133 of Ordinance No. 1008 (New

Series), approved December 22, 1909, known as "The Building Law" of the City and County of San Francisco.

Be it ordained by the people of the City and County of San Francisco, as follows:

Section 1. Sections Nos. 32, 95, 106 and 133 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law," are hereby amended as follows:

Section 32. Where any building without a cross-wall or buttress exceeds a depth of one hundred and sixty (160) feet, the side or bearing walls thereof shall be increased in thickness four (4) inches more than is prescribed in this ordinance for the thickness of walls for each 100 feet or fraction thereof of such excess depth.

Section 95. Walls of concrete blocks, interlocking tile or brick may be built of a thickness not less than eight (8) inches, provided that vertical steel rods not less than  $\frac{1}{2}$  of an inch diameter and spaced not over 24 inches apart horizontally are used to reinforce the walls. Such rods must be rigidly attached to the steel frame at each floor. No wall of this thickness shall be built of a height exceeding eighteen feet in each story, and the materials shall be built in accordance with previous sections covering their construction. If the area of wall surface included between any two adjacent wall columns and adjacent floor girders exceeds 400 square feet, the thickness of the wall shall not be less than 12 inches.

*Partitions.*

Section 106. Partitions may be made of brick, solid concrete, reinforced concrete, metal lath and plaster on metal studs, terra cotta, plaster blocks or other forms approved by the Board of Public Works.

No partition shall rest upon a wooden floor, but must be carried down to the incombustible materials below.

Brick partitions shall be laid as walls and the thickness shall not be less than 8 inches.

Solid plain concrete partitions shall not be less in thickness than  $\frac{1}{30}$  of the height.

Reinforced concrete partitions shall not be less in thickness than  $\frac{1}{60}$  of the height.

Plastered partitions shall have a base of metal studs and metal lath. Up to a height of twelve feet solid partitions of two inches thick with one layer of lath may be used. For greater heights studs with two layers of lath shall be used. The depth of the studs shall be at least  $\frac{1}{60}$  of the height of partition.

No grounds for fastening wooden parts shall be inserted in the plaster

which must be continuous from floor to ceiling.

Terra cotta partitions shall have the blocks set in cement lime mortar and fastened with iron clips. Thickness of terra cotta shall be at least 1/40 of the height of partitions, provided, however, that where galvanized wire cloth, 2½ meshes to the inch of Number 20 wire or galvanized expanded metal lath of 26 gauge is used on each course of terra cotta, the full length of partitions, the thickness shall be at least 1/60 of the height of partitions.

Plaster block partitions shall be built of solid plaster blocks of a thickness at least 1/40 of the height of partitions and doweled at top and bottom of each block.

Section 133. All exterior walls of Class "C" buildings, including outer shafts and courts, shall be built of brick, stone or concrete except as provided in Section 134. They may be built as continuous walls without openings of the thicknesses given below. If provided with openings the bearing stress shall not exceed the allowed bearing per unit of area as given in Section 58 of this Ordinance.

Walls may be built supporting a portion of the floor in addition to their own weight, or self-supporting curtain walls only, in which latter case columns shall be built in the wall to carry floor loads. Where walls support floor loads, the center of any column or stud partition supporting floor loads shall be at a distance not greater than twenty-four (24) feet from the wall.

The thickness of bearing walls for any building of brick, stone or plain concrete not over fifty-five (55) feet in height nor over eighty-seven and one-half (87½) feet in depth, and when used only as a dwelling, lodging house, hotel or tenement house above the first floor, shall not be less than as given in the following table, except that party walls shall be four inches thicker:

Maximum Elevation.

	Basement.....	First Story (16 feet) ..	Second Story (30 feet) ...	Third Story (43 feet) ..	Fourth Story (55 feet) ..
	In.	In.	In.	In.	In.
1-story bldg. ...	13	9	....	....	....
2-story bldg. ...	13	13	9	....	....
3-story bldg. ...	17	13	13	13	....
4-story bldg. ...	17	17	13	13	13

If any story exceeds in height the number of feet prescribed in the table, the thickness of walls throughout such story shall be increased four (4) inches for every five (5) feet, or fraction thereof, in excess of the tabulated height.

No nine (9) inch wall shall be used as a party wall.

All bearing walls other than those above given shall have thicknesses in accordance with the following table, except that party walls shall be four inches thicker in all cases:

Maximum Elevation.

	Basement.....	1st Story (20 feet)	2d Story (34 feet)	3d Story (47 feet)	4th Story (59 feet)	5th Story (71 feet)	6th Story (84 feet)
	In.	In.	In.	In.	In.	In.	In.
1-sty. bldg.	17	13	....	....	....	....	....
2-sty. bldg.	17	17	13	....	....	....	....
3-sty. bldg.	21	17	17	13	....	....	....
4-sty. bldg.	21	17	17	17	13	....	....
5-sty. bldg.	25	21	17	17	17	13	....
6-sty. bldg.	25	21	21	17	17	17	13

If any story exceeds in maximum elevation the number of feet prescribed in the table, the thickness of each wall throughout such story shall be increased four (4) inches for every five (5) feet or fraction thereof in excess of the tabulated height.

Buildings may be built of more stories than as herein provided, but the thickness for the heights given shall not be decreased and all changes in thickness shall be made at a floor level.

Section 2. This Ordinance shall take effect immediately.

*So ordered.*

*Passed for Printing.*

Whereupon, the above resolution, amended by striking out Home Laundry applications, was *passed for printing*.

*Revoking Garage Permit.*

Supervisor McLeran presented: Resolution No. — (New Series), as follows:

Resolved, That the permit heretofore granted by Resolution No. 10676 (New Series) to Marius Bosc to maintain and operate a public garage on the south side of Clay street, 191 feet east of Van Ness avenue, and to store 300 gallons of gasoline at said location, is hereby revoked for the reason that said site is within 200 feet of an entrance to St. Luke's Church, and in the opinion of the City Attorney

is in violation of Ordinance No. 1864 (New Series).

**Privilege of the Floor.**

A. Wallace was granted the privilege of the floor and declared that no notice had been posted on the premises. He opposed the garage as a nuisance to the neighborhood.

Mrs. Black, representing the California Club, urged the adoption of the resolution. She declared that a garage opposite the California Club was a nuisance by reason of the noise and odors emanating from it.

Rev. Mr. Guthrie, representing St. Luke's Church, also favored the resolution. He declared that the proposed garage was within the prohibited distance laid down in the ordinance, inasmuch as it was but a short ways from the Sabbath school entrance of his church. He said that the City Attorney has so interpreted the ordinance and that applicants for permits should comply as agreed.

J. O'Donnell, representing Marius Bosc, the applicant, requested that the resolution be laid over one week. He said that protestants were mistaken in their understanding that his client had agreed to any interpretation the City Attorney might put on the ordinance. He said that the words "the entrance", in his opinion, meant one definite entrance in the main entrance, notwithstanding the City Attorney's opinion to the contrary. He declared that in pursuance of the permit granted his client had already expended over \$500.

The statement of Mr. A. Wallace that no notice had been posted was not true, and the Fire Marshal and Supervisor Deasy had made a personal inspection and had testified at the meeting of the committee as to the posting of the notice on the premises.

**Action Deferred.**

Whereupon, the above resolution was, on motion, laid over one week.

**Adopted.**

The following resolution was adopted:

Board of Public Works to Accept Payments for Spring Valley Water Company and Pacific Gas and Electric Company to Cover Trench Openings, Under Ordinance No. 2201 (New Series).

On motion of Supervisor Jennings:

J. R. No. 1200.

Resolved, That the Board of Public Works be and is hereby authorized and directed to accept payments from the Pacific Gas and Electric Company in sum of \$2,723.50, and Spring Valley Water Company in sum of \$1,224.00, to cover trench openings, under provisions of Ordinance

No. 2201 (New Series) during the period of time the ordinance was in litigation, there having been no expense upon the city on account of such trench openings, and the Board of Public Works approving, and also the City Attorney.

**Adopted.**

The following resolution was adopted:

Board of Public Works to Include in Specifications for Masonic Avenue Extension of Municipal Railway Provision for Paving Between Tracks.

On motion of Supervisor Vogel-sang:

J. R. No. 1201.

Whereas, At a meeting of this Board on the 27th day of October, 1913, a resolution, recommended by the Public Utilities Committee, was adopted authorizing the construction of an extension of the Municipal Railway from Geary street along Masonic avenue to Turk street, in order that the grounds of the Recreation Park Association, to be located on said

Masonic avenue, might be served by the Municipal Railway; and

Whereas, It was the understanding of said Public Utilities Committee and of the Board that the then existing policy of paving between the tracks of said railway would be followed in this instance; and

Whereas, On the 26th day of January, 1914, this Board declared its policy that henceforth in the construction of extensions for the Municipal Railway it would do no paving except to set the header blocks along side the rails thereof; and

Whereas, On the faith of said resolution of October 27, 1913, said Recreation Park Association has leased certain property on said Masonic avenue and has expended large sums of money thereon; and

Whereas, The Board of Public Works is now ready to ask for bids and proposals for the construction of said extension; therefore, be it

Resolved, That in the contract for said extension and in asking for bids and proposals thereon, said Board of Public Works is hereby authorized and directed to include therein the paving of said roadway between the rails and the tracks thereof, including the installation of the necessary header blocks; and be it further

Resolved, That said paving shall not be taken as a precedent, and it shall not be deemed to be a deviation from the policy expressed by this Board in J. R. No. 1079, adopted January 26, 1914, but shall be regarded as the fulfillment of an obligation assumed prior to the adoption of Resolution No. 1079, and for the purpose of greatly increasing the revenues of the Municipal Railway.

mittee without recommendation, was taken up and on motion *recommitted to the Publicity Committee*:

**Relative to Raising of Popular Subscription to Advertise San Francisco in the East.**

J. R. No. ———.

Whereas, Necessity continually arises for funds with which properly to advertise and make known the commercial, artistic and healthful advantages of the City and County of San Francisco, and

Whereas, The City Charter does not now provide for such a fund in the City Treasury, and

Whereas, Five hundred men and women from the best citizenship of the State of California will tour the United States in May in an effort to call to the attention of millions of people in the East the advantages and opportunities that await them in this City and County and state, and

Whereas, These loyal Californians are asking the counties of California to provide the literature for their laudable purpose, now be it

Resolved, That we, the Board of Supervisors of the City and County of San Francisco, do hereby request the people of the City and County to make up by popular subscription the sum of \$2500 for the purpose, the surplus of such subscription, if any, to form the nucleus of a fund that will be in the hands of the Clerk of the Board of Supervisors of this City and County, as custodian, from which the Publicity Committee of the Board of Supervisors may direct the expenditure thereof from time to time such sums as may be expedient to use for the purpose of advertising the City and County of San Francisco in such a manner as may be determined by the said Publicity Committee or by the Board of Supervisors.

On motion of Supervisor Power:

J. R. No. 1206.

Whereas, A great number of our citizens make it a practice of enjoying the ocean beach, more especially the sections toward the Cliff House and Ingleside; and

Whereas, These citizens, with their children, enjoy wading in the ocean; and

Whereas, There are no conveniences for dressing or undressing at any place on the ocean beach; therefore, be it

Resolved, That the Board of Park Commissioners be and are hereby requested to construct some small houses or dressing rooms at convenient places along the ocean beach; and be it further

Resolved, That the attention of the Park Commission be directed to Journal Resolution No. 47, and asked to advise this Board if the material designated therein can be used for the purpose designated herein.

Necessity for Additional Beds at Tuberculosis Hospital.

On motion of Supervisor Walsh:

J. R. No. 1207.

Whereas, There is urgent need for additional beds to accommodate the sick at the Tubercular Hospital; and

Whereas, This unfortunate and deplorable condition should be remedied at the earliest possible date; therefore, be it

Resolved, That the Public Health and Public Buildings Committees of the Board of Supervisors be requested to investigate this matter and recommend to the Board such action as in their judgment may be necessary to remedy the conditions complained of.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Relative to Additional Allowance to Proprietors of Hotel Carlin in Civic Center Site.

Col. Kowalsky was granted the privilege of the floor and requested that his clients, Mr. and Mrs. Bernard, lessees of the Hotel Carlin in the Civic Center site, be allowed \$8,000 in addition to reduction in rent from \$350 to \$75. He declared that his clients understood that they would be permitted to remain on their property during the year 1915, during which year they expected to recoup their losses. Now Mr. and Mrs. Bernard have been notified to vacate the premises, and if city carries out its intention they will leave the place bankrupt, having lost their life savings through no fault of their own, but on account of the progress and beautification of the city and under a misapprehension, as the necessity of their vacating the premises before the end of the exposition year.

Motion.

Supervisor Bancroft moved that the Building Committee be directed to make a settlement out of the City Hall-Civic Center Funds of \$1,000 in addition to the reduction in rent heretofore granted. Seconded by Supervisor McLeran.

Motion carried by the following vote:

Ayes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Hocks, Kortick, Murdock, Nelson, Vogelsang—9.

Noes—Supervisors Jennings, Nolan, Power, Suhr, Walsh—5.

Excused from voting—Supervisors Bancroft, McLeran, Payot—3.

Reinstatement of Municipal Railway Employees.

The following Resolution was presented by Supervisor Vogelsang and referred to the Public Utilities Committee:

Resolution No. — (New Series), as follows:

Whereas, the charter of this city and county, Article XIII thereof, dealing with civil service, was amended by final approval of the legislature on March 28, 1913, so as to include, in Section 11, Subdivision B, Paragraph 2 thereof, the following: "The following persons securing standing on the eligible lists in examinations shall be preferred for appointment. \* \* \* Persons employed in the operating service of any public utility acquired by the city, who have been so employed for not less than one year; and such persons so employed at the time a public utility is acquired by the city shall continue in their positions."

And Whereas, There was, on the

3rd day of December, 1913, adopted by this Board and approved, a resolution numbered 10570, N. S., authorizing the Mayor in the name of the city and county to make an agreement with the Presidio and Ferries Railroad Company for the purchase by the city and county of properties of said Company, which agreement was set out in full in said resolution;

And Whereas, It was provided therein that the properties of the said company were to be purchased by the said city at a price not less than \$300,000 nor more than \$360,000, \$50,000 to be paid on account of said price and the final balance to be fixed and determined by two arbitrators, to-wit, the City Engineer of the city and county, acting for the city and county, and Thomas H. Mullins, acting for the said company;

And Whereas, the said balance was so finally determined by said means of arbitration and the payments of said amount was not finally authorized by this Board until the 23rd day of March, 1914, and was not finally paid until after said date;

And Whereas, Four certain employees of the said Presidio and Ferries Railroad Company, to-wit, D. C. Rima, John McAuliffe, I. Ivy and J. J. McCarthy, would, were they still in the employ of said road, have been in such employ for a period of time considerably more than one year prior to the said final payment by the city and county to the said company;

And Whereas, the aforesaid employees were, on the 18th day of January, 1914, dismissed from their positions on said road, the management of which had, prior to the said date, been taken over by the city and county;

And Whereas, the cause of said dismissal was that, in the opinion of the Civil Service Commission of this city and county, the said employees had not been in the employ of the aforesaid railroad company for a period of one year or more prior to the actual taking over of the road by the city as aforesaid;

And Whereas, in the opinion of this Board of Supervisors, the above charter amendment referring to persons being employed for not less than one year prior to the "acquisition" by the city of such public utility, was intended to refer to the final consummation of sale by the final payment of the purchase price by the city for any such property so acquired by the city;

And Whereas, the intention of the

Supervisors is further shown in that portion of aforesaid Resolution No. 10570, N. S., which states that "It is further mutually understood and agreed that all employees of the party of the first part who desire shall be given the preference of employment in the municipal railway system which it is designed to make the street railroad operated by the party of the first part a part of, in so far as is possible under civil service provisions of the charter of the City and County of San Francisco and consistent with the needs of the said municipal railway system."

Therefore, Be It Resolved, That it is the sense of this Board of Supervisors that the aforesaid employees are protected in their positions by the above provisions of the charter of this city and county as so amended and the Civil Service Commission and Superintendent of the municipal railway are respectfully urged to reinstate the said employees to positions in the said railway system now being operated by the city and county.

#### Painting of City Automobiles.

Supervisor McLeran presented the following resolution, which was, on motion, laid on the table:

J. R. No. —.

Whereas, By resolution of this Board, all municipal departments using automobiles were instructed to have the name of their respective departments painted on said automobiles, and

Whereas, Some departments have complied with the request, and others have adopted other means of designating the official automobiles, and

Whereas, It is advisable to have the inscription or designating mark uniform on all city machines, and

Whereas, The use of the seal of the City and County of San Francisco would be fitting and proper, and at the same time properly identify said automobiles; therefore, be it

Resolved, That all machines owned by the city shall have painted thereon the official seal of the City and County of San Francisco.

Lighting Service, Fire Houses Nos. 5 and 12.

Supervisor Walsh moved that the attention of the proper authorities be called to the necessity of better lighting service in Fire Houses Nos. 5 and 12.

#### ADJOURNMENT.

There being no further business, the Board at the hour of 7:15 p. m., adjourned.

J. S. DUNNIGAN, Clerk.

Approved by the Board of Supervisors April 6, 1914.

Pursuant to Resolution No. 3402 (New Series), of the Board of Supervisors of the City and County of San Francisco, I, J. S. Dunnigan, hereby certify that the foregoing is a true and correct copy of the Journal of Proceedings of said Board of the dates thereon stated, and approved as above recited.

## BOARD OF SUPERVISORS

MONDAY, APRIL 6, 1914.

In Board of Supervisors, San Francisco, Monday, March 30, 1914, 2:30 p. m.

The Board of Supervisors met in regular session.

### CALLING THE ROLL.

The Roll was called and the following Supervisors were noted present:

Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogel-sang, Walsh—17.

Quorum present.

His Honor Mayor Rolph presiding.

### READING AND APPROVAL OF MINUTES.

The Journal of the meeting of March 30, 1914, was read and approved.

### ROLL CALL FOR PETITION FROM MEMBERS.

Widening of Thirty-fourth Avenue.

His Honor the Mayor presented petition of Oscar Heyman & Bro., Inc., and other property owners and residents of the West Richmond District, for the widening of Thirty-fourth avenue and connecting thereby Lincoln Park and Golden Gate Park with suitable boulevards.

*Referred to Streets Committee.*

Request for Appropriation of \$8,000.00 for Advertising Purposes.

Supervisor Hayden presented resolution of the Tourists' Association of San Francisco Bay and River Counties, comprising twenty-five commercial organizations of the bay counties, requesting an appropriation of \$8,000.00 to make up balance of assessment against this county for publication purposes.

Privilege of the Floor.

*Frederick Whitton*, secretary of the Tourist Association, was granted the privilege of the floor. He said that most of the Bay counties had contributed and others were awaiting the action of San Francisco County. Alameda County, he declared, had already subscribed \$9,000 and several others had subscribed their allotted share.

*W. B. Pringle* said that tourists to

California were routed through San Francisco, stopping over here only one day and spending four or five in Los Angeles. He requested that San Francisco join with the Bay counties in advertising the paramount advantages of San Francisco County and vicinity. He said that \$17,000 of San Francisco's quota had been raised by private subscription and that all the city was asked to appropriate was \$8,000 to make up the difference.

*Fred E. Magee* also urged the favorable action of the Board.

Motion.

*Supervisor Gallagher* moved reference to Finance Committee with a favorable recommendation and with the request that the Finance Committee bring in a favorable report thereon.

Amendment.

Supervisor Bancroft moved to amend by striking out recommendation reference and requesting the City Attorney to advise as to the legality of appropriations of this character.

*Amendment carried* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hilmer, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Payot, Suhr, Vogel-sang—12.

Noes—Supervisors Gallagher, Hayden, Hocks, Nolan, Power, Walsh—6.

Public Utilities Committee, by Supervisor Vogelsang, Chairman.

Report of the Efficiency and Civil Service Committee on Request for an Additional Appropriation for Clerical Help in Tax Collector's Office.

The following report was presented by Supervisor Murdock, read and made a *Special Order of Business* for 2:30 P. M. Monday, April 13, 1914.

San Francisco, April 6, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen:

Your Committee on Efficiency and Civil Service to whom was referred the application of the Tax Collector for an additional allowance of \$2,000, for the conduct of his office to the end of the fiscal year, respectfully reports as follows:

*As to Facts—*

The Budget provision for the Tax Collector's office for the present fiscal year is \$70,000—\$34,000 for general salaries, printing and incidentals and \$36,000 for special deputies and clerks and all other expenses.

In the subdivision of this allowance, budget item No. 144 allows \$6,220 for extra clerks. Of this item about \$6,000 was spent in the first half of the year when all the tax bills were made out; but the Tax Collector is not restricted to this small balance for the hiring of extra clerks for the collection of the second installment of taxes. It is customary to treat the \$36,000 as a whole and all unused balances are available.

Last year there was expended	
in the first half.....	\$17,422.50
and in the second half....	16,572.95
	<hr/>
	\$33,995.45

Leaving to be returned to the Treasury .....	2,004.55
	<hr/>
	\$36,000.00

This year the expenditures for the first half year were \$20,742.46, being \$3,319.96 in excess of last year and \$2,742.46 in excess of the half of the full appropriation. The new Tax Collector is left \$15,257.54 with which to complete the year. This is \$1,315.14 less than was required last year, and represents the deficit on January 1st.

The present Tax Collector has been in office three months and each month has spent less than was expended in the corresponding months last year, the aggregate savings being \$365.85. The probable deficit, if the expenses for the next three months be the same as last year, will therefore be \$949.56.

*Conclusions.*

The presumption is strong that the excess of expenditure during the first half of the year was necessitated by extra work, since the office has always been economically conducted, unused balances being frequently returned.

Whatever the cause the present official is not responsible for the inadequacy of funds. He is expected to conduct his office efficiently and during the payment of the second installment of taxes many extra clerks are required. It is poor economy to call in license collectors from any of the districts where they are doing good work. At the present time the pressure in providing for the collection of the second installment of taxes has compelled the withdrawal of all the fourteen district license collectors, which is distinctly a loss as the collections suffer when not followed up.

*Recommendations.*

It should be distinctly understood that no precedent for increasing an appropriation after budget making is being established. The existing condition is clearly an emergency that in some manner the Board is called upon to meet. The help actually required by the Tax Collector should be given him. Obviously it should be reduced to the minimum and it would seem that an additional allowance of \$1,000 will suffice, and we respectfully recommend that the Finance Committee be asked to set aside the additional sum of \$1,000 payable out of the Urgent Necessity Fund.

Respectfully submitted,

CHAS. A. MURDOCK,  
J. O. WALSH,  
FRED SUHR, JR.

*Committee on Efficiency and Civil Service.*

*Special Order—3 P. M.*

The following bill laid over from last meeting and made a *Special Order of Business* for 3 P. M. this day was taken up:

Establishing Grades, Steuben Street.

Bill No. 2982a, Ordinance No. — (New Series), entitled, "Establishing grades on Steuben street, between Augusta and Helena streets."

*Privilege of the Floor.*

Mr. Hutchinson was granted the privilege of the floor and addressed the Board. He said there was a misunderstanding between Mr. Hardy and the Board of Public Works and that the grade be established at thirty-nine feet as recommended by the latter it would be satisfactory.

Assistant City Engineer Holcomb also addressed the Board. He said the proposed grade was that petitioned for by Mr. Hardy and other property owners in the vicinity.

Mr. Hardy said that if the grade was made as proposed his property will be nine feet in the air and you could not get up to his place on a hod carrier's ladder.

#### Passed for Printing.

Whereupon, the question being taken, the foregoing bill was passed for printing by the following vote:

Ayes—Supervisors Bancroft, Hayden, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nolan, Payot, Suhr, Vogelsang—12.

Noes—Supervisors Deasy, Gallagher, Hilmer, Nelson, Power, Walsh—6.

#### UNFINISHED BUSINESS.

##### Final Passage.

The following matters heretofore passed for printing, were taken up, finally passed by the following vote and numbered as follows, to wit:

Providing for the Abandonment of Certain Franchises and the Granting of Others for the Purpose of Re-Routing Street Cars in the Civic Center.

Bill No. 2975, Ordinance No. 2703 (New Series), as follows:

Whereas, United Railroads of San Francisco is the owner as successor in interest of the street railroad franchises heretofore granted to A. W. Rose, Jr., and associates, by Order No. 1890; and

Whereas, In the building and establishment by the City and County of San Francisco of what is known as the "Civic Center" public convenience, interest and necessity require that said United Railroads of San Francisco agree and consent to surrender that portion of its franchise and the rights granted under Order No. 1890 of the Board of Supervisors of the City and County of San Francisco, finally pass-

ed and approved on December 27, 1886; and

Whereas, Said United Railroads of San Francisco by agreement with the City and County of San Francisco dated March 26, 1914, has agreed, under the terms and conditions contained in said agreement, to cease operating its double track street railroad over and along Polk street, between Hayes and Grove streets, and over and along Grove street, between Polk and Larkin streets, and over and along City Hall avenue (formerly Park avenue), between Larkin street and McAllister street; now, therefore, be it

Ornained by the people of the City and County of San Francisco, as follows:

Section 1. That the abandonment by the United Railroads of San Francisco of those portions of the route heretofore granted under Order No. 1890 of the Board of Supervisors of the City and County of San Francisco, finally passed and approved December 27, 1886, and of which they are the owners as successors in interest, be and the same is hereby consented to, and said United Railroads of San Francisco is hereby granted the right and permission to cease operating the said double-track street railroad over and along Polk street, between Hayes and Grove streets, and over and along Grove street, between Polk and Larkin streets, and over and along City Hall avenue (formerly Park avenue), between Larkin street and McAllister street.

Section 2. In consideration of the cessation of operation of said street railway by United Railroads of San Francisco over and along and upon the streets referred to in Section 1 of this ordinance, and the surrender of a portion of its said franchise under said Order No. 1890, the City and County of San Francisco does hereby grant to United Railroads of San Francisco, its successors or assigns, the right to connect its tracks now on Hayes street with the tracks now on Larkin street; and to connect its tracks now on McAllister street with the tracks now on Larkin street; and to connect its tracks now on McAllister street with the tracks now on Leavenworth street; and permission is hereby granted to open the said streets at said points for the installation of such crossing and connections as may be necessary to make the connections herein referred to and to keep the same in repair.

Section 3. The cessation of operation of the cars of the United Railroads over the streets and portions of the streets referred to in Section 1 of this ordinance, and the surrender by said United Railroads of San Francis-

co of a portion of its said franchise under Order No. 1890. and the change in routing of said cars of United Railroads over and along the streets herein referred to, shall in no wise prejudice any of the rights of said United Railroads of San Francisco under said Order No. 1890, but said cessation of operation and change of route of said cars by said United Railroads of San Francisco shall be without prejudice to any of the rights of said company, its successors or assigns, under said Order No. 1890.

Section 4. This ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

#### Amending Building Law Relative to Partition Walls.

Bill No. 2907, Ordinance No. 2704 (New Series), as follows:

Amending Sections Nos. 32, 95, 106 and 133 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law" of the City and County of San Francisco.

Be it ordained by the people of the City and County of San Francisco, as follows:

Section 1. Sections Nos. 32, 95, 106 and 133 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law," are hereby amended as follows:

Section 32. Where any building without a cross-wall or buttress exceeds a depth of one hundred and sixty (160) feet, the side or bearing walls thereof shall be increased in thickness four (4) inches more than is prescribed in this ordinance for the thickness of walls for each 100 feet or fraction thereof of such excess depth.

Section 95. Walls of concrete blocks, interlocking tile or brick may be built of a thickness not less than eight (8) inches, provided that vertical steel rods not less than  $\frac{1}{2}$  of an inch diameter and spaced not over 24 inches apart horizontally are used to reinforce the walls. Such rods must be rigidly attached to the steel frame at each floor. No wall of this thickness shall be built of a height exceeding eighteen feet in each story, and the materials shall be built in accordance with previous sections covering their construction. If the area of wall surface included between any two adjacent wall columns and adjacent floor girders exceeds 400 square feet, the thickness of the wall shall not be less than 12 inches.

#### Partitions.

Section 106. Partitions may be made of brick, solid concrete, reinforced

concrete, metal lath and plaster on metal studs, terra cotta, plaster blocks or other forms approved by the Board of Public Works.

No partition shall rest upon a wooden floor, but must be carried down to the incombustible materials below.

Brick partitions shall be laid as walls and the thickness shall not be less than 8 inches.

Solid plain concrete partitions shall not be less in thickness than  $\frac{1}{30}$  of the height.

Reinforced concrete partitions shall not be less in thickness than  $\frac{1}{60}$  of the height.

Plastered partitions shall have a base of metal studs and metal lath. Up to a height of twelve feet solid partitions of two inches thick with one layer of lath may be used. For greater heights studs with two layers of lath shall be used. The depth of the studs shall be at least  $\frac{1}{60}$  of the height of partition.

No grounds for fastening wooden parts shall be inserted in the plaster which must be continuous from floor to ceiling.

Terra cotta partitions shall have the blocks set in cement lime mortar and fastened with iron clips. Thickness of terra cotta shall be at least  $\frac{1}{40}$  of the height of partitions, provided, however, that where galvanized wire cloth,  $2\frac{1}{2}$  meshes to the inch of Number 20 wire or galvanized expanded metal lath of 26 gauge is used on each course of terra cotta, the full length of partitions, the thickness shall be at least  $\frac{1}{60}$  of the height of partitions.

Plaster block partitions shall be built of solid plaster blocks of a thickness at least  $\frac{1}{40}$  of the height of partitions and dowelled at top and bottom of each block.

Section 133. All exterior walls of Class "C" buildings, including outer shafts and courts, shall be built of brick, stone or concrete except as provided in Section 134. They may be built as continuous walls without openings of the thicknesses given below. If provided with openings the bearing stress shall not exceed the allowed bearing per unit of area as given in Section 58 of this Ordinance.

Walls may be built supporting a portion of the floor in addition to their own weight, or self-supporting curtain walls only, in which latter case columns shall be built in the wall to carry floor loads. Where walls support floor loads, the center of any column or stud partition supporting floor loads shall be at a distance not greater than twenty-four (24) feet from the wall.

The thickness of bearing walls for

any building of brick, stone or plain concrete not over fifty-five (55) feet in height nor over eighty-seven and one-half (87½) feet in depth, and when used only as a dwelling, lodging house, hotel or tenement house above the first floor, shall not be less than as given in the following table, except that party walls shall be four inches thicker:

Maximum Elevation.

	Maximum Elevation.				
	Basement.....	First Story (16 feet) ..	Second Story (30 feet) ...	Third Story (43 feet) ..	Fourth Story (55 feet) ..
	In.	In.	In.	In.	In.

3-story bldg. ...	17	13	13	13	....
4-story bldg. ...	17	17	13	13	13

If any story exceeds in height the number of feet prescribed in the table, the thickness of walls throughout such story shall be increased four (4) inches for every five (5) feet, or fraction thereof, in excess of the tabulated height.

No nine (9) inch wall shall be used as a party wall.

All bearing walls other than those above given shall have thicknesses in accordance with the following table, except that party walls shall be four inches thicker in all cases:

Maximum Elevation.

	Maximum Elevation.						
	Basement.....	1st Story (20 feet)	2d Story (34 feet)	3d Story (47 feet)	4th Story (59 feet)	5th Story (71 feet)	6th Story (84 feet)

5-sty. bldg.	25	21	17	17	17	13	....
6-sty. bldg.	25	21	21	17	17	17	13

If any story exceeds in maximum elevation the number of feet prescribed in the table, the thickness of each wall throughout such story shall be increased four (4) inches for every five (5) feet or fraction thereof in excess of the tabulated height.

Buildings may be built of more stories than as herein provided, but the thickness for the heights given shall not be decreased and all changes in thickness shall be made at a floor level.

Section 2. This Ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Passed for Printing.

The following Bill was passed for printing:

Ordering Construction of Lead Sink in Battery Room and Automatic Device in the Main Elevators in Receiving Building, San Francisco Hospital.

On motion of Supervisor Jennings: Bill No. 2983, Ordinance No. — (New Series), as follows:

Ordering the construction of lead sink in battery room and automatic device in main elevators of the receiving building, San Francisco Hospital; authorizing and directing the Board of Works to enter into contract for said construction; approving plans therefor. Cost of said construction to be borne out of Hospital and Jail Completion Bonds, issue 1913.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. The Board of Public Works is hereby authorized, instructed and empowered to enter into contract for the construction of lead sink in battery room, and construction of automatic device in main elevators of the receiving building. San Francisco Hospital, in accordance with plans and specifications prepared therefor by the Board of Public Works, and on file in its office, which plans and specifications are hereby approved and adopted. The cost of said work to be borne out of Hospital and Jail Completion Bonds, issue 1913.

Section 2. This Ordinance shall take effect immediately.

Adopted.

The following Resolution was adopted:

**Denying Garage Permit.**

On motion of Supervisor McLeran: J. R. No. 1211.

Resolved, That in the exercise of the sound and reasonable discretion of the Board of Supervisors, permission is hereby denied A. E. Hunter and J. C. Nagel to maintain and operate a public garage on the west side of Valencia street, 200 feet south of Hermann street.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—16.

Absent—Supervisors Hayden, Kortick—2.

**Passed for Printing.**

The following Resolution was passed for printing:

**Oil Permit.**

On motion of Supervisor McLeran: Resolution No. — (New Series), as follows:

Resolved, That the following revocable permit is hereby granted:

**Oil Storage Tank.**

Long Cafeteria Co., at 442 Stevenson street in the rear of 945 Market street, 2000 gallons capacity.

**Revoking Garage Permit.**

The following matter, laid over from last meeting, was taken up:

Resolution No. — (New Series), as follows:

Resolved, That the permit heretofore granted by Resolution No. 10676 (New Series) to Marius Bosc to maintain and operate a public garage on the south side of Clay street, 191 feet east of Van Ness avenue, and to store 300 gallons of gasoline at said location, is hereby revoked for the reason that said site is within 200 feet of an entrance to St. Luke's Church, and in the opinion of the City Attorney is in violation of Ordinance No. 1864 (New Series).

**Privilege of the Floor.**

Mr. Monteagle, representing St. Luke's Church, requested that the City Attorney's opinion on this subject be read to the Board for its information.

J. O'Donnell, representing M. Bosch, was granted the privilege of the floor and addressed the Board. He said that the Supervisors in granting previous permits interpreted the words "the entrance to a church" as meaning the main entrance of such edifice and that the policy should not now be reversed to the detriment of his client. It is not probable that his client could make use of his plans on another lot, as it would be difficult to find another property owner who

would be willing to put up a \$14,000 building for him.

A. P. Black was also granted the privilege of the floor and addressed the Board. He said that it was an offense and a nuisance to place a greasy garage and repair shop in front of the California Club. It will probably necessitate the removal of the headquarters of that organization to more pleasant surroundings. He said that nobody knew about the proposed garage or saw the notice until the permit had been granted. If proper notice had been posted, the California Club would have put in its protest before the permit was granted.

**Refused Passage.**

Whereupon, the question being taken the above resolution was refused passage by the following vote:

Ayes—Supervisors McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Suhr, Walsh—8.

Noes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Power, Vogelsang—9.

Absent—Supervisor Kortick—1.

**Indefinite Postponement.**

Whereupon, the following Bill laid over from last meeting was taken up and indefinitely postponed by the following vote:

Amending Ordinance Relating to Maintenance of Public Garages.

Bill No. 2969, Ordinance No. — (New Series), Amending Section 1 of Ordinance No. 1864 (New Series), entitled, "Amending Ordinance No. 746 (New Series), entitled, 'Regulating the construction of buildings used as public automobile garages; regulating and providing for the storage and use of gasoline in public and private automobile garages;' repealing Ordinance No. 33 (New Series), approved July 16, 1906, by adding a new section thereto to be numbered 13½," the provisions of which make it unlawful for any person, firm or corporation to hereafter construct and maintain within the City and County of San Francisco, a public garage the maintenance of which is within the boundaries of two hundred feet of the main entrance of any school or church.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—17.

Absent—Kortick—1.

*Moving Van Ordinance.*

The following Bill laid over from last meeting was taken up:

Bill No. 2970, Ordinance No. —. (New Series). Requiring persons owning or operating moving vans, furniture cars, transfer wagons, express wagons, delivery wagons, or any other vehicle engaged in moving for hire, to file with the Chief of Police of the City and County of San Francisco weekly statements giving a record of removals made by them in the City and County of San Francisco; and making a violation of the ordinance a misdemeanor; and prescribing a penalty therefor and prescribing the duties of the Chief of Police in connection therewith.

Be it Ordained by the People of the City and County of San Francisco as follows:

Section 1. Every person owning or operating any moving van, furniture car, transfer wagon, express wagon, delivery wagon, or any other vehicle

engaged in moving or hauling for hire in the City and County of San Francisco, shall keep a record of the place from which and the place to which he moves the household goods or personal effects, of any of them, of any person who is, or persons who are, removing or vacating any dwelling, house, flat, apartment, room, rooms, or place of residence or abode, or place of business in the City and County of San Francisco, which record shall show the name and address of the mover, the name of the person for whom the moving was done, the name of the person who was the owner or ostensible owner of the said personal property moved, the address from which in the City and County of San Francisco and to which in the City and County of San Francisco such moving was done, with the date thereof, and the character of the articles moved.

Section 2. Every person owning or operating any of the vehicles aforesaid shall, on Monday of each week, file in the office of the Chief of Police of the City and County of San Francisco, or send by registered mail to said Chief of Police a full and correct statement of all of such hauling or moving done in the previous week, containing the information as required by Section 1 hereof. Upon receipt of such statements the Chief of Police shall file the same in his office. Such statements shall not be open to the inspection of the public. The Chief of Police shall keep a register of all such transactions in a book or books to be kept for that purpose, with an alphabetical index of the names of the persons for whom such hauling has been done. Said register shall not be open to the inspection of the public, but the said Chief of Police shall furnish to any person inquiring therefor information as to any particular change or removal.

Section 3. Upon request of the person owning or in charge of the vehicle in which said household goods, or personal effects, or any of them, are to be so removed, the person for whom said moving is being done shall give to said owner or person so in charge of said vehicle all information necessary to enable him to make and keep such record. It shall be unlawful for any person to give to said owner or person in charge of any vehicle hauling or moving said household goods and personal effects, or any of them, a fictitious name, or to deceive him, or make any knowingly false statement concerning any of said information requested by said owner or person in charge of said vehicle, the obtaining of which is necessary to enable him to make or keep said record.

Section 4. The Chief of Police shall

prepare and deliver blank statements, free of charge, for the use of every person owning or operating any of the vehicles named in Section 1 hereof, who is required by the terms hereof to file such statements with the Chief of Police.

Section 5. The statements provided for herein shall be substantially in the following form:

REPORT ON REMOVALS.

Name and address of owner of vehicle  
or of person operating same \_\_\_\_\_  
Character of articles moved \_\_\_\_\_  
(Whether household goods or personal effects.)  
Name of person for whom the articles were moved \_\_\_\_\_  
Place from which moved \_\_\_\_\_  
Place to which moved \_\_\_\_\_  
Date of moving \_\_\_\_\_

(This form to be used in conformity with Ordinance No. \_\_\_\_\_ of the City and County of San Francisco.)

Section 6. Any person violating any of the provisions of this Ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than five hundred dollars or by imprisonment in the County Jail for a period not exceeding six months, or by both such fine and imprisonment.

Section 7. This Ordinance shall take effect July 1, 1914.

Privilege of the Floor.

A. Brouillet was granted the privilege of the floor and addressed the Board. He urged the same objections to the passage of the ordinance that he had presented at a previous meeting. He said that his estimate of the cost of enforcing the ordinance was justified by the fact that the Police Department in anticipation of the work required had asked in their budget estimate for ten additional clerical assistants.

Col. Pippy also addressed the Board. He said that there were forty-one mercantile associations represented before the Board today who favored the passage of the ordinance. He believed that the merchants of San Francisco were entitled to such protection as the ordinance offered. He said that Dayton, Detroit and Kansas City have similar ordinances and they have worked very well.

Frank B. Connolly, representing the Retail Grocers, was granted the privilege of the floor. He read telegrams from Retail Grocers' Association of Detroit, Michigan, stating that no material increase in clerical labor was occasioned by the enforcement of a similar ordinance in that city.

E. F. Moran disagreed with Mr. Brouillet as to the cost of enforcing the ordinance. He believed that it would be nearer \$1500 or \$2000 as

against \$15,000 estimated by Mr. Brouillet. He declared that by use of a vowel index book one man could easily file four hundred removals a day.

*Theodore Roche*, Police Commissioner, also addressed the Board. He said that the Police Commission was neutral in the matter, but were interested in seeing that no additional work was put on the Police Department for which no provision would be made. He suggested an insertion of the following amendment at the end of Section one:

"Provided, however, that this Ordinance shall not apply to the removal of any such household goods or personal effects from any place in the City and County of San Francisco to any place outside of said City and County of San Francisco or to the removal of such goods or effects from one place to another in said City and County while in transit to some point outside of said City and County."

Motion.

*Supervisor Hocks* moved that the amendment offered by Commissioner Roche be incorporated in the ordinance.

Motion carried.

Passed for Printing.

Whereupon, the foregoing Bill as amended was *passed for printing* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

The following resolutions were *passed for printing*:

Mayor to Enter into Agreement With United Railroads Relative to Removal of Its Tracks on Stockton Street.

On motion of Supervisor Vogelsang: Resolution No. — (New Series), as follows:

Resolved, That the Mayor be authorized on behalf of the City and County of San Francisco to execute a contract with the United Railroads of San Francisco, by the terms of which said United Railroads will agree to abandon its franchises to operate a street railway over and along the following named streets in the City and County of San Francisco, to-wit:

Stockton street, from Broadway to Union street, thence over Union street to Columbus avenue, and thence over Columbus avenue to Powell street; Stockton street, between Sacramento and Clay streets and Stockton street between Clay and Washington streets; and Presidio avenue, between Geary street and a point 40 feet north of the north line of Post street; the City to pay to the United Railroads as the cost

of removal of said tracks the following sums, to-wit: For the removal of the tracks on Stockton street, between Broadway and Union street, thence over Union street to Columbus avenue, and thence over Columbus avenue to Powell street, the sum of \$15,000.00.

For the removal of the tracks on Stockton street, between Sacramento and Clay streets, and on Stockton street, between Clay and Washington streets, the sum of \$9978.00.

The City to take up and remove the tracks belonging to the United Railroads, now laid on Presidio avenue, between Geary street and a point 40 feet north of the north line of Post street, the said tracks to be turned over and delivered to the United Railroads without any cost or expense therefor to the City for said delivery.

Said contract to further provide that the City and County of San Francisco will by ordinance formally consent to the cessation of operation of the cars of the United Railroads over the streets and portions of streets herein referred to, and the surrender of a portion of the franchises of the said United Railroads under Orders Nos. 1532, 2788, 2781, 2835 and 1926.

Board of Public Works to Remove Car Tracks on Presidio Avenue.

Also, Resolution No. — (New Series), as follows:

Whereas, The United Railroads of San Francisco has expressed its willingness to permit the City and County to remove certain railway tracks in Presidio avenue, with the understanding that the City and County will, upon request, consent to the abandonment of its franchise in said street; therefore

Resolved, That the Board of Public Works be authorized to remove the track existing in Presidio avenue between Geary street and a point 40 feet north of Post street, such removal being necessary in the operation of the Geary street railway; also that the Board of Supervisors hereby consents to the abandonment of the franchise in Presidio avenue, between the points herein named.

Adopted.

The following resolution was *adopted*:

Reinstatement of Employes of the Presidio and Ferries Railroad Company.

On motion of Supervisor Vogelsang: Resolution No. 10802 (New Series), as follows:

Whereas, the charter of this city and county, Article XIII thereof, dealing with civil service, was amended by final approval of the Legislature on March 28, 1913, so as to include, in Section 11, Subdivision B, Paragraph 2 thereof, the following: "The following persons securing standing on the

eligible lists in examinations shall be preferred for appointment. . . . Persons employed in the operating service of any public utility acquired by the city, who have been so employed for not less than one year; and such persons so employed at the time a public utility is acquired by the city shall continue in their positions."

And whereas, There was, on the 3rd day of December, 1913, adopted by this Board and approved, a resolution numbered 10570, N. S., authorizing the Mayor, in the name of the city and county to maintain an agreement with the Presidio and Ferries Railroad Company for the purchase by the city and county of properties of said company, which agreement was set out in full in said resolution;

And whereas, It was provided therein that the properties of the said company were to be purchased by the said city at a price not less than \$300,000 nor more than \$360,000, \$50,000 to be paid on account of said price and the final balance to be fixed and determined by two arbitrators, to-wit, the City Engineer of the city and county, acting for the city and county, and Thomas H. Mullins, acting for the said company;

And whereas, The said balance was so finally determined by said means of arbitration and the payment of said amount was not finally authorized by this Board until the 23rd day of March, 1914, and was not finally paid until after said date;

And whereas, Four certain employes of the said Presidio and Ferries Railroad Company, to-wit, D. C. Rima, John McAuliffe, I. Ivy and J. J. McCarthy, would, were they still in the employ of said road, have been in such employ for a period of time considerably more than one year prior to the said final payment by the city and county to the said company;

And whereas, The aforesaid employes were, on the 18th day of January, 1914, dismissed from their positions on said road, the management of which had, prior to the said date, been taken over by the city and county;

And whereas, The cause of said dismissal was that, in the opinion of the Civil Service Commission of this city and county, the said employes had not been in the employ of the aforesaid railroad company for a period of one year or more prior to the actual taking over of the road by the city as aforesaid:

And whereas, In the opinion of this Board of Supervisors, the above charter amendment referring to persons being employed for not less than one year prior to the "acquisition" by the city of such public utility, was intended to refer to the final consumma-

tion of sale by the final payment of the purchase price by the city for any such property so acquired by the city;

And Whereas, The intention of the Supervisors is further shown in that portion of aforesaid Resolution No. 10570, N. S., which states that "It is further mutually understood and agreed that all employes of the party of first part who desire shall be given the preference of employment in the municipal railway system which it is party of the first part a part of, in so far as is possible under civil service provisions of the charter of the City and County of San Francisco and consistent with the needs of the said municipal railway system."

Therefore, Be It Resolved, That it is the sense of this Board of Supervisors that the aforesaid employes are protected in their positions by the above provisions of the charter of this city and county as so amended, and the Civil Service Commission and Superintendent of the municipal railway are respectfully urged to reinstate the said employes to positions in the said railway system now being operated by the city and county.

**ROLL CALL FOR THE INTRODUCTION OF RESOLUTIONS, BILLS AND MOTIONS NOT CONSIDERED OR REPORTED UPON BY A COMMITTEE.**

**Endorsement of Shriners' Publicity Campaign.**

Supervisor Hayden presented the following resolution and moved its adoption:

J. R. No. 1220.

Whereas, It is meet and proper that this city should encourage and endorse every effort of individuals or organizations to undertake to promote abroad the resources and advantages of the City and County of San Francisco and the State of California; and

Whereas, during the month of May, 1914, a delegation of 500 members of the Mystic Shrine will tour the United States for the purpose of advertising the State of California, and also for the purpose of procuring the National Convention of that Order in San Francisco during the year 1915; and

Whereas, other counties and municipalities of California have provided literature and advertising matter at

public expense for distribution by this organization;

Therefore Be It Resolved, That the Board of Supervisors of the City and County of San Francisco does hereby endorse the enterprise and effort of the Mystic Shrine in this behalf, and recommends the same to the generous consideration of the people of the City and County of San Francisco.

**Privilege of the Floor.**

Col. George Filmer was granted the privilege of the floor and addressed the Board. He declared that it was the purpose to print and distribute throughout the East the only authentic account of California's history and advantages embracing the state from Siskiyou to San Diego. He declared that it was not an advertising proposition and that he was not asking for any appropriation—all he wanted was the Board's endorsement.

**Adopted.**

Whereupon, the question being taken the foregoing resolution was adopted by the following vote:

Ayes—Supervisors Bancroft, Deasy, Hayden, Hilmer, Hocks, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Suhr, Vogelsang, Walsh—15.

### REPORT OF CITY ENGINEER ON LOCAL WATER SUPPLY.

City and County of San Francisco. Department of Public Works, Bureau of Engineering, Room 724 City Hall.

April 13, 1914.

To the Public Utilities Committee, Board of Supervisors, San Francisco—Gentlemen:

In compliance with your verbal request that this office submit a method of procedure through which suitable means may be provided at the earliest possible moment for supplying water to present and prospective residents of the outlying districts of this City, the following is submitted for your consideration:

San Francisco is now engaged in the development of a water supply system

which is designed to draw water from the Hetch Hetchy Valley in the watershed of the Tuolumne River, and distribute the same in this City through suitable reservoirs and distribution mains, and proceedings are also being prosecuted for the acquisition by condemnation of the properties of the Spring Valley Water Company, and it is proposed, if the properties are acquired, to use them in conjunction with the Hetch Hetchy Water Supply system for supplying the entire City with water for domestic and fire protection purposes.

Whether the properties of the Spring Valley Water Company are acquired or not, it will be necessary, in order to provide a fully adequate water supply, that additional reservoirs be constructed in this City and distribution mains be laid in the streets of the outlying districts. These reservoirs can be more economically acquired if the properties on which they are to be located are purchased at once while still uninhabited and the distribution mains can be more cheaply constructed if installed before the roadways under which they are to be laid are paved. The construction of those portions of the distribution system which do not depend upon the acquisition of the properties of the Spring Valley Water Company contemporaneously with the development of the primary source of supply will enable the City to complete the entire system and place it in service at an earlier date than if the primary source of supply and the distribution system are constructed separately, and will therefore considerably reduce the loss of interest during construction, especially if means can be found to secure even a small supply of water for temporary purposes from local sources.

It has been definitely determined that it will be necessary to construct one reservoir at an elevation of approximately 750 feet and another at an elevation of between 350 and 400 feet. An excellent site for the higher reservoir is in the Sunset District, between Pacheco and Quintara streets and Eleventh and Fourteenth avenues, and for the lower reservoir on the top of Lone Mountain in the Richmond District.

On page 150 of a "Report on the Underground Water Supply of San Francisco County," prepared under the direction of the City Engineer during the early part of the year 1913, it is stated that possibly three million gallons of water per day in addition to the present supply may be pumped from wells in the Sunset and Richmond districts.

The City owns a number of school

and fire lots in the Richmond and Sunset districts which will not be needed for school or fire house purposes for a number of years to come. By boring wells on some of these lots (preferably those located in uninhabited portions of the districts), installing temporary pumping plants in connection therewith, securing the reservoir sites mentioned above and constructing reservoirs or tanks thereon, constructing pipe lines through which water may be pumped from the wells into the reservoirs and laying distribution mains in the Sunset and Richmond districts as needed, the City will be able to furnish an adequate water supply in these districts, thus making them available for residence purposes, and building up a business which, when the Hetch Hetchy water supply system is completed, will increase the revenue derived from the sale of water.

Obviously it is advisable to definitely determine that a sufficient supply of water can be derived from the sources mentioned before proceeding with the construction of a distribution system in these districts.

The recommendation of this office is therefore that the Board of Public Works be authorized to immediately prepare plans and specifications, advertise for bids for boring and testing wells in locations to be determined by the City Engineer in the Sunset and Richmond districts, that the City Attorney be requested to negotiate with the owners thereof for the purchase by the City of reservoir sites in the Sunset District, between Pacheco and Quintara streets, and Eleventh and Fourteenth avenues, and in the Richmond District on the top of Lone Mountain, that as soon as it has been definitely determined that a sufficient supply of water can be obtained from the above wells the necessary reservoir sites be purchased and the City proceed at once with the construction of pumping plants, reservoirs and distribution mains.

We estimate that the cost of constructing that part of the distribution system outlined above should not exceed \$1,000,000. The cost of boring and testing wells will probably not exceed \$25,000.

Your attention is directed to the fact that there are approximately 57 miles of streets in the Richmond District and approximately 116 miles in the Sunset District. The greater part of these streets is neither paved nor graded. In a report to your Board on August 14, 1912, the City Engineer stated that to lay 71 miles of distribution mains in the outlying districts would cost approximately \$1,250,000. Assuming that 173 miles of mains in

the Sunset and Richmond districts will cost approximately the same per mile as these 71 miles of mains, the laying of mains on all of the streets in these districts would involve the expenditure of approximately \$3,000,000, evidently a greater sum than the City would be justified in expending at the present time. Therefore, before the construction of distribution mains in these districts is undertaken, it is desirable that your Board determine and define in unmistakable terms the policy to be followed in deciding what portions of the district shall be provided with a water supply system.

Very respectfully yours,  
M. M. O'SHAUGHNESSY,  
City Engineer.

Providing \$50,000 for Paving Junipero Serra Boulevard.

Also, Resolution No. 10809 (New Series), as follows:

the Sunset and Richmond districts will cost approximately the same per mile as these 71 miles of mains, the laying of mains on all of the streets in these districts would involve the expenditure of approximately \$3,000,000, evidently a greater sum than the City would be justified in expending at the present time. Therefore, before the construction of distribution mains in these districts is undertaken, it is desirable that your Board determine and define in unmistakable terms the policy to be followed in deciding what portions of the district shall be provided with a water supply system.

Very respectfully yours,

M. M. O'SHAUGHNESSY,  
City Engineer.

#### Moving Van Ordinance.

The following Bill laid over from last meeting was taken up:

Bill No. 2970, Ordinance No. 2715 (New Series), Requiring persons owning or operating moving vans, furniture cars, transfer wagons, express wagons, delivery wagons, or any other vehicle engaged in moving for hire to file with the Chief of Police of the City and County of San Francisco weekly statements giving a record of removals made by them in the City and County of San Francisco; and making a violation of the ordinance a misdemeanor; and prescribing a penalty therefor and prescribing the duties of the Chief of Police in connection therewith.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Every person owning or operating any moving van, furniture car, transfer wagon, express wagon, delivery wagon or any other vehicle engaged in moving or hauling for hire in the City and County of San Francisco, shall keep a record of the place from which and the place to which he moves the household goods or personal effects, or any of them, of any person who is, or persons who are, removing or vacating any dwelling, house, flat, apartment, room, rooms, or place of residence or abode, or place of business, in the City and County of San Francisco, which record shall show the name and address of the mover, the name of the person for whom the moving was done, the name of the person who was the owner or ostensible owner of the said personal property moved, the address from which in the City and County of San Francisco, and to which in the City and County of San Francisco such moving was done, with the date thereof, and the character of the articles moved.

Provided, however, that this Ordinance shall not apply to the removal of any such household goods or personal effects from any place in the City and County of San Francisco to any place outside of said City and County of San Francisco or to the removal of such goods or effects from one place to another in said City and

County while in transit to some point outside of said City and County.

Section 2. Every person owning or operating any of the vehicles aforesaid shall, on Monday of each week, file in the office of the Chief of Police of the City and County of San Francisco, or send by registered mail to said Chief of Police a full and correct statement of all of such hauling or moving done in the previous week, containing the information as required by Section 1 hereof. Upon receipt of such statements the Chief of Police shall file the same in his office. Such statements shall not be open to the inspection of the public. The Chief of Police shall keep a register of all such transactions in a book or books to be kept for that purpose, with an alphabetical index of the names of the persons for whom such hauling has been done. Said register shall not be open to the inspection of the public, but the said Chief of Police shall furnish to any person inquiring therefor information as to any particular change or removal.

Section 3. Upon request of the person owning or in charge of the vehicle in which said household goods, or personal effects, or any of them, are to be so removed, the person for whom said moving is being done shall give to said owner or person so in charge of said vehicle, all information necessary to enable him to make and keep such record. It shall be unlawful for any person to give to said owner or person in charge of any vehicle hauling or moving said household goods and personal effects, or any of them, a fictitious name, or to deceive him, or make any knowingly false statement concerning any of said information requested by said owner or person in charge of said vehicle, the obtaining of which is necessary to enable him to make or keep said record.

Section 4. The Chief of Police shall prepare and deliver blank statements, free of charge, for the use of every person owning or operating any of the vehicles named in Section 1 hereof, who is required by the terms hereof, to file such statements with the Chief of Police.

Section 5. The statements provided for herein shall be substantially in the following form:

#### REPORT ON REMOVALS.

Name and address of owner of vehicle  
or of person operating same \_\_\_\_\_  
Character of articles moved \_\_\_\_\_  
(Whether household goods or personal  
effects.)  
Name of person for whom the articles  
were moved \_\_\_\_\_  
Place from which moved \_\_\_\_\_

Place to which moved \_\_\_\_\_

Date of moving \_\_\_\_\_

(This form to be used in conformity with Ordinance No. \_\_\_\_\_, of the City and County of San Francisco.)

Section 6. Any person violating any of the provisions of this Ordinance shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than five hundred dollars, or by imprisonment in the County Jail for a period not exceeding six months, or by both such fine and imprisonment.

Section 7. This Ordinance shall take effect July 1, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco.

Gentlemen:

Your Committee on Efficiency and Civil Service to whom was referred the application of the Tax Collector for an additional allowance of \$2,000, for the conduct of his office to the end of the fiscal year, respectfully reports as follows:

#### As to Facts—

The Budget provision for the Tax

Collector's office for the present fiscal year is \$70,000—\$24,000 for general salaries, printing and incidentals and \$36,000 for special deputies and clerks and all other expenses.

In the subdivision of this allowance, budget item No. 144 allows \$6,220 for extra clerks. Of this item about \$6,000 was spent in the first half of the year when all the tax bills were made out; but the Tax Collector is not restricted to this small balance for the hiring of extra clerks for the collection of the second installment of taxes. It is customary to treat the \$36,000 as a whole and all unused balances are available.

Last year there was expended

in the first half.....	\$17,422.50
and in the second half....	16,572.95

\$33,995.45

Leaving to be returned to the Treasury .....	2,004.55
---	----------

\$36,000.00

This year the expenditures for the first half year were \$20,742.46, being \$3,319.96 in excess of last year and \$2,742.46 in excess of the half of the full appropriation. The new Tax Collector is left \$15,257.54 with which to complete the year. This is \$1,315.14 less than was required last year, and represents the deficit on January 1st.

The present Tax Collector has been in office three months and each month has spent less than was expended in the corresponding months last year, the aggregate savings being \$365.85. The probable deficit, if the expenses for the next three months be the same as last year, will therefore be \$949.56.

#### Conclusions.

The presumption is strong that the excess of expenditure during the first half of the year was necessitated by extra work, since the office has always been economically conducted, unused balances being frequently returned.

Whatever the cause the present official is not responsible for the inadequacy of funds. He is expected to conduct his office efficiently and during the payment of the second installment of taxes many extra clerks are required. It is poor economy to call in license collectors from any of the districts where they are doing good work. At the present time the pressure in providing for the collection of the second installment of taxes has compelled the withdrawal of all the fourteen district license collectors, which is distinctly a loss as the collections suffer when not followed up.

#### Recommendations.

It should be distinctly understood that no precedent for increasing an appropriation after budget making is be-

ing established. The existing condition is clearly an emergency that in some manner the Board is called upon to meet. The help actually required by the Tax Collector should be given him. Obviously it should be reduced to the minimum and it would seem that an additional allowance of \$1,000 will suffice, and we respectfully recommend that the Finance Committee be asked to set aside the additional sum of \$1,000 payable out of the Urgent Necessity Fund.

Respectfully submitted,

CHAS. A. MURDOCK,  
J. O. WALSH,  
FRED SUHR, JR.

Supervisor Gallagher offered the following resolution:

Resolution No. — (New Series). Resolved, That the sum of Two Thousand Dollars be and the same is hereby set aside, appropriated and authorized to be expended out of "Urgent Necessities," Budget Item No. 46, for the employment of clerks by the Tax Collector of the City and County for the collection of the second installment of taxes for the fiscal year 1913-14.

Supervisor Murdock moved to amend by providing \$1000 instead of \$2000.

Amendment accepted.

Passed for Printing.

Whereupon, the above resolution was passed for printing by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Kortick, McLeran, Murdock, Nelson, Nolan, Power, Suhr, Vogelsang, Walsh—15.

Hearing of Protests.

*Main Street Change of Grade.*

The hearing laid over from April 23 and fixed for the hour of 3 p. m. this day of the objections of J. J. Lermen et al. to the confirmation of the report of the Board of Public Works upon the damages and benefits resulting by reason of the change of grade on Main street, between Folsom and Bryant, and on Harrison street, between Spear and Beale streets, in compliance with Resolution of Intention No. 9896 (New Series), approved December 23, 1912, and Ordinance No. 2235 (New Series), approved March 25, 1913, was on motion of Supervisor McCarthy laid over for four weeks.

Extension of Vulcan Street.

The hearing of appeal in matter of extension of Vulcan street fixed for 3 p. m. this day was proceeded with.

Privilege of the Floor.

T. Dwyer, property owner, was granted the privilege of the floor and

addressed the Board. He favored the assessment for the street work, but opposed the assessment for the purchase of the land required for the extension of Vulcan street. He believed this land should be purchased by the city.

Adopted.

Whereupon, the following resolution was introduced by Supervisor McCarthy and adopted:

Resolution No. 10820 (New Series), as follows:

Whereas, The Board of Public Works did on the 27th day of February, 1914, file a report and plat of assessment district, showing the lots that will be benefited by and assessed for the extension of Vulcan street, from its present easterly termination easterly to the westerly line of Ord street, and

Whereas, The Board of Supervisors fixed the 13th day of April, 1914, at the hour of 3 p. m., as the day on which all persons interested shall be required to show cause, if any they have, why such report should not be confirmed; now, therefore,

Resolved, That the report of the Board of Public Works filed on the 27th day of February, 1914, showing the lots that will be benefited by and assessed for the extension of Vulcan street, from its present easterly termination easterly to the westerly line of Ord street, be and is hereby confirmed.

Further Resolved, That the Clerk be directed to forward to the Board of Public Works a certified copy of the report, assessment and plat as confirmed by the Board of Supervisors.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Improvement of Iowa Street.

The hearing of appeal of Santa Fe Improvement Company and Southern Pacific Company against assessment for improvement of Iowa street, fixed for 3 p. m. this day, was on motion laid over two weeks.

Improvement of Kansas Street.

The hearing of appeal of Knights Tanning Company and Charles S. Harcker against assessment for improvement of Kansas street, fixed for 3:30 p. m. this day was proceeded with.

There being no objection offered, the following Bill was introduced by Supervisor McCarthy and passed for printing:

Bill No. 2998, Ordinance No. — (New Series), Repealing that portion of Ordinance No. 2631 (New Series), approved February 10, 1914, ordering

den, Hilmer, Jennings, Kortick, Murdock, Nolan, Payot, Vogelsang—9.

Noes—Supervisors Gallagher, Nelson, Power, Walsh—4.

Absent—Supervisors Deasy, Hocks, McCarthy, McLeran, Suhr—5.

**Motion.**

*Supervisor Power* moved the suspension of the rules for the consideration of the above resolution.

Motion *lost* by the following vote:

Ayes—Supervisors Deasy, Hocks, McCarthy, McLeran, Nelson, Power, Suhr, Walsh—8.

Noes—Supervisors Bancroft, Hayden, Hilmer, Jennings, Kortick, Murdock, Nolan, Payot—8.

Excused from voting—Supervisors Gallagher, Vogelsang—2.

**Passed for Printing.**

**Intention to Extend Chenery Street.**

On motion of Supervisor McCarthy: Resolution No. 10834 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors of the City and County of San Francisco to order the extension of Chenery street as follows:

That said Chenery street be produced and extended westerly and

opened to a uniform width of 50 feet from the present westerly termination of said street to the easterly line of Diamond street (formerly Croton street); and also, from the westerly line of Diamond street (formerly Croton street) to the westerly boundary line of Block 1 of the Fairmount Extension Homestead; and also, from said westerly boundary line of the said Block 1 of the Fairmount Extension Homestead in a general north-westerly direction to the easterly line of Chilton (formerly Clinton) avenue; produced and being the easterly termination of Glen avenue; all in the City and County of San Francisco, State of California, and as said streets are laid out and delineated upon the map of the Fairmount Extension Homestead, recorded August 2, 1872, in Book C. and D. of Maps at page 93, and map of Glen Park Terrace, recorded July 9, 1900, in Liber 1 of Maps, at page 220, in the Recorder's office of the said City and County of San Francisco, State of California.

The lands and property deemed necessary to be taken for said extension for said street are described as follows:

All those certain lots, pieces or parcels of land situate, lying and being in the City and County of San Francisco, State of California, and particularly described as follows:

1. Commencing at a point on the easterly line of Carrie street, distant thereon 146.87 feet northerly from the northerly line of Wilder street, running thence northerly along the said easterly line of Carrie street 17.41 feet distant; thence along a line deflected to the right  $107^{\circ} 08'$ , 27.78 feet distant to a point on the southerly line of Chenery street; thence running in a southwestwesterly direction along a line deflected  $0^{\circ} 15'$  to the right from the southerly line of Chenery street (if extended and produced in a southwestwesterly direction) 28.10 feet distant to the easterly line of Carrie street and point of commencement; being a portion of Lot 1, Block No. 3, of the Fairmount Extension Homestead.

2. Commencing at a point on the easterly line of Diamond street, distant thereon 40.19 feet northerly from the northerly line of Wilder street and running thence in a northwestwesterly direction 317.54 feet distant to a point on the westerly line of Carrie street, which is distant 138.47 feet measured along the said westerly line of Carrie street, northerly from the northerly line of Wilder street; thence northerly along the said westerly line of Carrie street 34.12 feet distant; thence along a line deflected to the

left  $72^{\circ} 52'$ , 30 feet distant to a point formed by the intersection of the westerly line of Carrie street with the northerly line of Chenery street; thence along a line deflected to the left  $36^{\circ} 18'$ , 287.19 feet distant to a point on the easterly line of Diamond street, which is distant 93.13 feet along the said easterly line of Diamond street, northerly from the northerly line of Wilder street; thence southerly along the said easterly line of Diamond street 52.94 feet distant to the point of commencement; being a portion of Block No. 2 of the Fairmount Extension Homestead.

3. Commencing at a point on the westerly line of Diamond street distant thereon 36 feet northerly from the northerly line of Wilder street and running thence northerly along the westerly line of Diamond street 50 feet; thence deflecting  $104^{\circ} 48' 03''$  to the left and running 80.44 feet; thence deflecting  $75^{\circ} 11' 57''$  to the left and running 50 feet; thence deflecting  $104^{\circ} 48' 03''$  to the left and running 80.44 feet to the point of commencement.

4. Commencing at a point on the southerly line of Glen avenue, distant thereon 116.27 feet easterly from the easterly line of Chilton (formerly Clinton) avenue and running thence northeasterly 62.97 feet along a line deflected  $52^{\circ} 33' 30''$  to the left from the southerly line of Glen avenue if produced easterly; thence deflecting  $60^{\circ} 46'$  to the right and running 470.48 feet; thence deflecting  $90^{\circ} 46' 46''$  to the right and running 50 feet; thence deflecting  $89^{\circ} 13' 14''$  to the right and running 466.17 feet; thence deflecting  $8^{\circ} 12' 30''$  to the left and running 34.72 feet to the point of commencement.

And whereas, the damages, costs and expenses of said extension are nominal and no assessment district is necessary to be formed for the purpose of paying the damages, costs and expenses thereof, the Board of Supervisors hereby declare and determine that the whole damage, cost and expense of such extension shall be paid out of the revenues of the City and County of San Francisco.

Said extension of Chenery street shall be done in pursuance of Chapter III, Article VI of the Charter of the City and County of San Francisco, and shall be done in the manner and in accordance with the provisions of Section 2 and the sections following section 2 of said Chapter III of Article VI of the said Charter of the City and County of San Francisco.

That said land and each and every parcel thereof is suitable and adaptable for public use, to-wit:

For the purpose of opening and ex-

tending Chenery street in said City and County of San Francisco.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Vogelsang, Walsh—15.

**Intention to Extend Diamond Street.**

Also, Resolution No. 10835 (New Series), as follows:

Resolved, That it is the intention of the Board of Supervisors of the City and County of San Francisco to order the extension of Diamond street as follows:

That said Diamond street be produced and extended northerly and opened to a uniform width of 60 feet from a point 125.48 feet, more or less, northerly from the northerly line of Berkshire street to the southerly line of Wilder street, as said streets are laid out and delineated on the map of Fairmount Extension Homestead, recorded August 2, 1872, in Book of Maps C. and D., at page 93, in the Recorder's office of the City and County of San Francisco, State of California.

The lands and property deemed necessary to be taken for said extension of said street are described as follows:

All those certain lots, pieces and parcels of land situate, lying and being in the City and County of San Francisco, State of California, and particularly described as follows:

5. Commencing at a point on the westerly line of Diamond street where the said westerly line of Diamond street intersects the southerly boundary line of the Fairmount Extension Homestead, said point being 126.37 feet distant northerly from the northerly line of Berkshire street; running thence along a line deflected to the left  $2^{\circ} 41' 11''$  from the westerly line of Diamond street (if extended and produced in a northerly direction) 100.19 feet distant to a point in the southerly line of Wilder street, said point being 4.10 feet distant easterly from the easterly line of Lot 3 of Block 4 of the Fairmount Extension Homestead; thence along a line deflected to the right  $93^{\circ} 33' 17''$  along the southerly line of Wilder street 60.12 feet distant to a point on the said southerly line of Wilder street which is 10.78 feet distant westerly from the easterly line of Lot 6, Block No. 4 of the Fairmount Extension Homestead; thence along a line deflected to the right  $86^{\circ} 26' 43''$ , 97.88 feet distant to a point on the easterly line of Diamond street (if the said easterly line of Diamond street were extended and produced northerly); thence southerly along a line deflected to the right  $2^{\circ} 41' 11''$

along the easterly line of Diamond street (if extended and produced northerly) 2.31 feet distant to a point on the easterly line of Diamond street where the said easterly line of Diamond street intersects the southerly boundary line of the Fairmount Extension Homestead, said point being 125.48 feet distant northerly from the northerly line of Berkshire street; thence along a line deflected to the right  $90^{\circ} 52' 06''$  along the southerly boundary line of the Fairmount Extension Homestead 60.007 feet distant to the westerly line of Diamond street and the point of commencement; being a portion of Block No. 4 of the Fairmount Extension Homestead.

And Whereas, the damages, costs and expenses of said extension are nominal and no assessment district is necessary to be formed for the purpose of paying the damages, costs and expenses thereof, the Board of Supervisors hereby declare and determine that the whole damage, cost and expense of such extension shall be paid out of the revenues of the City and County of San Francisco.

Said extension of Diamond street shall be done in pursuance of Chapter III, Article VI of the Charter of the City and County of San Francisco, and shall be done in the manner and in accordance with the provisions of Section 2 and the sections following section 2 of said Chapter III of Article VI of the said Charter of the City and County of San Francisco.

That said land and each and every parcel thereof is suitable and adaptable for public use, to-wit:

For the purpose of opening and extending Diamond street in said City and County of San Francisco.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Vogelsang, Walsh—15.

**Referred.**

The following resolution was introduced by Supervisor Walsh and referred to the Public Utilities Committee:

**Use of Pumping Stations for Electric Generators.**

J. R. No. —.

Whereas, the pumping station at Second and Townsend streets represents a large initial investment and is operated only to a very slight extent, and the building contains ample space for the installing of an additional battery of boilers and electrical generators; therefore,

Resolved, That the Public Utilities Committee be directed to obtain from the City Engineer information as to

the economy of installing machinery at said pumping station for the purpose of generating electricity to be used in the operation of the Municipal Railway System, or for the purpose of lighting the City Hall and Civic Center.

April 22, 1914.

To the Honorable Board of Supervisors, San Francisco:

Gentlemen—Please be advised that at a meeting of the Board of Education, held April 21, 1914, the following resolution was adopted:

“Resolved, That the certain school lot situated on West Mission street and known as the George Peabody School site be and is hereby transferred to the Board of Supervisors which has requested this site for the use and purposes of the Juvenile Detention Home.”

Respectfully yours,

M. R. NORRIS,

Secretary Board of Education.

Appropriation for Tourists' Association Purposes.

The following communication was presented, read and ordered *spread in Journal*:

April 27, 1914.

Dear Sir:

I am in receipt of your communication under date of April 11, 1914, as follows:

There is pending in the Finance Committee a resolution introduced on behalf of the Tourists' Association, requesting an appropriation of \$8,000 for printing pamphlets, booklets, etc., material for such pamphlets to be furnished by said Tourists' Association, and on the condition that the City will not be bound for the \$8,000 appropriation unless \$35,000 additional is procured from other sources, either by tax funds or private subscriptions, or both.

"The resolution further provides that this literature shall be distributed in a manner to be approved by the Publicity Committee of the Board of Supervisors.

"Question 1. The Finance Committee wishes to be advised if an appropriation of this character can be legally made from the tax funds of the City and County of San Francisco.

"Question 2. Has the City and County any legal authority to make appropriations for organizations other than municipal organizations created by law.

"Question 3. The Committee further wishes advice as to whether the inclusion of an appropriation for this or similar purposes in the budget could be designated as an 'Emergency,' and whether if so included it would add to the difficulties of your office in sustaining the emergency tax over and above the dollar limit."

#### OPINION.

Question 1 is answered in the negative.

Question 2 is answered in the negative.

Answering question 3, I have to say that I do not believe an appropriation of this character could be designated as an "Emergency" and if so placed in the budget would very seriously hamper this office in sustaining the emergency tax over and above the dollar limit.

I take it from a reading of the resolution that its purpose is to secure from the Board of Supervisors a declaration of policy by way of encouragement, and financial aid, if this

can possibly be rendered, in the matter of advertising the City and County of San Francisco and other counties contiguous to and near San Francisco Bay.

I cannot see any objection to the Board of Supervisors declaring the policy of the Board to be one of encouragement for the work of the Tourists' Association of San Francisco Bay and river counties, nor can I see any objection to the Board of Supervisors expressing a desire to defray a portion of the cost of printing literature designed to advertise the City and County of San Francisco and the work of the administrative and other departments engaged in conducting the public affairs of the City and County.

The City and County of San Francisco is now engaged in issuing an official publication, known as the "Municipal Record," which is designed to present to the public a review of the proceedings of the various departments of the municipal government, together with such other items of interest concerning public improvements as might be of interest to the average reader. I see no reason why the Board of Supervisors could not authorize editions of this publication, which should be largely devoted to the purposes contemplated in this resolution. If the City can properly defray the cost of this publication as it is now doing, I see no reason why it cannot be used in aid of the purposes expressed in this resolution.

Respectfully,

PERCY V. LONG,  
City Attorney.

#### REPORTS OF COMMITTEES.

Health Committee, by Supervisor Walsh, Chairman.

Fire Committee, by Supervisor McLeran, Chairman.

Lighting and Rates Committee, by Supervisor Nolan, Chairman.

Streets Committee, by Supervisor McCarthy, Chairman.

Supplies Committee, by Supervisor Hilmer, Chairman.

Public Buildings Committee, by Supervisor Bancroft, Chairman.

## REPORT OF FINANCE COMMITTEE ON BUDGET ESTIMATES, 1914-1915

Supervisor Jennings presented:

San Francisco, April 27, 1914.

To the Honorable Board of Supervisors of the City and County of San Francisco.

Gentlemen: The Finance Committee presents the budget estimates for the forthcoming fiscal year earlier than has been the practice heretofore. Presenting the report at this time will give the members of the Board and the public ample time to analyze the amounts recommended and the apportionment of funds before the budget is finally passed.

During the year about to close the Committee has at all times sought to promote efficiency in the several departments, and at the same time conserve the funds of the taxpayers in the hope that the compulsory increase in the rate of taxation might be kept to a minimum. The desire to keep down expenditures is not parsimony, nor an intention to delay necessary civic improvements and the betterment of municipal conditions. The anxiety of the Committee has been based solely upon a foreknowledge that each year will bring an increased tax burden upon the community. It is therefore prudent that the annual increases shall be held at the lowest possible point, and that the city, while progressing in growth and in enlarged social activities, shall at the same time not be overwhelmed with a tax rate which will deter manufacturing and commercial development.

It must be borne in mind that the city is now beginning to feel the heavy burden of the losses of 1906. Large bond issues were authorized soon after the disaster and maturities were postponed as long as possible. These maturities are now multiplying, and beginning with 1915, and then on to 1920, the redemption account alone—not to include interest—will amount to several hundred thousand dollars additional each year, even if no more bonds are authorized and sold.

Increases must necessarily come for the additional expense for maintenance of schools, streets, public lighting, fire department, police department and other municipal functions.

Pensions for different department employes and automatic increases of salaries, both of which were voted by the people, require large additional sums each succeeding year.

### State Laws Increase Taxes.

In recent years the State Legislature has passed laws, notably the Workmen's Compensation Act, the Widows' Pension Act, the Maintenance of Minors, etc., which force the Supervisors to levy taxes which already amount to hundreds of thousands of dollars annually.

These general observations are made, not in criticism of the laws or charter amendments, but only to show that the trend of modern thought as expressed in legislation leads invariably to greater public expenditures.

The financial history of every city shows that with growth of population comes a commensurate cost of government.

Your Committee reiterates its comments of last year and the year before, that the increase in assessment valuations does not and cannot keep pace with the increase in cost of maintaining the city at the standards required by the people.

Governmental policies will undoubtedly change this rule, but until those policies are adopted and in operation, the tax fixing

body must be governed by the laws in force at the time the budget is made and the tax levied.

### **Municipal Railways Successful.**

San Francisco, pioneering the way in municipal ownership and operation of street railways, has achieved results that are intensely satisfying to those who make a study of municipal finances. Our municipal railways already in operation show extraordinary profits under normal conditions. Ultimately, should this success continue, there is no reason why the tax rate should not be automatically reduced by the profits from our railways and other municipal utilities.

### **Budget Appropriations.**

The Finance Committee recommends budget appropriations amounting to .....\$14,917,145.16  
 Estimated assessment roll .....536,000,000  
 Tax rate on each \$100..... 2.27

#### *Increases Over 1913-1914.*

Increase in the budget .....\$642,063.16  
 Increase in the tax rate..... .07

To the city and county tax rate (estimated) of \$2.27 must be added 4 cents State tax for Exposition purposes.

This will make the total tax rate \$2.31 as against \$2.24 in 1913-1914.

The Assessor informs the Committee that it is impossible to give the exact amount of increase in the assessment roll, but he advised that it would probably be about \$10,000,000, making the total \$536,000,000. The Committee has, for the purpose of preparing the rate, taken the Assessor's estimate.

Following the usual custom the Committee compiled all the requests from the various departments and had conferences with the Commissioners, bureau chiefs and experts of the various departments before making final recommendation. These conferences have been held practically daily for six weeks. Some measure of the work involved in preparing a budget for the City of San Francisco may be imagined by the following:

### **Requests of Departments and Improvement Clubs.**

The total requests of the several departments of the city government was \$16,802,722, which on the same assessment valuation here used would have meant a tax rate of \$3.14.

The total requests of the numerous improvement clubs and civic organizations were \$19,652,250 (exclusive of salaries and fixed charges) which would have meant a tax rate of \$3.61, without providing for the payment of salaries, bond interest, park appropriation and other governmental charges.

The principal increases recommended are as follows:

Maintenance of minors and widows' pensions.....	\$ 85,000
Lighting streets and public buildings .....	20,000
Special funds for street improvements, etc.....	33,500
Employees' accident insurance .....	60,000
Health Department .....	54,519
Fire Department .....	56,680
School Department .....	125,860
Bond interest and redemption .....	187,235

The remainder of the increase—\$29,269—is composed of numerous items which provide for normal increases in maintenance of different departments.

### Railway Earnings and Credits from Bond Account.

Reverting to the successful operation of municipal railways, the bond interest and redemption account is credited with \$339,605, representing \$150,000 surplus earnings of the Union street line and \$189,605 of the Geary street line. To these two sums is added a surplus in the bond interest and redemption account of \$165,659, making a total credit to bond interest and redemption of \$505,264. Without these credits the bond interest and redemption account for 1914-1915 would have totaled \$3,425,037—in other words, the credits from the earnings of the railways and the surplus in bond interest represent 9½ cents which would had to have been added in the tax rate.

The Finance Committee feels entirely justified in reporting that constant attention to the financial affairs of the city, and careful manipulation in the sale and delivery of bonds produced the surplus of \$165,659, and places the city's financial affairs in the best possible shape. It will be remembered by the Board that the current year was full of many difficulties when it came to selling bonds. Great patience and careful observation of financial conditions were necessary for a period of eight months, and the Committee feels that its work in this connection has been of large benefit to the city.

Increases in redemption for the forthcoming year are:

Sewer construction, 1908 .....	\$100,000
Geary and Market Street Railways .....	101,000
Exposition bonds .....	200,000
	<hr/>
	\$401,000

### Increase Only 7 Cents.

Considering all the increases required by law, the Committee feels that an addition of only 7 cents to the present tax rate is the best that possibly could be done. When it is remembered that the increase of 1913 over 1912 was 15 cents, this year's proposed rate shows an earnest desire and a persistent effort to prevent the tax rate going beyond reasonable bounds; at the same time your Committee feels that the amounts recommended for the next fiscal year are amply sufficient to meet the requirements of the city. Effort has been made to apportion the funds with due regard to the needs of each district, and it is felt that the various departments will be supplied with sufficient money to properly conduct the affairs of the city, to keep pace with normal growth, if proper efficiency and rigid economy are required of all the departments which have control of disbursements.

### Importance of Street Work.

Probably the most important work to be continued is the repair, reconstruction and construction of streets. In the past year the street repair department has completed a great deal of urgent street work and satisfactory results are reported. Much more still remains to be done. Therefore, the Committee recommends the same appropriation for street work—\$1,150,000—as was fixed by the Board last year. This amount is intended to cover the street repair work, the sewer work, building, repairs and other necessities as they arise. During the current year there has been a uniform appropriation of \$60,000 per month for street repair work; it is earnestly hoped that the same amounts may be appropriated for another year, at the end of which the streets of this city ought to be in good condition.

### Telephone Operators Increase of Salary.

In the interest of efficiency and to promote larger satisfaction, the Committee recommends an increase of \$5 per month in the salaries of all the telephone operators who have been receiving less than \$80 per month. Other increases in salaries have been approved as will be shown in the analysis of the budget, which is a part of this report.

For convenience in comparison, and for the information of the members, an explanation of the changes suggested is made of each subdivision of the budget.

The Committee recommends an increase of \$50 monthly in the salary of the clerk. We believe that the Board should approve this in view of the extraordinary work performed by him during his enforced stay of seven months in Washington. Through his knowledge of parliamentary procedure, his personal acquaintance with members of Congress, and his ability, more than to any single individual, was due our success in the Hetch-Hetchy fight. Our only regret is that we cannot recommend a more substantial reward for the great service he has rendered the City and County of San Francisco.

The Committee respectfully refers back to the Board the Journal Resolution proposing an increase of salary to the chief assistant clerk of the Board, and has recommended the salary of \$2700 per year as fixed at present. In this connection the Committee thinks it proper to suggest to the Board that other clerks of the office have performed their duties satisfactorily and some of them have requested increases. The Committee does not feel that these increases ought to be recommended at this time. In the case of the chief assistant clerk, who very satisfactorily performed the work of the clerk during the latter's absence in Washington, the Committee feels that the present salary is commensurate with the position and with the duties performed. It is true that the chief assistant performed the clerk's duties for a period of seven months, but the added burden, if there were any, was shared by the other employes of the office.

### Clerk's Office Force.

Observing the work of the office of the clerk during the past year, the Finance Committee believes that there are an unnecessary number of employes. The procedure has been simplified, division of duties has been arranged so that the office could be properly and efficiently conducted with three less employes than are at present engaged. It is not desired nor recommended that this excess number of clerks be dismissed from the city's service, and their salaries have been included in the budget recommendation; but the Finance Committee recommends to the Board that the Committee on Efficiency take up this question and arrange for the transfer of three assistant clerks to other departments in the city government, which departments may require clerical assistance. Provision for this procedure was made in a charter amendment which was adopted by the people, and it seems entirely possible that the Efficiency Committee should be able to arrange with the Civil Service Commission for the transfer of three assistant clerks who would, of course, go into another department at the same salary they are now drawing.

It has been thought wise to merge three items, printing public documents, printing law and motion calendar and municipal reports into one budget item. The item, stationery, books and printing is to include purchase and repair of typewriters. These are mere clerical changes.

**\$107,000 for Widows' Pensions.**

The increases under the caption "Board of Supervisors" are as follows:

Clerk .....	\$ 600	
Printing public documents, etc. (merged account)	12,000	
Interment U. S. soldiers .....	1,000	
Stationery .....	1,000	
Stationery for the Assessor (new item).....	8,000	
Grand Jury expenses .....	1,000	
Premium on official bonds .....	500	
Widows' pension, maintenance (new item).....	107,000	
Lighting public streets and buildings .....	20,000	
Telephone operator, Superior Court .....	120	
Purchase of rights of way .....	2,000	\$153,220

Against these increases are the following deductions:

Printing Law and Motion Calendar (merged account) .....	\$ 5,000	
Printing Municipal Reports (merged account)..	5,000	
License tags .....	500	
Purchase of Directories .....	600	
Purchase of book typewriters .....	500	
Investigation of public utilities .....	5,000	
Rents .....	3,500	
Maintenance of minors .....	22,000	
Maintenance of Magdalen Asylum .....	2,500	
Gasoline for city automobiles .....	500	\$ 45,100
Net increase .....		\$108,120

The omission of the \$600 item for purchase of Directories is to get out of the budget an unnecessary item. Departments that require Directories may purchase them through the Supplies Committee and charge to the maintenance account of the department making the requisition.

The reduction of \$22,000 in maintenance of minors is caused by the transfer of children to the Widows' Pension Bureau.

Practically all of the net increase is caused by the \$107,000 for widows' pensions.

There has been a necessary rearrangement of the special funds for the reason that work provided for last year has been completed largely, and where it has not been completed, additional appropriations are recommended. New work is itemized.

**New Detention Home.**

Under the special funds there appears a new item—\$50,000—for plans and specifications and initial construction for a Juvenile Detention Home. This institution is now in rented quarters that are utterly inadequate and unsuitable for the purpose. The city is obligated by humanitarian impulse alone to provide more suitable housing for the inmates of the Detention Home. It is thought better to begin construction under annual appropriations and thus save a possible bond issue, interest on bonds, etc., and at the same time get the building constructed as quickly as possible.

It is not estimated that \$50,000 will complete the building required, but this amount will provide for the plans, foundations and possibly a unit of the structure which can be used while the remainder of the building is being erected.

The Board of Education has transferred to the Board of Supervisors the Peabody School site on Otis street (formerly West Mission street) for the site of the Detention Home.

### Library Sites Mission and Sunset Districts.

The special fund also contains recommendation of \$14,000 for the purchase of a library site in the Mission district, and \$7500 for the purchase of a library site in the Sunset district. The library trustees recommend the location of branch libraries in these districts. The duty of selecting locations rests upon the library trustees, and the Committee has followed their judgment.

Other special appropriations are \$15,000 for completing and equipping the Central Fire Alarm Station in Jefferson Square; \$20,000 for the construction of shops for the Department of Electricity; \$60,000 accident insurance; \$65,000 Spring Valley litigation.

An increase of \$25,000 is made to the item for construction and repair of school buildings, and \$10,000 is added for the cleaning of streets.

### BUDGET ANALYSIS.

**MAYOR'S OFFICE:** Telephone operator increased from \$900 to \$960; otherwise no change.

**AUDITOR'S OFFICE:** Telephone operator increased from \$900 to \$950; otherwise no change.

**ASSESSOR:** No change.

**CORONER'S OFFICE:** Two salaries increased—Morgue Tender and Driver—Total increase \$300. Expenses decreased \$200. \$3000 recommended for purchase of auto ambulance.

**RECORDER:** Decrease of \$4000 for copyists is recommended. The Recorder recommended a reduction of \$2000 on account of diminution of work, and after investigation, and without criticism of the Recorder, the Committee recommends the additional deduction.

**TAX COLLECTOR:** No change.

**TREASURER:** Increase of \$3000, salary for Bank and Bond Deputy, new position, which the Treasurer needs, and which the Committee recommends. The Mayor also recommends this position.

**SUPERIOR COURTS:** \$720 recommended for salary of Messenger. The Superior Judges urged the appointment of this Messenger for the reason that there are now 16 courts and Secretary cannot possibly attend to his duties properly and perform messenger service. Court orders are reduced from \$12,000 to \$4,000 on the recommendation and advice of the Presiding Judge.

**CITY ATTORNEY:** \$1000 additional for expenses; no other change.

**DISTRICT ATTORNEY:** \$3900 additional for Assistant at \$2400 and Assistant at \$1500; and \$1000 additional for expenses.

**JUSTICE'S COURT:** No change.

**LAW LIBRARY:** No change.

**JUVENILE DETENTION HOME:** \$360 for increase to several salaries and \$600 increase to maintenance.

**JUVENILE COURT:** \$480 increase in salaries; \$100 increase in expenses.

**SHERIFF'S OFFICE:** \$2775 for gas ranges and platform scales. No other change.

**POLICE:** \$19,308 for 15 additional patrolmen. The Committee renews its recommendation that the launch be dispensed with. No other changes.

**POLICE COURTS:** No change.

**CIVIL SERVICE COMMISSION:** No change.

**PLAYGROUND COMMISSION:** No change.

BOARD OF CENSORS: No change.

MUNICIPAL BAND: No change.

SEALER OF WEIGHTS AND MEASURES: \$5760 increase in the Budget, but no increase over present cost. The Budget last year did not contain the amounts subsequently adopted by Ordinance.

BOARD OF WORKS: \$11,980 increase for additional employees. \$2730 increase in purchase of automobiles.

HEALTH DEPARTMENT: \$2400 for City Physician (new); \$100 increase in vacation allowance; \$500 increase in expenses; \$5340 increase in salaries of Inspectors, including salaries of 2 new Tenement House Inspectors; \$1080 laboratory increase in salaries.

SAN FRANCISCO HOSPITAL: \$420 increase in salaries; \$27,000 increase in maintenance.

TUBERCULAR HOSPITAL: \$1856 increase in salaries and appointment of new nurses to comply with 8 hour law; \$5000 increase in maintenance.

ISOLATION HOSPITAL: \$2200 increase in salaries, appointment of new nurses under 8 hour law; \$260 reduction in maintenance.

EMERGENCY HOSPITAL: \$1350 increase in maintenance.

RELIEF HOME: \$1240 increase in salaries; \$7000 increase in maintenance.

HEALTH DEPARTMENT EQUIPMENT: \$13,890 for equipment.

FIRE DEPARTMENT: \$45,628 increase in salaries, as required by law, and new companies; \$10,000 increase in maintenance.

AUXILIARY FIRE PROTECTION SYSTEM: \$2700 increase in salaries—new positions.

DEPARTMENT OF ELECTRICITY: \$1740 increase in number of inspectors; \$5000 increase in extensions and equipment.

DEPARTMENT OF ELECTIONS: \$54,000 decrease in general elections estimate; \$600 increase in salaries to 2 Deputies.

SPRING VALLEY CONDEMNATION SUIT: \$15,000 increase.

FIREMEN'S RELIEF AND PENSION FUND: \$15,000 increase.

COMMON SCHOOL FUND: \$125,860 increase.

LIBRARY FUND: \$2000 increase.

PARK FUND: \$9,100 increase.

BOND INTEREST AND REDEMPTION: \$187,235 increase.

#### School Department Increase.

To provide for the requirements of the public schools, your Committee has recommended an extraordinary increase of \$125,860. During the year new schools have been established and many new classes are now in operation. The increase recommended this year may well be measured by the additional allowance of the 1913 Budget over 1912, which was \$20,000. It appears to the Committee that an increase in one year of \$125,860 ought amply to provide for any possible growth in the schools.

POLYTECHNIC HIGH SCHOOL: The Committee has omitted recommendation of an appropriation for the completion of the Polytechnic High School for the reason that there is abundant ground for the belief that this school can be completed out of possible surpluses at the end of the current fiscal year. Should the Board approve the judgment of the Finance Committee and permit the use of such surpluses as may be available there is no doubt but that the Polytechnic High School can be completed promptly, without any increase to the tax rate, and without delaying this important work until another bond issue can be authorized.

While it is not possible at this time to accurately estimate the amount of surplus balances, the Committee is reasonably sure that sufficient funds will be available on or before July first so that contracts for completion of this school may be awarded.

#### **Avoid Future Bond Issues.**

Generally the School Department has been pretty thoroughly re-established, and the interruptions caused by the 1906 disaster are now practically only memories. If the School Board gets through the forthcoming year in good shape, as it ought to, it seems entirely possible that the future construction of schools may be taken care of out of each year's tax levy, and thus avoid subsequent and burdensome bond issues. The Board of Education earnestly urges the immediate completion of the Polytechnic High School even though the erection of other schools may be necessarily delayed for a time. Were it not for the necessity of completing this technical institution it would be good financing to provide \$150,000—which sum will complete the Polytechnic—for the construction of more schools.

Recognizing the needs of the School Department, and in an effort to provide for immediate school construction, the Committee recommends an addition of \$25,000 to the annual appropriation for construction and repairs; in addition to this sum there is recommended \$75,000 for the immediate construction of new schools or additions where required. These amounts may well be used for either the construction of permanent buildings or temporary buildings that would serve the purpose, for the time, in the most congested districts, where school room facilities are inadequate.

The Committee also has in view the repair and improvement of existing schools, and particularly desires to aid the School Department in making betterments.

#### **Fifteen Additional Policemen.**

Much pressure was exercised this year, as in every other year, for a large increase in the number of policemen. After carefully analyzing arguments, and recommendations of the Police Board, the Committee recommends 15 additional policemen. Considering the Charter provisions that there shall be one policeman for every 500 inhabitants, and as corporals and sergeants may be considered policemen, the limit is already exceeded.

The need of street signs is apparent. Last year the Board appropriated \$2500 to the Board of Public Works for additional signs, and during the forthcoming year the Committee will, of course, approve recommendations for additional expenditures for this purpose. Funds are available in the general appropriation, and it is not necessary to set aside a special amount.

Another appropriation of \$50,000 towards furnishing the new City Hall is included in the Budget. The Committee believes, as did the Board, that this is a proper way to provide for this expense, and not have the full amount fall upon the Budget of a single year.

#### **Tubercular Hospital.**

One of the serious problems confronting the city is the care of victims of tuberculosis. Each year the Tubercular Hospital becomes overcrowded, no matter what provision is made for increase. In the present estimate allowance is made for the maintenance and care of 200 patients—a considerable increase over the current number of patients. It is presumed that the bonds voted for the Tubercular Hospital will be sold and a new building constructed as quickly as circumstances will permit.

#### **Street Work Provided for.**

The general appropriations contain in the judgment of the

Committee, sufficient funds for the reconstruction of Howard street from Sixteenth street southerly, the completion of walls, copings and sidewalks around Holly Park, sidewalks at Jackson Square, grading city's portion of Vermont street, street work around Lowell High School, sidewalks at Seventh and Harrison streets playground and the completion of the island parks in Dolores street from Eighteenth to Twentieth and from Thirtieth to San Jose avenue. Last year the Committee recommended that improvements of this character be not specially itemized in the Budget, but that the work be done. And it was done; on Dolores street and in other places as promised.

Upon the recommendation of the other Committees of the Board the Finance Committee will always endeavor to find appropriations for work of this character.

During the year \$5000 a month was set aside for City's portion of street work and sidewalks in front of city property. An immense improvement was made in various parts of the city by this regular appropriation. Another year's continuance of this monthly appropriation idea and all the urgent work in front of City property will be done.

#### **Tourist Association Request.**

The Committee has omitted recommendation of an appropriation for advertising to be expended under the auspices of the San Francisco Tourists' Association. The reason for this omission is that the Committee can find no legal justification for this appropriation, and further that the City Attorney has orally advised the Committee that the proposed appropriation and appropriations of similar character would not be legal.

So far as the Committee is advised, there is only one way in which this appropriation can be lawfully made, and that is by the Board of Supervisors levying a special tax for advertising purposes—which special tax we understand is permissible under recent statute. Notwithstanding this permissive legislation the Committee is of the belief that an appropriation of this character in the Budget would establish a far reaching and too elastic a precedent.

Inasmuch as this City and County has never made appropriations of this kind it is not deemed advisable at this time to begin the diffuse use of public funds by disbursing money to promote special purposes not of a purely municipal character.

#### **Auditor's Estimates too Low.**

Comparisons are likely to be made between the Budget estimates and the tax rate estimate prepared by the Auditor and the estimates and rate recommended by your Committee. The Auditor evidently based his conclusions upon the expenditures of the past year and did not take into consideration several very important factors which of themselves would create a larger tax rate than that estimated by him. In the first place the Auditor's proposed allowances for street work is considerably less than that of your Committee, and he does not take into consideration other important and urgent improvements. He does not include anything in his Budget for accident insurance, which is required by State law, and his estimates for the Health Department and School Department are lower than estimates of the Committee. Besides these items the Auditor has increased the estimate of receipts from other sources—which receipts are constantly and annually diminishing as compared with preceding years. Finally, the Auditor in his estimate absorbs all the probable and possible surpluses and does not provide for outstanding judgments and has not considered the completion of the Polytechnic High School out of these possible surpluses. The Auditor's Budget is \$605,135 less than

the Committee's estimate, and he estimates the rate on an assessment of \$540,000,000, whereas the Assessor's estimate at this time is \$536,000,000.

### Segregation of Funds.

Amending Building Law Relating to Planting Mills.

On motion of Supervisor Bancroft: Bill No. 3010, Ordinance No. — (New Series), as follows:

Amending Section 194 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law," relating to the application for and issuance of permit for erection and maintenance of power woodworking mill, etc.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Section 194 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law," is hereby amended to read as follows:

Section 194. No person, firm or corporation shall construct or cause to be constructed, maintain or cause to be maintained, occupy or cause to be occupied, any structure or building hereafter used, or intended to be used as a planing mill, saw mill, sash or door factory, furniture or cabinet factory, or for any other woodworking purpose, if planers, stickers or jointers are used, and run by power, without first obtaining a permit so to do from the Board of Supervisors.

Whenever application is made to the Board of Supervisors for any such permit, the Clerk of said Board shall furnish to the applicant a notice to be posted conspicuously in front of the premises sought to be so occupied, setting forth that such permit has been applied for, the nature of the same and the time and place where the application for the granting of the same will be heard. Such notice must be posted immediately after the filing of the application and be kept posted until said application is finally granted or denied.

An opportunity to be heard shall be given to all interested persons and on the granting or refusing of said permit, the Board shall exercise a sound and reasonable discretion.

No building shall be constructed to be used as a planing mill, saw mill, sash and door factory, furniture or cabinet factory or other woodworking purposes, if planers, stickers or jointers are used and run by power, unless the same be of heavy timber, "mill construction" frame and floors.

The exterior walls and roof shall be corrugated iron fastened to the timber frame and without boarding, if outside the fire limits, unless class A, B or C construction. Said building shall not exceed two (2) stories, or thirty feet, in height, shall have floors not less than two (2) inches thick extending to the outer covering of the building; shall have all elevators, hoists, stairs, chutes and other vertical floor openings tightly closed with wood partitions and doors or trapped; and the outer wall, floor and roof systems shall be constructed without concealed spaces.

No building already erected and not now so used shall hereafter be used as a planing mill, sawmill, sash and door factory, furniture or cabinet factory, or for any other woodworking purpose, if planers, stickers or jointers are used, and run by power, un-

less it is made to conform to the above specification.

In buildings of Class "C" used as planing mills, wagon or carriage factories, furniture factories or any other woodworking factories, all joists and studding bearing weight shall be covered with metal lath and plaster and the floor shall be double, with the top floor laid over three-quarters ( $\frac{3}{4}$ ) of an inch of mortar, or two thicknesses of asbestos paper, unless such building is constructed on the slow burning or mill construction plan, in which case the floor shall extend from one beam to another and shall not be less than three (3) inches thick.

All planks shall be laid to the ends of the timbers.

Section 2. This ordinance shall take effect immediately.

Adopted.

The following resolution was adopted:

The following matters were passed for printing:

Laundry, Oil and Boiler Permits.

On motion of Supervisor McLeran: Resolution No. — (New Series), as follows:

Resolved, That the following revocable permits are hereby granted:

*Laundry.*

Paul Tournahu, at 2935 Clay street.

Louis Goudy, at 3319 Geary street.

E. Froment, at 939 Clement street.

Frank Bracq, at 5019 California street.

Mme. Marie Monguilholou & Co., at 1714 Broderick street.

Escala & Doumeq, at 584 Haight street.

*Oil Storage Tank.*

Niagara French Laundry, at 2222 Bush street, 1500 gallons capacity.

S. T. Johnson Co., at 1337 Mission street, 1500 gallons capacity.

W. P. Campbell, at 1650 California street, 1500 gallons capacity.

M. and J. Hyman, at southeast corner of Eddy and Taylor streets, 2000 gallons capacity.

City and County of San Francisco (Oriental School), on south side of Washington street, between Stockton and Powell streets, 1500 gallons capacity.

James Conlin, on south side of Natoma street, 45 feet west of Mary street, 1500 gallons capacity.

*Boiler.*

Hobart Estate Co., 2 boilers of 92 horsepower each, on north side of Market street, 62 feet 6 inches east of Montgomery street, to be used in furnishing power for heating and electric generating sets.

*Dry Cleaning Permit.*

Supervisor McLeran presented: Resolution No. — (New Series), as follows:

Resolved, That the following revocable permit is hereby granted:

*Dry Cleaning Establishment.*

Occidental Glove Renovatory, at 11 Clement street, under conditions imposed by Fire Marshal.

*Privilege of the Floor.*

L. H. Pedlar, property owner, was granted the privilege of the floor and addressed the Board in opposition to the granting of the permit. He declared that the notice was first published last Monday and neighbors did not have a chance to present proper protest. He declared that a dyeing and cleaning place in the neighborhood would be a menace to school buildings from a fire standpoint.

H. Dunker, business man, also protested on the ground that insurance rates would be increased.

Rose McGovern, also protested on the grounds that insurance rates would be raised and fire hazard increased.

Judge J. Troutt also addressed the Board. He favored the application and said that the objectionable features of the business were greatly exaggerated. He declared that he knew the applicants for years and recommended them as competent to conduct the business without danger or nuisance to the neighborhood.

*Motion.*

Supervisor Power moved the *recommittal of the resolution to the Fire Committee.*

Motion lost.

*Passed for Printing.*

Whereupon the question being

taken the foregoing resolution was *passed for printing* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McLeran, Murdock, Nelson, Payot, Vogelsang—13.

Noes—Supervisors McCarthy, Nolan, Power, Suhr, Walsh—5.

The following resolution, being the majority report of the Fire Committee, was presented:

**Denying Permits for Laundries and Automobile Supply Station.**

On motion of Supervisor McLeran: J. R. No. 1240.

Resolved, That in the exercise of the sound and reasonable discretion of the Board of Supervisors, the following applications for permits are hereby denied:

National Supply Co., for automobile supply station at the northwest corner of Fell and Ashbury streets.

Ideal French Laundry, for laundry and boiler at 948 York street.

Sam Sing, for laundry at 1621 O'Farrell street.

M. Miyamoto, for laundry at 3927 Sacramento street.

Sing Lee, for laundry at 2151 Golden Gate avenue.

Quong Hi, for laundry at 2924 Sacramento street.

Supervisor McLeran offered the following:

*Substitute Resolution.*

Resolution No. — (New Series), as follows:

Resolved, That the following revocable permits are granted on the express condition that the old buildings now occupied for laundry purposes are torn down and new buildings complying with all fire sanitary and building laws are constructed:

Quong Hi, at 2924 Sacramento street.

Sing Lee, at 2151 Golden Gate avenue.

*Privilege of the Floor.*

Mr. Cook, representing Sing Lee and Quong Hi, was granted the privilege of the floor and addressed the Board. He said that Quong Hi, his client, had carried on his business at the present location for the past seventeen years. The Fire Marshal has said that there is no danger from fire in the new building and that the owner of the property will comply with any requirements, but does not want to construct building unless permit is assured.

Mrs. Mendell stated that the laundry had depreciated her property and had tripled the insurance rates. The buildings are old, dirty and dilapidated and the Chinese employed are in the habit of appearing in a semimude condition about the premises.

*H. Baum*, representing Mrs. Aisch, who has property adjoining the laundry, also addressed the Board and said that his mother-in-law, Mrs. Aisch would build flats on her property, but had been advised not to do so if the laundry is permitted. The district is a residential district and all property owners will improve if nothing is done to depreciate the property.

*L. Wydon and Catherine Cristy* also addressed the Board in opposition to the granting of the permit.

**Substitute Resolution Refused Passage.**

Whereupon the question being taken on the substitute resolution the same was *refused passage* by the following vote:

Ayes—Supervisors Bancroft, McLeran, Vogelsang—3.

Noes—Supervisors Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, Murdock, Nelson, Nolan, Payot, Power, Suhr, Walsh—15.

**Adopted.**

Whereupon the original resolution was adopted as Journal Resolution No. 1240 by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

The following resolution heretofore introduced by Supervisor McLeran and on motion *laid over one week* was taken up:

**Planing Mill Permit.**

Supervisor McLeran presented:  
Resolution No. — (New Series), as follows:

Resolved, That permission, revocable at the will of the Board of Supervisors, is hereby granted to A. Filipini to maintain and operate a planing mill, wherein planers, stickers and jointers may be used, on the south side of Geary street, 179 feet 2 inches east of First avenue.

**Privilege of the Floor.**

*T. Kehoe*, property owner, was granted the privilege of the floor and addressed the Board. He opposed the permit on the ground that the district was a residential district and contracts amounting to \$100,000 have been let for homes in the vicinity of the proposed planing mill. He and his sisters have invested \$40,000 in homes in the district and he did not want their value depreciated. He said his property had been increased 100 per cent in the last few years and the insurance rates will be further increased if planing mill permit is granted. He also opposed the permit on the ground that a school attended by 400 or 500 children was in the vicinity and would be endangered by reason of increased fire hazard.

*Mr. Cook*, representing Jordan Park Improvement Association, also opposed the permit for similar reasons.

*Mr. Barker*, representing the applicant, stated that the protesting property owners were laboring under a misapprehension as to the character of the enterprise for which application was made. He said that it was not proposed to conduct a planing mill and lumber yard, the applicant merely wanted to run a small jobbing plant and to store mouldings on the premises.

*Col. Robinson*, president of the Richmond District Improvement Club, and *A. C. Hammond* also addressed the Board in opposition to the permit.

*E. Figel*, secretary of the Jordan Park Improvement Club, opposed the permit and stated that insurance rates will be raised 8½ per cent if permit is granted.

**Action Deferred.**

*Supervisor Nelson* moved that resolution *lay over one week*.

Motion *carried* by the following vote:

Ayes—Supervisors Bancroft, Deasy, Gallagher, Jennings, Kortick, McLeran, Murdock, Nelson, Power, Suhr, Vogelsang, Walsh—12.

Noes—Hayden, Hilmer, Hocks, McCarthy, Nolan, Payot—6.

**Spur Track Permit.**

On motion of Supervisor McCarthy: Bill No. 3016, Ordinance No. — (New Series), as follows:

Granting permission revocable at will of the Board of Supervisors to Hastings and Wallace Trust Estates to construct, maintain and operate a spur track from the tracks of the Belt Line Railroad in Sea Wall Lot No. 20, thence running in a northerly direction over and across Bryant street between Main and Beale streets and entering private property on the north line of Bryant street between Main and Beale streets.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Permission revocable at will of the Board of Supervisors is hereby granted the Hastings and Wallace Trust Estates to construct, maintain and operate a spur track from the tracks of the Belt Line Railroad in Sea Wall No. 20, thence running in a northerly direction over and across Bryant street, between Main and Beale streets, and entering private property on the north line of Bryant street, between Main and Beale streets.

Said permission is granted subject to the provisions of Ordinance No. 69 (New Series), of the Board of Supervisors, approved October 12, 1906, and particular reference is hereby made to Section 8 of this Ordinance, reading as follows:

"The railway operating any spur track on any public street or property hereafter constructed in the City and County shall, upon demand of the person, firm or corporation for the use or benefit of which such spur track is operated, place upon such spur track the freight cars of any railway which has, in this City and County, track connections with the operating railway, such cars so placed to be used for the receipt and delivery of freight in carloads only. And the operating railway shall receive and deliver the cars of the connecting railway over, at and upon such connecting track in the performance of such switching service for such persons, firms or corporations; and such railway shall perform such service without undue delay or discrimination. The operating railway shall perform such service for the same charge or rate that it charges for corresponding service for its own cars upon the track for like purpose. The provisions of this section shall apply only to such portions of such spur tracks as are not constructed, maintained or operated upon or across private land, and no permit for a spur track shall hereafter be granted by the Board of Supervisors which does not specifically contain the provisions and conditions of this section."

Provided, That said spur track shall be laid under the supervision and to the lines and grades as furnished by the City Engineer's office; and that two catchbasins for the purpose of carrying off storm waters shall be constructed by the Hastings and Wallace Trust Estates.

Provided, That said spur track shall be constructed prior to the repaving of Bryant street, between Main and Beale streets, by the Street Repair Department.

Provided, That no car or train shall at any time be allowed to stand on said track so as to block or obstruct a street or street crossing to exceed five minutes.

Provided, That the Hastings and Wallace Estates shall erect and maintain an arc lamp on Bryant street, between Main and Beale streets.

Section 2. This Ordinance shall take effect immediately.

Relative to Half Fare for Persons Under Eighteen Years of Age.

The following matters were presented and read by the Clerk:

Majority Report of Public Utilities Committee.

San Francisco, May 4, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco—

Gentlemen: A majority of the Committee on Public Utilities after full consideration of the Bill providing for reduced fares for persons under the age of 18 years upon the street railways of the City and County, hereby recommend that the same be indefinitely postponed.

In the opinion of your Committee no action looking to the reduction of railway income should be taken at least until after the completion and full operation of all roads now building and proposed.

All extensions to existing lines and lines now in course of construction will probably be built out of the earnings of trunk roads as the least burdensome method of raising necessary finances.

Your Committee feels, so far as privately owned systems are concerned, that insistence for some time in the future of the policy now followed of five-cent service for five-cent fare shall continue.

Having assumed the responsibility of municipal construction and ownerships, it is incumbent upon the City to construct unprofitable extensions as well as profitable main lines, and this must certainly be done without addition to the general tax rate.

When this shall have been done and the system operated for a time sufficient to demonstrate its financial success, it may be possible and feasible to reduce present charges of transportation without injury. And at that time a careful study of the transportation question can be made and with the cost and operating data at hand an intelligent and fair judgment may be reached.

Respectfully submitted,

ALEXANDER T. VOGELSANG,  
PAUL BANCROFT,  
J. EMMET HAYDEN.

FRED W. HILMER.

Minority Report of the Public Utilities Committee.

San Francisco, May 4, 1914.

To the Honorable Board of Supervisors, City and County of San Francisco—

Gentlemen: The undersigned, constituting a minority of the Committee on Public Utilities, hereby dissents

from the views expressed by the majority in the matter of the Bill proposing a half-fare for persons under 18 years of age upon the street railways within the City and County.

I believe that the subject should be viewed in a broader way than its effect upon the revenues of the municipal railways.

I believe that the amount of income

of the entire street railway systems in the City is sufficiently large to justify a reduction of passenger fares and that nothing will be gained by a postponement of the subject to a later date. I therefore recommend the passage of the Bill and Ordinance.

Respectfully submitted,

ANDREW J. GALLAGHER.

Also, Bill No. —, Ordinance No. — (New Series), entitled, "Regulating rates of fares to be charged for the transportation of passengers over street railroads within the City and County of San Francisco."

Motion.

Supervisor Gallagher moved to substitute minority for majority report of Public Utilities Committee.

Motion lost by the following vote:

Ayes—Supervisors Deasy, Gallagher, Nelson, Power, Walsh—5.

Noes—Supervisors Bancroft, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nolan, Payot, Suhr, Vogelsang—13.

Bill Indefinitely Postponed.

Whereupon, the question being taken on recommendation of the majority report that the foregoing Bill be *indefinitely postponed*, the same was adopted by the following vote:

Ayes—Supervisors Bancroft, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nolan, Payot, Suhr, Vogelsang—13.

Noes—Supervisors Deasy, Gallagher, Nelson, Power, Walsh—5.

Relative to Dog Muzzling Ordinance.

Supervisor Payot, in accordance with recommendation of Health Committee that the Board consider proposed "dog muzzling ordinance" as a whole, moved that said matter be made a *Special Order of Business* for 3:30 p. m., Monday, May 11, 1914.

So ordered.

PRESENTATION OF PROPOSALS.

Annual Supplies.

Proposals to the number of 267 for furnishing goods, merchandise, stores, supplies, drugs, subsistence and other necessary articles to the various institutions of the City and County during the ensuing fiscal year were received, opened and referred to the *Supplies Committee*.

In re Ridgway's Bid for Horseshoe Pads.

Supervisor Hayden moved that Mr. Ridgway, who presented his bid for horseshoe pads after 3 p. m., being detained in obtaining his deposit, be permitted to file same.

There being no objection, it was so ordered.

#### UNFINISHED BUSINESS.

##### Final Passage.

The following matters heretofore passed for printing, were taken up, finally passed by the following vote:

Providing \$1000 Additional Compensation to Edward Bernard and Wife for Their Leasehold Interest in Hotel Carling in Civic Center Site.

#### Amending Building Law Relating to Planing Mills.

Bill No. 3010, Ordinance No. 2741 (New Series), as follows:

Amending Section 194 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law," relating to the application for and issuance of permit for erection and maintenance of power woodworking mill, etc.

Be it ordained by the People of the City and County of San Francisco, as follows:

Section 1. Section 194 of Ordinance No. 1008 (New Series), approved December 22, 1909, known as "The Building Law," is hereby amended to read as follows:

Section 194. No person, firm or corporation shall construct or cause to be constructed, maintain or cause to be maintained, occupy or cause to be occupied, any structure or building hereafter used, or intended to be used as a planing mill, saw mill, sash or door factory, furniture or cabinet factory, or for any other woodworking purpose, if planers, stickers or jointers are used, and run by power, without first obtaining a permit so to do from the Board of Supervisors.

Whenever application is made to the Board of Supervisors for any such

permit, the Clerk of said Board shall furnish to the applicant a notice to be posted conspicuously in front of the premises sought to be so occupied, setting forth that such permit has been applied for, the nature of the same and the time and place where the application for the granting of the same will be heard. Such notice must be posted immediately after the filing of the application and be kept posted until said application is finally granted or denied.

An opportunity to be heard shall be given to all interested persons and on the granting or refusing of said permit, the Board shall exercise a sound and reasonable discretion.

No building shall be constructed to be used as a planing mill, saw mill, sash and door factory, furniture or cabinet factory or other woodworking purposes, if planers, stickers or jointers are used and run by power, unless the same be of heavy timber, "mill construction" frame and floors.

The exterior walls and roof shall be corrugated iron fastened to the timber frame and without boarding, if outside the fire limits, unless class A, B or C construction. Said building shall not exceed two (2) stories, or thirty feet, in height, shall have floors not less than two (2) inches thick extending to the outer covering of the building; shall have all elevators, hoists, stairs, chutes and other vertical floor openings tightly closed with wood partitions and doors or trapped; and the outer wall, floor and roof systems shall be constructed without concealed spaces.

No building already erected and not now so used shall hereafter be used as a planing mill, sawmill, sash and door factory, furniture or cabinet factory, or for any other woodworking purpose, if planers, stickers or jointers are used, and run by power, unless it is made to conform to the above specification.

In buildings of Class "C" used as planing mills, wagon or carriage factories, furniture factories or any other woodworking factories, all joists and studding bearing weight shall be covered with metal lath and plaster and the floor shall be double, with the top floor laid over three-quarters ( $\frac{3}{4}$ ) of an inch of mortar, or two thicknesses of asbestos paper, unless such building is constructed on the slow burning or "mill" construction plan, in which case the floor shall extend from one beam to another and shall not be less than three (3) inches thick.

All planks shall be laid to the ends of the timbers.

Section 2. This ordinance shall take effect immediately.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLernan, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Spur Track Permit.

Bill No. 3016, Ordinance No. 2747 (New Series), as follows:

Granting permission revocable at will of the Board of Supervisors to Hastings and Wallace Trust Estates

to construct, maintain and operate a spur track from the tracks of the Belt Line Railroad in Sea Wall Lot No. 20, thence running in a northerly direction over and across Bryant street between Main and Beale streets and entering private property on the north line of Bryant street between Main and Beale streets.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Permission revocable at will of the Board of Supervisors is hereby granted the Hastings and Wallace Trust Estates to construct, maintain and operate a spur track from the tracks of the Belt Line Railroad in Sea Wall No. 20, thence running in a northerly direction over and across Bryant street, between Main and Beale streets, and entering private property on the north line of Bryant street, between Main and Beale streets.

Said permission is granted subject to the provisions of Ordinance No. 69 (New Series), of the Board of Supervisors, approved October 12, 1906, and particular reference is hereby made to Section 8 of this Ordinance, reading as follows:

"The railway operating any spur track on any public street or property hereafter constructed in the City and County shall, upon demand of the person, firm or corporation for the use or benefit of which such spur track is operated, place upon such spur track the freight cars of any railway which has, in this City and County, track connections with the operating railway, such cars so placed to be used for the receipt and delivery of freight in carloads only. And the operating railway shall receive and deliver the cars of the connecting railway over, at and upon such connecting track in the performance of such switching service for such persons, firms or corporations; and such railway shall perform such service without undue delay or discrimination. The operating railway shall perform such service for the same charge or rate that it charges for corresponding service for its own cars upon the track for like purpose. The provisions of this section shall apply only to such portions of such spur tracks as are not constructed, maintained or operated upon or across private land, and no permit for a spur track shall hereafter be granted by the Board of Supervisors which does not specifically contain the provisions and conditions of this section."

Provided, That said spur track shall be laid under the supervision and to the lines and grades as furnished by the City Engineer's office; and that two catchbasins for the purpose of carrying off storm waters shall be con-

structed by the Hastings and Wallace Trust Estates.

Provided, That said spur track shall be constructed prior to the repaving of Bryant street, between Main and Beale streets, by the Street Repair Department.

Provided, That no car or train shall at any time be allowed to stand on said track so as to block or obstruct a street or street crossing to exceed five minutes.

Provided, That the Hastings and Wallace Estates shall erect and maintain an arc lamp on Bryant street, between Main and Beale streets.

Section 2. This Ordinance shall take effect immediately.

J. H. Hjul, on south side Sutter street, 206 feet west of Jones street, 1500 gallons' capacity.

#### Planing Mill Permit.

The following matter laid over from last meeting was taken up:

Resolution No. — (New Series), as follows:

Resolved, That permission, revocable at the will of the Board of Supervisors, is hereby granted to A. Filippini to maintain and operate a planing mill, wherein planers, stickers and jointers may be used, on the south side of Geary street, 179 feet 2 inches east of First avenue.

#### Privilege of the Floor.

J. M. Kepner, representing the Jordan Park Improvement Club, was granted the privilege of the floor and addressed the Board. He opposed the granting of the permit on the ground that the district was a residential district and that property values should not be depreciated by permitting a planing mill in the neighborhood.

M. Knickerbocker, property owner, also protested on the same grounds.

Mme. Sorbier, representing the Arguello Boulevard Improvement Club, Mrs. Boyd, president of the Mothers' Club of the Fremont School, and others also addressed the Board, protesting against the granting of the permit.

Mr. Filippini appeared and requested that Board take some definite action as he desired to have the matter settled.

#### Refused Passage.

Whereupon, the question being taken, the foregoing resolution was refused passage by the following vote:

Ayes—None.

Noes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLeran, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

#### Adopted.

The following Resolution was adopted:

#### Denying Laundry Permit.

On motion of Supervisor McLeran: J. R. No. 1246

Resolved, That in the exercise of the sound and reasonable discretion of the Board of Supervisors, permission is hereby denied George Poye to maintain a laundry on the east side of Ritch street, 175 feet south of Folsom street.

Ayes—Supervisors Bancroft, Deasy, Gallagher, Hayden, Hilmer, Hocks, Jennings, Kortick, McCarthy, McLer-

an, Murdock, Nelson, Nolan, Payot, Power, Suhr, Vogelsang, Walsh—18.

Southern Pacific Permitted to Remove Stock Corral from Sixth and Berry Streets to Sixteenth and Illinois Streets.

On motion of Supervisor Walsh:

Resolution No. — (New Series), as follows:

Resolved, That permission, revocable at the will of the Board of Supervisors, is hereby granted the Southern Pacific Company to remove the stock corral now located at Sixth and Berry streets, and relocate same at the corner of Sixteenth and Illinois streets; said corral to be 52 feet by 135 feet in size and to consist of three pens each 40 feet by 40 feet in size; a runway 12 feet by 135 feet and an unloading chute 6 feet by 50 feet in size. The floors of said corral are to be constructed of concrete and all necessary sewer connections provided. All of said work is to be done under the supervision and to the satisfaction of the Board of Public Works and the Board of Health.

#### Stable Permits.

Supervisor Walsh presented:

Resolution No. — (New Series), as follows:

Resolved, That the following revocable permits are hereby granted:

S. Varni, for 4 horses, at 1388 Alabama street.

#### Privilege of the Floor.

*Catherine Stack*, property owner, was granted the privilege of the floor and addressed the Board. She opposed the granting of a permit for a stable to P. F. Lynott for seven horses at 2559 Post street. She said that place was established seven or eight years ago and it was understood that it would be removed in a short time. The place became such a nuisance that she paid out of her own pocket for removal of manure bin to opposite side of stable, but it has been replaced and is a great annoyance.

#### Motion.

*Supervisor Murdock* moved recomittal of application of P. F. Lynott to Health Committee.

*So ordered.*

**Amending Street Pavement Ordinance.**

On motion of Supervisor McCarthy; Bill No. 3028, Ordinance No. — (New Series), Amending Section 4 of Ordinance No. 240, entitled, "Prescribing general rules and standard specifications for street and sidewalk work and limiting the use of various kinds of pavements and sidewalks in the City and County of San Francisco," approved March 1, 1901.

Be it ordained by the People of the City and County of San Francisco as follows:

Section 1. Section 4 of Ordinance No. 240, the title of which is recited in the title of this ordinance, is hereby amended so as to read as follows:

Section 4. No asphalt or bituminous rock pavement shall hereafter be laid on any street whose gradient exceeds eight (8) per cent., except on Fourteenth street between Guerrero and Dolores streets.

No bituminous rock or asphalt pavement shall hereafter be laid without a binder course within the following described district:

Commencing at the point where the west line of Van Ness avenue terminates at the northern water front of the City; thence southerly along the west line of Van Ness avenue to the southerly line of Bay street; easterly along the southerly line of Bay street to the southwestery line of Montgomery avenue; southeasterly along the southwestery line of Montgomery avenue to the westerly line of Stockton street; southerly along the westerly line of Stockton street to the northerly line of Post street; westerly along the northerly line of Post street to the westerly line of Mason street; southerly along the westerly line of Mason street to the northerly line of Ellis street; westerly along the northerly line of Ellis street to the easterly line of Polk street; northerly along the easterly line of Polk street to the southerly line of Washington street; thence across Polk street on the southerly line of Washington street to the westerly line of Polk street; southerly along the westerly line of Polk street to the northwesterly line of Market street to the westerly line of Valencia street produced; southerly along this line and the westerly line of Valencia street to the southerly line of Fourteenth street; easterly along the southerly line of Fourteenth street to the

westerly line of Harrison street; southerly along the westerly line of Harrison street to the southerly line of Alameda street; easterly along the southerly line of Alameda street to the southeasterly line of Division street; northeasterly and easterly along the southerly line of Division street to the southeasterly line of Berry street; northeasterly along the southeasterly line of Berry street to the eastern water front of the City, and thence northerly and westerly along this water front to the place of commencement; provided, however, that within this district special permits may be granted by the Board of Public Works for the construction of bituminous rock or asphalt pavement without a binder course on streets other than main streets.

Within the district described in this section no bituminous rock nor asphalt pavement shall be laid on streets whose gradients exceed six (6) per cent.

On streets with gradient not exceeding fifteen (15) per cent, pavements of bituminous rock or asphalt may be laid upon either side of a central strip of basalt block or vitrified brick pavement having a width of at least fourteen (14) feet. Where bituminous rock or other smooth surfaced pavements are already laid on accepted streets whose gradients exceed the limiting gradients herein mentioned, they may be maintained.

Section 2. This ordinance shall take effect immediately.
